

Illinois Department of Commerce & Economic Opportunity

JB Pritzker, Governor

Report to the Restore Illinois Collaborative Commission November 2, 2020

This report is submitted to the Restore Illinois Collaborative Commission (“RICC” or “Commission”) in response to ILCS 20 605/605-1045, requiring the Department of Commerce and Economic Opportunity (DCEO) to submit a report not less than every 30 days, beginning July 1, regarding the status of current and proposed economic revitalization efforts in response to the COVID-19 crisis. This report will be updated monthly through the end of calendar year 2020.

The report to the Commission provides a summary of the Restore Illinois plan and metrics and a summary of ongoing recovery efforts, including:

- Support to impacted businesses through grants, loans, and other forms of relief.
- Support to residents through job training and other services for low-income residents, such as LIHEAP and basic needs assistance.
- Targeted support in communities most impacted by this crisis through grants, technical assistance, and outreach.

Two state agencies appeared before the Commission in October to provide updates and respond to questions: the Illinois State Police on October 13 and the Illinois State Board of Education on October 20. DCEO’s staff will continue to meet with the Commission as needed and provide any information requested.

Restore Illinois

Central to Governor Pritzker’s strategy for containing the spread of COVID-19 while encouraging a safe economic recovery is the Restore Illinois plan, as updated by [Actions to Combat a Resurgence of COVID-19](#). Restore Illinois relies on core health metrics (COVID test positivity rates, hospital admissions, ICU and other hospital capacity indicators) to identify measures that business owners and residents can take to help reduce the spread of the coronavirus.

Core health metrics likewise drive mitigation measures that can be adopted at the regional level to respond to local outbreaks of COVID-19. The resurgence prevention plan outlines available general and industry-specific mitigation measures that can be acted upon to prevent a renewed spread of COVID-19. To provide for a more granular approach, mitigation will be applied on a regional basis based on the 11 Emergency Medical Services regions. These strategies reflect a tailored and surgical alternative to reverting to restrictions from an earlier Restore Illinois Phase as originally envisioned.

The following metrics are used to determine when the spread of the virus in a region requires additional mitigation measures:

- Sustained increase in 7-day rolling average (7 out of 10 days) in the positivity rate and one of the following:
 - o Sustained 7-day increase in hospital admissions for a COVID-19 like illness
 - o Reduction in hospital capacity threatening surge capabilities (ICU capacity or medical/surgical beds under 20%)
- OR three consecutive days averaging greater than or equal to 8% positivity rate

At the end of October, the Governor and IDPH emphasized that Illinois was experiencing alarming increases in positivity rates, hospitalizations, and deaths. While Illinois' metrics are better overall than those observed in most Midwestern states¹, recent trends in neighboring states and across the country presage increasing strains on vulnerable local health care systems and a growing likelihood that expanded regional mitigation efforts will prove necessary to limit the human and economic damages from a COVID-19 spike this fall.

At the time of this report, additional mitigations will soon apply in all of Illinois' eleven regions. New mitigations became effective in Region 5 (Southern Illinois) on October 22; Region 7 (Will/Kankakee Counties) and Region 8 (DuPage/Kane Counties) on October 23; Region 4 (Metro East) and Region 10 (Suburban Cook County) on October 28; Region 11 (the City of Chicago) on October 30; Region 9 (Lake/McHenry Counties) on October 31; Region 3 (West Central Illinois) on November 1; Region 6 (East Central Illinois) on November 2; and Region 2 (North Central) on November 4. These mitigations include measures such as a ban on indoor bar and restaurant service and size limits for indoor and outdoor gatherings. Region 1 (Northwestern Illinois) mitigations have been elevated to the Tier 2 level -- with stricter limits on party sizes at restaurants, bars, and outdoor activities -- due to stubbornly high positivity rates.

Complete information regarding specific mitigations applicable by region can be found at:

<https://dceocovid19resources.com/restore-illinois>. IDPH will track the positivity rates in affected regions over a 14-day monitoring period to determine if mitigations can be relaxed, if additional mitigations are required, or if current mitigations should remain in place. If the positivity rate averages less than or equal to 6.5 percent for three days, the region will return to Phase 4 mitigations under the Restore Illinois Plan. If the positivity rate averages between 6.5 percent and 8.0 percent, IDPH will continue to monitor the region to determine if additional mitigations are needed. If the positivity rate averages greater than or equal to 8.0 percent after 14 days, more stringent mitigations will be applied to further reduce spread of the virus.

State of Illinois Support for Businesses, Communities and Families

Information below provides an update for program initiatives since the previous Restore Illinois Collaborative Commission Report was delivered to the Commission on October 1, 2020.

Resources for Businesses

Given the significant challenges businesses face in the current climate, the State has established various business assistance programs aimed to help small businesses with the most urgent needs. These programs are designed to ensure assistance is accessible by all Illinois communities.

Business Interruption Grant (BIG) Program – DCEO/IDHS

- Budgeted amount: \$540 million funded by the CARES Act.

¹ For example, Illinois' positivity rate on October 26 was 6.3% compared to 25.4% and 25.0% for Wisconsin and Iowa, respectively. Source: <https://www.nbcchicago.com/news/coronavirus/illinois-coronavirus-updates-new-restrictions-in-2-regions-pritzker-warns-covid-storm-coming/2359744/>

BIG for Small Business

- BIG provides relief for costs incurred to qualifying businesses due to COVID-related business interruption.
- More than 4,000 BIG grants (\$95 million) have been provided to small businesses in every corner of the state, including businesses in 469 cities and 89 counties. The program is guided by an equity framework which has yielded a diverse distribution of the grants, with an emphasis on support for communities and businesses facing the most immediate and profound business interruptions:
 - Restaurants and taverns: \$46.5 million to nearly 1,900 businesses
 - Downstate businesses: \$31.5 million to over 1,160 businesses outside of Cook, DuPage, Kane, Lake, and Will Counties.
- Businesses in DIAs: \$44.5 million to nearly 2,000 businesses in these geographies representing 47% of the total amount awarded to date. This is above the 30% minimum in statute. A list of eligible zip codes can be found at this link:
 - https://www2.illinois.gov/dceo/SmallBizAssistance/Documents/BIGDIAZipCodeList_062520.pdf.
 - A map of DIAs is provided at the bottom of the this web page:
<https://www2.illinois.gov/dceo/SmallBizAssistance/Pages/C19DisadvantagedBusGrants.aspx>
 - Minority owned businesses: \$45.8 million to over 1,900 businesses
- Second Round application review: Applications opened on September 17 and are being reviewed on a rolling basis, with the expectation that all awards will be made by the end of the calendar year. In these reviews, priority is given for hard hit industries, including hospitality, performing arts centers, and businesses impacted by regional mitigation measures.
- More information, application forms, and a list of grantees to date can be found at this link:
<https://www2.illinois.gov/dceo/smallbizassistance/pages/c19disadvantagedbusgrants.aspx>

Child Care Restoration Grants (CCRG)

- Half of the funding is allocated to assist childcare providers across the state with reopening in the wake of the COVID-19 pandemic through the CCRG program, which is being administered by the Illinois Network of Child Care Resource and Referral Agencies (INCCRRA) and the Illinois Department of Human Resources (IDHS). Additional information regarding the CCRG can be found at the Gateways to Opportunity website at: <https://www.ilgateways.com/financial-opportunities/restoration-grants>
 - First round (July-September): The Illinois Department of Human Services (IDHS) distributed \$156.2 million in BIG funding to 4,686 child care providers in 95 counties across the state. 47% of the grant funds were awarded to childcare programs located in DIAs.
 - Second round: (October-November): \$113.8 million in grant funding remains available for child care providers heading into the second round, which will run for two months. Illinois child care providers who had already participated in the first round did not need to reapply so long as they had provided required reports. New applicants were allowed to apply from October 1 to October 15.
 - Among renewals, 2,820 grants for a total of \$74.9 million across 93 counties have been approved and are in the process of being distributed. 33% of these funds will go to DIAs.
 - Among new applicants, 287 checks for a total \$4.8 million have been approved and are in the process of being distributed. 39% of this funding will go to DIAs.
 - An additional 36 applications, requesting a total of \$213,000, required additional information (which was due October 29) before approval.
 - 11 applicants have been determined to be ineligible.

- All Round 2 awardees will be posted on the DCEO website when the application and award process for Round 2 is completed.

Rebuild Distressed Communities – DCEO

- Rebuild Distressed Communities is a \$25 million economic recovery program using funds from the Rebuild Illinois capital plan to strengthen Illinois commercial corridors that sustained property damage as a result of civil unrest on or after May 25, 2020. A list of all eligible zip codes is [here](#). Businesses not listed in those zip codes that sustained property damage as a result of civil unrest may still be eligible if they operate in an economically distressed area, [listed here](#), and may apply to have their zip code included.
- This program will reimburse the cost of or hire contractors to perform repairs for structural damages, including repairs to storefronts and entrances, improving electrical systems, and restoring exterior work for businesses that experienced property damage in economically distressed communities around Illinois.
- Top priorities will include small businesses, underinsured or uninsured businesses, businesses that have a high community impact, and businesses in communities that have experienced historic disinvestment. It also includes provisions to prioritize partnerships with BEP-certified contractors to do the repair work.
- To coordinate reimbursement and capital repairs, the State of Illinois has selected two community development organizations – the Local Initiative Support Corporation (LISC) and the Chicago Neighborhood Initiative (CNI). LISC and CNI were selected via a competitive process and will conduct outreach, coordinate local qualified vendors to perform repairs, and provide funds to cover the cost of repairs and new building improvements for businesses in eligible communities across the state.
- Applications will be accepted in rounds until funding is exhausted, with dates for each round and deadline for that specific round posted on the LISC website. Any impacted business may apply during any round. **The first round closes on November 10. To submit an application or for more information, visit the LISC website at <https://www.lisc.org/chicago/regional-stories/rebuild-illinois-distressed-communities-grant/>.**
- LISC, CNI, and DCEO scheduled several webinars – including one conducted in Spanish -- to provide potential applicants with an overview of the Rebuild Distressed Communities grant opportunity, the grant application, and required documentation.
 - Wednesday, October 28, 2020 3:30-4:30 p.m.
 - Friday, October 30, 2020 12-1 p.m. (En español)
 - Friday, November 6, 2020 11 a.m.-12 p.m. – [Link to register](#)

Local Coronavirus Urgent Remediation Emergency Support Program (Local CURES) – DCEO

- Local CURES is a \$250 million local government reimbursement program supported by the Coronavirus Relief Fund using dollars allocated to Illinois through the CARES Act. All units of local government (as defined by the Illinois Constitution) outside of Cook, Lake, Will, Kane, & DuPage counties are eligible to apply. At the time of this report – \$49 million in payments has been extended to 173 units of local government. However, 559 units have yet to register to claim their funds.
- Local CURES can reimburse units of local government for costs that 1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19, 2) were not accounted for in the budget most recently approved as of March 27, 2020, and 3) were incurred during the period beginning March 1, 2020 and ending December 30, 2020. Examples of eligible costs include PPE, staff time and other public health expenses.
- DCEO has taken an active role in working with municipalities and counties to help them recoup the maximum amount of reimbursement since the program launched in August. To assist local governments

with applying and qualifying for these funds, DCEO has held dozens of webinars, fielded thousands of calls and engaged in direct outreach to hundreds of municipalities, recently launching weekly office hours to help answer questions on submissions for payment in real-time. Local units of government can also access program timelines, review examples of costs that are eligible and ineligible, obtain technical assistance, and apply for assistance on DCEO's web site: <https://www2.illinois.gov/dceo/Pages/CURE.aspx>

- The Local CURE Support Program has created a \$15 million Economic Support Program. This program offers grants to local governments to provide funds to local businesses that have negatively been impacted by COVID-19. \$5.1 million of the \$15 million has been awarded to local governments for economic support. Information can be found here: <https://www2.illinois.gov/dceo/Pages/CURENOFO.aspx>
- As of October 28, Local CURES has paid \$70.0 million to 201 local governments with another \$21.6 million under review.

Downstate Small Business Stabilization Program – DCEO

- \$20 million program using federal Community Development Block Grant funds for small businesses in suburban and rural counties across Illinois, providing grants of up to \$25,000 to small businesses in communities served by DCEO's Office of Community Development. See the complete list of grantees here: <https://www2.illinois.gov/dceo/CommunityServices/CommunityInfrastructure/Documents/DSBS%20Cumulative%20Funded-09.11.2020.pdf>.
- These grants will offer businesses of up to 50 employees the opportunity to partner with their local governments to obtain grants of up to \$25,000 in working capital.
- Approximately \$5.3 million has been awarded to date. DCEO will continue to make awards on a rolling basis as applications are evaluated and agreements are finalized. The Department expects to issue its next batch of awards the week of November 2.

Advantage Illinois Loan Payment Relief – DCEO

- Advantage Illinois (AI) is DCEO's loan participation program for small businesses². It partners with local banks to provide a low-interest option for small businesses looking to expand operations.
- Since March, AI has accounted for 11 new loans worth a total of \$4.3 million. Eight of the 11 qualify as Fund for the Advancement of Minority Enterprises (FAME) loans, which can provide additional support for woman-, disabled-, veteran-, and minority-owned businesses.
- DCEO is encouraging and automatically approving adjustments to the terms of existing Advantage Illinois and FAME loans. These adjustments could include either 3 months of no payments or 6 months of interest-only payments. As of late October, 19 companies have received approximately \$483,100 in relief.
- Program participants interested in exploring relief options can contact their lender or reach out to DCEO at CEO.AdvantageIllinois@Illinois.gov.

Support for Residents and Families

The following programs were established to provide financial relief in the form of grants, emergency services, regulatory protection, and more to households and families facing hardships during this crisis

Help Illinois Families - Emergency Support for Households (Low Income Home Energy Assistance Block Grant and Community Services Block Grant) -- DCEO

² Advantage Illinois was launched in 2010 using federal Small Business Credit Initiative (SBCI) funding. It has since been converted to a state-run program using "recycled" funds – essentially repayments from participating businesses.

- Help Illinois Families is a \$275 million program supported with both federal and state matching funds -- including \$90 million from the CARES Act -- that bolsters efforts to provide food, rent, utilities, temporary shelter, medicine and other essential household services to lower income families impacted by the COVID-19 crisis.
- \$250 million has either been obligated to local Community Action Agency partners delivering services or is awaiting final approvals to be obligated. DCEO expects to receive remaining funds from the federal government over the next couple of months.
- Eligibility for the Low Income Home Energy Assistance Program (LIHEAP) in fiscal year 2021 has been expanded from 150% to 200% of the Federal Poverty Level. Applicants will be served on a first-come, first-served basis until funding is exhausted.
- LIHEAP provides assistance to lower income households to receive assistance with home energy services, including heating and cooling.
- The Community Services Block Grant (CSBG) program supports projects that lessen poverty in communities; address the needs of low-income individuals including the homeless, migrants and the elderly; and provides services and activities addressing employment, education, housing, nutrition, emergency services and health.
- DCEO has launched a new remote application process that will provide applicants the option to begin the intake process online or over the phone with the assistance of a live agent. The State's new website and call center is accessible for all residents – with assistance provided in English and Spanish, and other languages assisted through translation.
- Beginning with the June 15 launch of the Help Illinois Families initiative through October 26, DCEO has received 82,249 requests for assistance through the on-line pre-application form. Most-requested forms of assistance include help with utility bills (62,435 requests), housing costs (44,253), food costs (22,472), and water/sewer bills (21,273).
- During the current program year beginning in July, DCEO has received 116,000 LIHEAP applications and approximately \$70 million in benefits have been paid or are in process.
- Residents can obtain more information and begin their application at this link:
<https://www2.illinois.gov/dceo/CommunityServices/HomeWeatherization/CommunityActionAgencies/Pages/helpillinoisFamilies.aspx>

Rental and Mortgage Assistance -- IHDA

- Governor Pritzker has extended the moratorium on evictions through November 14 to protect renters unable to pay due to the economic distress created by COVID crisis. This also minimizes the spread of the virus by not forcing residents to move to new housing or shelters.
- The **Emergency Rental Assistance (ERA)** program will use CARES Act funding to provide eligible renters impacted by COVID-19 with \$5,000 for back rent and prepay through 2020, or until funds are exhausted.
 - To be eligible, an applicant must have had an unpaid rent balance that began on or after March 1, 2020 due to loss of income related to COVID-19 pandemic and have household income at or below 80% of the area median income. The application period has closed.
 - For those who applied for Emergency Rental Assistance, application status notifications began September 10 and will continue through November 10. IHDA expects to ultimately fund about 40% of all rental applications received.
 - The Illinois Housing Development Authority (IHDA) has approved over 25,000 applications and disbursed \$62 million of the \$150 million for the program. IHDA expects to have all payments made by the end of the current moratorium.

- The **Emergency Mortgage Assistance (EMA)** program will use CARES Act funding to provide homeowners impacted by COVID-19 up to \$15,000 to reinstate their mortgage and prepay through 2020 or until funds are exhausted.
 - To be eligible, an applicant must have had a past due balance or a forbearance balance that began sometime on or after March 1, 2020 due to loss of income related to COVID-19 pandemic and have household income at or below 120% of area median income. The application period has closed.
 - For those who applied for Emergency Mortgage Assistance, application status notifications began October 20 and are expected to be completed by the end of November. IHDA expects to ultimately fund about 50% of all mortgage applications received.
 - IHDA has allocated \$4 million of the \$150 million set aside for the program. There was a lag due to servicers reviewing/processing information.
- Renters and homeowners can find additional information regarding housing assistance [here](#).

Welcoming Centers -- IDHS

- On October 16, Governor Pritzker and IDHS [announced that the state of Illinois was allocating \\$30 million](#) in federal CURES funding to help immigrants living in Illinois to overcome challenges resulting from the COVID-19 pandemic. This investment will be allocated as follows:
 - \$18 million in housing and utility assistance for families in need
 - \$4.5 million to support employment and job training services
 - \$4 million will provide healthcare education services
 - \$2 million will go toward a multilingual effort to reach eligible residents
 - \$1.5 million in technical assistance
- Grants have been awarded to 30 partner agencies to provide housing and utility assistance, 20 agencies were awarded funding to create health navigator programs and 26 community-based organizations were awarded funding to provide workforce training to low-income individuals impacted by COVID-19. Altogether, IDHS has awarded close to \$28.5 million for the categories indicated above).
- Individuals must contact one of our partner agencies for direct assistance, which can be located through the IDHS website at <https://www.dhs.state.il.us/page.aspx?item=124373>

Job Training and Placement

The state offers a range of workforce training and assistance programs, which are being recalibrated to assist both employers and workers in the wake of the COVID-19 crisis.

Get Hired Illinois – DCEO

- In May, the Governor announced the launch of Get Hired Illinois – a new portal designed to connect workers with available job and career training opportunities across the state of Illinois. Prospective employers and workers can access the portal at this link: <https://www2.illinois.gov/GetHired/Pages/default.aspx>
- More than 400 new employers have signed up for Get Hired since the website launched, adding 352 virtual job fairs and 17,419 job listings to the portal. In total, this portal provides Illinois job seekers access to nearly 60,000 jobs connected through the state’s webpage.

Coursera On-Line Workforce Training – DCEO

- The State of Illinois has partnered with Coursera, University of Illinois Urbana-Champaign, Northwestern University, and the University of Chicago to offer free online career training geared toward helping Illinoisans who have lost their jobs due to the COVID-19 pandemic.
- Free virtual training courses will provide training and credentialing that will help ready dislocated workers for jobs in Information Technology (IT) and other marketable fields. Illinois residents interested in pursuing this opportunity can find information and sign up at this link until October 31: <https://www.illinoisworknet.com/Training/Pages/Coursera.aspx>.
- TechReady Illinois is also included in the partnership with Illinois and Coursera offering a set of their courses through the Coursera Platform. The TechReady Illinois is an effort to help Illinois residents hurt by COVID-19 gain new digital skills at steeply discounted tuition rates.
- Since the beginning of June, 6,989 invitations were sent through Illinois workNet to individuals interested in taking courses on the Illinois IT Training on Coursera. Of these, 4,553 learners created an account and 3,525 enrolled in one or more courses.

Summer Youth Employment Program – IDHS

- The Governor announced on July 16 that State has dedicated \$9.3 million to support the Summer Youth Employment Program (SYEP) to provide training and find work for young people aged 16-24 amidst the ongoing COVID-19 pandemic.
- The program funded 30 providers in 10 counties hardest hit by COVID-19 (Cook, Champaign, Lake, Macon, Madison, McLean, Peoria, St. Clair, Stephenson, and Winnebago).
- As of late September, 2,785 young adults in the above counties were provided opportunities to develop workplace skills and gain work experience while exploring potential career pathways.

Technical Assistance and Outreach

Many of those that have been hardest hit by this crisis are also those that may have the most difficulty or least experience accessing government support.

Office of Minority Economic Empowerment – DCEO

- OMEE promotes economic development opportunities for all minority communities across the state through targeted programs, resources, and advocacy.
- From March through late October 2020, OMEE had hosted 216 webinars and workshops with approximately 7,098 attendees on DCEO COVID-19 State and Federal programs, Restore Illinois guidelines, BIG technical assistance, business support, and other assistance as needed.

Rapid Response Services for Layoff Aversion and Job Training – DCEO

- Rapid Response is a proactive, business-focused program to avert layoffs and plant closing through quick coordination of service and the provision of immediate aid to companies and their affected workers.
- When layoffs cannot be averted, laid off workers are connected to job training and placement services.
- Rapid Response teams have worked with 431 businesses since March to provide services to mitigate layoffs that affected approximately 68,592 workers. \$3.5 million in layoff aversion funds have been awarded.

Regional Economic Development Outreach (Team RED) – DCEO

- DCEO has conducted extensive outreach to a wide range of constituencies to ensure businesses are familiar with available programs and assistance. Through October 26, DCEO has conducted COVID-19

related outreach for at least 10,888 small businesses, 724 local Chambers of Commerce and 1,007 economic development organizations.

- Team RED has also launched outreach to local units of government regarding CURE program assistance. This outreach includes emails to approximately 6,792 special taxing districts, 1,422 phone calls and webinars for a collective 2,680 attendees.
