AN ACT in relation to public utilities.

Be it enacted by the People of the State of Illinois,represented in the General Assembly:

Section 5. The Public Utilities Act is amended by
changing Section 16-125 as follows:

6 (220 ILCS 5/16-125)

7 Sec. 16-125. Transmission and distribution reliability
8 requirements.

9 (a) To assure the reliable delivery of electricity to 10 all customers in this State and the effective implementation 11 of the provisions of this Article, the Commission shall, 12 within 180 days of the effective date of this Article, adopt 13 rules and regulations for assessing and assuring the 14 reliability of the transmission and distribution systems and 15 facilities that are under the Commission's jurisdiction.

16 (b) These rules and regulations shall require <u>an</u> each electric utility or alternative retail electric supplier 17 18 owning, controlling, or operating transmission and distribution facilities and equipment subject to the 19 20 Commission's jurisdiction, referred to in this Section as "jurisdictional entities", to adopt and implement procedures 21 22 for restoring transmission and distribution services to customers after transmission or distribution outages on a 23 nondiscriminatory basis without regard to whether a customer 24 25 has chosen the electric utility, an affiliate of the electric 26 utility, or another entity as its provider of electric power 27 and energy. These rules and regulations shall also, at a minimum, specifically require each jurisdictional entity to 28 29 submit annually to the Commission.

30 (1) the number and duration of planned and31 unplanned outages during the prior year and their impacts

on customers;

1

2 (2) outages that were controllable and outages that 3 were exacerbated in scope or duration by the condition of 4 facilities, equipment or premises or by the actions or 5 inactions of operating personnel or agents;

6 (3) customer service interruptions that were due 7 solely to the actions or inactions of an alternative 8 retail electric supplier or a public utility in supplying 9 power or energy;

10 (4) a detailed report of the age, current 11 condition, reliability and performance of the 12 jurisdictional entity's existing transmission and 13 distribution facilities, which shall include, without 14 limitation, the following data:

15 (i) a summary of the jurisdictional entity's 16 outages and voltage variances reportable under the 17 Commission's rules;

(ii) the jurisdictional entity's expenditures for transmission construction and maintenance, the ratio of those expenditures to the jurisdictional entity's transmission investment, and the average remaining depreciation lives of the entity's transmission facilities, expressed as a percentage of total depreciation lives;

(iii) the jurisdictional entity's expenditures for distribution construction and maintenance, the ratio of those expenditures to the jurisdictional entity's distribution investment, and the average remaining depreciation lives of the entity's distribution facilities, expressed as a percentage of total depreciation lives;

32 (iv) a customer satisfaction survey covering,
33 among other areas identified in Commission rules,
34 reliability, customer service, and understandability

1of the jurisdictional entity's services and prices;2and

3 (v) the corresponding information, in the same
4 format, for the previous 3 years, if available;

(5) a plan for future investment and reliability 5 improvements for the jurisdictional entity's transmission 6 distribution facilities that will ensure continued 7 and 8 reliable delivery of energy to customers and provide the 9 delivery reliability needed for fair and open competition; and 10

11 (6) a report of the jurisdictional entity's 12 implementation of its plan filed pursuant to subparagraph 13 (5) for the previous reporting period.

The Commission rules shall set forth the criteria 14 (C) 15 that will be used to assess each jurisdictional entity's 16 annual report and evaluate its reliability performance. Such criteria must take into account, at a minimum: the items 17 required to be reported in subsection (b); the relevant 18 19 characteristics of the area served; the age and condition of the system's equipment and facilities; good engineering 20 21 practices; the costs of potential actions; and the benefits of avoiding the risks of service disruption. 22

23 At least every 3 years, beginning in the year (d) the Commission issues the rules required by subsection (a) or the 24 25 following year if the rules are issued after June 1, the Commission shall assess the 26 annual report of each jurisdictional 27 entity and evaluate its reliability The Commission's evaluation shall 28 performance. include 29 specific identification of, and recommendations concerning, 30 any potential reliability problems that it has identified as a result of its evaluation. 31

32 (e) In the event that more than 30,000 customers of an 33 electric utility are subjected to a continuous power 34 interruption of 4 hours or more that results in the

-3-

1 transmission of power at less than 50% of the standard 2 voltage, or that results in the total loss of power transmission, the utility shall be 3 responsible for 4 compensating customers affected by that interruption for 4 actual damages, which shall not 5 hours or more for all 6 include consequential damages, suffered as a result of the 7 power interruption. The utility shall also reimburse the 8 affected municipality, county, or other unit of local 9 government in which the power interruption has taken place for all emergency and contingency expenses incurred by the 10 11 unit of local government as a result of the interruption. A waiver of the requirements of this subsection may be granted 12 by the Commission in instances in which the utility can show 13 that the power interruption was a result of any one or more 14 15 of the following causes:

16 (1) Unpreventable damage due to weather events or17 conditions.

18

(2) Customer tampering.

19 (3) Unpreventable damage due to civil or20 international unrest or animals.

21 (4) Damage to utility equipment or other actions by
22 a party other than the utility, its employees, agents,
23 or contractors.

24 Loss of revenue and expenses incurred in complying with this 25 subsection may not be recovered from ratepayers.

In the event of a power surge or other fluctuation 26 (f) that causes damage and affects more than 30,000 customers, 27 the electric utility shall pay to affected customers the 28 replacement value of all goods damaged as a result of the 29 30 power surge or other fluctuation unless the utility can show that the power surge or other fluctuation was due to one or 31 32 more of the following causes:

33 (1) Unpreventable damage due to weather events or34 conditions.

1

(2) Customer tampering.

2 (3) Unpreventable damage due to civil or
3 international unrest or animals.

4

5

6

(4) Damage to utility equipment or other actions bya party other than the utility, its employees, agents,or contractors.

7 Loss of revenue and expenses incurred in complying with this 8 subsection may not be recovered from ratepayers. Customers 9 with respect to whom a waiver has been granted by the 10 Commission pursuant to subparagraphs (1)-(4) of subsections 11 (e) and (f) shall not count toward the 30,000 customers 12 required therein.

(g) Whenever an electric utility must perform planned 13 or routine maintenance or repairs on its equipment that will 14 result in transmission of power at less than 50% of the 15 16 standard voltage, loss of power, or power fluctuation (as defined in subsection (f)), the utility shall make 17 reasonable efforts to notify potentially affected customers 18 19 no less than 24 hours in advance of performance of the repairs or maintenance. 20

(h) Remedies provided for under this Section may be 21 22 sought exclusively through the Illinois Commerce Commission 23 as provided under Section 10-109 of this Act. Damages awarded under this Section for a power interruption shall be 24 25 limited to actual damages, which shall not include consequential damages, and litigation costs. Damage awards 26 may not be paid out of utility rate funds. 27

(i) The provisions of this Section shall not in any way
diminish or replace other civil or administrative remedies
available to a customer or a class of customers.

31 (j) The Commission shall by rule require an electric 32 utility to maintain service records detailing information on 33 each instance of transmission of power at less than 50% of 34 the standard voltage, loss of power, or power fluctuation

1 (as defined in subsection (f)), that affects 10 or more 2 customers. Occurrences that are momentary shall not be required to be recorded or reported. The service record 3 4 shall include, for each occurrence, the following 5 information: (1) The date. 6 7 (2) The time of occurrence. The duration of the incident. 8 (3) 9 (4) The number of customers affected. (5) A description of the cause. 10 11 (6) The geographic area affected. (7) The specific equipment involved in the 12 fluctuation or interruption. 13 (8) A description of measures taken to restore 14 15 service. 16 (9) A description of measures taken to remedy the cause of the power interruption or fluctuation. 17 (10) A description of measures taken to prevent 18 19 future occurrence. (11) The amount of remuneration, if any, paid to 20 21 affected customers. (12) A statement of whether the fixed charge was 22 23 waived for affected customers. Copies of the records containing this information shall 24 25 be available for public inspection at the utility's offices, and copies thereof may be obtained upon payment of a fee not 26 exceeding the reasonable cost of reproduction. 27 A copy of each record shall be filed with the Commission and shall be 28 29 available for public inspection. Copies of the records may 30 obtained upon payment of a fee not exceeding the be reasonable cost of reproduction. 31

32 (k) The requirements of subsections (e) through (j) of
33 this Section shall apply only to an electric public utility
34 having 1,000,000 or more customers.
