1 AN ACT concerning health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

- Section 5. The Food Handling Regulation Enforcement Act is amended by changing Sections 3.3 and 4 and by renumbering and changing Section 3.4 as added by Public Act 98-643 as follows:
- 7 (410 ILCS 625/3.3)

- 8 Sec. 3.3. Farmers' markets.
- 9 (a) The General Assembly finds as follows:
 - (1) Farmers' markets, as defined in subsection (b) of this Section, provide not only a valuable marketplace for farmers and food artisans to sell their products directly to consumers, but also a place for consumers to access fresh fruits, vegetables, and other agricultural products.
 - (2) Farmers' markets serve as a stimulator for local economies and for thousands of new businesses every year, allowing farmers to sell directly to consumers and capture the full retail value of their products. They have become important community institutions and have figured in the revitalization of downtown districts and rural communities.
 - (3) Since 1999, the number of farmers' markets has tripled and new ones are being established every year.

There is a lack of consistent regulation from one county to the next, resulting in confusion and discrepancies between counties regarding how products may be sold.

- (4) In 1999, the Department of Public Health published Technical Information Bulletin/Food #30 in order to outline the food handling and sanitation guidelines required for farmers' markets, producer markets, and other outdoor food sales events.
- (5) While this bulletin was revised in 2010, there continues to be inconsistencies, confusion, and lack of awareness by consumers, farmers, markets, and local health authorities of required guidelines affecting farmers' markets from county to county.
- (b) For the purposes of this Section:
- "Department" means the Department of Public Health.
- "Director" means the Director of Public Health.
 - "Farmers' market" means a common facility or area where the primary purpose is for farmers to gather to sell a variety of fresh fruits and vegetables and other locally produced farm and food products directly to consumers.
 - (c) In order to facilitate the orderly and uniform statewide implementation of the standards established in the Department of Public Health's administrative rules for this Act, the Farmers' Market Task Force shall be formed by the Director to assist the Department in implementing statewide administrative regulations for farmers' markets.

This Act provides for a 6 7 statewide scheme for the orderly and consistent interpretation 8 of the Department of Public Health administrative rules 9 pertaining to the safety of food and food products sold at 10 farmers' markets.
 - (e) The Farmers' Market Task Force shall consist of at least 24 members appointed within 60 days after the effective date of this Section. Task Force members shall consist of:
- 14 (1) one person appointed by the President of the Senate;

- 26 having been asked for its advice, fails to advise the

- Department within 90 days after receiving the rules for review, 1
- 2 the rules shall be considered to have been approved by the Task
- Force. 3
- (k) The Department of Public Health shall provide staffing 5 support to the Task Force and shall help to prepare, print, and

- 7 (1) The Task Force may request assistance from any entity
