4 Section 1. Short title. This Act may be cited as the 21st
5 Century Human Services Reorganization Commission Act.

6 Section 5. Legislative findings.

7 (1) The economic well-being of Illinois families is
8 supported by temporary subsistence programs, income supports
9 to support those seeking training or who are working, quality
10 early childhood services, education to develop workforce
11 skills, economic development, job training, health supports,

15 (2) The State of Illinois depends upon public and private
16 service providers to deliver many critical human services
17 necessary to protect and enhance the welfare of its citizens,
18 including its most vulnerable populations. Many of these
19 traditional services are best delivered as part of the health
20 care or public health systems.

21 (3) The citizens of Illinois and their communities depend
22 upon the array of economic well-being services to address the
23 social determinants of poor health and to protect public

2 public safety, to revitalize local economies, and to enhance
3 learning to better develop the workforce of the future.

4 (4) Human services, child support services, public health
5 services, services to the elderly, and financial supports play
6 a vital role in every community and legislative district across
7 the State, making economic stability a reality for families
8 with or without children, youth, refugee and immigrant workers,
9 the elderly, people with disabilities, and other vulnerable
10 populations.

11 (5) In the 21st Century, integrated services will address
12 needs, support families, and help families build their own
13 economic security as part of the workforce moving to the new
14 middle class.

15 (6) In the 21st Century, Illinois will need to reconfigure
16 State government and focus on the individuals being served by
17 delivering services across program silos to address the food,

19 and to transition them to achieve their potential and to have
20 economic stability.
