LRB9201256DHmg

AN ACT to amend the Illinois Vehicle Code by changing
 Section 18c-7402 and adding Section 18c-7402.1.

3 Be it enacted by the People of the State of Illinois,4 represented in the General Assembly:

5 Section 5. The Illinois Vehicle Code is amended by 6 changing Section 18c-7402 and adding Section 18c-7402.1 as 7 follows:

8 (625 ILCS 5/18c-7402) (from Ch. 95 1/2, par. 18c-7402)

9 Sec. 18c-7402. Safety Requirements for Railroad10 Operations.

11

(1) Obstruction of Crossings.

Emergency Vehicles. Every 12 (a) Obstruction of 13 railroad shall be operated in such a manner as to minimize obstruction of emergency vehicles at crossings. 14 15 Where such obstruction occurs and the train crew is aware 16 of the obstruction, the train crew shall immediately take any action, consistent with safe operating procedure, 17 18 necessary to remove the obstruction. In the Chicago and 19 St. Louis switching districts, every railroad dispatcher 20 or other person responsible for the movement of railroad equipment in a specific area who receives notification 21 22 that railroad equipment is obstructing the movement of an emergency vehicle at any crossing within such area shall 23 immediately notify the train crew through use of existing 24 communication facilities. Upon notification, the train 25 crew shall take immediate action in accordance with this 26 27 paragraph.

(b) Obstruction of Highway at Grade Crossing
Prohibited. It is unlawful for a rail carrier to permit
any train, railroad car or engine to obstruct public
travel at a railroad-highway grade crossing for a period

1 in excess of 10 minutes, except where such train or 2 railroad car is continuously moving or cannot be moved by 3 reason of circumstances over which the rail carrier has 4 no reasonable control.

In a county with a population of greater than 1,000,000, 5 determined by the most recent federal census, during the 6 as 7 hours of 7:00 a.m. through 9:00 a.m. and 4:00 p.m. through 6:00 p.m. it is unlawful for a rail carrier to permit any 8 single train or railroad car to obstruct public travel at 9 а railroad-highway grade crossing in excess of a total of 10 10 11 minutes during a 30 minute period, except where the train or 12 railroad car cannot be moved by reason or circumstances over which the rail carrier has no reasonable control. 13 Under no circumstances will a moving train be stopped for the purposes 14 15 of issuing a citation related to this Section.

However, no employee acting under the rules or orders of the rail carrier or its supervisory personnel may be prosecuted for a violation of this subsection (b).

(c) Punishment for Obstruction of Grade Crossing. 19 Any rail carrier violating paragraph (b) 20 of this 21 subsection shall be guilty of a petty offense and fined not less than \$200 nor more than \$500 if the duration of 22 23 the obstruction is in excess of 10 minutes but no longer than 15 minutes. If the duration of the obstruction 24 exceeds 15 minutes the violation shall be a business 25 offense and the following fines shall be imposed: if the 26 duration of the obstruction is in excess of 15 minutes 27 but no longer than 20 minutes, the fine shall be \$500; if 28 the duration of the obstruction is in excess of 20 29 minutes but no longer than 25 minutes, the fine shall be 30 \$700; if the duration of the obstruction is in excess of 31 25 minutes, but no longer than 30 minutes, the fine shall 32 be \$900; if the duration of the obstruction is in excess 33 of 30 minutes but no longer than 35 minutes, the fine 34

shall be \$1,000; if the duration of the obstruction is in
 excess of 35 minutes, the fine shall be \$1,000 plus an
 additional \$500 for each 5 minutes of obstruction in
 excess of 25 minutes of obstruction.

5

(2) Other Operational Requirements.

(a) Bell and Whistle-Crossings. Every rail carrier 6 7 shall cause a bell, and a whistle or horn to be placed and kept on each locomotive, and shall cause the same to 8 9 be rung or sounded by the engineer or fireman, at the distance of a least 1,320 feet, from the place where the 10 11 railroad crosses or intersects any public highway, and shall be kept ringing or sounding until the highway is 12 reached; provided that at crossings where the Commission 13 shall by order direct, only after a hearing has been held 14 to determine the public is reasonably and sufficiently 15 16 protected, the rail carrier may be excused from giving warning provided by this paragraph. 17

(a-5) The requirements of paragraph (a) of this 18 subsection (2) regarding ringing a bell and sounding a 19 20 whistle or horn do not apply at a railroad crossing that has a permanently installed automated audible warning 21 22 device authorized by the Commission under Section 23 18c-7402.1 that sounds automatically when an approaching train is at least 1,320 feet from the crossing and that 24 25 keeps sounding until the lead locomotive has crossed the highway. The engineer or fireman may ring the bell or 26 sound the whistle or horn at a railroad crossing that has 27 a permanently installed audible warning device. 28

(b) Speed Limits. Each rail carrier shall operate
its trains in compliance with speed limits set by the
Commission. The Commission may set train speed limits
only where such limits are necessitated by extraordinary
circumstances effecting the public safety, and shall
maintain such train speed limits in effect only for such

time as the extraordinary circumstances prevail.

-4-

The Commission and the Department of Transportation shall conduct a study of the relation between train speeds and railroad-highway grade crossing safety. The Commission shall report the findings of the study to the General Assembly no later than January 5, 1997.

7 (c) Special Speed Limit; Pilot Project. The Commission and the Board of the Commuter Rail Division of 8 9 the Regional Transportation Authority shall conduct a pilot project in the Village of Fox River Grove, the site 10 11 of the fatal school bus accident at a railroad crossing on October 25, 1995, in order to improve railroad 12 crossing safety. For this project, the Commission is 13 directed to set the maximum train speed limit for 14 Regional Transportation Authority trains at 50 miles per 15 16 hour at intersections on that portion of the intrastate rail line located in the Village of Fox River Grove. If 17 the Regional Transportation Authority deliberately fails 18 to comply with this maximum speed limit, then any entity, 19 20 governmental or otherwise, that provides capital or 21 operational funds to the Regional Transportation 22 Authority shall appropriately reduce or eliminate that 23 funding. The Commission shall report to the Governor and the General Assembly on the results of this pilot project 24 25 in January 1999, January 2000, and January 2001. The Commission shall also submit a final report on the pilot 26 27 project to the Governor and the General Assembly in January 2001. The provisions of this subsection (c), 28 29 other than this sentence, are inoperative after February 30 1, 2001.

31

(3) Report and Investigation of Rail Accidents.

32 (a) Reports. Every rail carrier shall report to the
33 Commission, by the speediest means possible, whether
34 telephone, telegraph, or otherwise, every accident

1 involving its equipment, track, or other property which 2 resulted in loss of life to any person. In addition, such carriers shall file a written report with the 3 4 Commission. Reports submitted under this paragraph shall strictly confidential, 5 shall be specifically be prohibited from disclosure, and shall not be admissible 6 7 in any administrative or judicial proceeding relating to 8 the accidents reported.

9 (b) Investigations. The Commission may investigate all railroad accidents reported to it or of which it 10 11 acquires knowledge independent of reports made by rail carriers, and shall have the power, consistent with 12 standards and procedures established under the Federal 13 Railroad Safety Act, as amended, to enter such temporary 14 15 orders as will minimize the risk of future accidents 16 pending notice, hearing, and final action by the 17 Commission.

19

(625 ILCS 5/18c-7402.1 new)

20 <u>Sec. 18c-7402.1. Pilot projects; automated audible</u>
21 <u>warning devices.</u>

(a) The General Assembly finds and declares that, for 22 23 the communities of the State that are traversed by railroads, 24 there is a growing need to mitigate train horn noise without compromising the safety of the public. Therefore, after 25 applications are filed and approved by the Commission, the 26 Commission shall authorize pilot projects in the counties of 27 28 Cook, DuPage, Lake, and Will to test the utility and safety of stationary automated audible warning devices as an 29 30 alternative to trains having to sound their horns as they approach highway-rail crossings. 31

32 (b) In light of the pending proposed ruling by the
 33 Federal Railroad Administration on the use of locomotive

1	horns at all highway-rail crossings across the nation, it is
2	in the best interest of the State for the Commission to
3	expedite the pilot projects in order to contribute data to
4	the federal rulemaking process regarding the possible
5	inclusion of stationary automated warning devices in the
б	counties of Cook, DuPage, Lake, and Will as a safety measure
7	option to the proposed federal rule.
8	(c) The Commission shall adopt rules for implementing
9	the pilot projects in the counties of Cook, DuPage, Lake, and
10	<u>Will.</u>

11 Section 99. Effective date. This Act takes effect upon 12 becoming law.
