"(40 ILCS 5/17-116.1) (from Ch. 108 1/2, par. 17-116.1)

Sec. 17-116.1. Early retirement without discount.

(a) A member retiring after June 1, 1980 and before June 30, 1995 and within 6 months of the last day of teaching for which retirement contributions were required, may elect at the time of application to make a one time employee contribution to the system and thereby avoid the early retirement reduction in allowance specified in paragraph (4) of Section 17-116 of this Article. The exercise of the election shall obligate the last Employer to also make a one time non-refundable contribution to the Fund.

(b) Subject to authorization by the Employer as provided in subsection (c), a member retiring on or after June 30, 1995 and on or before June 30, 2005 ~~2000~~ and within 6 months of the last day of teaching for which retirement contributions were required may elect

at the time of application to make a one-time employee contribution to the Fund and thereby avoid the early retirement reduction in allowance specified in paragraph (4) of Section 17-116. The exercise of the election shall obligate the last Employer to also make a one-time nonrefundable contribution to the Fund.

(c) The benefits provided in subsection (b) are available only to members who retire, during a specified period, from employment with an Employer that has adopted and filed with the Board a resolution expressly providing for the creation of an early retirement without discount program under this Section for that period.

The Employer has the full discretion and authority to determine whether an early retirement without discount program is in its best interest and to provide such a program to its eligible employees in accordance with this Section. The Employer may decide to authorize such a program for one or more of the following periods: for the period beginning July 1, 1997 and ending June 30, 1998, in which case the resolution must be adopted by January 1, 1998; for the period beginning July 1, 1998 and ending June 30, 1999, in which case the resolution must be adopted by March 31, 1998; ~~and~~ for the period beginning July 1, 1999 and ending June 30, 2000, in which case the resolution must be adopted by March 31, 1999; for the period beginning July 1, 2000 and ending June 30, 2001, in which case the resolution must be adopted by March 31, 2000; for the period beginning July 1, 2001 and ending June 30, 2002, in which case the resolution must be adopted by March 31, 2001; for the period beginning July 1, 2002 and ending June 30, 2003, in which case the resolution must be adopted by March 31, 2002; for the period beginning July 1, 2003 and ending June 30, 2004, in which case the resolution must be adopted by March 31, 2003; and for the period beginning July 1, 2004 and ending June 30, 2005, in which case the

resolution must be adopted by March 31, 2004. The resolution must be filed with the Board within 10 days after it is adopted. A single resolution may authorize an early retirement without discount program as provided in this Section for more than one period.

Notwithstanding Section 17-157, the Employer shall also have full discretion and authority to determine whether to allow its employees who withdrew from service on or after June 30, 1995 and before June 27, 1997 to participate in an early retirement without discount program under subsection (b). An early retirement without discount program for those who withdrew from service on or after June 30, 1995 and before June 27, 1997 may be authorized only by a resolution of the Employer that is adopted by January 1, 1998 and filed with the Board within 10 days after its adoption. If such a resolution is duly adopted and filed, a person who (i) withdrew from service with the Employer on or after June 30, 1995 and before June 27, 1997, (ii) qualifies for early retirement without discount under subsection (b), (iii) applies to the Fund within 90 days after the authorizing resolution is adopted, and (iv) pays the required employee contribution shall have his or her retirement pension recalculated in accordance with subsection (b). The resulting increase shall be effective retroactively to the starting date of the retirement

pension.

(d) The one-time employee contribution shall be equal to 7% of the retiring member's highest full-time annual salary rate used in the determination of the average salary rate for retirement pension, or if not full-time then the full-time equivalent, multiplied by (1) the number of years the teacher is under age 60, or (2) the number of years the employee's creditable service is less than 34 ~~35~~ years, whichever is less.

The Employer contribution shall be 20% of such salary multiplied by such number of years.

(e) Upon receipt of the application and election, the Board shall determine the one time employee and Employer contributions. The provisions of this Section shall not be applicable until the employee contribution, if any, has all the above outlined contributions have been received by the Fund; however, the date that contribution is such contributions are received shall not be considered in determining the effective date of retirement.

(f) The number of employees who may retire under this Section in any year may be limited at the option of the Employer to a specified percentage of those eligible, not lower than 30%, with the right to participate to be allocated among those applying on the basis of seniority in the service of the Employer.

(40 ILCS 5/17-119.1)

Sec. 17-119.1. Optional increase in retirement annuity.

(a) A member of the Fund may qualify for the augmented rate under subdivision (b)(3) of Section 17-116 for all years of creditable service earned before July 1, 1998 by making the optional contribution specified in subsection (b). A member may not elect to qualify for the augmented rate for only a portion of his or her creditable service earned before July 1, 1998.

(b) The contribution shall be an amount equal to 1.0% of the member's highest salary rate in the 4 consecutive school years immediately prior to but not including the school year in which the application occurs, multiplied by the number of years of creditable service earned by the member before July 1, 1998 or 20, whichever is less. This contribution shall be reduced by 1.0% of that salary rate for every 3 full years of creditable service earned by the member after June 30, 1998. The contribution shall be further reduced at

SENATE

4415

the rate of 25% of the contribution (as reduced for service after June 30, 1998) for each year of the member's total creditable service in excess of 34 years. The contribution shall not in any event exceed 20% of that salary rate.

The member shall pay to the Fund the amount of the contribution as calculated at the time of application under this Section. The amount of the contribution determined under this subsection shall be recalculated at the time of retirement, and if the Fund determines that the amount paid by the member exceeds the recalculated amount, the Fund shall refund the difference to the member with regular interest from the date of payment to the date of refund.

The contribution required by this subsection shall be paid in one

of the following ways or in a combination of the following ways that does not extend over more than 5 years:

(i) in a lump sum on or before the date of retirement;

(ii) in substantially equal installments over a period of time not to exceed 5 years, as a deduction from salary in accordance with Section 17-130.2;

(iii) if the member becomes an annuitant before June 30, 2003, in substantially equal monthly installments over a 24-month period, by a deduction from the annuitant's monthly benefit.

(c) If the member fails to make the full contribution under this Section in a timely fashion, the payments made under this Section shall be refunded to the member, without interest. If the member dies before making the full contribution, the payments made under this Section shall be refunded to the member's designated beneficiary.

(d) For purposes of this Section and subsection (b) of Section 17-116, optional creditable service established by a member shall be deemed to have been earned at the time of the employment or other qualifying event upon which the service is based, rather than at the time the credit was established in this Fund.

(e) The contributions required under this Section are the responsibility of the teacher and not the teacher's employer. However, an employer of teachers may, after the effective date of this amendatory Act of 1998, specifically agree, through collective bargaining or otherwise, to make the contributions required by this Section on behalf of those teachers.

The Department shall promulgate rules to establish the format based, to the extent practical, on the standards developed for supplemental insurance coverage under Title XVIII of the federal Social Security Act as a guide, so that a person can compare the attributes of the various health care plans.

(e) The written disclosure requirements of this Section may be met by disclosure to one enrollee in a household.

Section 20. Notice of nonrenewal or termination. A health care plan must give at least 60 days notice of nonrenewal or termination of a health care provider to the health care provider and to the enrollees served by the health care provider. The notice shall include a name and address to which an enrollee or health care provider may direct comments and concerns regarding the nonrenewal or termination. Immediate written notice may be provided without 60 days notice when a health care provider's license has been disciplined by a State licensing board.

Section 25. Transition of services.

(a) A health care plan shall provide for continuity of care for its enrollees as follows:

(1) If an enrollee's physician leaves the health care plan's network of health care providers for reasons other than termination of a contract in situations involving imminent harm to a patient or a final disciplinary action by a State licensing board and the physician remains within the health care plan's service area, the health care plan shall permit the enrollee to continue an ongoing course of treatment with that physician during a transitional period:

(A) of 90 days from the date of the notice of physician's termination from the health care plan to the enrollee of the physician's disaffiliation from the health care plan if the enrollee has an ongoing course of treatment; or

(B) if the enrollee has entered the third trimester of pregnancy at the time of the physician's disaffiliation, that includes the provision of post-partum care directly related to the delivery.

(2) Notwithstanding the provisions in item (1) of this subsection, such care shall be authorized by the health care plan during the transitional period only if the physician agrees:

(A) to continue to accept reimbursement from the health care plan at the rates applicable prior to the start of the transitional period;

(B) to adhere to the health care plan's quality assurance requirements and to provide to the health care

plan necessary medical information related to such care; and

(C) to otherwise adhere to the health care plan's policies and procedures, including but not limited to procedures regarding referrals and obtaining preauthorizations for treatment.

(b) A health care plan shall provide for continuity of care for new enrollees as follows:

(1) If a new enrollee whose physician is not a member of the health care plan's provider network, but is within the health care plan's service area, enrolls in the health care plan, the health care plan shall permit the enrollee to continue an ongoing course of treatment with the enrollee's current physician during a transitional period:

(A) of 90 days from the effective date of enrollment if the enrollee has an ongoing course of treatment; or

(B) if the enrollee has entered the third trimester of pregnancy at the effective date of enrollment, that includes the provision of post-partum care directly related to the delivery.

(2) If an enrollee elects to continue to receive care from such physician pursuant to item (1) of this subsection, such care shall be authorized by the health care plan for the transitional period only if the physician agrees:

(A) to accept reimbursement from the health care plan at rates established by the health care plan; such rates shall be the level of reimbursement applicable to similar physicians within the health care plan for such services;

(B) to adhere to the health care plan's quality assurance requirements and to provide to the health care plan necessary medical information related to such care; and

(C) to otherwise adhere to the health care plan's policies and procedures including, but not limited to procedures regarding referrals and obtaining preauthorization for treatment.

(c) In no event shall this Section be construed to require a health care plan to provide coverage for benefits not otherwise covered or to diminish or impair preexisting condition limitations contained in the enrollee's contract.

Section 30. Prohibitions.

(a) No health care plan or its subcontractors may prohibit or discourage health care providers by contract or policy from discussing any health care services and health care providers, utilization review and quality assurance policies, terms and conditions of plans and plan policy with enrollees, prospective enrollees, providers, or the public.

(b) No health care plan by contract, written policy, or procedure may permit or allow an individual or entity to dispense a different drug in place of the drug or brand of drug ordered or prescribed without the express permission of the person ordering or prescribing the drug, except as provided under Section 3.14 of the Illinois Food, Drug and Cosmetic Act.

(c) Any violation of this Section shall be subject to the penalties under this Act.

Section 35. Medically appropriate health care protection.

(a) No health care plan or its subcontractors shall retaliate against a physician or other health care provider who advocates for appropriate health care services for patients.

(b) It is the public policy of the State of Illinois that a physician or any other health care provider be encouraged to advocate

for medically appropriate health care services for his or her patients. For purposes of this Section, "to advocate for medically appropriate health care services" means to appeal a decision to deny payment for a health care service pursuant to the reasonable grievance or appeal procedure established by a health care plan or to protest a decision, policy, or practice that the physician or other health care provider, consistent with that degree of learning and skill ordinarily possessed by physicians or other health care providers practicing in the same or a similar locality and under similar circumstances, reasonably believes impairs the physician's or other health care provider's ability to provide appropriate health care services to his or her patients.

(c) This Section shall not be construed to prohibit a health care plan or its subcontractors from making a determination not to pay for a particular health care service or to prohibit a medical

group, independent practice association, preferred provider organization, foundation, hospital medical staff, hospital governing body or health care plan from enforcing reasonable peer review or utilization review protocols or determining whether a physician or other health care provider has complied with those protocols.

(d) Nothing in this Section shall be construed to prohibit the governing body of a hospital or the hospital medical staff from taking disciplinary actions against a physician as authorized by law.

(e) Nothing in this Section shall be construed to prohibit the Department of Professional Regulation from taking disciplinary actions against a physician or other health care provider under the appropriate licensing Act.

(f) Any violation of this Section shall be subject to the penalties under this Act.

Section 40. Access to specialists.

(a) All health care plans that require each enrollee to select a health care provider for any purpose including coordination of care shall permit an enrollee to choose any available primary care physician licensed to practice medicine in all its branches participating in the health care plan for that purpose. The health care plan shall provide the enrollee with a choice of licensed health care providers who are accessible and qualified. Nothing in this Act shall be construed to prohibit a health care plan from requiring a health care provider to meet the health care plan's criteria in order to coordinate access to health care.

(b) A health care plan shall establish a procedure by which an enrollee who has a condition that requires ongoing care from a specialist physician or other health care provider may apply for a standing referral to a specialist physician or other health care provider if a referral to a specialist physician or other health care provider is required for coverage. The application shall be made to the enrollee's primary care physician. This procedure for a standing referral must specify the necessary criteria and conditions that must be met in order for an enrollee to obtain a standing referral. A standing referral shall be effective for the period necessary to provide the referred services or one year, except in the event of termination of a contract or policy in which case Section 25 on transition of services shall apply, if applicable. A primary care physician may renew and re-renew a standing referral.

(c) The enrollee may be required by the health care plan to select a specialist physician or other health care provider who has a referral arrangement with the enrollee's primary care physician or to select a new primary care physician who has a referral arrangement with the specialist physician or other health care provider chosen by the enrollee. If a health care plan requires an enrollee to select a new physician under this subsection, the health care plan must

provide the enrollee with both options provided in this subsection. When a participating specialist with a referral arrangement is not available, the primary care physician, in consultation with the enrollee, shall arrange for the enrollee to have access to a qualified participating health care provider, and the enrollee shall be allowed to stay with his or her primary care physician. If a

secondary referral is necessary, the specialist physician or other health care provider shall advise the primary care physician. The primary care physician shall be responsible for making the secondary referral. In addition, the health care plan shall require the specialist physician or other health care provider to provide regular updates to the enrollee's primary care physician.

(d) When the type of specialist physician or other health care provider needed to provide ongoing care for a specific condition is not represented in the health care plan's provider network, the primary care physician shall arrange for the enrollee to have access to a qualified non-participating health care provider within a reasonable distance and travel time at no additional cost beyond what the enrollee would otherwise pay for services received within the network. The referring physician shall notify the plan when a referral is made outside the network.

(e) The enrollee's primary care physician shall remain responsible for coordinating the care of an enrollee who has received a standing referral to a specialist physician or other health care provider. If a secondary referral is necessary, the specialist physician or other health care provider shall advise the primary care physician. The primary care physician shall be responsible for making the secondary referral. In addition, the health care plan shall require the specialist physician or other health care provider to provide regular updates to the enrollee's primary care physician.

(f) If an enrollee's application for any referral is denied, an enrollee may appeal the decision through the health care plan's external independent review process in accordance with subsection (f) of Section 45 of this Act.

(g) Nothing in this Act shall be construed to require an enrollee to select a new primary care physician when no referral arrangement exists between the enrollee's primary care physician and the specialist selected by the enrollee and when the enrollee has a long-standing relationship with his or her primary care physician.

(h) In promulgating rules to implement this Act, the Department shall define "standing referral" and "ongoing course of treatment".

Section 45. Health care services appeals, complaints, and external independent reviews.

(a) A health care plan shall establish and maintain an appeals procedure as outlined in this Act. Compliance with this Act's appeals procedures shall satisfy a health care plan's obligation to provide appeal procedures under any other State law or rules. All appeals of a health care plan's administrative determinations and complaints regarding its administrative decisions shall be handled as required under Section 50.

(b) When an appeal concerns a decision or action by a health care plan, its employees, or its subcontractors that relates to (i) health care services, including, but not limited to, procedures or treatments, for an enrollee with an ongoing course of treatment ordered by a health care provider, the denial of which could significantly increase the risk to an enrollee's health, or (ii) a treatment referral, service, procedure, or other health care service, the denial of which could significantly increase the risk to an enrollee's health, the health care plan must allow for the filing of an appeal either orally or in writing. Upon submission of the appeal, a health care plan must notify the party filing the appeal,

as soon as possible, but in no event more than 24 hours after the submission of the appeal, of all information that the plan requires to evaluate the appeal. The health care plan shall render a decision on the appeal within 24 hours after receipt of the required information. The health care plan shall notify the party filing the appeal and the enrollee, enrollee's primary care physician, and any health care provider who recommended the health care service involved in the appeal of its decision orally followed-up by a written notice of the determination.

(c) For all appeals related to health care services including, but not limited to, procedures or treatments for an enrollee and not covered by subsection (b) above, the health care plan shall establish a procedure for the filing of such appeals. Upon submission of an appeal under this subsection, a health care plan must notify the party filing an appeal, within 3 business days, of all information that the plan requires to evaluate the appeal. The health care plan shall render a decision on the appeal within 15 business days after receipt of the required information. The health care plan shall notify the party filing the appeal, the enrollee, the enrollee's primary care physician, and any health care provider who recommended the health care service involved in the appeal orally of its decision followed-up by a written notice of the determination.

(d) An appeal under subsection (b) or (c) may be filed by the enrollee, the enrollee's designee or guardian, the enrollee's primary care physician, or the enrollee's health care provider. A health care plan shall designate a clinical peer to review appeals, because these appeals pertain to medical or clinical matters and such an appeal must be reviewed by an appropriate health care professional. No one reviewing an appeal may have had any involvement in the initial determination that is the subject of the appeal. The written notice of determination required under subsections (b) and (c) shall include (i) clear and detailed reasons for the determination, (ii) the medical or clinical criteria for the determination, which shall be based upon sound clinical evidence and reviewed on a periodic basis, and (iii) in the case of an adverse determination, the procedures for requesting an external independent review under subsection (f).

(e) If an appeal filed under subsection (b) or (c) is denied for a reason including, but not limited to, the service, procedure, or treatment is not viewed as medically necessary, denial of specific tests or procedures, denial of referral to specialist physicians or denial of hospitalization requests or length of stay requests, any involved party may request an external independent review under subsection (f) of the adverse determination.

(f) External independent review.

(1) The party seeking an external independent review shall so notify the health care plan. The health care plan shall seek to resolve all external independent reviews in the most expeditious manner and shall make a determination and provide notice of the determination no more than 24 hours after the receipt of all necessary information when a delay would significantly increase the risk to an enrollee's health or when extended health care services for an enrollee undergoing a course of treatment prescribed by a health care provider are at issue.

(2) Within 30 days after the enrollee receives written notice of an adverse determination, if the enrollee decides to initiate an external independent review, the enrollee shall send to the health care plan a written request for an external independent review, including any information or documentation to support the enrollee's request for the covered service or claim for a covered service.

(3) Within 30 days after the health care plan receives a request for an external independent review from an enrollee, the health care plan shall:

(A) provide a mechanism for joint selection of an external independent reviewer by the enrollee, the enrollee's physician or other health care provider, and the health care plan; and

(B) forward to the independent reviewer all medical records and supporting documentation pertaining to the case, a summary description of the applicable issues including a statement of the health care plan's decision, the criteria used, and the medical and clinical reasons for that decision.

(4) Within 5 days after receipt of all necessary information, the independent reviewer shall evaluate and analyze the case and render a decision that is based on whether or not the health care service or claim for the health care service is medically appropriate. The decision by the independent reviewer is final. If the external independent reviewer determines the health care service to be medically appropriate, the health care plan shall pay for the health care service.

(5) The health care plan shall be solely responsible for paying the fees of the external independent reviewer who is selected to perform the review.

(6) An external independent reviewer who acts in good faith shall have immunity from any civil or criminal liability or professional discipline as a result of acts or omissions with respect to any external independent review, unless the acts or omissions constitute wilful and wanton misconduct. For purposes of any proceeding, the good faith of the person participating shall be presumed.

(7) Future contractual or employment action by the health care plan regarding the patient's physician or other health care provider shall not be based solely on the physician's or other health care provider's participation in this procedure.

(8) For the purposes of this Section, an external independent reviewer shall:

(A) be a clinical peer;

(B) have no direct financial interest in connection with the case; and

(C) have not been informed of the specific identity of the enrollee.

(g) Nothing in this Section shall be construed to require a health care plan to pay for a health care service not covered under the enrollee's certificate of coverage or policy.

Section 50. Administrative complaints and Departmental review.

(a) Administrative complaint process.

(1) A health care plan shall accept and review appeals of its determinations and complaints related to administrative issues initiated by enrollees or their health care providers (complainant). All appeals of a health care plan's determinations and complaints related to health care services shall be handled as required under Section 45. Nothing in this Act shall be construed to preclude an enrollee from filing a complaint with the Department or as limiting the Department's ability to investigate complaints. In addition, any enrollee not satisfied with the plan's resolution of any complaint may appeal that final plan decision to the Department.

(2) When a complaint against a health care plan (respondent) is received by the Department, the respondent shall be notified of the complaint. The Department shall, in its

SENATE

4425

notification, specify the date when a report is to be received from the respondent, which shall be no later than 21 days after notification is sent to the respondent. A failure to reply by the date specified may be followed by a collect telephone call or collect telegram. Repeated instances of failing to reply by the date specified may result in further regulatory action.

(3) The respondent's report shall supply adequate documentation that explains all actions taken or not taken and that were the basis for the complaint. The report shall include documents necessary to support the respondent's position and any information requested by the Department. The respondent's reply shall be in duplicate, but duplicate copies of supporting documents shall not be required. The respondent's reply shall include the name, telephone number, and address of the individual assigned to investigate or process the complaint. The Department shall respect the confidentiality of medical reports and other documents that by law are confidential. Any other information furnished by a respondent shall be marked "confidential" if the respondent does not wish it to be released to the complainant.

(b) Departmental review. The Department shall review the plan decision to determine whether it is consistent with the plan and Illinois law and rules. Upon receipt of the respondent's report, the Department shall evaluate the material submitted and:

(1) advise the complainant of the action taken and disposition of the complaint;

(2) pursue further investigation with the respondent or complainant; or

(3) refer the investigation report to the appropriate branch within the Department for further regulatory action.

(c) The Department of Insurance and the Department of Public Health shall coordinate the complaint review and investigation process. The Department of Insurance and the Department of Public Health shall jointly establish rules under the Illinois Administrative Procedure Act implementing this complaint process.

Section 55. Record of complaints.

(a) The Department shall maintain records concerning the

complaints filed against health care plans. To that end, the Department shall require health care plans to annually report complaints made to and resolutions by health care plans in a manner determined by rule. The Department shall make a summary of all data collected available upon request and publish the summary on the World Wide Web.

(b) The Department shall maintain records on the number of complaints filed against each health care plan.

(c) The Department shall maintain records classifying each complaint by whether the complaint was filed by:

- (1) a consumer or enrollee;
- (2) a provider; or
- (3) any other individual.

(d) The Department shall maintain records classifying each complaint according to the nature of the complaint as it pertains to a specific function of the health care plan. The complaints shall be classified under the following categories:

- (1) denial of care or treatment;
- (2) denial of a diagnostic procedure;
- (3) denial of a referral request;
- (4) sufficient choice and accessibility of health care providers;
- (5) underwriting;
- (6) marketing and sales;
- (7) claims and utilization review;

- (8) member services;
- (9) provider relations; and
- (10) miscellaneous.

(e) The Department shall maintain records classifying the disposition of each complaint. The disposition of the complaint shall be classified in one of the following categories:

- (1) complaint referred to the health care plan and no further action necessary by the Department;
- (2) no corrective action deemed necessary by the Department; or
- (3) corrective action taken by the Department.

(f) No Department publication or release of information shall identify any enrollee, health care provider, or individual complainant.

Section 60. Choosing a physician.

(a) A health care plan may also offer other arrangements under which enrollees may access health care services from contracted providers without a referral or authorization from their primary care physician.

(b) The enrollee may be required by the health care plan to select a specialist physician or other health care provider who has a referral arrangement with the enrollee's primary care physician or to select a new primary care physician who has a referral arrangement with the specialist physician or other health care provider chosen by the enrollee. If a health care plan requires an enrollee to select a new physician under this subsection, the health care plan must provide the enrollee with both options provided in this subsection.

(c) The Director of Insurance and the Department of Public Health each may promulgate rules to ensure appropriate access to and quality of care for enrollees in any plan that allows enrollees to access health care services from contractual providers without a referral or authorization from the primary care physician. The rules may include, but shall not be limited to, a system for the retrieval and compilation of enrollees' medical records.

Section 65. Emergency services prior to stabilization.

(a) A health care plan that provides or that is required by law to provide coverage for emergency services shall provide coverage such that payment under this coverage is not dependent upon whether the services are performed by a plan or non-plan health care provider and without regard to prior authorization. This coverage shall be at the same benefit level as if the services or treatment had been rendered by the health care plan physician licensed to practice medicine in all its branches or health care provider.

(b) Prior authorization or approval by the plan shall not be required for emergency services.

(c) Coverage and payment shall only be retrospectively denied under the following circumstances:

(1) upon reasonable determination that the emergency services claimed were never performed;

(2) upon timely determination that the emergency evaluation and treatment were rendered to an enrollee who sought emergency services and whose circumstance did not meet the definition of emergency medical condition;

(3) upon determination that the patient receiving such services was not an enrollee of the health care plan; or

(4) upon material misrepresentation by the enrollee or health care provider; "material" means a fact or situation that is not merely technical in nature and results or could result in a substantial change in the situation.

(d) When an enrollee presents to a hospital seeking emergency services, the determination as to whether the need for those services

exists shall be made for purposes of treatment by a physician licensed to practice medicine in all its branches or, to the extent permitted by applicable law, by other appropriately licensed personnel under the supervision of or in collaboration with a physician licensed to practice medicine in all its branches. The physician or other appropriate personnel shall indicate in the patient's chart the results of the emergency medical screening examination.

(e) The appropriate use of the 911 emergency telephone system or its local equivalent shall not be discouraged or penalized by the health care plan when an emergency medical condition exists. This provision shall not imply that the use of 911 or its local equivalent is a factor in determining the existence of an emergency medical condition.

(f) The medical director's or his or her designee's determination of whether the enrollee meets the standard of an emergency medical condition shall be based solely upon the presenting symptoms documented in the medical record at the time care was

sought. Only a clinical peer may make an adverse determination.

(g) Nothing in this Section shall prohibit the imposition of deductibles, copayments, and co-insurance. Nothing in this Section alters the prohibition on billing enrollees contained in the Health Maintenance Organization Act.

Section 70. Post-stabilization medical services.

(a) If prior authorization for covered post-stabilization services is required by the health care plan, the plan shall provide access 24 hours a day, 7 days a week to persons designated by the plan to make such determinations, provided that any determination made under this Section must be made by a health care professional. The review shall be resolved in accordance with the provisions of Section 85 and the time requirements of this Section.

(b) The treating physician licensed to practice medicine in all its branches or health care provider shall contact the health care plan or delegated health care provider as designated on the enrollee's health insurance card to obtain authorization, denial, or arrangements for an alternate plan of treatment or transfer of the enrollee.

(c) The treating physician licensed to practice medicine in all its branches or health care provider shall document in the enrollee's medical record the enrollee's presenting symptoms; emergency medical condition; and time, phone number dialed, and result of the communication for request for authorization of post-stabilization medical services. The health care plan shall provide reimbursement for covered post-stabilization medical services if:

(1) authorization to render them is received from the health care plan or its delegated health care provider, or

(2) after 2 documented good faith efforts, the treating health care provider has attempted to contact the enrollee's health care plan or its delegated health care provider, as designated on the enrollee's health insurance card, for prior authorization of post-stabilization medical services and neither the plan nor designated persons were accessible or the authorization was not denied within 60 minutes of the request. "Two documented good faith efforts" means the health care provider has called the telephone number on the enrollee's health insurance card or other available number either 2 times or one time and an additional call to any referral number provided. "Good faith" means honesty of purpose, freedom from intention to defraud, and being faithful to one's duty or obligation. For the purpose of this Act, good faith shall be presumed.

(d) After rendering any post-stabilization medical services, the treating physician licensed to practice medicine in all its branches or health care provider shall continue to make every reasonable effort to contact the health care plan or its delegated health care provider regarding authorization, denial, or arrangements for an alternate plan of treatment or transfer of the enrollee until the treating health care provider receives instructions from the health care plan or delegated health care provider for continued care or the care is transferred to another health care provider or the patient is

discharged.

(e) Payment for covered post-stabilization services may be denied:

(1) if the treating health care provider does not meet the conditions outlined in subsection (c);

(2) upon determination that the post-stabilization services claimed were not performed;

(3) upon timely determination that the post-stabilization services rendered were contrary to the instructions of the health care plan or its delegated health care provider if contact was made between those parties prior to the service being rendered;

(4) upon determination that the patient receiving such services was not an enrollee of the health care plan; or

(5) upon material misrepresentation by the enrollee or health care provider; "material" means a fact or situation that is not merely technical in nature and results or could result in a substantial change in the situation.

(f) Nothing in this Section prohibits a health care plan from delegating tasks associated with the responsibilities enumerated in this Section to the health care plan's contracted health care providers or another entity. Only a clinical peer may make an adverse determination. However, the ultimate responsibility for coverage and payment decisions may not be delegated.

(g) Coverage and payment for post-stabilization medical services for which prior authorization or deemed approval is received shall not be retrospectively denied.

(h) Nothing in this Section shall prohibit the imposition of deductibles, copayments, and co-insurance. Nothing in this Section alters the prohibition on billing enrollees contained in the Health Maintenance Organization Act.

Section 72. Pharmacy providers.

(a) Before entering into an agreement with pharmacy providers, a health care plan must establish terms and conditions that must be met by pharmacy providers desiring to contract with the health care plan. The terms and conditions shall not discriminate against a pharmacy provider. A health care plan may not refuse to contract with a pharmacy provider that meets the terms and conditions established by the health care plan. If a pharmacy provider rejects the terms and conditions established, the health care plan may offer other terms and conditions necessary to comply with network adequacy requirements.

(b) A health care plan shall apply the same coinsurance, copayment, and deductible factors to all drug prescriptions filled by a pharmacy provider that participates in the health care plan's network. Nothing in this subsection, however, prohibits a health care plan from applying different coinsurance, copayment, and deductible factors between brand name drugs and generic drugs when a generic equivalent exists for the brand name drug.

(c) A health care plan may not set a limit on the quantity of drugs that an enrollee may obtain at one time with a prescription unless the limit is applied uniformly to all pharmacy providers in the health care plan's network.

Section 75. Consumer advisory committee.

(a) A health care plan shall establish a consumer advisory committee. The consumer advisory committee shall have the authority to identify and review consumer concerns and make advisory recommendations to the health care plan. The health care plan may also make requests of the consumer advisory committee to provide feedback to proposed changes in plan policies and procedures which will affect enrollees. However, the consumer advisory committee shall not have the authority to hear or resolve specific complaints or grievances, but instead shall refer such complaints or grievances to the health care plan's grievance committee.

(b) The health care plan shall randomly select 8 enrollees meeting the requirements of this Section to serve on the consumer advisory committee. The health care plan must continue to randomly select enrollees until 8 enrollees have agreed to serve on the consumer advisory committee. Upon initial formation of the consumer advisory committee, the health care plan shall appoint 4 enrollees to a 2 year term and 4 enrollees to a one year term. Thereafter, as an enrollee's term expires, the health care plan shall re-appoint or appoint an enrollee to serve on the consumer advisory committee for a 2 year term. Members of the consumer advisory committee shall by majority vote elect a member of the committee to serve as chair of the committee.

(c) An enrollee may not serve on the consumer advisory committee if during the 2 years preceding service the enrollee:

(1) has been an employee, officer, or director of the plan, an affiliate of the plan, or a provider or affiliate of a provider that furnishes health care services to the plan or affiliate of the plan; or

(2) is a relative of a person specified in item (1).

(d) A health care plan's consumer advisory committee shall meet not less than quarterly.

(e) All meetings shall be held within the State of Illinois. The costs of the meetings shall be borne by the health care plan.

Section 80. Quality assessment program.

(a) A health care plan shall develop and implement a quality assessment and improvement strategy designed to identify and evaluate accessibility, continuity, and quality of care. The health care plan shall have:

(1) an ongoing, written, internal quality assessment program;

(2) specific written guidelines for monitoring and evaluating the quality and appropriateness of care and services provided to enrollees requiring the health care plan to assess:

(A) the accessibility to health care providers;

(B) appropriateness of utilization;

(C) concerns identified by the health care plan's medical or administrative staff and enrollees; and

(D) other aspects of care and service directly related to the improvement of quality of care;

(3) a procedure for remedial action to correct quality problems that have been verified in accordance with the written plan's methodology and criteria, including written procedures for taking appropriate corrective action;

(4) follow-up measures implemented to evaluate the effectiveness of the action plan.

(b) The health care plan shall establish a committee that

oversees the quality assessment and improvement strategy which includes physician and enrollee participation.

(c) Reports on quality assessment and improvement activities shall be made to the governing body of the health care plan not less

than quarterly.

(d) The health care plan shall make available its written description of the quality assessment program to the Department of Public Health.

(e) With the exception of subsection (d), the Department of Public Health shall accept evidence of accreditation with regard to the health care network quality management and performance improvement standards of:

(1) the National Commission on Quality Assurance (NCQA);

(2) the American Accreditation Healthcare Commission (URAC);

(3) the Joint Commission on Accreditation of Healthcare Organizations (JCAHO); or

(4) any other entity that the Director of Public Health deems has substantially similar or more stringent standards than provided for in this Section.

(f) If the Department of Public Health determines that a health care plan is not in compliance with the terms of this Section, it shall certify the finding to the Department of Insurance. The Department of Insurance shall subject a health care plan to penalties, as provided in this Act, for such non-compliance.

Section 85. Utilization review program registration.

(a) No person may conduct a utilization review program in this State unless once every 2 years the person registers the utilization review program with the Department and certifies compliance with the Health Utilization Management Standards of the American Accreditation Healthcare Commission (URAC) sufficient to achieve American Accreditation Healthcare Commission (URAC) accreditation or submits evidence of accreditation by the American Accreditation Healthcare Commission (URAC) for its Health Utilization Management Standards. Nothing in this Act shall be construed to require a health care plan or its subcontractors to become American Accreditation Healthcare Commission (URAC) accredited.

(b) In addition, the Director of the Department, in consultation with the Director of the Department of Public Health, may certify alternative utilization review standards of national accreditation organizations or entities in order for plans to comply with this Section. Any alternative utilization review standards shall meet or exceed those standards required under subsection (a).

(c) The provisions of this Section do not apply to:

(1) persons providing utilization review program services only to the federal government;

(2) self-insured health plans under the federal Employee Retirement Income Security Act of 1974, however, this Section does apply to persons conducting a utilization review program on behalf of these health plans;

(3) hospitals and medical groups performing utilization review activities for internal purposes unless the utilization

review program is conducted for another person.

Nothing in this Act prohibits a health care plan or other entity from contractually requiring an entity designated in item (3) of this subsection to adhere to the utilization review program requirements of this Act.

(d) This registration shall include submission of all of the following information regarding utilization review program activities:

(1) The name, address, and telephone number of the utilization review programs.

(2) The organization and governing structure of the utilization review programs.

(3) The number of lives for which utilization review is

SENATE

4431

conducted by each utilization review program.

(4) Hours of operation of each utilization review program.

(5) Description of the grievance process for each utilization review program.

(6) Number of covered lives for which utilization review was conducted for the previous calendar year for each utilization review program.

(7) Written policies and procedures for protecting confidential information according to applicable State and federal laws for each utilization review program.

(e) (1) A utilization review program shall have written procedures for assuring that patient-specific information obtained during the process of utilization review will be:

(A) kept confidential in accordance with applicable State and federal laws; and

(B) shared only with the enrollee, the enrollee's designee, the enrollee's health care provider, and those who are authorized by law to receive the information.

Summary data shall not be considered confidential if it does not provide information to allow identification of individual patients or health care providers.

(2) Only a health care professional may make determinations regarding the medical necessity of health care services during the course of utilization review.

(3) When making retrospective reviews, utilization review programs shall base reviews solely on the medical information available to the attending physician or ordering provider at the time the health care services were provided.

(4) When making prospective, concurrent, and retrospective determinations, utilization review programs shall collect only information that is necessary to make the determination and shall not routinely require health care providers to numerically code diagnoses or procedures to be considered for certification, unless required under State or federal Medicare or Medicaid rules or regulations, but may request such code if available, or routinely request copies of medical records of all enrollees reviewed. During prospective or concurrent review, copies of medical records shall only be required when necessary to verify that the health care services subject to review are medically

necessary. In these cases, only the necessary or relevant sections of the medical record shall be required.

(f) If the Department finds that a utilization review program is not in compliance with this Section, the Department shall issue a corrective action plan and allow a reasonable amount of time for compliance with the plan. If the utilization review program does not come into compliance, the Department may issue a cease and desist order. Before issuing a cease and desist order under this Section, the Department shall provide the utilization review program with a written notice of the reasons for the order and allow a reasonable amount of time to supply additional information demonstrating compliance with requirements of this Section and to request a hearing. The hearing notice shall be sent by certified mail, return receipt requested, and the hearing shall be conducted in accordance with the Illinois Administrative Procedure Act.

(g) A utilization review program subject to a corrective action may continue to conduct business until a final decision has been issued by the Department.

(h) Any adverse determination made by a health care plan or its subcontractors may be appealed in accordance with subsection (f) of Section 45.

(i) The Director may by rule establish a registration fee for

each person conducting a utilization review program. All fees paid to and collected by the Director under this Section shall be deposited into the Insurance Producer Administration Fund.

Section 90. Office of Consumer Health Insurance.

(a) The Director of Insurance shall establish the Office of Consumer Health Insurance within the Department of Insurance to provide assistance and information to all health care consumers within the State. Within the appropriation allocated, the Office shall provide information and assistance to all health care consumers by:

(1) assisting consumers in understanding health insurance marketing materials and the coverage provisions of individual plans;

(2) educating enrollees about their rights within individual plans;

(3) assisting enrollees with the process of filing formal grievances and appeals;

(4) establishing and operating a toll-free "800" telephone number line to handle consumer inquiries;

(5) making related information available in languages other than English that are spoken as a primary language by a significant portion of the State's population, as determined by the Department;

(6) analyzing, commenting on, monitoring, and making publicly available reports on the development and implementation of federal, State, and local laws, regulations, and other governmental policies and actions that pertain to the adequacy of health care plans, facilities, and services in the State;

(7) filing an annual report with the Governor, the Director, and the General Assembly, which shall contain

recommendations for improvement of the regulation of health insurance plans, including recommendations on improving health care consumer assistance and patterns, abuses, and progress that it has identified from its interaction with health care consumers; and

(8) performing all duties assigned to the Office by the Director.

(b) The report required under subsection (a)(7) shall be filed by January 31, 2001 and each January 31 thereafter.

(c) Nothing in this Section shall be interpreted to authorize access to or disclosure of individual patient or health care professional or provider records.

Section 95. Prohibited activity. No health care plan or its subcontractors by contract, written policy, or procedure shall contain any clause attempting to transfer or transferring to a health care provider by indemnification, hold harmless, or contribution requirements concerning any liability relating to activities, actions, or omissions of the health care plan or its officers, employees, or agents. Nothing in this Section shall relieve any person or health care provider from liability for his, her, or its own negligence in the performance of his, her, or its duties arising from treatment of a patient. The Illinois General Assembly finds it to be against public policy for a person to transfer liability in such a manner.

Section 100. Prohibition of waiver of rights. No health care plan or contract shall contain any provision, policy, or procedure that limits, restricts, or waives any of the rights set forth in this Act. Any such policy or procedure shall be void and unenforceable.

Section 105. Administration and enforcement. The Director of Insurance may adopt rules necessary to implement the Department's responsibilities under this Act.

To enforce the provisions of this Act, the Director may issue a cease and desist order or require a health care plan to submit a plan of correction for violations of this Act, or both. Subject to the provisions of the Illinois Administrative Procedure Act, the Director may, pursuant to Section 403A of the Illinois Insurance Code, impose upon a health care plan an administrative fine not to exceed \$250,000 for failure to submit a requested plan of correction, failure to comply with its plan of correction, or repeated violations of the Act.

Any person who believes that his or her health care plan is in violation of the provisions of this Act may file a complaint with the Department. The Department shall review all complaints received and investigate all of those complaints that it deems to state a potential violation. The Department shall establish rules to fairly, efficiently, and timely review and investigate complaints. Health care plans found to be in violation of this Act shall be penalized in accordance with this Section.

Section 110. Applicability and scope. This Act applies to policies and contracts amended, delivered, issued, or renewed on or after the effective date of this Act. This Act does not diminish a health care plan's duties and responsibilities under other federal or

State law or rules promulgated thereunder.

Section 115. Effect on benefits under Workers' Compensation Act and Workers' Occupational Diseases Act. Nothing in this Act shall be construed to expand, modify, or restrict the health care benefits provided to employees under the Workers' Compensation Act and Workers' Occupational Diseases Act.

Section 120. Severability. The provisions of this Act are severable under Section 1.31 of the Statute on Statutes.

Section 200. The State Employees Group Insurance Act of 1971 is amended by changing Sections 3 and 10 and adding Section 6.12 as follows:

(5 ILCS 375/3) (from Ch. 127, par. 523)

Sec. 3. Definitions. Unless the context otherwise requires, the following words and phrases as used in this Act shall have the following meanings. The Department may define these and other words and phrases separately for the purpose of implementing specific programs providing benefits under this Act.

(a) "Administrative service organization" means any person, firm or corporation experienced in the handling of claims which is fully qualified, financially sound and capable of meeting the service requirements of a contract of administration executed with the Department.

(b) "Annuitant" means (1) an employee who retires, or has retired, on or after January 1, 1966 on an immediate annuity under the provisions of Articles 2, 14, 15 (including an employee who has retired under the optional retirement program established under Section 15-158.2), paragraphs (2), (3), or (5) of Section 16-106, or Article 18 of the Illinois Pension Code; (2) any person who was receiving group insurance coverage under this Act as of March 31, 1978 by reason of his status as an annuitant, even though the annuity in relation to which such coverage was provided is a proportional annuity based on less than the minimum period of service required for a retirement annuity in the system involved; (3) any person not otherwise covered by this Act who has retired as a participating member under Article 2 of the Illinois Pension Code but is ineligible for the retirement annuity under Section 2-119 of the Illinois Pension Code; (4) the spouse of any person who is receiving a retirement annuity under Article 18 of the Illinois Pension Code and who is covered under a group health insurance program sponsored by a governmental employer other than the State of Illinois and who has

(a-1) Beginning January 1, 1998, for each person who becomes a new SERS annuitant and participates in the basic program of group health benefits, the State shall contribute toward the cost of the annuitant's coverage under the basic program of group health benefits

(a-5) Beginning January 1, 1998, for each person who becomes a new SURS survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service in the State Universities Retirement System on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of creditable service. The remainder of the cost of the new SURS survivor's coverage under the basic program of group health benefits shall be the responsibility of the survivor.

The remainder of the cost of a new TRS State annuitant's coverage under the basic program of group health benefits shall be the responsibility of the annuitant.

(a-7) Beginning July 1, 1998, for each person who becomes a new

TRS State survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service as a teacher as defined in paragraph (2), (3), or (5) of Section 16-106 of the

Illinois Pension Code on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of such creditable service. (a-8) A new SERS annuitant, new SERS survivor, new SURS annuitant, new SURS retired employee, new SURS survivor, new TRS State annuitant, or new TRS State survivor may waive or terminate coverage in the program of group health benefits. Any such annuitant, survivor, or retired employee who has waived or terminated coverage may enroll or re-enroll in the program of group health benefits only during the annual benefit choice period, as determined by the Director; except that in the event of termination of coverage due to nonpayment of premiums, the annuitant, survivor, or retired employee may not re-enroll in the program.

(a-9) No later than May 1 of each calendar year, the Director of Central Management Services shall certify in writing to the Executive Secretary of the State Employees' Retirement System of Illinois the amounts of the Medicare supplement health care premiums and the amounts of the health care premiums for all other retirees who are not Medicare eligible.

A separate calculation of the premiums based upon the actual cost of each health care plan shall be so certified.

If the employee elects coverage, the State shall contribute on behalf of such employee to the cost of the employee's benefit and any applicable dependent supplement, that sum which bears the same percentage as that percentage of time the employee regularly works when compared to normal work period.

(c) The basic non-contributory coverage from the basic program of group health benefits shall be continued for each employee not in pay status or on active service by reason of (1) leave of absence due to illness or injury, (2) authorized educational leave of absence or sabbatical leave, or (3) military leave with pay and benefits. This coverage shall continue until expiration of authorized leave and return to active service, but not to exceed 24 months for leaves under item (1) or (2). This 24-month limitation and the requirement of returning to active service shall not apply to persons receiving ordinary or accidental disability benefits or retirement benefits through the appropriate State retirement system or benefits under the Workers' Compensation or Occupational Disease Act.

(d) The basic group life insurance coverage shall continue, with full State contribution, where such person is (1) absent from active service by reason of disability arising from any cause other than self-inflicted, (2) on authorized educational leave of absence or sabbatical leave, or (3) on military leave with pay and benefits.

(e) Where the person is in non-pay status for a period in excess of 30 days or on leave of absence, other than by reason of disability, educational or sabbatical leave, or military leave with pay and benefits, such person may continue coverage only by making personal payment equal to the amount normally contributed by the State on such person's behalf. Such payments and coverage may be continued: (1) until such time as the person returns to a status eligible for coverage at State expense, but not to exceed 24 months, (2) until such person's employment or annuitant status with the State is terminated, or (3) for a maximum period of 4 years for members on military leave with pay and benefits and military leave without pay and benefits (exclusive of any additional service imposed pursuant to law).

(f) The Department shall establish by rule the extent to which other employee benefits will continue for persons in non-pay status or who are not in active service.

(g) The State shall not pay the cost of the basic non-contributory group life insurance, program of health benefits and other employee benefits for members who are survivors as defined by paragraphs (1) and (2) of subsection (q) of Section 3 of this Act. The costs of benefits for these survivors shall be paid by the survivors or by the University of Illinois Cooperative Extension Service, or any combination thereof. However, the State shall pay the amount of the reduction in the cost of participation, if any, resulting from the amendment to subsection (a) made by this amendatory Act of the 91st General Assembly.

To participate, a unit of local government must agree to enroll all of its employees, who may select coverage under either the State group health insurance plan or a health maintenance organization that has contracted with the State to be available as a health care provider for employees as defined in this Act. A unit of local government must remit the entire cost of providing coverage under the State group health insurance plan or, for coverage under a health maintenance organization, an amount determined by the Director based on an analysis of the sex, age, geographic location, or other relevant demographic variables for its employees, except that the unit of local government shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the unit of local government attests

that each employee not enrolled is a covered spouse or dependent under this plan or another group policy or plan, and (2) at least 85% of the employees are enrolled and the unit of local government remits the entire cost of providing coverage to those employees. Employees of a participating unit of local government who are not enrolled due to coverage under another group health policy or plan may enroll at a later date subject to submission of satisfactory evidence of

insurability and provided that no benefits shall be payable for services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. A participating unit of local government may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with the costs paid by the unit of local government, its employees, or some combination of the two as determined by the unit of local government. The unit of local government shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine monthly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages, or contributed by the State for basic insurance coverages on behalf of its employees, adjusted for differences between State employees and employees of the local government in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the unit of local government and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the unit of local government.

In the case of coverage of local government employees under a health maintenance organization, the Director shall annually determine for each participating unit of local government the maximum monthly amount the unit may contribute toward that coverage, based on an analysis of (i) the age, sex, geographic location, and other relevant demographic variables of the unit's employees and (ii) the cost to cover those employees under the State group health insurance plan. The Director may similarly determine the maximum monthly amount each unit of local government may contribute toward coverage of its employees' dependents under a health maintenance organization.

Monthly payments by the unit of local government or its employees for group health insurance or health maintenance organization coverage shall be deposited in the Local Government Health Insurance Reserve Fund. The Local Government Health Insurance Reserve Fund shall be a continuing fund not subject to fiscal year limitations. All expenditures from this fund shall be used for payments for health care benefits for local government and rehabilitation facility employees, annuitants, and dependents, and to reimburse the Department or its administrative service organization for all expenses incurred in the administration of benefits. No other State

funds may be used for these purposes.

A local government employer's participation or desire to participate in a program created under this subsection shall not limit that employer's duty to bargain with the representative of any collective bargaining unit of its employees.

(j) Any rehabilitation facility within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a rehabilitation facility must agree to enroll all of its employees and remit the entire cost of providing such coverage for its employees, except that the rehabilitation facility shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the rehabilitation facility attests that each employee not enrolled is a covered spouse or dependent under

this plan or another group policy or plan, and (2) at least 85% of the employees are enrolled and the rehabilitation facility remits the entire cost of providing coverage to those employees. Employees of a participating rehabilitation facility who are not enrolled due to coverage under another group health policy or plan may enroll at a later date subject to submission of satisfactory evidence of insurability and provided that no benefits shall be payable for services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. A participating rehabilitation facility may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with the costs paid by the rehabilitation facility, its employees, or some combination of the 2 as determined by the rehabilitation facility. The rehabilitation facility shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine quarterly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the rehabilitation facility in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the rehabilitation facility and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the rehabilitation facility.

Monthly payments by the rehabilitation facility or its employees for group health insurance shall be deposited in the Local Government Health Insurance Reserve Fund.

(k) Any domestic violence shelter or service within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a domestic violence shelter or

service must agree to enroll all of its employees and pay the entire cost of providing such coverage for its employees. A participating domestic violence shelter may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with employees, or some combination of the 2 as determined by the domestic violence shelter or service. The domestic violence shelter or service shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine quarterly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the domestic violence shelter or service in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the domestic violence shelter or service and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the domestic violence shelter or service.

(3) In no case shall the rate be less than the amount normally charged to State employees or contributed by the State

on behalf of its employees.

Monthly payments by the domestic violence shelter or service or its employees for group health insurance shall be deposited in the Local Government Health Insurance Reserve Fund.

(1) A public community college or entity organized pursuant to the Public Community College Act may apply to the Director initially to have only annuitants not covered prior to July 1, 1992 by the district's health plan provided health coverage under this Act on a non-insured basis. The community college must execute a 2-year contract to participate in the Local Government Health Plan. Those annuitants enrolled initially under this contract shall have no benefits payable for services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. Any annuitant who may enroll after this initial enrollment period shall be subject to submission of satisfactory evidence of insurability and to the pre-existing conditions limitation.

The Director shall annually determine monthly rates of payment subject to the following constraints: for those community colleges with annuitants only enrolled, first year rates shall be equal to the average cost to cover claims for a State member adjusted for demographics, Medicare participation, and other factors; and in the second year, a further adjustment of rates shall be made to reflect the actual first year's claims experience of the covered annuitants.

(m) The Director shall adopt any rules deemed necessary for implementation of this amendatory Act of 1989 (Public Act 86-978).

An HPG shall not be prevented from supplementing health insurance coverage purchased under this Act by contracting for services from entities licensed and authorized in Illinois to provide those services under the Dental Service Plan Act, the Limited Health Service Organization Act, or Voluntary Health Services Plans Act. An HPG may be a separate legal entity or simply a group of 2 or more employers with no more than 500 covered employees each ~~2,500 covered individuals~~ aggregated under this Act by an HPG sponsor or risk-bearer for insurance purposes. (c) If an HPG is formed by any 2 or more employers with no more than 500 covered employees each ~~2,500 covered individuals~~, it is authorized to negotiate, solicit, market, obtain proposals for, and enter into group or master health insurance contracts on behalf of its members and their employees and employee dependents so long as it meets all of the following requirements:

(40 ILCS 5/4-108) (from Ch. 108 1/2, par. 4-108)
Sec. 4-108. Creditable service.

(b) Furloughs and leaves of absence of 30 days or less in any one year may be counted as creditable service, if the firefighter makes the contribution to the fund that would have been required had he or she not been on furlough or leave of absence. The total amount of such creditable service shall not exceed 5 years, except that any firefighter who on July 1, 1973 had more than 5 years of such creditable service shall receive the total amount thereof as of that date.

(2) Service prior to July 1, 1976 by a firefighter

initially excluded from participation by reason of age who elected to participate and paid the required contributions for such service.

(3) Up to 8 years of service by a firefighter as an officer in a statewide firefighters' association when he is on a leave of absence from a municipality's payroll, provided that (i) the firefighter has at least 10 years of creditable service as an active firefighter, (ii) the firefighter contributes to the fund the amount that he would have contributed had he remained an active member of the fund, and (iii) the employee or statewide firefighter association contributes to the fund an amount equal to the employer's required contribution as determined by the

board.

(4) Time spent as an on-call fireman for a municipality, calculated at the rate of one year of creditable service for each 5 years of time spent as an on-call fireman, provided that (i) the firefighter has at least 18 years of creditable service as an active firefighter, (ii) the firefighter spent at least 14 years as an on-call firefighter for the municipality, (iii) the firefighter applies for such creditable service within 30 days after the effective date of this amendatory Act of 1989, (iv) the firefighter contributes to the Fund an amount representing employee contributions for the number of years of creditable service granted under this subdivision (4), based on the salary and contribution rate in effect for the firefighter at the date of entry into the Fund, to be determined by the board, and (v) not more than 3 years of creditable service may be granted under this subdivision (4).

Creditable service shall not under any other circumstances include time spent as a volunteer firefighter, whether or not any compensation was received therefor. The change made in this Section by Public Act 83-0463 is intended to be a restatement and clarification of existing law, and does not imply that creditable service was previously allowed under this Article for time spent as a volunteer firefighter.

(5) Time served between July 1, 1976 and July 1, 1988 in the position of protective inspection officer or administrative assistant for fire services, for a municipality with a population under 10,000 that is located in a county with a population over 3,000,000 and that maintains a firefighters' pension fund under this Article, if the position included firefighting duties, notwithstanding that the person may not have held an appointment as a firefighter, provided that application is made to the pension fund within 30 days after the effective date of this amendatory Act of 1991, and the corresponding contributions are paid for the number of years of service granted, based upon the salary and contribution rate in effect for the firefighter at the date of entry into the pension fund, as determined by the Board.

These contributions may be paid at

any time prior to the commencement of a retirement pension. The firefighter may, but need not, elect to have the contributions deducted from the disability pension or to pay them in

installments on a schedule approved by the board. If not deducted from the disability pension, the contributions shall include interest at the rate of 6% per year, compounded annually, from the date for which service credit is being established to the date of payment. If contributions are paid under this subdivision (c)(7) in excess of those needed to establish the credit, the excess shall be refunded. This subdivision (c)(7) applies to persons receiving a disability pension under Section 4-110, 4-110.1, or 4-111 on the effective date of this amendatory Act of the 91st General Assembly, as well as persons who begin to receive such a disability pension after that date.

the municipality he or she serves as a firefighter, if the assignment is related to the fire protection service of the municipality.

Such firefighter shall also be entitled to a child's disability benefit of \$20 a month on account of each unmarried child less than 18 years of age and dependent upon the firefighter for support, either the issue of the firefighter or legally adopted by him or her. (40 ILCS 5/4-110.1) (from Ch. 108 1/2, par. 4-110.1)

Sec. 4-110.1. Occupational disease disability pension. The General Assembly finds that service in the fire department requires firefighters in times of stress and danger to perform unusual tasks; that firefighters are subject to exposure to extreme heat or extreme cold in certain seasons while performing their duties; that they are required to work in the midst of and are subject to heavy smoke fumes, and carcinogenic, poisonous, toxic or chemical gases from fires; and that these conditions exist and arise out of or in the course of employment.

An active firefighter with 5 or more years of creditable service who is found, pursuant to Section 4-112, unable to perform his or her duties in the fire department by reason of heart disease, stroke, tuberculosis, or any disease of the lungs or respiratory tract, resulting from service as a firefighter, is entitled to an occupational disease disability pension during any period of such disability for which he or she has no right to receive salary.

Any active firefighter who has completed 5 or more years of service and is unable to perform his or her duties in the fire department by reason of a disabling cancer, which develops or manifests itself during a period while the firefighter is in the service of the fire department, shall be entitled to receive an occupational disease disability benefit during any period of such disability for which he or she does not have a right to receive salary. In order to receive this occupational disease disability benefit, (i) the type of cancer involved must be a type which may be caused by exposure to heat, radiation or a known carcinogen as defined by the International Agency for Research on Cancer and (ii)

JOURNAL OF THE

the cancer must (and is rebuttably presumed to) arise as a result of service as a firefighter.

A firefighter who enters the service after August 27, 1971 shall be examined by one or more practicing physicians appointed by the board. If the examination discloses impairment of the heart, lungs or respiratory tract, or the existence of any cancer, the firefighter shall not be entitled to the occupational disease disability pension unless and until a subsequent examination reveals no such impairment or cancer.

The occupational disease disability pension shall be equal to the greater of (1) 65% of the salary attached to the rank held by the firefighter in the fire service at the time of his or her removal from the municipality's fire department payroll or (2) the retirement pension that the firefighter would be eligible to receive if he or she retired (but not including any automatic annual increase in that retirement pension).

The firefighter is also entitled to a child's disability benefit of \$20 a month for each natural or legally adopted unmarried child less than age 18 dependent upon the firefighter for support. The total child's disability benefit when added to the occupational disease disability pension shall not exceed 75% of the firefighter's salary at the time of the grant of occupational disease disability pension.

The occupational disease disability pension is payable to the

firefighter during the period of the disability. If the disability ceases before the death of the firefighter, the disability pension payable under this Section shall also cease and the firefighter thereafter shall receive such pension benefits as are provided in accordance with other provisions of this Article.

If a firefighter dies while still disabled and receiving a disability pension under this Section, the disability pension shall continue to be paid to the firefighter's survivors but shall, from the date of death, become subject to the requirements, including limitations on amount, that are provided for pensions to survivors under Section 4-114. A pension previously granted under Section 4-114 to a survivor of a firefighter who died while receiving a disability pension under this Section shall be deemed to be a continuation of the pension provided under this Section and shall be deemed to be in the nature of worker's occupational disease compensation payments. The changes to this Section made by this amendatory Act of 1995 are intended to be retroactive and are not limited to persons in service on or after its effective date.

The child's disability benefit shall terminate if the disability ceases while the firefighter is alive or when the child or children attain age 18 or marry, whichever event occurs first, except that benefits payable on account of a child under this Section shall not be reduced or terminated by reason of the child's attainment of age 18 if he or she is then dependent by reason of a physical or mental disability but shall continue to be paid as long as such dependency continues. Individuals over the age of 18 and adjudged as a disabled person pursuant to Article XIa of the Probate Act of 1975, except for persons receiving benefits under Article III of the Illinois Public Aid Code, shall be eligible to receive benefits under this Act.

(40 ILCS 5/4-114) (from Ch. 108 1/2, par. 4-114)

Sec. 4-114. Pension to survivors. If a firefighter who is not receiving a disability pension under Section 4-110 or 4-110.1 dies (1) as a result of any illness or accident, or (2) from any cause while in receipt of a disability pension under this Article, or (3) during retirement after 20 years service, or (4) while vested for or in receipt of a pension payable under subsection (b) of Section

4-109, or (5) while a deferred pensioner, having made all required contributions, a pension shall be paid to his or her survivors, based on the monthly salary attached to the firefighter's rank on the last day of service in the fire department, as follows:

(a) To the surviving spouse, a monthly pension of 40% of the monthly salary, and to the guardian of any minor child or children including a child which has been conceived but not yet born, 12% of such monthly salary for each such child until attainment of age 18 or until the child's marriage, whichever occurs first. Beginning July 1, 1993, the monthly pension to the surviving spouse shall be 54% of the monthly salary for all persons receiving a surviving spouse pension under this Article, regardless of whether the deceased firefighter was in service on or after the effective date of this amendatory Act of 1993.

The pension to the surviving spouse shall terminate in the event

of the surviving spouse's remarriage prior to July 1, 1993; remarriage on or after that date does not affect the surviving spouse's pension, regardless of whether the deceased firefighter was in service on or after the effective date of this amendatory Act of 1993.

The surviving spouse's pension shall be subject to the minimum established in Section 4-109.2.

(b) Upon the death of the surviving spouse leaving one or more minor children, to the duly appointed guardian of each such child, for support and maintenance of each such child until the child reaches age 18 or marries, whichever occurs first, a monthly pension of 20% of the monthly salary.

(c) If a deceased firefighter leaves no surviving spouse or unmarried minor children under age 18, but leaves a dependent father or mother, to each dependent parent a monthly pension of 18% of the monthly salary. To qualify for the pension, a dependent parent must furnish satisfactory proof that the deceased firefighter was at the time of his or her death the sole supporter of the parent or that the parent was the deceased's dependent for federal income tax purposes.

(d) The total pension provided under paragraphs (a), (b) and (c) of this Section shall not exceed 75% of the monthly salary of the deceased firefighter (1) when paid to the survivor of a firefighter who has attained 20 or more years of service credit and who receives or is eligible to receive a retirement pension under this Article, or (2) when paid to the survivor of a firefighter who dies as a result of illness or accident, or (3) when paid to the survivor of a firefighter who dies from any cause while in receipt of a disability pension under this Article, or (4) when paid to the survivor of a deferred pensioner. For all other survivors of deceased firefighters, the total pension provided under paragraphs (a), (b) and (c) of this Section shall not exceed 50% of the retirement annuity the firefighter would have received on the date of death.

(e) If a firefighter leaves no eligible survivors under paragraphs (a), (b) and (c), the board shall refund to the firefighter's estate the amount of his or her accumulated contributions, less the amount of pension payments, if any, made to the firefighter while living.

(f) An adopted child is eligible for the pension provided under paragraph (a) if the child was adopted before the firefighter attained age 50.

(g) If a judgment of dissolution of marriage between a firefighter and spouse is judicially set aside subsequent to the firefighter's death, the surviving spouse is eligible for the pension provided in paragraph (a) only if the judicial proceedings are filed within 2 years after the date of the dissolution of marriage and within one year after the firefighter's death and the board is made a

party to the proceedings. In such case the pension shall be payable only from the date of the court's order setting aside the judgment of dissolution of marriage.

(h) Benefits payable on account of a child under this Section shall not be reduced or terminated by reason of the child's attainment of age 18 if he or she is then dependent by reason of a

physical or mental disability but shall continue to be paid as long as such dependency continues. Individuals over the age of 18 and adjudged as a disabled person pursuant to Article XIa of the Probate Act of 1975, except for persons receiving benefits under Article III of the Illinois Public Aid Code, shall be eligible to receive benefits under this Act.

(i) Beginning January 1, 2000, the pension of the surviving spouse of a firefighter who dies on or after January 1, 1994 as a result of sickness, accident, or injury incurred in or resulting from the performance of an act of duty or from the cumulative effects of acts of duty shall not be less than 100% of the salary attached to the rank held by the deceased firefighter on the last day of service, notwithstanding subsection (d) or any other provision of this Article.

AMENDMENT NO. 3 TO SENATE BILL 941

AMENDMENT NO. 3. Amend Senate Bill 941 by replacing the title with the following:

"AN ACT to amend the Local Governmental and Governmental Employees Tort Immunity Act by changing Section 9-107."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Local Governmental and Governmental Employees Tort Immunity Act is amended by changing Section 9-107 as follows:

(745 ILCS 10/9-107) (from Ch. 85, par. 9-107)

Sec. 9-107. Tax levy. A local public entity may annually levy or have levied on its behalf taxes upon all taxable property within its territory at a rate that will produce a sum that will be sufficient to: (i) pay the cost of insurance, individual or joint self-insurance (including reserves thereon), including all operating and administrative costs and expenses directly associated therewith, claims services and risk management directly attributable to loss prevention and loss reduction, legal services directly attributable to the insurance, self-insurance, or joint self-insurance program, and educational, inspectional, and supervisory services directly relating to loss prevention and loss reduction, participation in a reciprocal insurer as provided in Sections 72, 76, and 81 of the

all as provided in settlements or judgments under Section 9-102, including all costs and reserves directly attributable to being a member of an insurance pool, under Section 9-103; (ii) pay the costs of and principal and interest on bonds issued under Section 9-105; (iii) pay judgments and settlements under Section 9-104; and (iv) discharge obligations under Section 34-18.1 of The School Code, as now or hereafter amended, and to pay the cost of risk management programs. Provided it complies with any other applicable statutory requirements, the local public entity may self-insure and establish reserves for expected losses for any liability or loss for which the local public entity is authorized to levy or have levied on its behalf taxes for the purchase of insurance or the payment of judgments or settlements under this Section. The decision of the board to establish a reserve shall be based on reasonable actuarial or insurance underwriting evidence and subject to the limits and reporting provisions in Section 9-103.

Funds raised pursuant to this Section shall only be used for the purposes specified in this Act, including protection against and reduction of any liability or loss described hereinabove and under Federal or State common or statutory law, the Workers' Compensation Act, the Workers' Occupational Diseases Act and the Unemployment Insurance Act. Funds raised pursuant to this Section may be invested in any manner in which other funds of local public entities may be invested under Section 2 of the Public Funds Investment Act. Interest on such funds shall be used only for purposes for which the funds can be used or, if surplus, must be used for abatement of property taxes levied by the local taxing entity.

A local public entity may enter into intergovernmental contracts with a term of not to exceed 12 years for the provision of joint self-insurance which contracts may include an obligation to pay a proportional share of a general obligation or revenue bond or other debt instrument issued by a local public entity which is a party to the intergovernmental contract and is authorized by the terms of the contract to issue the bond or other debt instrument. Funds due under such contracts shall not be considered debt under any constitutional or statutory limitation and the local public entity may levy or have levied on its behalf taxes to pay for its proportional share under the contract. Funds raised pursuant to intergovernmental contracts for the provision of joint self-insurance may only be used for the payment of any cost, liability or loss against which a local public entity may protect itself or self-insure pursuant to Section 9-103 or for the payment of which such entity may levy a tax pursuant to this Section, including tort judgments or settlements, costs associated with the issuance, retirement or refinancing of the bonds or other debt instruments, the repayment of the principal or interest of the bonds or other debt instruments, the costs of the administration of the joint self-insurance fund, consultant, and risk care management programs or the costs of insurance. Any surplus returned to the local public entity under the terms of the intergovernmental contract shall be used only for purposes set forth in subsection (a) of Section 9-103 and Section 9-107 or for abatement of property taxes levied by the local taxing entity.

Any tax levied under this Section shall be levied and collected in like manner with the general taxes of the entity and shall be exclusive of and in addition to the amount of tax that entity is now or may hereafter be authorized to levy for general purposes under any statute which may limit the amount of tax which that entity may levy

for general purposes. The county clerk of the county in which any part of the territory of the local taxing entity is located, in reducing tax levies under the provisions of any Act concerning the

[May 27, 1999]

levy and extension of taxes, shall not consider any tax provided for by this Section as a part of the general tax levy for the purposes of the entity nor include such tax within any limitation of the percent of the assessed valuation upon which taxes are required to be extended for such entity.

With respect to taxes levied under this Section, either before, on, or after the effective date of this amendatory Act of 1994:

(1) Those taxes are excepted from and shall not be included within the rate limitation imposed by law on taxes levied for general corporate purposes by the local public entity authorized to levy a tax under this Section.

(2) Those taxes that a local public entity has levied in reliance on this Section and that are excepted under paragraph (1) from the rate limitation imposed by law on taxes levied for general corporate purposes by the local public entity are not invalid because of any provision of the law authorizing the local public entity's tax levy for general corporate purposes that may be construed or may have been construed to restrict or limit those taxes levied, and those taxes are hereby validated. This validation of taxes levied applies to all cases pending on or after the effective date of this amendatory Act of 1994.

(3) Paragraphs (1) and (2) do not apply to a hospital organized under Article 170 or 175 of the Township Code, under the Town Hospital Act, or under the Township Non-Sectarian Hospital Act and do not give any authority to levy taxes on behalf of such a hospital in excess of the rate limitation imposed by law on taxes levied for general corporate purposes. A hospital organized under Article 170 or 175 of the Township Code, under the Town Hospital Act, or under the Township Non-Sectarian Hospital Act is not prohibited from levying taxes in support of tort liability bonds if the taxes do not cause the hospital's aggregate tax rate from exceeding the rate limitation imposed by law on taxes levied for general corporate purposes.

Revenues derived from such tax shall be paid to the treasurer of the local taxing entity as collected and used for the purposes of this Section and of Section 9-102, 9-103, 9-104 or 9-105, as the case may be. If payments on account of such taxes are insufficient during any year to meet such purposes, the entity may issue tax anticipation warrants against the current tax levy in the manner provided by statute.

AMENDMENT NO. 4 TO SENATE BILL 941

AMENDMENT NO. 4. Amend Senate Bill 941, AS AMENDED, by replacing the title with the following:

"AN ACT to amend the Local Governmental and Governmental Employees Tort Immunity Act by changing Sections 9-103 and 9-107."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Local Governmental and Governmental Employees Tort Immunity Act is amended by changing Sections 9-103 and 9-107 as follows:

(745 ILCS 10/9-103) (from Ch. 85, par. 9-103)

Sec. 9-103. (a) A local public entity may protect itself against any ~~liability~~, property damage or against any liability or loss which may be imposed upon it or one of its employees for a tortious act under Federal or State common or statutory law, or imposed upon it under the Workers' Compensation Act, the Workers' Occupational Diseases Act, or the Unemployment Insurance Act by means including, but not limited to, insurance, individual or joint self-insurance, including all operating and administrative costs and expenses

directly associated therewith, claims services and risk management directly attributable to loss prevention and loss reduction, legal services directly attributable to the insurance, self-insurance, or joint self-insurance program, educational, inspectional, and supervisory services directly relating to loss prevention and loss reduction, or participation in a reciprocal insurer as provided in Sections 72, 76 and 81 of the Illinois Insurance Code. Insurance shall be carried with a company authorized by the Department of Insurance to write such insurance coverage in Illinois.

(a-5) A local public entity may individually or jointly self-insure provided it complies with any other statutory requirements specifically related to individual or joint self-insurance by local public entities. Whenever the terms "self-insure" or "self-insurance" are utilized within this Act, such term shall apply to both individual and joint self-insurance. The expenditure of funds of a local public entity to protect itself or its employees against liability is proper for any local public entity. A local public entity that has individually self-insured may establish reserves for expected losses for any liability or loss for which the local public entity is authorized to purchase insurance under this Act. The decision of the local public entity to establish a reserve and the amount of the reserve shall be based on reasonable actuarial or insurance underwriting evidence. Property taxes shall not be levied or extended if the effect is to increase the reserve beyond 125% of the actuary's or insurance underwriter's estimated ultimate losses at the 95% confidence level. Certification of the amount of the reserve shall be made by the independent auditor, actuary, or insurance underwriter and included in an annual report. The annual report shall also list all expenditures from the reserve or from property taxes levied or extended for tort immunity purposes. Total claims payments and total reserves must be listed in aggregate amounts. All other expenditures must be identified individually. A local public entity that maintains a self-insurance reserve or that levies and extends a property tax for tort immunity purposes must include in its audit or annual report any expenditures made from the property tax levy or self-insurance reserve within the scope of the audit or annual report.

(b) A local public entity may contract for or purchase any of the guaranteed fund certificates or shares of guaranteed capital as provided for in Section 56 of the Illinois Insurance Code. The

expenditure of funds of the local public entity for said contract or purchase is proper for any local public entity.

(c) Any insurance company that provides insurance coverage to a local public entity shall utilize any immunities or may assert any defenses to which the insured local public entity or its employees are entitled. Public entities which are individually or jointly self-insured shall be entitled to assert all of the immunities provided by this Act or by common law or statute on behalf of themselves or their employees unless the local public entities shall elect by action of their corporate authorities or specifically contract to waive in whole or in part such immunities.

(d) Within 30 days after January 1, 1991, and within 30 days after each January 1 thereafter, local public entities that are individually or jointly self-insured to protect against liability under the Workers' Compensation Act and the Workers' Occupational Diseases Act shall file with the Industrial Commission a report indicating an election to self-insure.

(745 ILCS 10/9-107) (from Ch. 85, par. 9-107)

Sec. 9-107. Policy; tax levy.

(a) The General Assembly finds that the purpose of this Section

is to provide an extraordinary tax for funding expenses relating to tort liability, insurance, and risk management programs. Thus, the tax has been excluded from various limitations otherwise applicable to tax levies. Notwithstanding the extraordinary nature of the tax authorized by this Section, however, it has become apparent that some units of local government are using the tax revenue to fund expenses more properly paid from general operating funds. These uses of the revenue are inconsistent with the limited purpose of the tax authorization.

Therefore, the General Assembly declares, as a matter of policy, that (i) the use of the tax revenue authorized by this Section for purposes not expressly authorized under this Act is improper and (ii) the provisions of this Section shall be strictly construed consistent with this declaration and the Act's express purposes.

(b) A local public entity may annually levy or have levied on its behalf taxes upon all taxable property within its territory at a rate that will produce a sum that will be sufficient to: (i) pay the cost of insurance, individual or joint self-insurance (including reserves thereon), including all operating and administrative costs and expenses directly associated therewith, claims services and risk management directly attributable to loss prevention and loss reduction, legal services directly attributable to the insurance, self-insurance, or joint self-insurance program, and educational, inspectional, and supervisory services directly relating to loss prevention and loss reduction, participation in a reciprocal insurer as provided in Sections 72, 76, and 81 of the Illinois Insurance Code, or participation in a reciprocal insurer, all as provided in settlements or judgments under Section 9-102, including all costs and reserves directly attributable to being a member of an insurance pool, under Section 9-103; (ii) pay the costs of and principal and interest on bonds issued under Section 9-105; (iii) pay judgments and

settlements under Section 9-104; and (iv) discharge obligations under Section 34-18.1 of The School Code, as now or hereafter amended, and to pay the cost of risk management programs. Provided it complies with any other applicable statutory requirements, the local public entity may self-insure and establish reserves for expected losses for any property damage or for any liability or loss for which the local public entity is authorized to levy or have levied on its behalf taxes for the purchase of insurance or the payment of judgments or settlements under this Section. The decision of the board to establish a reserve shall be based on reasonable actuarial or insurance underwriting evidence and subject to the limits and reporting provisions in Section 9-103.

Funds raised pursuant to this Section shall only be used for the purposes specified in this Act, including protection against and reduction of any liability or loss described hereinabove and under Federal or State common or statutory law, the Workers' Compensation Act, the Workers' Occupational Diseases Act and the Unemployment Insurance Act. Funds raised pursuant to this Section may be invested in any manner in which other funds of local public entities may be invested under Section 2 of the Public Funds Investment Act. Interest on such funds shall be used only for purposes for which the funds can be used or, if surplus, must be used for abatement of property taxes levied by the local taxing entity.

A local public entity may enter into intergovernmental contracts with a term of not to exceed 12 years for the provision of joint self-insurance which contracts may include an obligation to pay a proportional share of a general obligation or revenue bond or other debt instrument issued by a local public entity which is a party to the intergovernmental contract and is authorized by the terms of the contract to issue the bond or other debt instrument. Funds due under

such contracts shall not be considered debt under any constitutional or statutory limitation and the local public entity may levy or have levied on its behalf taxes to pay for its proportional share under the contract. Funds raised pursuant to intergovernmental contracts for the provision of joint self-insurance may only be used for the payment of any cost, liability or loss against which a local public entity may protect itself or self-insure pursuant to Section 9-103 or for the payment of which such entity may levy a tax pursuant to this Section, including tort judgments or settlements, costs associated with the issuance, retirement or refinancing of the bonds or other debt instruments, the repayment of the principal or interest of the bonds or other debt instruments, the costs of the administration of the joint self-insurance fund, consultant, and risk care management programs or the costs of insurance. Any surplus returned to the local public entity under the terms of the intergovernmental contract shall be used only for purposes set forth in subsection (a) of Section 9-103 and Section 9-107 or for abatement of property taxes levied by the local taxing entity.

Any tax levied under this Section shall be levied and collected in like manner with the general taxes of the entity and shall be exclusive of and in addition to the amount of tax that entity is now or may hereafter be authorized to levy for general purposes under any

statute which may limit the amount of tax which that entity may levy for general purposes. The county clerk of the county in which any part of the territory of the local taxing entity is located, in reducing tax levies under the provisions of any Act concerning the levy and extension of taxes, shall not consider any tax provided for by this Section as a part of the general tax levy for the purposes of the entity nor include such tax within any limitation of the percent of the assessed valuation upon which taxes are required to be extended for such entity.

With respect to taxes levied under this Section, either before, on, or after the effective date of this amendatory Act of 1994:

(1) Those taxes are excepted from and shall not be included within the rate limitation imposed by law on taxes levied for general corporate purposes by the local public entity authorized to levy a tax under this Section.

(2) Those taxes that a local public entity has levied in reliance on this Section and that are excepted under paragraph (1) from the rate limitation imposed by law on taxes levied for general corporate purposes by the local public entity are not invalid because of any provision of the law authorizing the local public entity's tax levy for general corporate purposes that may be construed or may have been construed to restrict or limit those taxes levied, and those taxes are hereby validated. This validation of taxes levied applies to all cases pending on or after the effective date of this amendatory Act of 1994.

(3) Paragraphs (1) and (2) do not apply to a hospital organized under Article 170 or 175 of the Township Code, under the Town Hospital Act, or under the Township Non-Sectarian Hospital Act and do not give any authority to levy taxes on behalf of such a hospital in excess of the rate limitation imposed by law on taxes levied for general corporate purposes. A hospital organized under Article 170 or 175 of the Township Code, under the Town Hospital Act, or under the Township Non-Sectarian Hospital Act is not prohibited from levying taxes in support of tort liability bonds if the taxes do not cause the hospital's aggregate tax rate from exceeding the rate limitation imposed by law on taxes levied for general corporate purposes.

Revenues derived from such tax shall be paid to the treasurer of the local taxing entity as collected and used for the purposes of

this Section and of Section 9-102, 9-103, 9-104 or 9-105, as the case may be. If payments on account of such taxes are insufficient during any year to meet such purposes, the entity may issue tax anticipation warrants against the current tax levy in the manner provided by statute.

(a) A parent not granted custody of the child is entitled to reasonable visitation rights unless the court finds, after a hearing, that visitation would endanger seriously the child's physical, mental, moral or emotional health. If the custodian's street address is not identified, pursuant to Section 708, the court shall require the parties to identify reasonable alternative arrangements for visitation by a non-custodial parent, including but not limited to visitation of the minor child at the residence of another person or at a local public or private facility.

(b) (1) The court may grant reasonable visitation privileges to a grandparent, great-grandparent, or sibling of any minor child upon petition to the court by the grandparents or great-grandparents or on behalf of the sibling, with notice to the parties required to be notified under Section 601 of this Act, if the court determines that it is in the best interests and welfare of the child, and may issue any necessary orders to enforce such visitation privileges. Except as provided in paragraph (2) of this subsection (b), a petition for visitation privileges may be filed under this paragraph (1) whether or not a petition pursuant to this Act has been previously filed or is currently pending if one or more of the following circumstances exist:

(A) the parents are not currently cohabiting on a permanent or an indefinite basis;

(B) one of the parents has been absent from the marital abode for more than one month without the spouse knowing his or her whereabouts;

(C) one of the parents is deceased;

(D) one of the parents joins in the petition with the grandparents, great-grandparents, or sibling; or

(E) a sibling is in State custody.

(1.5) The Court may grant reasonable visitation privileges to a stepparent upon petition to the court by the stepparent, with notice to the parties required to be notified under Section 601 of this Act, if the court determines that it is in the best interests and welfare of the child, and may issue any necessary orders to enforce those visitation privileges. A petition for visitation privileges may be filed under this paragraph (1.5) whether or not a petition pursuant to this Act has been previously filed or is currently pending if the following circumstances are met:

(A) the child is at least 12 years old;

(B) the child resided continuously with the parent and stepparent for at least 5 years;

(C) the parent is deceased or is disabled and is unable to care for the child;

(D) the child wishes to have reasonable visitation with the stepparent; and

(E) the stepparent was providing for the care, control, and welfare to the child prior to the initiation of the petition for visitation.

(2)(A) A petition for visitation privileges shall not be filed pursuant to this subsection (b) by the parents or grandparents of a putative father if the paternity of the putative father has not been legally established.

(B) A petition for visitation privileges may not be filed under this subsection (b) if the child who is the subject of the grandparents' or great-grandparents' petition has been voluntarily surrendered by the parent or parents, except for a surrender to the Illinois Department of Children and Family Services or a foster care facility, or has been previously adopted by an individual or individuals who are not related to the biological parents of the child or is the subject of a pending adoption petition by an individual or individuals who are not related to the biological parents of the child.

(3) When one parent is deceased, the surviving parent shall not interfere with the visitation rights of the grandparents.

(c) The court may modify an order granting or denying visitation rights of a parent whenever modification would serve the best interest of the child; but the court shall not restrict a parent's visitation rights unless it finds that the visitation would endanger seriously the child's physical, mental, moral or emotional health. The court may modify an order granting, denying, or limiting visitation rights of a grandparent, great-grandparent, or sibling of any minor child whenever a change of circumstances has occurred based on facts occurring subsequent to the judgment and the court finds by clear and convincing evidence that the modification is in the best interest of the minor child.

(d) If any court has entered an order prohibiting a non-custodial parent of a child from any contact with a child or restricting the non-custodial parent's contact with the child, the

following provisions shall apply:

(1) If an order has been entered granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent, the visitation privileges of the grandparent or great-grandparent may be revoked if:

(i) a court has entered an order prohibiting the non-custodial parent from any contact with the child, and the grandparent or great-grandparent is found to have used

his or her visitation privileges to facilitate contact between the child and the non-custodial parent; or

(ii) a court has entered an order restricting the non-custodial parent's contact with the child, and the grandparent or great-grandparent is found to have used his or her visitation privileges to facilitate contact between the child and the non-custodial parent in a manner that violates the terms of the order restricting the non-custodial parent's contact with the child.

Nothing in this subdivision (1) limits the authority of the court to enforce its orders in any manner permitted by law.

(2) Any order granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent shall contain the following provision:

"If the (grandparent or great-grandparent, whichever is applicable) who has been granted visitation privileges under this order uses the visitation privileges to facilitate contact between the child and the child's non-custodial parent, the visitation privileges granted under this order shall be permanently revoked."

(e) No parent, not granted custody of the child, or grandparent, or great-grandparent, or stepparent, or sibling of any minor child, convicted of any offense involving an illegal sex act perpetrated upon a victim less than 18 years of age including but not limited to offenses for violations of Article 12 of the Criminal Code of 1961, is entitled to visitation rights while incarcerated or while on parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for that offense, and upon discharge from incarceration for a misdemeanor offense or upon discharge from parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for a felony offense, visitation shall be denied until the person successfully completes a treatment program approved by the court.

(f) Unless the court determines, after considering all relevant factors, including but not limited to those set forth in Section 602(a), that it would be in the best interests of the child to allow visitation, the court shall not enter an order providing visitation rights and pursuant to a motion to modify visitation shall revoke visitation rights previously granted to any person who would otherwise be entitled to petition for visitation rights under this Section who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child who is the

subject of the order. Until an order is entered pursuant to this subsection, no person shall visit, with the child present, a person who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child without the consent of the child's parent, other than a parent convicted of first degree murder as set forth herein, or legal guardian.

(g) If an order has been entered limiting, for cause, a minor child's contact or visitation with a grandparent, great-grandparent, or sibling on the grounds that it was in the best interest of the child to do so, that order may be modified only upon a showing of a substantial change in circumstances occurring subsequent to the entry of the order with proof by clear and convincing evidence that modification is in the best interest of the minor child.

(750 ILCS 5/607) (from Ch. 40, par. 607)

Sec. 607. Visitation.

AN ACT to amend the Conservation District Act by changing Section 410/5.

ANTHONY D. ROSSI, Clerk of the House

A message from the House by

Mr. Rossi, Clerk:

Mr. President -- I am directed to inform the Senate that the House of Representatives has adopted the following conference committee report:

First Conference Committee Report to SENATE BILL NO. 19

Adopted by the House, May 27, 1999.

ANTHONY D. ROSSI, Clerk of the House

91ST GENERAL ASSEMBLY

FIRST CONFERENCE COMMITTEE REPORT

ON SENATE BILL 19

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendments Nos. 1, 2, and 3 to Senate Bill 19, recommend the following:

(1) that the House recede from House Amendments Nos. 1, 2, and 3; and

(2) that Senate Bill 19 be amended by replacing the title with the following:

4484

JOURNAL OF THE

[May 27, 1999]

"AN ACT regarding child support enforcement."; and
by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Non-Support Punishment Act.

Section 5. Prosecutions by State's Attorneys. A proceeding for enforcement of this Act may be instituted and prosecuted by the several State's Attorneys only upon the filing of a verified complaint by the person or persons receiving child or spousal support.

Section 7. Prosecutions by Attorney General. In addition to enforcement proceedings by the several State's Attorneys, a proceeding for the enforcement of this Act may be instituted and prosecuted by the Attorney General in cases referred by the Illinois Department of Public Aid involving persons receiving child and spouse support services under Article X of the Illinois Public Aid Code. Before referring a case to the Attorney General for enforcement under this Act, the Department of Public Aid shall notify the person receiving child and spouse support services under Article X of the Illinois Public Aid Code of the Department's intent to refer the case to the Attorney General under this Section for prosecution.

Section 10. Proceedings. Proceedings under this Act may be by indictment or information. No proceeding may be brought under Section 15 against a person whose court or administrative order for support was entered by default, unless the indictment or information specifically alleges that the person has knowledge of the existence of the order for support and that the person has the ability to pay the support.

Section 15. Failure to support.

(a) A person commits the offense of failure to support when he or she:

(1) willfully, without any lawful excuse, refuses to provide for the support or maintenance of his or her spouse, with the knowledge that the spouse is in need of such support or maintenance, or, without lawful excuse, deserts or willfully refuses to provide for the support or maintenance of his or her child or children under the age of 18 years, in need of support or maintenance and the person has the ability to provide the support; or

(2) willfully fails to pay a support obligation required under a court or administrative order for support, if the obligation has remained unpaid for a period longer than 6 months, or is in arrears in an amount greater than \$5,000, and the person has the ability to provide the support; or

(3) leaves the State with the intent to evade a support obligation required under a court or administrative order for support, if the obligation, regardless of when it accrued, has remained unpaid for a period longer than 6 months, or is in arrears in an amount greater than \$10,000; or

(4) willfully fails to pay a support obligation required under a court or administrative order for support, if the obligation has remained unpaid for a period longer than one year, or is in arrears in an amount greater than \$20,000, and the person has the ability to provide the support.

(a-5) Presumption of ability to pay support. The existence of a court or administrative order of support that was not based on a default judgment and was in effect for the time period charged in the indictment or information creates a rebuttable presumption that the obligor has the ability to pay the support obligation for that time period.

(b) Sentence. A person convicted of a first offense under subdivision (a)(1) or (a)(2) is guilty of a Class A misdemeanor. A

person convicted of an offense under subdivision (a)(3) or (a)(4) or a second or subsequent offense under subdivision (a)(1) or (a)(2) is guilty of a Class 4 felony.

(c) Expungement. A person convicted of a first offense under subdivision (a)(1) or (a)(2) who is eligible for the Earnfare program, shall, in lieu of the sentence prescribed in subsection (b), be referred to the Earnfare program. Upon certification of completion of the Earnfare program, the conviction shall be expunged. If the person fails to successfully complete the Earnfare program, he or she shall be sentenced in accordance with subsection (b).

(d) Fine. Sentences of imprisonment and fines for offenses

committed under this Act shall be as provided under Articles 8 and 9 of Chapter V of the Unified Code of Corrections, except that the court shall order restitution of all unpaid support payments and may impose the following fines, alone, or in addition to a sentence of imprisonment under the following circumstances:

(1) from \$1,000 to \$5,000 if the support obligation has remained unpaid for a period longer than 2 years, or is in arrears in an amount greater than \$1,000 and not exceeding \$10,000;

(2) from \$5,000 to \$10,000 if the support obligation has remained unpaid for a period longer than 5 years, or is in arrears in an amount greater than \$10,000 and not exceeding \$20,000; or

(3) from \$10,000 to \$25,000 if the support obligation has remained unpaid for a period longer than 8 years, or is in arrears in an amount greater than \$20,000.

Restitution shall be ordered in an amount equal to the total unpaid support obligation as it existed at the time of sentencing. Any amounts paid by the obligor shall be allocated first to current support and then to restitution ordered and then to fines imposed under this Section.

Section 20. Entry of order for support; income withholding.

(a) In a case in which no court or administrative order for support is in effect against the defendant:

(1) at any time before the trial, upon motion of the State's Attorney, or of the Attorney General if the action has been instituted by his office, and upon notice to the defendant, or at the time of arraignment or as a condition of postponement of arraignment, the court may enter such temporary order for support as may seem just, providing for the support or maintenance of the spouse or child or children of the defendant, or both, pendente lite; or

(2) before trial with the consent of the defendant, or at the trial on entry of a plea of guilty, or after conviction, instead of imposing the penalty provided in this Act, or in addition thereto, the court may enter an order for support, subject to modification by the court from time to time as circumstances may require, directing the defendant to pay a certain sum for maintenance of the spouse, or for support of the child or children, or both.

(b) The court shall determine the amount of child support by using the guidelines and standards set forth in subsection (a) of Section 505 and in Section 505.2 of the Illinois Marriage and Dissolution of Marriage Act.

(c) The court shall determine the amount of maintenance using the standards set forth in Section 504 of the Illinois Marriage and Dissolution of Marriage Act.

(d) The court may, for violation of any order under this Section, punish the offender as for a contempt of court, but no pendente lite order shall remain in effect longer than 4 months, or after the

discharge of any panel of jurors summoned for service thereafter in such court, whichever is sooner.

(e) Any order for support entered by the court under this Section shall be deemed to be a series of judgments against the person obligated to pay support under the judgments, each such judgment to be in the amount of each payment or installment of support and each judgment to be deemed entered as of the date the corresponding payment or installment becomes due under the terms of the support order. Each judgment shall have the full force, effect, and attributes of any other judgment of this State, including the ability to be enforced. Each judgment is subject to modification or termination only in accordance with Section 510 of the Illinois Marriage and Dissolution of Marriage Act. A lien arises by operation of law against the real and personal property of the noncustodial parent for each installment of overdue support owed by the noncustodial parent.

(f) An order for support entered under this Section shall include a provision requiring the obligor to report to the obligee and to the clerk of the court within 10 days each time the obligor obtains new employment, and each time the obligor's employment is terminated for any reason. The report shall be in writing and shall, in the case of new employment, include the name and address of the new employer.

Failure to report new employment or the termination of current employment, if coupled with nonpayment of support for a period in excess of 60 days, is indirect criminal contempt. For any obligor arrested for failure to report new employment, bond shall be set in the amount of the child support that should have been paid during the period of unreported employment.

An order for support entered under this Section shall also include a provision requiring the obligor and obligee parents to advise each other of a change in residence within 5 days of the change except when the court finds that the physical, mental, or emotional health of a party or of a minor child, or both, would be seriously endangered by disclosure of the party's address.

(g) An order for support entered or modified in a case in which a party is receiving child and spouse support services under Article X of the Illinois Public Aid Code shall include a provision requiring the noncustodial parent to notify the Illinois Department of Public Aid, within 7 days, of the name and address of any new employer of the noncustodial parent, whether the noncustodial parent has access to health insurance coverage through the employer or other group coverage and, if so, the policy name and number and the names of persons covered under the policy.

(h) In any subsequent action to enforce an order for support entered under this Act, upon sufficient showing that diligent effort has been made to ascertain the location of the noncustodial parent, service of process or provision of notice necessary in that action may be made at the last known address of the noncustodial parent, in any manner expressly provided by the Code of Civil Procedure or in this Act, which service shall be sufficient for purposes of due process.

(i) An order for support shall include a date on which the current support obligation terminates. The termination date shall be no earlier than the date on which the child covered by the order will attain the age of majority or is otherwise emancipated. The order for support shall state that the termination date does not apply to any arrearage that may remain unpaid on that date. Nothing in this subsection shall be construed to prevent the court from modifying the order.

Section 22. Withholding of income to secure payment of support. An order for support entered or modified under this Act is subject to

SENATE

4487

the Income Withholding for Support Act.

Section 25. Payment of support to State Disbursement Unit; clerk of the court.

(a) As used in this Section, "order for support", "obligor", "obligee", and "payor" mean those terms as defined in the Income Withholding for Support Act.

(b) Each order for support entered or modified under Section 20 of this Act shall require that support payments be made to the State Disbursement Unit established under the Illinois Public Aid Code, under the following circumstances:

(1) when a party to the order is receiving child and spouse support services under Article X of the Illinois Public Aid Code; or

(2) when no party to the order is receiving child and spouse support services, but the support payments are made through income withholding.

(c) When no party to the order is receiving child and spouse support services, and payments are not being made through income withholding, the court shall order the obligor to make support payments to the clerk of the court.

(d) In the case of an order for support entered by the court under this Act before a party commenced receipt of child and spouse support services, upon receipt of these services by a party the Illinois Department of Public Aid shall provide notice to the obligor to send any support payments he or she makes personally to the State Disbursement Unit until further direction of the Department. The Department shall provide a copy of the notice to the obligee and to the clerk of the court.

(e) If a State Disbursement Unit as specified by federal law has not been created in Illinois upon the effective date of this Act, then, until the creation of a State Disbursement Unit as specified by federal law, the following provisions regarding payment and disbursement of support payments shall control and the provisions in subsections (a), (b), (c), and (d) shall be inoperative. Upon the creation of a State Disbursement Unit as specified by federal law, this subsection (e) shall be inoperative and the payment and disbursement provisions of subsections (a), (b), (c), and (d) shall control.

(1) In cases in which an order for support is entered under Section 20 of this Act, the court shall order that maintenance and support payments be made to the clerk of the court for remittance to the person or agency entitled to receive the payments. However, the court in its discretion may direct otherwise where exceptional circumstances so warrant.

(2) The court shall direct that support payments be sent by the clerk to (i) the Illinois Department of Public Aid if the person in whose behalf payments are made is receiving aid under Articles III, IV, or V of the Illinois Public Aid Code, or child and spouse support services under Article X of the Code, or (ii) to the local governmental unit responsible for the support of the

person if he or she is a recipient under Article VI of the Code. In accordance with federal law and regulations, the Illinois Department of Public Aid may continue to collect current maintenance payments or child support payments, or both, after those persons cease to receive public assistance and until termination of services under Article X of the Illinois Public Aid Code. The Illinois Department shall pay the net amount collected to those persons after deducting any costs incurred in making the collection or any collection fee from the amount of any recovery made. The order shall permit the Illinois Department of Public Aid or the local governmental unit, as the

case may be, to direct that support payments be made directly to the spouse, children, or both, or to some person or agency in their behalf, upon removal of the spouse or children from the public aid rolls or upon termination of services under Article X of the Illinois Public Aid Code; and upon such direction, the Illinois Department or the local governmental unit, as the case requires, shall give notice of such action to the court in writing or by electronic transmission.

(3) The clerk of the court shall establish and maintain current records of all moneys received and disbursed and of delinquencies and defaults in required payments. The court, by order or rule, shall make provision for the carrying out of these duties.

(4) Upon notification in writing or by electronic transmission from the Illinois Department of Public Aid to the clerk of the court that a person who is receiving support payments under this Section is receiving services under the Child Support Enforcement Program established by Title IV-D of the Social Security Act, any support payments subsequently received by the clerk of the court shall be transmitted in accordance with the instructions of the Illinois Department of Public Aid until the Department gives notice to cease the transmittal. After providing the notification authorized under this paragraph, the Illinois Department of Public Aid shall be a party and entitled to notice of any further proceedings in the case. The clerk of the court shall file a copy of the Illinois Department of Public Aid's notification in the court file. The failure of the clerk to file a copy of the notification in the court file shall not, however, affect the Illinois Department of Public Aid's rights as a party or its right to receive notice of further proceedings.

(5) Payments under this Section to the Illinois Department of Public Aid pursuant to the Child Support Enforcement Program established by Title IV-D of the Social Security Act shall be paid into the Child Support Enforcement Trust Fund. All other payments under this Section to the Illinois Department of Public Aid shall be deposited in the Public Assistance Recoveries Trust Fund. Disbursements from these funds shall be as provided in the Illinois Public Aid Code. Payments received by a local governmental unit shall be deposited in that unit's General Assistance Fund.

(6) For those cases in which child support is payable to the

clerk of the circuit court for transmittal to the Illinois Department of Public Aid by order of court or upon notification by the Illinois Department of Public Aid, the clerk shall transmit all such payments, within 4 working days of receipt, to insure that funds are available for immediate distribution by the Department to the person or entity entitled thereto in accordance with standards of the Child Support Enforcement Program established under Title IV-D of the Social Security Act. The clerk shall notify the Department of the date of receipt and amount thereof at the time of transmittal. Where the clerk has entered into an agreement of cooperation with the Department to record the terms of child support orders and payments made thereunder directly into the Department's automated data processing system, the clerk shall account for, transmit and otherwise distribute child support payments in accordance with such agreement in lieu of the requirements contained herein.

Section 30. Information to State Case Registry.

(a) When an order for support is entered or modified under Section 20 of this Act, the clerk of the court shall, within 5 business days, provide to the State Case Registry established under

SENATE

4489

Section 10-27 of the Illinois Public Aid Code the court docket number and county in which the order is entered or modified and the following information, which the parents involved in the case shall disclose to the court:

(1) the names of the custodial and noncustodial parents and of the child or children covered by the order;

(2) the dates of birth of the custodial and noncustodial parents and of the child or children covered by the order;

(3) the social security numbers of the custodial and noncustodial parents and, if available, of the child or children covered by the order;

(4) the residential and mailing address for the custodial and noncustodial parents;

(5) the telephone numbers for the custodial and noncustodial parents;

(6) the driver's license numbers for the custodial and noncustodial parents; and

(7) the name, address, and telephone number of each parent's employer or employers.

(b) When an order for support is entered or modified under Section 20 in a case in which a party is receiving child and spouse support services under Article X of the Illinois Public Aid Code, the clerk shall provide the State Case Registry with the following information within 5 business days:

(1) the information specified in subsection (a);

(2) the amount of monthly or other periodic support owed under the order and other amounts, including arrearages, interest, or late payment penalties and fees, due or overdue under the order;

(3) any amounts described in subdivision (2) of this subsection (b) that have been received by the clerk; and

(4) the distribution of the amounts received by the clerk.

(c) A party shall report to the clerk of the circuit court changes in information required to be disclosed under this Section within 5 business days of the change.

(d) To the extent that updated information is in the clerk's possession, the clerk shall provide updates of the information specified in subsection (b) within 5 business days after the Illinois Department of Public Aid's request for that updated information.

Section 35. Fine; release of defendant on probation; violation of order for support; forfeiture of recognizance.

(a) Whenever a fine is imposed it may be directed by the court to be paid, in whole or in part, to the spouse, ex-spouse, or if the support of a child or children is involved, to the custodial parent, to the clerk, probation officer, or to the Illinois Department of Public Aid if a recipient of child and spouse support services under Article X of the Illinois Public Aid Code is involved as the case requires, to be disbursed by such officers or agency under the terms of the order.

(b) The court may also relieve the defendant from custody on probation for the period fixed in the order or judgment upon his or her entering into a recognizance, with or without surety, in the sum as the court orders and approves. The condition of the recognizance shall be such that if the defendant makes his or her personal appearance in court whenever ordered to do so by the court, during such period as may be so fixed, and further complies with the terms of the order for support, or any subsequent modification of the order, then the recognizance shall be void; otherwise it will remain in full force and effect.

(c) If the court is satisfied by testimony in open court, that at any time during the period of one year the defendant has violated the

terms of the order for support, it may proceed with the trial of the defendant under the original charge, or sentence him or her under the original conviction, or enforce the suspended sentence, as the case may be. In case of forfeiture of recognizance, and enforcement of recognizance by execution, the sum so recovered may, in the discretion of the court, be paid, in whole or in part, to the spouse, ex-spouse, or if the support of a child or children is involved, to the custodial parent, to the clerk, or to the Illinois Department of Public Aid if a recipient of child and spouse support services under Article X of the Illinois Public Aid Code is involved as the case requires, to be disbursed by the clerk or the Department under the terms of the order.

Section 40. Evidence. No other or greater evidence shall be required to prove the marriage of a husband and wife, or that the defendant is the father or mother of the child or children than is or shall be required to prove that fact in a civil action.

Section 45. Husband or wife as competent witness. In no prosecution under this Act shall any existing statute or rule of law prohibiting the disclosure of confidential communications between husband and wife apply. And both husband and wife shall be competent witnesses to testify to any and all relevant matters, including the fact of such marriage and of the parentage of such child or children, provided that neither shall be compelled to give evidence

incriminating himself or herself.

Section 50. Community service; work alternative program.

(a) In addition to any other penalties imposed against an offender under this Act, the court may order the offender to perform community service for not less than 30 and not more than 120 hours per month, if community service is available in the jurisdiction and is funded and approved by the county board of the county where the offense was committed. In addition, whenever any person is placed on supervision for committing an offense under this Act, the supervision shall be conditioned on the performance of the community service.

(b) In addition to any other penalties imposed against an offender under this Act, the court may sentence the offender to service in a work alternative program administered by the sheriff. The conditions of the program are that the offender obtain or retain employment and participate in a work alternative program administered by the sheriff during non-working hours. A person may not be required to participate in a work alternative program under this subsection if the person is currently participating in a work program pursuant to another provision of this Act, Section 10-11.1 of the Illinois Public Aid Code, Section 505.1 of the Illinois Marriage and Dissolution of Marriage Act, or Section 15.1 of the Illinois Parentage Act of 1984.

(c) In addition to any other penalties imposed against an offender under this Act, the court may order, in cases where the offender has been in violation of this Act for 90 days or more, that the offender's Illinois driving privileges be suspended until the court determines that the offender is in compliance with this Act.

The court may determine that the offender is in compliance with this Act if the offender has agreed (i) to pay all required amounts of support and maintenance as determined by the court or (ii) to the garnishment of his or her income for the purpose of paying those amounts.

The court may also order that the offender be issued a family financial responsibility driving permit that would allow limited driving privileges for employment and medical purposes in accordance with Section 7-702.1 of the Illinois Vehicle Code. The clerk of the circuit court shall certify the order suspending the driving privileges of the offender or granting the issuance of a family

financial responsibility driving permit to the Secretary of State on forms prescribed by the Secretary. Upon receipt of the authenticated documents, the Secretary of State shall suspend the offender's driving privileges until further order of the court and shall, if ordered by the court, subject to the provisions of Section 7-702.1 of the Illinois Vehicle Code, issue a family financial responsibility driving permit to the offender.

(d) If the court determines that the offender has been in violation of this Act for more than 60 days, the court may determine whether the offender has applied for or been issued a professional license by the Department of Professional Regulation or another licensing agency. If the court determines that the offender has applied for or been issued such a license, the court may certify to the Department of Professional Regulation or other licensing agency

that the offender has been in violation of this Act for more than 60 days so that the Department or other agency may take appropriate steps with respect to the license or application as provided in Section 10-65 of the Illinois Administrative Procedure Act and Section 60 of the Civil Administrative Code of Illinois. The court may take the actions required under this subsection in addition to imposing any other penalty authorized under this Act.

Section 55. Offenses; how construed. It is hereby expressly declared that the offenses set forth in this Act shall be construed to be continuing offenses.

Section 60. Unemployed persons owing duty of support.

(a) Whenever it is determined in a proceeding to establish or enforce a child support or maintenance obligation that the person owing a duty of support is unemployed, the court may order the person to seek employment and report periodically to the court with a diary, listing or other memorandum of his or her efforts in accordance with such order. Additionally, the court may order the unemployed person to report to the Department of Employment Security for job search services or to make application with the local Jobs Training Partnership Act provider for participation in job search, training, or work programs and where the duty of support is owed to a child receiving support services under Article X of the Illinois Public Aid Code the court may order the unemployed person to report to the Illinois Department of Public Aid for participation in job search, training, or work programs established under Section 9-6 and Article IXA of that Code.

(b) Whenever it is determined that a person owes past due support for a child or for a child and the parent with whom the child is living, and the child is receiving assistance under the Illinois Public Aid Code, the court shall order at the request of the Illinois Department of Public Aid:

(1) that the person pay the past-due support in accordance with a plan approved by the court; or

(2) if the person owing past-due support is unemployed, is subject to such a plan, and is not incapacitated, that the person participate in such job search, training, or work programs established under Section 9-6 and Article IXA of the Illinois Public Aid Code as the court deems appropriate.

Section 65. Order of protection; status. Whenever relief sought under this Act is based on allegations of domestic violence, as defined in the Illinois Domestic Violence Act of 1986, the court, before granting relief, shall determine whether any order of protection has previously been entered in the instant proceeding or any other proceeding in which any party, or a child of any party, or both, if relevant, has been designated as either a respondent or a protected person.

Section 70. Severability. If any provision of this Act or its

application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of this Act that can be given effect without the invalid provision or application.

Section 905. The Illinois Administrative Procedure Act is

amended by changing Section 10-65 as follows:

(5 ILCS 100/10-65) (from Ch. 127, par. 1010-65)

Sec. 10-65. Licenses.

(a) When any licensing is required by law to be preceded by notice and an opportunity for a hearing, the provisions of this Act concerning contested cases shall apply.

(b) When a licensee has made timely and sufficient application for the renewal of a license or a new license with reference to any activity of a continuing nature, the existing license shall continue in full force and effect until the final agency decision on the application has been made unless a later date is fixed by order of a reviewing court.

(c) An application for the renewal of a license or a new license shall include the applicant's social security number. Each agency shall require the licensee to certify on the application form, under penalty of perjury, that he or she is not more than 30 days delinquent in complying with a child support order. Every application shall state that failure to so certify shall result in disciplinary action, and that making a false statement may subject the licensee to contempt of court. The agency shall notify each applicant or licensee who acknowledges a delinquency or who, contrary to his or her certification, is found to be delinquent or who after receiving notice, fails to comply with a subpoena or warrant relating to a paternity or a child support proceeding, that the agency intends to take disciplinary action. Accordingly, the agency shall provide written notice of the facts or conduct upon which the agency will rely to support its proposed action and the applicant or licensee shall be given an opportunity for a hearing in accordance with the provisions of the Act concerning contested cases. Any delinquency in complying with a child support order can be remedied by arranging for payment of past due and current support. Any failure to comply with a subpoena or warrant relating to a paternity or child support proceeding can be remedied by complying with the subpoena or warrant. Upon a final finding of delinquency or failure to comply with a subpoena or warrant, the agency shall suspend, revoke, or refuse to issue or renew the license. In cases in which the Department of Public Aid has previously determined that an applicant or a licensee is more than 30 days delinquent in the payment of child support and has subsequently certified the delinquency to the licensing agency, and in cases in which a court has previously determined that an applicant or licensee has been in violation of the Non-Support Punishment Act for more than 60 days, the licensing agency shall refuse to issue or renew or shall revoke or suspend that person's license based solely upon the certification of delinquency made by the Department of Public Aid or the certification of violation made by the court. Further process, hearings, or redetermination of the delinquency or violation by the licensing agency shall not be required. The licensing agency may issue or renew a license if the licensee has arranged for payment of past and current child support obligations in a manner satisfactory to the Department of Public Aid or the court. The licensing agency may impose conditions, restrictions, or disciplinary action upon that license.

(d) Except as provided in subsection (c), no agency shall revoke, suspend, annul, withdraw, amend materially, or refuse to renew any valid license without first giving written notice to the licensee of the facts or conduct upon which the agency will rely to

support its proposed action and an opportunity for a hearing in accordance with the provisions of this Act concerning contested cases. At the hearing, the licensee shall have the right to show compliance with all lawful requirements for the retention, continuation, or renewal of the license. If, however, the agency finds that the public interest, safety, or welfare imperatively requires emergency action, and if the agency incorporates a finding to that effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action. Those proceedings shall be promptly instituted and determined.

(e) Any application for renewal of a license that contains required and relevant information, data, material, or circumstances that were not contained in an application for the existing license shall be subject to the provisions of subsection (a).

Section 910. The Civil Administrative Code of Illinois is amended by changing Section 43a.14 as follows:

(20 ILCS 1005/43a.14)

Sec. 43a.14. Exchange of information for child support enforcement.

(a) To exchange with the Illinois Department of Public Aid information that may be necessary for the enforcement of child support orders entered pursuant to the Illinois Public Aid Code, the Illinois Marriage and Dissolution of Marriage Act, the Non-Support of Spouse and Children Act, the Non-Support Punishment Act, the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstate Family Support Act, or the Illinois Parentage Act of 1984.

(b) Notwithstanding any provisions in this Code to the contrary, the Department of Employment Security shall not be liable to any person for any disclosure of information to the Illinois Department of Public Aid under subsection (a) or for any other action taken in good faith to comply with the requirements of subsection (a).

(Source: P.A. 90-18, eff. 7-1-97.)

Section 915. The Civil Administrative Code of Illinois is amended by changing Section 60 as follows:

(20 ILCS 2105/60) (from Ch. 127, par. 60)

Sec. 60. Powers and duties. The Department of Professional Regulation shall have, subject to the provisions of this Act, the following powers and duties:

1. To authorize examinations in English to ascertain the qualifications and fitness of applicants to exercise the profession, trade, or occupation for which the examination is held.

2. To prescribe rules and regulations for a fair and wholly impartial method of examination of candidates to exercise the respective professions, trades, or occupations.

3. To pass upon the qualifications of applicants for licenses, certificates, and authorities, whether by examination, by reciprocity, or by endorsement.

4. To prescribe rules and regulations defining, for the respective professions, trades, and occupations, what shall constitute a school, college, or university, or department of a university, or other institutions, reputable and in good standing and to determine the reputability and good standing of a school, college, or university, or department of a university, or other institution,

reputable and in good standing by reference to a compliance with such rules and regulations: provided, that no school, college, or university, or department of a university or other institution that refuses admittance to applicants solely on account of race, color, creed, sex, or national origin shall be considered reputable and in good standing.

5. To conduct hearings on proceedings to revoke, suspend, refuse to renew, place on probationary status, or take other disciplinary

action as may be authorized in any licensing Act administered by the Department with regard to licenses, certificates, or authorities of persons exercising the respective professions, trades, or occupations, and to revoke, suspend, refuse to renew, place on probationary status, or take other disciplinary action as may be authorized in any licensing Act administered by the Department with regard to such licenses, certificates, or authorities. The Department shall issue a monthly disciplinary report. The Department shall deny any license or renewal authorized by this Act to any person who has defaulted on an educational loan or scholarship provided by or guaranteed by the Illinois Student Assistance Commission or any governmental agency of this State; however, the Department may issue a license or renewal if the aforementioned persons have established a satisfactory repayment record as determined by the Illinois Student Assistance Commission or other appropriate governmental agency of this State. Additionally, beginning June 1, 1996, any license issued by the Department may be suspended or revoked if the Department, after the opportunity for a hearing under the appropriate licensing Act, finds that the licensee has failed to make satisfactory repayment to the Illinois Student Assistance Commission for a delinquent or defaulted loan. For the purposes of this Section, "satisfactory repayment record" shall be defined by rule. The Department shall refuse to issue or renew a license to, or shall suspend or revoke a license of, any person who, after receiving notice, fails to comply with a subpoena or warrant relating to a paternity or child support proceeding. However, the Department may issue a license or renewal upon compliance with the subpoena or warrant.

The Department, without further process or hearings, shall revoke, suspend, or deny any license or renewal authorized by this Act to a person who is certified by the Illinois Department of Public Aid as being more than 30 days delinquent in complying with a child support order or who is certified by a court as being in violation of the Non-Support of Punishment Act for more than 60 days; the Department may, however, issue a license or renewal if the person has established a satisfactory repayment record as determined by the Illinois Department of Public Aid or if the person is determined by the court to be in compliance with the Non-Support Punishment Act. The Department may implement this paragraph as added by Public Act 89-6 through the use of emergency rules in accordance with Section 5-45 of the Illinois Administrative Procedure Act. For purposes of the Illinois Administrative Procedure Act, the adoption of rules to implement this paragraph shall be considered an emergency and necessary for the public interest, safety, and welfare.

6. To transfer jurisdiction of any realty under the control of the Department to any other Department of the State Government, or to acquire or accept Federal lands, when such transfer, acquisition or acceptance is advantageous to the State and is approved in writing by the Governor.

7. To formulate rules and regulations as may be necessary for the enforcement of any act administered by the Department.

8. To exchange with the Illinois Department of Public Aid information that may be necessary for the enforcement of child support orders entered pursuant to the Illinois Public Aid Code, the Illinois Marriage and Dissolution of Marriage Act, the Non-Support of Spouse and Children Act, the Non-Support Punishment Act, the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstate Family Support Act, or the Illinois Parentage Act of 1984. Notwithstanding any provisions in this Code to the contrary, the Department of Professional Regulation shall not be liable under any federal or State law to any person for any disclosure of information

to the Illinois Department of Public Aid under this paragraph 8 or for any other action taken in good faith to comply with the requirements of this paragraph 8.

9. To perform such other duties as may be prescribed by law.

The Department may, when a fee is payable to the Department for a wall certificate of registration provided by the Department of Central Management Services, require that portion of the payment for printing and distribution costs be made directly or through the Department, to the Department of Central Management Services for deposit in the Paper and Printing Revolving Fund, the remainder shall be deposited in the General Revenue Fund.

For the purpose of securing and preparing evidence, and for the purchase of controlled substances, professional services, and equipment necessary for enforcement activities, recoupment of investigative costs and other activities directed at suppressing the misuse and abuse of controlled substances, including those activities set forth in Sections 504 and 508 of the Illinois Controlled Substances Act, the Director and agents appointed and authorized by the Director may expend such sums from the Professional Regulation Evidence Fund as the Director deems necessary from the amounts appropriated for that purpose and such sums may be advanced to the agent when the Director deems such procedure to be in the public interest. Sums for the purchase of controlled substances, professional services, and equipment necessary for enforcement activities and other activities as set forth in this Section shall be advanced to the agent who is to make such purchase from the Professional Regulation Evidence Fund on vouchers signed by the Director. The Director and such agents are authorized to maintain one or more commercial checking accounts with any State banking corporation or corporations organized under or subject to the Illinois Banking Act for the deposit and withdrawal of moneys to be used for the purposes set forth in this Section; provided, that no check may be written nor any withdrawal made from any such account except upon the written signatures of 2 persons designated by the Director to write such checks and make such withdrawals. Vouchers

for such expenditures must be signed by the Director and all such expenditures shall be audited by the Director and the audit shall be submitted to the Department of Central Management Services for approval.

Whenever the Department is authorized or required by law to consider some aspect of criminal history record information for the purpose of carrying out its statutory powers and responsibilities, then, upon request and payment of fees in conformance with the requirements of subsection 22 of Section 55a of the Civil Administrative Code of Illinois, the Department of State Police is authorized to furnish, pursuant to positive identification, such information contained in State files as is necessary to fulfill the request.

The provisions of this Section do not apply to private business and vocational schools as defined by Section 1 of the Private Business and Vocational Schools Act.

Beginning July 1, 1995, this Section does not apply to those professions, trades, and occupations licensed under the Real Estate License Act of 1983 nor does it apply to any permits, certificates, or other authorizations to do business provided for in the Land Sales Registration Act of 1989 or the Illinois Real Estate Time-Share Act. Section 935. The Illinois Public Aid Code is amended by changing Sections 10-3.1, 10-17, 10-19, 10-25, 10-25.5, and 12-4.7c as follows:

(305 ILCS 5/10-3.1) (from Ch. 23, par. 10-3.1)

Sec. 10-3.1. Child and Spouse Support Unit. The Illinois Department shall establish within its administrative staff a Child and Spouse Support Unit to search for and locate absent parents and spouses liable for the support of persons resident in this State and

to exercise the support enforcement powers and responsibilities assigned the Department by this Article. The unit shall cooperate with all law enforcement officials in this State and with the authorities of other States in locating persons responsible for the support of persons resident in other States and shall invite the cooperation of these authorities in the performance of its duties.

In addition to other duties assigned the Child and Spouse Support Unit by this Article, the Unit may refer to the Attorney General or units of local government with the approval of the Attorney General, any actions under Sections 10-10 and 10-15 for judicial enforcement of the support liability. The Child and Spouse Support Unit shall act for the Department in referring to the Attorney General support matters requiring judicial enforcement under other laws. If requested by the Attorney General to so act, as provided in Section 12-16, attorneys of the Unit may assist the Attorney General or themselves institute actions in behalf of the Illinois Department under the Revised Uniform Reciprocal Enforcement of Support Act; under the Illinois Parentage Act of 1984; under the Non-Support of Spouse and Children Act; under the Non-Support Punishment Act; or under any other law, State or Federal, providing for support of a spouse or dependent child.

The Illinois Department shall also have the authority to enter into agreements with local governmental units or individuals, with the approval of the Attorney General, for the collection of moneys owing because of the failure of a parent to make child support payments for any child receiving services under this Article. Such agreements may be on a contingent fee basis, but such contingent fee shall not exceed 25% of the total amount collected.

An attorney who provides representation pursuant to this Section shall represent the Illinois Department exclusively. Regardless of the designation of the plaintiff in an action brought pursuant to this Section, an attorney-client relationship does not exist for purposes of that action between that attorney and (i) an applicant for or recipient of child and spouse support services or (ii) any other party to the action other than the Illinois Department. Nothing in this Section shall be construed to modify any power or duty (including a duty to maintain confidentiality) of the Child and Spouse Support Unit or the Illinois Department otherwise provided by law.

The Illinois Department may also enter into agreements with local governmental units for the Child and Spouse Support Unit to exercise the investigative and enforcement powers designated in this Article, including the issuance of administrative orders under Section 10-11, in locating responsible relatives and obtaining support for persons

applying for or receiving aid under Article VI. Payments for defrayment of administrative costs and support payments obtained shall be deposited into the Public Assistance Recoveries Trust Fund. Support payments shall be paid over to the General Assistance Fund of the local governmental unit at such time or times as the agreement may specify.

With respect to those cases in which it has support enforcement powers and responsibilities under this Article, the Illinois

Department may provide by rule for periodic or other review of each administrative and court order for support to determine whether a modification of the order should be sought. The Illinois Department shall provide for and conduct such review in accordance with any applicable federal law and regulation.

As part of its process for review of orders for support, the Illinois Department, through written notice, may require the responsible relative to disclose his or her Social Security Number and past and present information concerning the relative's address, employment, gross wages, deductions from gross wages, net wages, bonuses, commissions, number of dependent exemptions claimed, individual and dependent health insurance coverage, and any other information necessary to determine the relative's ability to provide support in a case receiving child and spouse support services under this Article X.

The Illinois Department may send a written request for the same information to the relative's employer. The employer shall respond to the request for information within 15 days after the date the employer receives the request. If the employer willfully fails to fully respond within the 15-day period, the employer shall pay a penalty of \$100 for each day that the response is not provided to the Illinois Department after the 15-day period has expired. The penalty may be collected in a civil action which may be brought against the employer in favor of the Illinois Department.

A written request for information sent to an employer pursuant to this Section shall consist of (i) a citation of this Section as the statutory authority for the request and for the employer's obligation to provide the requested information, (ii) a returnable form setting forth the employer's name and address and listing the name of the employee with respect to whom information is requested, and (iii) a citation of this Section as the statutory authority authorizing the employer to withhold a fee of up to \$20 from the wages or income to be paid to each responsible relative for providing the information to the Illinois Department within the 15-day period. If the employer is withholding support payments from the responsible relative's income pursuant to an order for withholding, the employer may withhold the fee provided for in this Section only after withholding support as required under the order. Any amounts withheld from the responsible relative's income for payment of support and the fee provided for in this Section shall not be in excess of the amounts permitted under the federal Consumer Credit Protection Act.

In a case receiving child and spouse support services, the Illinois Department may request and obtain information from a particular employer under this Section no more than once in any 12-month period, unless the information is necessary to conduct a review of a court or administrative order for support at the request of the person receiving child and spouse support services.

The Illinois Department shall establish and maintain an administrative unit to receive and transmit to the Child and Spouse Support Unit information supplied by persons applying for or receiving child and spouse support services under Section 10-1. In addition, the Illinois Department shall address and respond to any alleged deficiencies that persons receiving or applying for services

from the Child and Spouse Support Unit may identify concerning the Child and Spouse Support Unit's provision of child and spouse support services. Within 60 days after an action or failure to act by the Child and Spouse Support Unit that affects his or her case, a recipient of or applicant for child and spouse support services under Article X of this Code may request an explanation of the Unit's handling of the case. At the requestor's option, the explanation may be provided either orally in an interview, in writing, or both. If the Illinois Department fails to respond to the request for an explanation or fails to respond in a manner satisfactory to the applicant or recipient within 30 days from the date of the request for an explanation, the applicant or recipient may request a conference for further review of the matter by the Office of the Administrator of the Child and Spouse Support Unit. A request for a conference may be submitted at any time within 60 days after the explanation has been provided by the Child and Spouse Support Unit or within 60 days after the time for providing the explanation has expired.

The applicant or recipient may request a conference concerning any decision denying or terminating child or spouse support services under Article X of this Code, and the applicant or recipient may also request a conference concerning the Unit's failure to provide services or the provision of services in an amount or manner that is considered inadequate. For purposes of this Section, the Child and Spouse Support Unit includes all local governmental units or individuals with whom the Illinois Department has contracted under Section 10-3.1.

Upon receipt of a timely request for a conference, the Office of the Administrator shall review the case. The applicant or recipient requesting the conference shall be entitled, at his or her option, to appear in person or to participate in the conference by telephone. The applicant or recipient requesting the conference shall be entitled to be represented and to be afforded a reasonable opportunity to review the Illinois Department's file before or at the conference. At the conference, the applicant or recipient requesting the conference shall be afforded an opportunity to present all relevant matters in support of his or her claim. Conferences shall be without cost to the applicant or recipient requesting the conference and shall be conducted by a representative of the Child or Spouse Support Unit who did not participate in the action or inaction being reviewed.

The Office of the Administrator shall conduct a conference and inform all interested parties, in writing, of the results of the conference within 60 days from the date of filing of the request for a conference.

In addition to its other powers and responsibilities established by this Article, the Child and Spouse Support Unit shall conduct an annual assessment of each institution's program for institution based paternity establishment under Section 12 of the Vital Records Act.

Sec. 7-702.1. Family financial responsibility driving permits. Following the entry of an order that an obligor has been found in contempt by the court for failure to pay court ordered child support payments or upon a motion by the obligor who is subject to having his or her driver's license suspended pursuant to subsection (b) of Section 7-703, the court may enter an order directing the Secretary of State to issue a family financial responsibility driving permit for the purpose of providing the obligor the privilege of operating a motor vehicle between the obligor's residence and place of employment, or within the scope of employment related duties; or for the purpose of providing transportation for the obligor or a household member to receive alcohol treatment, other drug treatment, or medical care. The court may enter an order directing the issuance of a permit only if the obligor has proven to the satisfaction of the court that no alternative means of transportation are reasonably

available for the above stated purposes. No permit shall be issued to a person under the age of 16 years who possesses an instruction

permit.

Upon entry of an order granting the issuance of a permit to an obligor, the court shall report this finding to the Secretary of State on a form prescribed by the Secretary. This form shall state whether the permit has been granted for employment or medical purposes and the specific days and hours for which limited driving privileges have been granted.

The Secretary of State shall, upon receipt of a certified court order from the court of jurisdiction, issue a family financial responsibility driving permit. In order for this permit to be issued, an individual's driving privileges must be valid except for the family financial responsibility suspension. This permit shall be valid only for employment and medical purposes as set forth above. The permit shall state the days and hours for which limited driving privileges have been granted.

Any submitted court order that contains insufficient data or fails to comply with any provision of this Code shall not be used for issuance of the permit or entered to the individual's driving record but shall be returned to the court of jurisdiction indicating why the permit cannot be issued at that time. The Secretary of State shall also send notice of the return of the court order to the individual requesting the permit.

Section 970. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Section 713 as follows:

(750 ILCS 5/713) (from Ch. 40, par. 713)

Sec. 713. Attachment of the Body. As used in this Section, "obligor" has the same meaning ascribed to such term in the Income Withholding for Support Act.

(a) In any proceeding to enforce an order for support, where the obligor has failed to appear in court pursuant to order of court and after due notice thereof, the court may enter an order for the attachment of the body of the obligor. Notices under this Section shall be served upon the obligor either (1) by prepaid certified mail with delivery restricted to the obligor, or (2) by personal service on the obligor. The attachment order shall fix an amount of escrow which is equal to a minimum of 20% of the total child support arrearage alleged by the obligee in sworn testimony to be due and owing. The attachment order shall direct the Sheriff of any county in Illinois to take the obligor into custody and shall set the number of days following release from custody for a hearing to be held at which the obligor must appear, if he is released under subsection (c) of this Section.

(b) If the obligor is taken into custody, the Sheriff shall take the obligor before the court which entered the attachment order. However, the Sheriff may release the person after he or she has deposited the amount of escrow ordered by the court pursuant to local procedures for the posting of bond. The Sheriff shall advise the

obligor of the hearing date at which the obligor is required to appear.

(c) Any escrow deposited pursuant to this Section shall be transmitted to the Clerk of the Circuit Court for the county in which the order for attachment of the body of the obligor was entered. Any Clerk who receives money deposited into escrow pursuant to this Section shall notify the obligee, public office or legal counsel whose name appears on the attachment order of the court date at which the obligor is required to appear and the amount deposited into escrow. The Clerk shall disburse such money to the obligee only under an order from the court that entered the attachment order pursuant to this Section.

(d) Whenever an obligor is taken before the court by the Sheriff, or appears in court after the court has ordered the attachment of his body, the court shall:

(1) hold a hearing on the complaint or petition that gave rise to the attachment order. For purposes of determining arrearages that are due and owing by the obligor, the court shall accept the previous sworn testimony of the obligee as true and the appearance of the obligee shall not be required. The court shall require sworn testimony of the obligor as to his or her Social Security number, income, employment, bank accounts, property and any other assets. If there is a dispute as to the

total amount of arrearages, the court shall proceed as in any other case as to the undisputed amounts; and

(2) order the Clerk of the Circuit Court to disburse to the obligee or public office money held in escrow pursuant to this Section if the court finds that the amount of arrearages exceeds the amount of the escrow. Amounts received by the obligee or public office shall be deducted from the amount of the arrearages.

(e) If the obligor fails to appear in court after being notified of the court date by the Sheriff upon release from custody, the court shall order any monies deposited into escrow to be immediately released to the obligee or public office and shall proceed under subsection (a) of this Section by entering another order for the attachment of the body of the obligor.

(f) This Section shall apply to any order for support issued under the "Illinois Marriage and Dissolution of Marriage Act", approved September 22, 1977, as amended; the "Illinois Parentage Act of 1984", effective July 1, 1985, as amended; the "Revised Uniform Reciprocal Enforcement of Support Act", approved August 28, 1969, as amended; "The Illinois Public Aid Code", approved April 11, 1967, as amended; the Non-Support Punishment Act; and the "Non-support of Spouse and Children Act", approved June 8, 1953, as amended.

(g) Any escrow established pursuant to this Section for the purpose of providing support shall not be subject to fees collected by the Clerk of the Circuit Court for any other escrow.

such installation of such facility, or operating the facility on behalf of such customer, provided however that any such third party owner or operator of a facility built after January 1, 1999, complies with the labor provisions of Section 16-128(a) as though such third party were an alternative retail electric supplier, or (vi) an industrial or manufacturing customer that owns its own distribution facilities, to the extent that the customer provides service from that distribution system to a third-party contractor located on the customer's premises that is integrally and predominantly engaged in the customer's industrial or manufacturing process; provided, that if the industrial or manufacturing customer has elected delivery services, the customer shall pay transition charges applicable to the electric power and energy consumed by the third-party contractor unless such charges are otherwise paid by the third party contractor, which shall be calculated based on the usage of, and the base rates or the contract rates applicable to, the third-party contractor in accordance with Section 16-102.

"Base rates" means the rates for those tariffed services that the electric utility is required to offer pursuant to subsection (a) of Section 16-103 and that were identified in a rate order for collection of the electric utility's base rate revenue requirement, excluding (i) separate automatic rate adjustment riders then in effect, (ii) special or negotiated contract rates, (iii) delivery services tariffs filed pursuant to Section 16-108, (iv) real-time pricing, or (v) tariffs that were in effect prior to October 1, 1996 and that based charges for services on an index or average of other

utilities' charges, but including (vi) any subsequent redesign of such rates for tariffed services that is authorized by the Commission after notice and hearing.

"Competitive service" includes (i) any service that has been declared to be competitive pursuant to Section 16-113 of this Act, (ii) contract service, and (iii) services, other than tariffed services, that are related to, but not necessary for, the provision of electric power and energy or delivery services.

"Contract service" means (1) services, including the provision of electric power and energy or other services, that are provided by mutual agreement between an electric utility and a retail customer that is located in the electric utility's service area, provided that, delivery services shall not be a contract service until such services are declared competitive pursuant to Section 16-113; and also means (2) the provision of electric power and energy by an electric utility to retail customers outside the electric utility's service area pursuant to Section 16-116. Provided, however, contract service does not include electric utility services provided pursuant to (i) contracts that retail customers are required to execute as a condition of receiving tariffed services, or (ii) special or negotiated rate contracts for electric utility services that were entered into between an electric utility and a retail customer prior to the effective date of this amendatory Act of 1997 and filed with the Commission.

"Delivery services" means those services provided by the electric utility that are necessary in order for the transmission and distribution systems to function so that retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility, and shall include, without limitation, standard metering and billing services.

"Electric utility" means a public utility, as defined in Section 3-105 of this Act, that has a franchise, license, permit or right to furnish or sell electricity to retail customers within a service area.

"Mandatory transition period" means the period from the effective

date of this amendatory Act of 1997 through January 1, 2005.

"Municipal system" shall have the meaning set forth in Section 17-100.

"Real-time pricing" means charges for delivered electric power and energy that vary on an hour-to-hour basis for nonresidential retail customers and that vary on a periodic basis during the day for residential retail customers.

"Retail customer" means a single entity using electric power or energy at a single premises and that (A) either (i) is receiving or is eligible to receive tariffed services from an electric utility, or (ii) that is served by a municipal system or electric cooperative within any area in which the municipal system or electric cooperative is or would be entitled to provide service under the law in effect immediately prior to the effective date of this amendatory Act of 1997, or (B) an entity which on the effective date of this Act was receiving electric service from a public utility and (i) was engaged in the practice of resale and redistribution of such electricity

within a building prior to January 2, 1957, or (ii) was providing lighting services to tenants in a multi-occupancy building, but only to the extent such resale, redistribution or lighting service is authorized by the electric utility's tariffs that were on file with the Commission on the effective date of this Act.

"Service area" means (i) the geographic area within which an electric utility was lawfully entitled to provide electric power and energy to retail customers as of the effective date of this amendatory Act of 1997, and includes (ii) the location of any retail customer to which the electric utility was lawfully providing electric utility services on such effective date.

"Small commercial retail customer" means those nonresidential retail customers of an electric utility consuming 15,000 kilowatt-hours or less of electricity annually in its service area.

"Tariffed service" means services provided to retail customers by an electric utility as defined by its rates on file with the Commission pursuant to the provisions of Article IX of this Act, but shall not include competitive services.

"Transition charge" means a charge expressed in cents per kilowatt-hour that is calculated for a customer or class of customers as follows for each year in which an electric utility is entitled to recover transition charges as provided in Section 16-108:

(1) the amount of revenue that an electric utility would receive from the retail customer or customers if it were serving such customers' electric power and energy requirements as a tariffed service based on (A) all of the customers' actual usage during the 3 years ending 90 days prior to the date on which such customers were first eligible for delivery services pursuant to Section 16-104, and (B) on (i) the base rates in effect on October 1, 1996 (adjusted for the reductions required by subsection (b) of Section 16-111, for any reduction resulting from a rate decrease under Section 16-101(b), for any restatement of base rates made in conjunction with an elimination of the fuel adjustment clause pursuant to subsection (b), (d), or (f) of Section 9-220 and for any removal of decommissioning costs from base rates pursuant to Section 16-114) and any separate automatic rate adjustment riders (other than a decommissioning rate as defined in Section 16-114) under which the customers were receiving or, had they been customers, would have received electric power and energy from the electric utility during the year immediately preceding the date on which such customers were first eligible for delivery service pursuant to Section 16-104, or (ii) to the extent applicable, any contract rates, including contracts or rates for consolidated or aggregated billing, under

which such customers were receiving electric power and energy from the electric utility during such year;

(2) less the amount of revenue, other than revenue from transition charges and decommissioning rates, that the electric utility would receive from such retail customers for delivery services provided by the electric utility, assuming such customers were taking delivery services for all of their usage, based on the delivery services tariffs in effect during the year

for which the transition charge is being calculated and on the usage identified in paragraph (1);

(3) less the market value for the electric power and energy that the electric utility would have used to supply all of such customers' electric power and energy requirements, as a tariffed service, based on the usage identified in paragraph (1), with such market value determined in accordance with Section 16-112 of this Act;

(4) less the following amount which represents the amount to be attributed to new revenue sources and cost reductions by the electric utility through the end of the period for which transition costs are recovered pursuant to Section 16-108, referred to in this Article XVI as a "mitigation factor":

(A) for nonresidential retail customers, an amount equal to the greater of (i) 0.5 cents per kilowatt-hour during the period October 1, 1999 through December 31, 2004, 0.6 cents per kilowatt-hour in calendar year 2005, and 0.9 cents per kilowatt-hour in calendar year 2006, multiplied in each year by the usage identified in paragraph (1), or (ii) an amount equal to the following percentages of the amount produced by applying the applicable base rates (adjusted as described in subparagraph (1)(B)) or contract rate to the usage identified in paragraph (1): 8% for the period October 1, 1999 through December 31, 2002, 10% in calendar years 2003 and 2004, 11% in calendar year 2005 and 12% in calendar year 2006; and

(B) for residential retail customers, an amount equal to the following percentages of the amount produced by applying the base rates in effect on October 1, 1996 (adjusted as described in subparagraph (1)(B)) to the usage identified in paragraph (1): (i) 6% from May 1, 2002 through December 31, 2002, (ii) 7% in calendar years 2003 and 2004, (iii) 8% in calendar year 2005, and (iv) 10% in calendar year 2006;

(5) divided by the usage of such customers identified in paragraph (1),
provided that the transition charge shall never be less than zero.

"Unbundled service" means a component or constituent part of a tariffed service which the electric utility subsequently offers separately to its customers.

(220 ILCS 5/16-104)

Sec. 16-104. Delivery services transition plan. An electric utility shall provide delivery services to retail customers in accordance with the provisions of this Section.

(a) Each electric utility shall offer delivery services to retail customers located in its service area in accordance with the following provisions:

(1) On or before October 1, 1999, the electric utility shall offer delivery services (i) to any non-residential retail customer whose average monthly maximum electrical demand on the electric utility's system during the 6 months with the customer's highest monthly maximum demands in the 12 months ending June 30,

1999 equals or exceeds 4 megawatts; (ii) to any non-governmental, non-residential, commercial retail customers under common ownership doing business at 10 or more separate locations within the electric utility's service area, if the aggregate coincident average monthly maximum electrical demand of all such locations during the 6 months with the customer's highest monthly maximum electrical demands during the 12 months ending June 30, 1999 equals or exceeds 9.5 megawatts, provided, however, that an electric utility's obligation to offer delivery services under this clause (ii) shall not exceed 3.5% of the maximum electric demand on the electric utility's system in the 12 months ending June 30, 1999; and (iii) to non-residential retail customers whose annual electric energy use comprises 33% of the kilowatt-hour sales, excluding the kilowatt-hour sales to customers described in clauses (i) and (ii), to each non-residential retail customer class of the electric utility.

(2) On or before October 1, 2000, the electric utility shall offer delivery services to the eligible governmental customers described in subsections (a) and (b) of Section 16-125A if the aggregate coincident average monthly maximum electrical demand of such customers during the 6 months with the customers' highest monthly maximum electrical demands during the 12 months ending June 30, 2000 equals or exceeds 9.5 megawatts.

(2.5) On or before June 1, 2000, an electric utility serving more than 1,000,000 customers in this State shall offer delivery services to retail customers whose annual electric energy use comprises 33% of the kilowatt hour sales to that group of retail customers that are classified under Division D, Groups 20 through 39 of the Standard Industrial Classifications set forth in the Standard Industrial Classification Manual published by the United States Office of Management and Budget, excluding the kilowatt-hour sales to those customers that are eligible for delivery services pursuant to clause (1)(i), and shall offer delivery services to its remaining retail customers classified under Division D, Groups 20 through 39 on or before October 1, 2000.

(3) On or before December 31, 2000, the electric utility shall offer delivery services to all remaining nonresidential retail customers in its service area.

(4) On or before May 1, 2002, the electric utility shall offer delivery services to all residential retail customers in its service area.

The loads and kilowatt-hour sales used for purposes of this subsection shall be those for the 12 months ending June 30, 1999 for nonresidential retail customers. The electric utility shall identify those customers to be offered delivery service pursuant to clause (1)(iii) and paragraph (2.5) of subsection (a) of this Section and Section 16-111(e)(B)(iii) pursuant to a lottery or other random nondiscriminatory selection process set forth in the electric utility's delivery services implementation plan pursuant to Section 16-105, which process may include a registration process giving each nonresidential customer the opportunity to register for eligibility for delivery services under this Section, with a lottery of registered customers to be conducted if the annual electric energy use of all registered customers exceeds the limit set forth in clause (1)(iii) or clause (2.5) or Section 16-111(e)(B)(iii), as applicable;

provided that the provision of this amendatory Act of 1999 as it relates to the registration and lottery process under clause (1)(iii) is not intended to nor does it make any change in the meaning of this Section, but is intended to remove possible ambiguities, thereby confirming the existing meaning of this Section prior to the

SENATE

effective date of this amendatory Act of 1999. Provided, that non-residential retail customers under common ownership at separate locations within the electric utility's service area may elect, prior to the date the electric utility conducts the lottery or other random selection process for purposes of clause (1)(iii), to designate themselves as a common ownership group, to be excluded from such lottery and to instead participate in a separate lottery for such common ownership group pursuant to which delivery services will be offered to non-residential retail customers comprising 33% of the total kilowatt-hour sales to the common ownership group on or before October 1, 1999. For purposes of this subsection (a), an electric utility may define "common ownership" to exclude sites which are not part of the same business, provided, that auxiliary establishments as defined in the Standard Industrial Classification Manual published by the United States Office of Management and Budget shall not be excluded.

(b) The electric utility shall allow the aggregation of loads that are eligible for delivery services so long as such aggregation meets the criteria for delivery of electric power and energy applicable to the electric utility established by the regional reliability council to which the electric utility belongs, by an independent system operating organization to which the electric utility belongs, or by another organization responsible for overseeing the integrity and reliability of the transmission system, as such criteria are in effect from time to time. The Commission may adopt rules and regulations governing the criteria for aggregation of the loads utilizing delivery services, but its failure to do so shall not preclude any eligible customer from electing delivery services. The electric utility shall allow such aggregation for any voluntary grouping of customers, including without limitation those having a common agent with contractual authority to purchase electric power and energy and delivery services on behalf of all customers in the grouping.

(c) An electric utility shall allow a retail customer that generates power for its own use to include the electrical demand obtained from the customer's cogeneration or self-generation facilities that is coincident with the retail customer's maximum monthly electrical demand on the electric utility's system in any determination of the customer's maximum monthly electrical demand for purposes of determining when such retail customer shall be offered delivery services pursuant to clause (i) of subparagraph (1) of subsection (a) of this Section.

(d) The Commission shall establish charges, terms and conditions for delivery services in accordance with Section 16-108.

(e) Subject to the terms and conditions which the electric utility is entitled to impose in accordance with Section 16-108, a retail customer that is eligible to elect delivery services pursuant

to subsection (a) may place all or a portion of its electric power and energy requirements on delivery services.

(f) An electric utility may require a retail customer who elects to (i) use an alternative retail electric supplier or another electric utility for some but not all of its electric power or energy requirements, and (ii) use the electric utility for any portion of its remaining electric power and energy requirements, to place the portion of the customer's electric power or energy requirement that is to be served by the electric utility on a tariff containing charges that are set to recover the lowest reasonably available cost to the electric utility of acquiring electric power and energy on the wholesale electric market to serve such remaining portion of the customer's electric power and energy requirement, reasonable compensation for arranging for and providing such electric power or

energy, and the electric utility's other costs of providing service to such remaining electric power and energy requirement.

(220 ILCS 5/16-108)

Sec. 16-108. Recovery of costs associated with the provision of delivery services.

(a) An electric utility shall file a delivery services tariff with the Commission at least 210 days prior to the date that it is required to begin offering such services pursuant to this Act. An electric utility shall provide the components of delivery services that are subject to the jurisdiction of the Federal Energy Regulatory Commission at the same prices, terms and conditions set forth in its applicable tariff as approved or allowed into effect by that Commission. The Commission shall otherwise have the authority pursuant to Article IX to review, approve, and modify the prices, terms and conditions of those components of delivery services not subject to the jurisdiction of the Federal Energy Regulatory Commission, including the authority to determine the extent to which such delivery services should be offered on an unbundled basis. In making any such determination the Commission shall consider, at a minimum, the effect of additional unbundling on (i) the objective of just and reasonable rates, (ii) electric utility employees, and (iii) the development of competitive markets for electric energy services in Illinois.

(b) The Commission shall enter an order approving, or approving as modified, the delivery services tariff no later than 30 days prior to the date on which the electric utility must commence offering such services. The Commission may subsequently modify such tariff pursuant to this Act.

(c) The electric utility's tariffs shall define the classes of its customers for purposes of delivery services charges. Delivery services shall be priced and made available to all retail customers electing delivery services in each such class on a nondiscriminatory basis regardless of whether the retail customer chooses the electric utility, an affiliate of the electric utility, or another entity as its supplier of electric power and energy. Charges for delivery services shall be cost based, and shall allow the electric utility to recover the costs of providing delivery services through its charges

to its delivery service customers that use the facilities and services associated with such costs. Such costs shall include the costs of owning, operating and maintaining transmission and distribution facilities. The Commission shall also be authorized to consider whether, and if so to what extent, the following costs are appropriately included in the electric utility's delivery services rates: (i) the costs of that portion of generation facilities used for the production and absorption of reactive power in order that retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility, and (ii) the costs associated with the use and redispatch of generation facilities to mitigate constraints on the transmission or distribution system in order that retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility. Nothing in this subsection shall be construed as directing the Commission to allocate any of the costs described in (i) or (ii) that are found to be appropriately included in the electric utility's delivery services rates to any particular customer group or geographic area in setting delivery services rates.

(d) The Commission shall establish charges, terms and conditions for delivery services that are just and reasonable and shall take into account customer impacts when establishing such charges. In

SENATE

4521

establishing charges, terms and conditions for delivery services, the Commission shall take into account voltage level differences. A retail customer shall have the option to request to purchase electric service at any delivery service voltage reasonably and technically feasible from the electric facilities serving that customer's premises provided that there are no significant adverse impacts upon system reliability or system efficiency. A retail customer shall also have the option to request to purchase electric service at any point of delivery that is reasonably and technically feasible provided that there are no significant adverse impacts on system reliability or efficiency. Such requests shall not be unreasonably denied.

(e) Electric utilities shall recover the costs of installing, operating or maintaining facilities for the particular benefit of one or more delivery services customers, including without limitation any costs incurred in complying with a customer's request to be served at a different voltage level, directly from the retail customer or customers for whose benefit the costs were incurred, to the extent such costs are not recovered through the charges referred to in subsections (c) and (d) of this Section.

(f) An electric utility shall be entitled but not required to implement transition charges in conjunction with the offering of delivery services pursuant to Section 16-104. If an electric utility implements transition charges, it shall implement such charges for all delivery services customers and for all customers described in subsection (h), but shall not implement transition charges for power and energy that a retail customer takes from cogeneration or self-generation facilities located on that retail customer's premises, if such facilities meet the following criteria:

(i) the cogeneration or self-generation facilities serve a single retail customer and are located on that retail customer's premises (for purposes of this subparagraph and subparagraph (ii), an industrial or manufacturing retail customer and a third party contractor that is served by such industrial or manufacturing customer through such retail customer's own electrical distribution facilities under the circumstances described in subsection (vi) of the definition of "alternative retail electric supplier" set forth in Section 16-102, shall be considered a single retail customer);

(ii) the cogeneration or self-generation facilities either (A) are sized pursuant to generally accepted engineering standards for the retail customer's electrical load at that premises (taking into account standby or other reliability considerations related to that retail customer's operations at that site) or (B) if the facility is a cogeneration facility located on the retail customer's premises, the retail customer is the thermal host for that facility and the facility has been designed to meet that retail customer's thermal energy requirements resulting in electrical output beyond that retail customer's electrical demand at that premises, comply with the operating and efficiency standards applicable to "qualifying facilities" specified in title 18 Code of Federal Regulations Section 292.205 as in effect on the effective date of this amendatory Act of 1999;

(iii) the retail customer on whose premises the facilities are located either has an exclusive right to receive, and corresponding obligation to pay for, all of the electrical capacity of the facility, or in the case of a cogeneration facility that has been designed to meet the retail customer's thermal energy requirements at that premises, an identified amount of the electrical capacity of the facility, over a minimum

5-year period; and

(iv) if the cogeneration facility is sized for the retail customer's thermal load at that premises but exceeds the electrical load, any sales of excess power or energy are made only at wholesale, are subject to the jurisdiction of the Federal Energy Regulatory Commission, and are not for the purpose of circumventing the provisions of this subsection (f).

If a generation facility located at a retail customer's premises does not meet the above criteria, an electric utility implementing transition charges shall implement a transition charge until December 31, 2006 for any power and energy taken by such retail customer from such facility as if such power and energy had been delivered by the electric utility. Provided, however, that an industrial retail customer that is taking power from a generation facility that does not meet the above criteria but that is located on such customer's premises will not be subject to a transition charge for the power and energy taken by such retail customer from such generation facility if the facility does not serve any other retail customer and either was installed on behalf of the customer and for its own use prior to January 1, 1997, or is both predominantly fueled by byproducts of

such customer's manufacturing process at such premises and sells or offers an average of 300 megawatts or more of electricity produced from such generation facility into the wholesale market. Such charges shall be calculated as provided in Section 16-102, and shall be collected on each kilowatt-hour delivered under a delivery services tariff to a retail customer from the date the customer first takes delivery services until December 31, 2006 except as provided in subsection (h) of this Section. Provided, however, that an electric utility, other than an electric utility providing service to at least 1,000,000 customers in this State on January 1, 1999, shall be entitled to petition for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period ending no later than December 31, 2008. The electric utility shall file its petition with supporting evidence no earlier than 16 months, and no later than 12 months, prior to December 31, 2006. The Commission shall hold a hearing on the electric utility's petition and shall enter its order no later than 8 months after the petition is filed. The Commission shall determine whether and to what extent the electric utility shall be authorized to implement transition charges for an additional period. The Commission may authorize the electric utility to implement transition charges for some or all of the additional period, and shall determine the mitigation factors to be used in implementing such transition charges; provided, that the Commission shall not authorize mitigation factors less than 110% of those in effect during the 12 months ended December 31, 2006. In making its determination, the Commission shall consider the following factors: the necessity to implement transition charges for an additional period in order to maintain the financial integrity of the electric utility; the prudence of the electric utility's actions in reducing its costs since the effective date of this amendatory Act of 1997; the ability of the electric utility to provide safe, adequate and reliable service to retail customers in its service area; and the impact on competition of allowing the electric utility to implement transition charges for the additional period.

(g) The electric utility shall file tariffs that establish the transition charges to be paid by each class of customers to the electric utility in conjunction with the provision of delivery services. The electric utility's tariffs shall define the classes of its customers for purposes of calculating transition charges. The electric utility's tariffs shall provide for the calculation of

transition charges on a customer-specific basis for any retail customer whose average monthly maximum electrical demand on the electric utility's system during the 6 months with the customer's highest monthly maximum electrical demands equals or exceeds 3.0 megawatts for electric utilities having more than 1,000,000 customers, and for other electric utilities for any customer that has an average monthly maximum electrical demand on the electric utility's system of one megawatt or more, and (A) for which there exists data on the customer's usage during the 3 years preceding the date that the customer became eligible to take delivery services, or (B) for which there does not exist data on the customer's usage

during the 3 years preceding the date that the customer became eligible to take delivery services, if in the electric utility's reasonable judgment there exists comparable usage information or a sufficient basis to develop such information, and further provided that the electric utility can require customers for which an individual calculation is made to sign contracts that set forth the transition charges to be paid by the customer to the electric utility pursuant to the tariff.

(h) An electric utility shall also be entitled to file tariffs that allow it to collect transition charges from retail customers in the electric utility's service area that do not take delivery services but that take electric power or energy from an alternative retail electric supplier or from an electric utility other than the electric utility in whose service area the customer is located. Such charges shall be calculated, in accordance with the definition of transition charges in Section 16-102, for the period of time that the customer would be obligated to pay transition charges if it were taking delivery services, except that no deduction for delivery services revenues shall be made in such calculation, and usage data from the customer's class shall be used where historical usage data is not available for the individual customer. The customer shall be obligated to pay such charges on a lump sum basis on or before the date on which the customer commences to take service from the alternative retail electric supplier or other electric utility, provided, that the electric utility in whose service area the customer is located shall offer the customer the option of signing a contract pursuant to which the customer pays such charges ratably over the period in which the charges would otherwise have applied.

(i) An electric utility shall be entitled to add to the bills of delivery services customers charges pursuant to Sections 9-221, 9-222 (except as provided in Section 9-222.1), and Section 16-114 of this Act, Section 5-5 of the Electricity Infrastructure Maintenance Fee Law, Section 6-5 of the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997, and Section 13 of the Energy Assistance Act of 1989.

(j) If a retail customer that obtains electric power and energy from cogeneration or self-generation facilities installed for its own use on or before January 1, 1997, subsequently takes service from an alternative retail electric supplier or an electric utility other than the electric utility in whose service area the customer is located for any portion of the customer's electric power and energy requirements formerly obtained from those facilities (including that amount purchased from the utility in lieu of such generation and not as standby power purchases, under a cogeneration displacement tariff in effect as of the effective date of this amendatory Act of 1997), the transition charges otherwise applicable pursuant to subsections (f), (g), or (h) of this Section shall not be applicable in any year to that portion of the customer's electric power and energy requirements formerly obtained from those facilities, provided, that for purposes of this subsection (j), such portion shall not exceed

the average number of kilowatt-hours per year obtained from the cogeneration or self-generation facilities during the 3 years prior

to the date on which the customer became eligible for delivery services, except as provided in subsection (f) of Section 16-110.

(220 ILCS 5/16-110)

Sec. 16-110. Delivery services customer power purchase options.

(a) Each electric utility shall offer a tariffed service or services in accordance with the terms and conditions set forth in this Section pursuant to which its non-residential delivery services customers may purchase from the electric utility an amount of electric power and energy that is equal to or less than the amounts that are delivered by such electric utility.

(b) Except as provided in subsection (o) of Section 16-112, a non-residential delivery services customer that is paying transition charges to the electric utility shall be permitted to purchase electric power and energy from the electric utility at a price or prices equal to the sum of (i) the market values that are determined for the electric utility in accordance with Section 16-112 and used by the electric utility to calculate the customer's transition charges and (ii) a fee that compensates the electric utility for any administrative costs it incurs in arranging to supply such electric power and energy. The electric utility may require that the customer purchase such electric power and energy for periods of not less than one year and may also require that the customer give up to 30 days notice for a purchase of one year's duration, and 90 days notice for a purchase of more than one year's duration. A non-residential delivery service customer exercising the option described in this subsection may sell or assign its interests in the electric power or energy that the customer has purchased. In the case of any such assignment or sale by any non-residential delivery service customer to an alternative retail electric supplier that is serving such customer and has been certified pursuant to Section 16-115, an electric utility serving more than 500,000 customers shall provide such power and energy at the same market value as set forth in clause (i) of this subsection, together with the fee charged under clause (ii) of this subsection, less any costs included in such market value or fee with respect to retail marketing activities, provided, however, that in no event shall an electric utility be required after June 1, 2002 to provide power and energy at this market value plus fee that excludes marketing costs for any such assignment or sale by a non-residential customer to an alternative retail electric supplier. At least twice per year, each electric utility shall notify its small commercial retail customers, through bill inserts and other similar means, of their option to obtain electric power and energy through purchases at market value pursuant to this subsection.

(c) After the transition charge period applicable to a non-residential delivery services customer, and until the provision of electric power and energy is declared competitive for the customer group to which the customer belongs, a non-residential delivery services customer that paid any transition charges it was legally obligated to pay to an electric utility shall be permitted to purchase electric power and energy from the electric utility for contract periods of one year at a price or prices equal to the sum of (i) the market value determined for that customer's class pursuant to Section 16-112 and (ii) to the extent it is not included in such market value, a fee to compensate the electric utility for the service of arranging the supply or purchase of such electric power and energy. The electric utility may require that a delivery

services customer give the following notice for such a purchase: (i) for a small commercial retail customer, not more than 30 days; (ii)

for a nonresidential customer which is not a small commercial retail customer but which has maximum electrical demand of less than 500 kilowatts, not more than 6 months; (iii) for a nonresidential customer with maximum electrical demand of 500 kilowatts or more but less than one megawatt, not more than 9 months; and (iv) for a nonresidential customer with maximum electrical demand of one megawatt or more, not more than one year. At least twice per year, each electric utility shall notify its small commercial retail customers, through bill inserts or other similar means, of their option to obtain electric power and energy through purchases at market value pursuant to this subsection.

(d) After the transition charge period applicable to a non-residential delivery services customer, and until the provision of electric power and energy is declared competitive for the customer group to which the customer belongs, a non-residential delivery services customer, other than a small commercial retail customer, that paid any transition charges it was legally obligated to pay to an electric utility shall be permitted to purchase electric power and energy from the electric utility for contract periods of one year at a price or prices equal to (A) the sum of (i) the electric utility's actual cost of procuring such electric power and energy and (ii) a broker's fee to compensate the electric utility for arranging the supply, or, if the utility so elects, (B) the market value of electric power or energy provided by the electric utility determined as set forth in the electric utility's tariff for that customer's class. The electric utility may require that the delivery services customer give up to 30 days notice for such a purchase.

(e) Each delivery services customer purchasing electric power and energy from the electric utility pursuant to a tariff filed in accordance with this Section shall also pay all of the applicable charges set forth in the electric utility's delivery services tariffs and any other tariffs applicable to the services provided to that customer by the electric utility.

(f) An electric utility can require a retail customer taking delivery services that formerly generated electric power and energy for its own use and that would not otherwise pay transition charges on a portion of its electric power and energy requirements served on delivery services to pay transition charges on that portion of the customer's electric power and energy requirements as a condition of exercising the delivery services customer power purchase options set forth in this Section.

Sec. 16-111. Rates and restructuring transactions during mandatory transition period.

(a) During the mandatory transition period, notwithstanding any provision of Article IX of this Act, and except as provided in subsections (b), (d), (e), and (f) of this Section, the Commission shall not (i) initiate, authorize or order any change by way of increase (other than in connection with a request for rate increase

which was filed after September 1, 1997 but prior to October 15, 1997, by an electric utility serving less than 12,500 customers in this state), (ii) initiate or, unless requested by the electric utility, authorize or order any change by way of decrease, restructuring or unbundling (except as provided in Section 16-109A), in the rates of any electric utility that were in effect on October 1, 1996, or (iii) in any order approving any application for a merger pursuant to Section 7-204 that was pending as of May 16, 1997, impose any condition requiring any filing for an increase, decrease, or change in, or other review of, an electric utility's rates or enforce any such condition of any such order; provided, however, that this

subsection shall not prohibit the Commission from:

(1) approving the application of an electric utility to implement an alternative to rate of return regulation or a regulatory mechanism that rewards or penalizes the electric utility through adjustment of rates based on utility performance, pursuant to Section 9-244;

(2) authorizing an electric utility to eliminate its fuel adjustment clause and adjust its base rate tariffs in accordance with subsection (b), (d), or (f) of Section 9-220 of this Act, to fix its fuel adjustment factor in accordance with subsection (c) of Section 9-220 of this Act, or to eliminate its fuel adjustment clause in accordance with subsection (e) of Section 9-220 of this Act;

(3) ordering into effect tariffs for delivery services and transition charges in accordance with Sections 16-104 and 16-108, for real-time pricing in accordance with Section 16-107, or the options required by Section 16-110 and subsection (n) of 16-112, allowing a billing experiment in accordance with Section 16-106, or modifying delivery services tariffs in accordance with Section 16-109; or

(4) ordering or allowing into effect any tariff to recover charges pursuant to Sections 9-201.5, 9-220.1, 9-221, 9-222 (except as provided in Section 9-222.1), 16-108, and 16-114 of this Act, Section 5-5 of the Electricity Infrastructure Maintenance Fee Law, Section 6-5 of the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997, and Section 13 of the Energy Assistance Act of 1989.

(b) Notwithstanding the provisions of subsection (a), each Illinois electric utility serving more than 12,500 customers in Illinois shall file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 15% from the base rates in effect immediately prior to January 1, 1998 and (ii) if the public utility provides electric service to (A) more than 500,000 customers but less than 1,000,000 customers in this State on January 1, 1999 ~~the effective date of this amendatory Act of 1997,~~ reducing, effective May 1, 2002, each component of its base rates to residential retail customers by an additional 5% from the base rates in effect immediately prior to January 1, 1998, or (B) at least 1,000,000 customers in this State on January 1, 1999, reducing, effective October 1, 2001, each component of its base rates to residential retail customers by an additional 5% from the base rates

in effect immediately prior to January 1, 1998. Provided, however, that (A) if an electric utility's average residential retail rate is less than or equal to the average residential retail rate for a group of Midwest Utilities (consisting of all investor-owned electric utilities with annual system peaks in excess of 1000 megawatts in the States of Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin), based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, then it shall only be required to file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 5% from the base rates in effect immediately prior to January 1, 1998, (ii) reducing, effective October 1, 2000, each component of its base rates to residential retail customers by the lesser of 5% of the base rates in effect immediately prior to January 1, 1998 or the percentage by which the electric utility's average residential retail rate exceeds the average residential retail rate of the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1999, and (iii) reducing, effective October 1, 2002, each component of its base rates to residential retail customers by an additional amount equal

SENATE

4527

to the lesser of 5% of the base rates in effect immediately prior to January 1, 1998 or the percentage by which the electric utility's average residential retail rate exceeds the average residential retail rate of the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 2001; and (B) if the average residential retail rate of an electric utility serving between 150,000 and 250,000 retail customers in this State on January 1, 1995 is less than or equal to 90% of the average residential retail rate for the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, then it shall only be required to file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 2% from the base rates in effect immediately prior to January 1, 1998; (ii) reducing, effective October 1, 2000, each component of its base rates to residential retail customers by 2% from the base rate in effect immediately prior to January 1, 1998; and (iii) reducing, effective October 1, 2002, each component of its base rates to residential retail customers by 1% from the base rates in effect immediately prior to January 1, 1998. Provided, further, that any electric utility for which a decrease in base rates has been or is placed into effect between October 1, 1996 and the dates specified in the preceding sentences of this subsection, other than pursuant to the requirements of this subsection, shall be entitled to reduce the amount of any reduction or reductions in its base rates required by this subsection by the amount of such other decrease. The tariffs required under this subsection shall be filed 45 days in advance of the effective date. Notwithstanding anything to the contrary in Section 9-220 of this Act, no restatement of base rates in conjunction with the elimination of a fuel adjustment clause under that Section shall result in a lesser decrease in base rates than customers would otherwise receive under this subsection had the electric utility's fuel adjustment

clause not been eliminated.

(c) Any utility reducing its base rates by 15% on August 1, 1998 pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 15% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.". Any utility reducing its base rates by 5% on August 1, 1998, pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 5% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.".

Any utility reducing its base rates by 2% on August 1, 1998 pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 2% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.".

(d) During the mandatory transition period, but not before January 1, 2000, and notwithstanding the provisions of subsection (a), an electric utility may request an increase in its base rates if the electric utility demonstrates that the 2-year average of its earned rate of return on common equity, calculated as its net income applicable to common stock divided by the average of its beginning and ending balances of common equity using data reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission but adjusted to remove the effects of accelerated depreciation or amortization or other transition or mitigation

measures implemented by the electric utility pursuant to subsection (g) of this Section and the effect of any refund paid pursuant to subsection (e) of this Section, is below the 2-year average for the same 2 years of the monthly average yields of 30-year U.S. Treasury bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication. The Commission shall review the electric utility's request, and may review the justness and reasonableness of all rates for tariffed services, in accordance with the provisions of Article IX of this Act, provided that the Commission shall consider any special or negotiated adjustments to the revenue requirement agreed to between the electric utility and the other parties to the proceeding. In setting rates under this Section, the Commission shall exclude the costs and revenues that are associated with competitive services and any billing or pricing experiments conducted under Section 16-106.

(e) For the purposes of this subsection (e) all calculations and comparisons shall be performed for the Illinois operations of multijurisdictional utilities. During the mandatory transition period, notwithstanding the provisions of subsection (a), if the 2-year average of an electric utility's earned rate of return on common equity, calculated as its net income applicable to common stock divided by the average of its beginning and ending balances of

common equity using data reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission but adjusted to remove the effect of any refund paid under this subsection (e), and further adjusted to include the annual amortization of any difference between the consideration received by an affiliated interest of the electric utility in the sale of an asset which had been sold or transferred by the electric utility to the affiliated interest subsequent to the effective date of this amendatory Act of 1997 and the consideration for which such asset had been sold or transferred to the affiliated interest, with such difference to be amortized ratably from the date of the sale by the affiliated interest to December 31, 2006, exceeds the 2-year average of the Index for the same 2 years by 1.5 or more percentage points, the electric utility shall make refunds to customers beginning the first billing day of April in the following year in the manner described in paragraph (3) of this subsection. For purposes of this subsection (e), the "Index" shall be the sum of (A) the average for the 12 months ended September 30 of the monthly average yields of 30-year U.S. Treasury bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication for each year 1998 through 2004, and (B) (i) 4.00 percentage points for each of the 12-month periods ending September 30, 1998 through September 30, 1999 or 8.00 percentage points if the electric utility's average residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, and the electric utility served between 150,000 and 250,000 retail customers on January 1, 1995, ~~or~~ (ii) 7.00 ~~5.00~~ percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004 if the electric utility was providing service to at least 1,000,000 customers in this State on January 1, 1999, or 9.00 percentage points if the electric utility's average residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995 and the electric utility served between 150,000 and 250,000

retail customers in this State on January 1, 1995, (iii) 11.00 percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004, but only if the electric utility's average residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, the electric utility served between 150,000 and 250,000 retail customers in this State on January 1, 1995, and the electric utility offers delivery services on or before June 1, 2000 to retail customers whose annual electric energy use comprises 33% of the kilowatt hour sales to that group of retail customers that are classified under Division D, Groups 20 through 39 of the Standard Industrial Classifications set forth in

the Standard Industrial Classification Manual published by the United States Office of Management and Budget, excluding the kilowatt hour sales to those customers that are eligible for delivery services pursuant to Section 16-104(a)(1)(i), and offers delivery services to its remaining retail customers classified under Division D, Groups 20 through 39 on or before October 1, 2000, and, provided further, that the electric utility commits not to petition pursuant to Section 16-108(f) for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period after December 31, 2006, or (iv) 5.00 percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004 for all other electric utilities or 7.00 percentage points for such utilities for each of the 12-month periods ending September 30, 2000 through September 30, 2004 for any such utility that commits not to petition pursuant to Section 16-108(f) for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period after December 31, 2006.

(1) For purposes of this subsection (e), "excess earnings" means the difference between (A) the 2-year average of the electric utility's earned rate of return on common equity, less (B) the 2-year average of the sum of (i) the Index applicable to each of the 2 years and (ii) 1.5 percentage points; provided, that "excess earnings" shall never be less than zero.

(2) On or before March 31 of each year 2000 through 2005 each electric utility shall file a report with the Commission showing its earned rate of return on common equity, calculated in accordance with this subsection, for the preceding calendar year and the average for the preceding 2 calendar years.

(3) If an electric utility has excess earnings, determined in accordance with paragraphs (1) and (2) of this subsection, the refunds which the electric utility shall pay to its customers beginning the first billing day of April in the following year shall be calculated and applied as follows:

(i) The electric utility's excess earnings shall be multiplied by the average of the beginning and ending balances of the electric utility's common equity for the 2-year period in which excess earnings occurred.

(ii) The result of the calculation in (i) shall be multiplied by 0.50 and then divided by a number equal to 1 minus the electric utility's composite federal and State income tax rate.

(iii) The result of the calculation in (ii) shall be divided by the sum of the electric utility's projected total kilowatt-hour sales to retail customers plus projected kilowatt-hours to be delivered to delivery services customers over a one year period beginning with the first

billing date in April in the succeeding year to determine a cents per kilowatt-hour refund factor.

(iv) The cents per kilowatt-hour refund factor calculated in (iii) shall be credited to the electric utility's customers by applying the factor on the customer's

monthly bills to each kilowatt-hour sold or delivered until the total amount calculated in (ii) has been paid to customers.

(f) During the mandatory transition period, an electric utility may file revised tariffs reducing the price of any tariffed service offered by the electric utility for all customers taking that tariffed service, which shall be effective 7 days after filing.

(g) During the mandatory transition period, an electric utility may, without obtaining any approval of the Commission other than that provided for in this subsection and notwithstanding any other provision of this Act or any rule or regulation of the Commission that would require such approval:

(1) implement a reorganization, other than a merger of 2 or more public utilities as defined in Section 3-105 or their holding companies;

(2) retire generating plants from service;

(3) sell, assign, lease or otherwise transfer assets to an affiliated or unaffiliated entity and as part of such transaction enter into service agreements, power purchase agreements, or other agreements with the transferee; provided, however, that the prices, terms and conditions of any power purchase agreement must be approved or allowed into effect by the Federal Energy Regulatory Commission; or

(4) use any accelerated cost recovery method including accelerated depreciation, accelerated amortization or other capital recovery methods, or record reductions to the original cost of its assets.

In order to implement a reorganization, retire generating plants from service, or sell, assign, lease or otherwise transfer assets pursuant to this Section, the electric utility shall comply with subsections (c) and (d) of Section 16-128, if applicable, and subsection (k) of this Section, if applicable, and provide the Commission with at least 30 days notice of the proposed reorganization or transaction, which notice shall include the following information:

(i) a complete statement of the entries that the electric utility will make on its books and records of account to implement the proposed reorganization or transaction together with a certification from an independent certified public accountant that such entries are in accord with generally accepted accounting principles and, if the Commission has previously approved guidelines for cost allocations between the utility and its affiliates, a certification from the chief accounting officer of the utility that such entries are in accord with those cost allocation guidelines;

(ii) a description of how the electric utility will use proceeds of any sale, assignment, lease or transfer to retire debt or otherwise reduce or recover the costs of services provided by such electric utility;

(iii) a list of all federal approvals or approvals required from departments and agencies of this State, other than the Commission, that the electric utility has or will obtain before implementing the reorganization or transaction;

(iv) an irrevocable commitment by the electric utility

that it will not, as a result of the transaction, impose any stranded cost charges that it might otherwise be allowed to charge retail customers under federal law or increase the transition charges that it is otherwise entitled to collect under this Article XVI; and

(v) if the electric utility proposes to sell, assign, lease or otherwise transfer a generating plant that brings the amount of net dependable generating capacity transferred pursuant to this subsection to an amount equal to or greater than 15% of the electric utility's net dependable capacity as of the effective date of this amendatory Act of 1997, and enters into a power purchase agreement with the entity to which such generating plant is sold, assigned, leased, or otherwise transferred, the electric utility also agrees, if its fuel adjustment clause has not already been eliminated, to eliminate its fuel adjustment clause in accordance with subsection (b) of Section 9-220 for a period of time equal to the length of any such power purchase agreement or successor agreement, or until January 1, 2005, whichever is longer; if the capacity of the generating plant so transferred and related power purchase agreement does not result in the elimination of the fuel adjustment clause under this subsection, and the fuel adjustment clause has not already been eliminated, the electric utility shall agree that the costs associated with the transferred plant that are included in the calculation of the rate per kilowatt-hour to be applied pursuant to the electric utility's fuel adjustment clause during such period shall not exceed the per kilowatt-hour cost associated with such generating plant included in the electric utility's fuel adjustment clause during the full calendar year preceding the transfer, with such limit to be adjusted each year thereafter by the Gross Domestic Product Implicit Price Deflator.

(vi) In addition, if the electric utility proposes to sell, assign, or lease, (A) either (1) an amount of generating plant that brings the amount of net dependable generating capacity transferred pursuant to this subsection to an amount equal to or greater than 15% of its net dependable capacity on the effective date of this amendatory Act of 1997, or (2) one or more generating plants with a total net dependable capacity of 1100 megawatts, or (B) transmission and distribution facilities that either (1) bring the amount of transmission and distribution facilities transferred pursuant to this subsection to an amount equal to or greater than 15% of the electric utility's total depreciated original cost investment in such facilities, or (2) represent an investment of \$25,000,000 in terms of total depreciated original cost, the electric utility shall provide, in addition to the information listed in subparagraphs (i) through (v), the following information: (A) a description of how the electric utility will meet its service obligations under this Act in a safe and reliable

manner and (B) the electric utility's projected earned rate of return on common equity, calculated in accordance with subsection (d) of this Section, for each year from the date of the notice through December 31, 2004 both with and without the proposed transaction. If the Commission has not issued an order initiating a hearing on the proposed transaction within 30 days after the date the electric utility's notice is filed, the transaction shall be deemed

approved. The Commission may, after notice and hearing, prohibit the proposed transaction if it makes either or both of the following findings: (1) that the proposed transaction will render the electric utility unable to provide its tariffed services in a safe and reliable manner, or (2) that there is a strong likelihood that consummation of the proposed transaction will result in the electric utility being entitled to request an increase in its base rates during the mandatory transition period pursuant to subsection (d) of this Section. Any hearing initiated by the Commission into the proposed transaction shall be completed, and the Commission's final order approving or prohibiting the proposed transaction shall be entered, within 90 days after the date the electric utility's notice was filed. Provided, however, that a sale, assignment, or lease of transmission facilities to an independent system operator that meets the requirements of Section 16-126 shall not be subject to Commission approval under this Section.

In any proceeding conducted by the Commission pursuant to this subparagraph (vi), intervention shall be limited to parties with a direct interest in the transaction which is the subject of the hearing and any statutory consumer protection agency as defined in subsection (d) of Section 9-102.1. Notwithstanding the provisions of Section 10-113 of this Act, any application seeking rehearing of an order issued under this subparagraph (vi), whether filed by the electric utility or by an intervening party, shall be filed within 10 days after service of the order.

The Commission shall not in any subsequent proceeding or otherwise, review such a reorganization or other transaction authorized by this Section, but shall retain the authority to allocate costs as stated in Section 16-111(i). An entity to which an electric utility sells, assigns, leases or transfers assets pursuant to this subsection (g) shall not, as a result of the transactions specified in this subsection (g), be deemed a public utility as defined in Section 3-105. Nothing in this subsection (g) shall change any requirement under the jurisdiction of the Illinois Department of Nuclear Safety including, but not limited to, the payment of fees. Nothing in this subsection (g) shall exempt a utility from obtaining a certificate pursuant to Section 8-406 of this Act for the construction of a new electric generating facility. Nothing in this subsection (g) is intended to exempt the transactions hereunder from the operation of the federal or State antitrust laws. Nothing in this subsection (g) shall require an electric utility to

use the procedures specified in this subsection for any of the transactions specified herein. Any other procedure available under this Act may, at the electric utility's election, be used for any such transaction.

(h) During the mandatory transition period, the Commission shall not establish or use any rates of depreciation, which for purposes of this subsection shall include amortization, for any electric utility other than those established pursuant to subsection (c) of Section 5-104 of this Act or utilized pursuant to subsection (g) of this Section. Provided, however, that in any proceeding to review an electric utility's rates for tariffed services pursuant to Section 9-201, 9-202, 9-250 or 16-111(d) of this Act, the Commission may establish new rates of depreciation for the electric utility in the same manner provided in subsection (d) of Section 5-104 of this Act. An electric utility implementing an accelerated cost recovery method including accelerated depreciation, accelerated amortization or other capital recovery methods, or recording reductions to the original

cost of its assets, pursuant to subsection (g) of this Section, shall file a statement with the Commission describing the accelerated cost recovery method to be implemented or the reduction in the original cost of its assets to be recorded. Upon the filing of such statement, the accelerated cost recovery method or the reduction in the original cost of assets shall be deemed to be approved by the Commission as though an order had been entered by the Commission.

(i) Subsequent to the mandatory transition period, the Commission, in any proceeding to establish rates and charges for tariffed services offered by an electric utility, shall consider only (1) the then current or projected revenues, costs, investments and cost of capital directly or indirectly associated with the provision of such tariffed services; (2) collection of transition charges in accordance with Sections 16-102 and 16-108 of this Act; (3) recovery of any employee transition costs as described in Section 16-128 which the electric utility is continuing to incur, including recovery of any unamortized portion of such costs previously incurred or committed, with such costs to be equitably allocated among bundled services, delivery services, and contracts with alternative retail electric suppliers; and (4) recovery of the costs associated with the electric utility's compliance with decommissioning funding requirements; and shall not consider any other revenues, costs, investments or cost of capital of either the electric utility or of any affiliate of the electric utility that are not associated with the provision of tariffed services. In setting rates for tariffed services, the Commission shall equitably allocate joint and common costs and investments between the electric utility's competitive and tariffed services. In determining the justness and reasonableness of the electric power and energy component of an electric utility's rates for tariffed services subsequent to the mandatory transition period and prior to the time that the provision of such electric power and energy is declared competitive, the Commission shall consider the extent to which the electric utility's tariffed rates for such component for each customer class exceed the market value determined pursuant to Section 16-112, and, if the electric power and

energy component of such tariffed rate exceeds the market value by more than 10% for any customer class, may establish such electric power and energy component at a rate equal to the market value plus 10%. In any such case, the Commission may also elect to extend the provisions of Section 16-111(e) for any period in which the electric utility is collecting transition charges, using information applicable to such period.

(j) During the mandatory transition period, an electric utility may elect to transfer to a non-operating income account under the Commission's Uniform System of Accounts either or both of (i) an amount of unamortized investment tax credit that is in addition to the ratable amount which is credited to the electric utility's operating income account for the year in accordance with Section 46(f)(2) of the federal Internal Revenue Code of 1986, as in effect prior to P.L. 101-508, or (ii) "excess tax reserves", as that term is defined in Section 203(e)(2)(A) of the federal Tax Reform Act of 1986, provided that (A) the amount transferred may not exceed the amount of the electric utility's assets that were created pursuant to Statement of Financial Accounting Standards No. 71 which the electric utility has written off during the mandatory transition period, and (B) the transfer shall not be effective until approved by the Internal Revenue Service. An electric utility electing to make such a transfer shall file a statement with the Commission stating the amount and timing of the transfer for which it intends to request approval of the Internal Revenue Service, along with a copy of its proposed request to the Internal Revenue Service for a ruling. The

Commission shall issue an order within 14 days after the electric utility's filing approving, subject to receipt of approval from the Internal Revenue Service, the proposed transfer.

(k) If an electric utility is selling or transferring to a single buyer 5 or more generating plants located in this State with a total net dependable capacity of 5000 megawatts or more pursuant to subsection (g) of this Section and has obtained a sale price or consideration that exceeds 200% of the book value of such plants, the electric utility must provide to the Governor, the President of the Illinois Senate, the Minority Leader of the Illinois Senate, the Speaker of the Illinois House of Representatives, and the Minority Leader of the Illinois House of Representatives no later than 15 days after filing its notice under subsection (g) of this Section or 5 days after the date on which this subsection (k) becomes law, whichever is later, a written commitment in which such electric utility agrees to expend \$2 billion outside the corporate limits of any municipality with 1,000,000 or more inhabitants within such electric utility's service area, over a 6-year period beginning with the calendar year in which the notice is filed, on projects, programs, and improvements within its service area relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management.

(220 ILCS 5/16-111.1 new)

Sec. 16-111.1. Illinois Clean Energy Community Trust.

(a) An electric utility which has sold or transferred generating facilities in a transaction to which subsection (k) of Section 16-111 applies is authorized to establish an Illinois clean energy community trust or foundation for the purposes of providing financial support and assistance to entities, public or private, within the State of Illinois including, but not limited to, units of State and local government, educational institutions, corporations, and charitable, educational, environmental and community organizations, for programs and projects that benefit the public by improving energy efficiency, developing renewable energy resources, supporting other energy related projects that improve the State's environmental quality, and supporting projects and programs intended to preserve or enhance the natural habitats and wildlife areas of the State. Provided, however, that the trust or foundation funds shall not be used for the remediation of environmentally impaired property. The trust or foundation may also assist in identifying other energy and environmental grant opportunities.

(b) Such trust or foundation shall be governed by a declaration of trust or articles of incorporation and by-laws which shall, at a minimum, provide that:

(1) There shall be 6 voting trustees of the trust or foundation, one of whom shall be appointed by the Governor, one of whom shall be appointed by the President of the Illinois Senate, one of whom shall be appointed by the Minority Leader of the Illinois Senate, one of whom shall be appointed by the Speaker of the Illinois House of Representatives, one of whom shall be appointed by the Minority Leader of the Illinois House of Representatives, and one of whom shall be appointed by the electric utility establishing the trust or foundation, provided that the voting trustee appointed by the utility shall be a representative of a recognized environmental action group selected by the utility. The Governor shall select one of the 6 voting trustees, once appointed, to be the first chairman of the trust or foundation pending the first election of officers. In addition, there shall be 4 non-voting trustees, one of whom shall

be appointed by the Director of the Department of Commerce and Community Affairs, one of whom shall be appointed by the Director of the Illinois Environmental Protection Agency, one of whom shall be appointed by the Director of the Department of Natural Resources, and one of whom shall be appointed by the electric utility establishing the trust or foundation, provided that the non-voting trustee appointed by the utility shall bring financial expertise to the trust or foundation and shall have appropriate credentials therefor.

(2) All voting trustees and the non-voting trustee with financial expertise shall be entitled to compensation for their services as trustees, provided, however, that no member of the General Assembly and no employee of the electric utility establishing the trust or foundation serving as a voting trustee shall receive any compensation for his or her services as a trustee, and provided further that the compensation to the chairman of the trust shall not exceed \$25,000 annually and the

compensation to any other trustee shall not exceed \$20,000 annually. All trustees shall be entitled to reimbursement for reasonable expenses incurred on behalf of the trust in the performance of their duties as trustees. All such compensation and reimbursements shall be paid out of the trust.

(3) Trustees shall be appointed within 30 days after the creation of the trust or foundation and shall serve for a term of 5 years commencing upon the date of their respective appointments, until their respective successors are appointed and qualified.

(4) A vacancy in the office of trustee shall be filled by the person holding the office responsible for appointing the trustee whose death or resignation creates the vacancy, and a trustee appointed to fill a vacancy shall serve the remainder of the term of the trustee whose resignation or death created the vacancy.

(5) The trust or foundation shall have an indefinite term, and shall terminate at such time as no trust assets remain.

(6) The trust or foundation shall be funded in the minimum amount of \$250,000,000, with the allocation and disbursement of funds for the various purposes for which the trust or foundation is established to be determined by the trustees in accordance with the declaration of trust or the articles of incorporation and by-laws; provided, however, that this amount may be reduced by up to \$25,000,000 if, at the time the trust or foundation is funded, a corresponding amount is contributed by the electric utility establishing the trust or foundation to the Board of Trustees of Southern Illinois University for the purpose of funding programs or projects related to clean coal and provided further that \$25,000,000 of the amount contributed to the trust or foundation shall be available to fund programs or projects related to clean coal.

(7) The trust or foundation shall be authorized to employ an executive director and other employees, to enter into leases, contracts and other obligations on behalf of the trust or foundation, and to incur expenses that the trustees deem necessary or appropriate for the fulfillment of the purposes for which the trust or foundation is established, provided, however, that salaries and administrative expenses incurred on behalf of the trust or foundation shall not exceed \$500,000 in the first fiscal year after the trust or foundation is established and shall not exceed \$1,000,000 in each subsequent fiscal year.

(8) The trustees may create and appoint advisory boards or committees to assist them with the administration of the trust or

foundation, and to advise and make recommendations to them regarding the contribution and disbursement of the trust or foundation funds.

(c)(1) In addition to the allocation and disbursement of funds for the purposes set forth in subsection (a) of this Section, the trustees of the trust or foundation shall annually contribute funds in amounts set forth in subparagraph (2) of this subsection to the Citizens Utility Board created by the Citizens Utility

Board Act; provided, however, that any such funds shall be used solely for the representation of the interests of utility consumers before the Illinois Commerce Commission, the Federal Energy Regulatory Commission, and the Federal Communications Commission and for the provision of consumer education on utility service and prices and on benefits and methods of energy conservation. Provided, however, that no part of such funds shall be used to support (i) any lobbying activity, (ii) activities related to fundraising, (iii) advertising or other marketing efforts regarding a particular utility, or (iv) solicitation of support for, or advocacy of, a particular position regarding any specific utility or a utility's docketed proceeding.

(2) In the calendar year in which the trust or foundation is first funded, the trustees shall contribute \$1,000,000 to the Citizens Utility Board within 60 days after such trust or foundation is established; provided, however, that such contribution shall be made after December 31, 1999. In each of the 6 calendar years subsequent to the first contribution, if the trust or foundation is in existence, the trustees shall contribute to the Citizens Utility Board an amount equal to the total expenditures by such organization in the prior calendar year, as set forth in the report filed by the Citizens Utility Board with the chairman of such trust or foundation as required by subparagraph (3) of this subsection. Such subsequent contributions shall be made within 30 days of submission by the Citizens Utility Board of such report to the Chairman of the trust or foundation, but in no event shall any annual contribution by the trustees to the Citizens Utility Board exceed \$1,000,000. Following such 7-year period, an Illinois statutory consumer protection agency may petition the trust or foundation for contributions to fund expenditures of the type identified in paragraph (1), but in no event shall annual contributions by the trust or foundation for such expenditures exceed \$1,000,000.

(3) The Citizens Utility Board shall file a report with the chairman of such trust or foundation for each year in which it expends any funds received from the trust or foundation setting forth the amount of any expenditures (regardless of the source of funds for such expenditures) for: (i) the representation of the interests of utility consumers before the Illinois Commerce Commission, the Federal Energy Regulatory Commission, and the Federal Communications Commission, and (ii) the provision of consumer education on utility service and prices and on benefits and methods of energy conservation. Such report shall separately state the total amount of expenditures for the purposes or activities identified by items (i) and (ii) of this paragraph, the name and address of the external recipient of any such expenditure, if applicable, and the specific purposes or activities (including internal purposes or activities) for which each expenditure was made. Any report required by this subsection shall be filed with the chairman of such trust or foundation no later than March 31 of the year immediately following the year for which the report is required.

Sec. 16-111.2. Provisions related to proposed utility transactions.

(a) The General Assembly finds:

(1) A transaction as described in paragraph (3) of this subsection (a) will contribute to improved reliability of the electric supply system in Illinois which is one of the key purposes of the Illinois Electric Service Customer Choice and Rate Relief Law of 1997.

(2) A transaction as described in paragraph (3) of this subsection (a) is likely to promote additional investment in the existing generating assets and in the development of additional generation capacity in Illinois, and such change in ownership is in the public interest, consistent with the intent of the Illinois Electric Service Customer Choice and Rate Relief Law of 1997 and beneficial for the citizens of this State.

(3) As of the date on which this amendatory Act of 1999 becomes law, an electric utility providing service to more than 1,000,000 customers in this State has proposed to sell or transfer to a single buyer 5 or more generating plants with a total net dependable capacity of 5000 megawatts or more pursuant to subsection (g) of Section 16-111.

(4) Such electric utility anticipates receiving a sale price or consideration as a result of such transaction exceeding 200% of the book value of these plants.

(5) Such electric utility has presented to the Governor and the leaders of the General Assembly a written commitment in which such electric utility agrees to expend \$2,000,000,000 outside the corporate limits of any municipality with 1,000,000 or more inhabitants within such electric utility's service area, over a 6-year period beginning with this calendar year on projects, programs and improvements within its service area relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management.

(6) Such electric utility has committed that, if the sale or transfer contemplated by paragraph (3) of this subsection is consummated on or before December 31, 1999, the electric utility shall make contributions totaling \$250,000,000 to entities within this State for, among other purposes, environmental and clean coal initiatives pursuant to Section 16-111.1, which commitment includes a contribution of \$25,000,000 to the Board of Trustees of Southern Illinois University for the purpose of funding programs or projects related to clean coal.

(b) That, in light of the findings in paragraphs (1) and (2) of subsection (a) and, in this instance, the circumstances described in paragraphs (3) through (6) of subsection (a) and otherwise, the General Assembly hereby finds that allowing the generating facilities being acquired to be eligible facilities under the provisions of the National Energy Policy Act of 1992 that apply to exempt wholesale generators (A) will benefit consumers; (B) is in the public interest; and (C) does not violate the law of this State.

(c) Nothing in this Section shall have any effect on the authority of the Commission under subsection (g) of Section 16-111 this Act.

Sec. 16-114.1. Recovery of decommissioning costs in connection with nuclear power plant sale agreement.

(a) An electric utility owning a single-unit nuclear power plant located in this State which enters into an agreement to sell the nuclear power plant and as part of such agreement agrees: (i) to

4538

JOURNAL OF THE

[May 27, 1999]

make contributions to a tax-qualified decommissioning trust or non-tax qualified decommissioning trust, or both, as defined in Section 8-508.1 for the nuclear power plant, in specified amounts or for a specified period of time, after the sale is consummated, or (ii) to purchase an insurance instrument which provides for the payment of all or a specified amount of the decommissioning costs of the nuclear power plant, shall be entitled, in the case of item (i), to maintain such decommissioning trusts for the purpose of receiving such contributions after the consummation of the sale, to implement revisions to its decommissioning rate in accordance with subsection (b) of this Section, and to transfer such decommissioning trusts, or the balance in the trusts, to the buyer of the nuclear power plant in accordance with the agreement of sale, and in the case of item (ii), to implement revisions to its decommissioning rate in accordance with subsection (c) of this Section.

(b) An electric utility entering into an agreement of sale described in subsection (a)(i) of this Section shall be entitled to file a petition with the Commission for entry of an order authorizing the electric utility (i) to amortize its liability for decommissioning costs pursuant to the agreement of sale over the period of time in which the electric utility is required by such agreement to make additional contributions to the tax-qualified decommissioning trust, the non-tax qualified decommissioning trust, or both, and (ii) to revise its decommissioning rate to a level that will recover, over the time period specified in the agreement of sale, an annual amount equal to the electric utility's annual contributions to the decommissioning trusts which are required by the agreement of sale multiplied by the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase in each such year.

(c) An electric utility entering into an agreement of sale described in subsection (a)(ii) shall be entitled to file a petition with the Commission for entry of an order authorizing the electric utility to revise its decommissioning rate to a level that will recover, over 5 years, the electric utility's cost of purchasing the insurance instrument multiplied by the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase in each such year.

(d) An electric utility's petition pursuant to subsection (b) or subsection (c) shall state the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase from the new owner of the nuclear power plant in each of the years for which the electric utility is seeking to implement a revised decommissioning rate. The electric utility's petition shall also state that the electric utility agrees, as conditions of the Commission's order and the implementation of the revised decommissioning rate, (i) to file revisions, pursuant to

Section 16-111(f), to its base rate tariffs applicable to retail customers subject to the electric utility's decommissioning rate reducing such tariffs, and (ii) to file revisions to its transition charge tariffs applicable to retail customers subject to the electric utility's decommissioning rate incorporating a credit into the calculation of the electric utility's transition charges in accordance with this subsection. The reduction and the credit shall be in an amount per kilowatt-hour of electricity sold or delivered to retail customers equal to (i) the electric utility's decommissioning rate authorized by the Commission's order in accordance with subsection (b)(ii) or (c), as applicable, less (ii) the product of the electric utility's decommissioning rate in effect immediately prior to the agreement of sale multiplied by the percentage of the output of the nuclear power plant which the agreement of sale

obligates the electric utility to purchase from the new owner of the nuclear power plant. The Commission shall issue an order granting the petition within 30 days after the petition is filed. The Commission's order shall state the aggregate total amount which the order is authorizing the electric utility to collect through its decommissioning rate. The Commission's order shall state that the effectiveness of the revisions to the electric utility's decommissioning rate shall be conditioned on the filing by the electric utility of the revisions reducing its base rate tariffs and providing for credits to its transition charge tariffs as specified in this subsection. Upon completion of the collection of the total amount which the Commission's order authorizes the electric utility to collect through its decommissioning rate, the electric utility shall not be entitled to collect any further amounts of decommissioning costs for its nuclear power plant through a decommissioning rate. Nothing in this Section shall be construed to permit an increase in the overall tariffed rates and charges paid by the electric utility's customers.

(e) In addition to the uses of the proceeds of the sale and issuance of transitional funding instruments authorized by Section 18-103(d)(1), an electric utility which has entered into an agreement to sell a nuclear power plant may use the proceeds from the sale and issuance of transitional funding instruments to make contributions, or to reimburse itself for contributions which the electric utility has made, to decommissioning trusts in accordance with the agreement of sale, in an amount not to exceed 20% of the aggregate principal amount of transitional funding instruments which the electric utility was authorized to cause to have issued pursuant to Section 18-103(d)(6), including for purposes of this calculation the amount of any transitional funding instruments which the electric utility caused to be issued prior to the date of this amendatory Act of 1999. The use of proceeds authorized by this subsection shall not be subject to Section 18-103(d)(1)(B) and shall not be considered in determining if the percentage limitations on the use of proceeds set forth in the proviso following Section 18-103(d)(1)(E) have been complied with.

(f) None of the authorizations permitted by this Section may be exercised if the sale of the nuclear power plant is disapproved by

the Commission.

(220 ILCS 5/16-115)

Sec. 16-115. Certification of alternative retail electric suppliers.

(a) Any alternative retail electric supplier must obtain a certificate of service authority from the Commission in accordance with this Section before serving any retail customer or other user located in this State. An alternative retail electric supplier may request, and the Commission may grant, a certificate of service authority for the entire State or for a specified geographic area of the State.

(b) An alternative retail electric supplier seeking a certificate of service authority shall file with the Commission a verified application containing information showing that the applicant meets the requirements of this Section. The alternative retail electric supplier shall publish notice of its application in the official State newspaper within 10 days following the date of its filing. No later than 45 days after the application is properly filed with the Commission, and such notice is published, the Commission shall issue its order granting or denying the application.

(c) An application for a certificate of service authority shall identify the area or areas in which the applicant intends to offer service and the types of services it intends to offer. Applicants

4540

JOURNAL OF THE

[May 27, 1999]

that seek to serve residential or small commercial retail customers within a geographic area that is smaller than an electric utility's service area shall submit evidence demonstrating that the designation of this smaller area does not violate Section 16-115A. An applicant that seeks to serve residential or small commercial retail customers may state in its application for certification any limitations that will be imposed on the number of customers or maximum load to be served.

(d) The Commission shall grant the application for a certificate of service authority if it makes the findings set forth in this subsection based on the verified application and such other information as the applicant may submit:

(1) That the applicant possesses sufficient technical, financial and managerial resources and abilities to provide the service for which it seeks a certificate of service authority. In determining the level of technical, financial and managerial resources and abilities which the applicant must demonstrate, the Commission shall consider (i) the characteristics, including the size and financial sophistication, of the customers that the applicant seeks to serve, and (ii) whether the applicant seeks to provide electric power and energy using property, plant and equipment which it owns, controls or operates;

(2) That the applicant will comply with all applicable federal, State, regional and industry rules, policies, practices and procedures for the use, operation, and maintenance of the safety, integrity and reliability, of the interconnected electric transmission system;

(3) That the applicant will only provide service to retail customers in an electric utility's service area that are eligible

to take delivery services under this Act;

(4) That the applicant will comply with such informational or reporting requirements as the Commission may by rule establish and provide the information required by Section 16-112. Any data related to contracts for the purchase and sale of electric power and energy shall be made available for review by the Staff of the Commission on a confidential and proprietary basis and only to the extent and for the purposes which the Commission determines are reasonably necessary in order to carry out the purposes of this Act;

(5) That if the applicant, its corporate affiliates or the applicant's principal source of electricity (to the extent such source is known at the time of the application) owns or controls facilities, for public use, for the transmission or distribution of electricity to end-users within a defined geographic area to which electric power and energy can be physically and economically delivered by the electric utility or utilities in whose service area or areas the proposed service will be offered, the applicant, its corporate affiliates or principal source of electricity, as the case may be, provides delivery services to the electric utility or utilities in whose service area or areas the proposed service will be offered that are reasonably comparable to those offered by the electric utility, and provided further, that the applicant agrees to certify annually to the Commission that it is continuing to provide such delivery services and that it has not knowingly assisted any person or entity to avoid the requirements of this Section. For purposes of this subparagraph, "principal source of electricity" shall mean a single source that supplies at least 65% of the applicant's electric power and energy, and the purchase of transmission and distribution services pursuant to a filed tariff under the jurisdiction of the Federal Energy Regulatory

SENATE

4541

Commission or a state public utility commission shall not constitute control of access to the provider's transmission and distribution facilities;

(6) With respect to an applicant that seeks to serve residential or small commercial retail customers, that the area to be served by the applicant and any limitations it proposes on the number of customers or maximum amount of load to be served meet the provisions of Section 16-115A, provided, that the Commission can extend the time for considering such a certificate request by up to 90 days, and can schedule hearings on such a request;

(7) That the applicant meets the requirements of subsection (a) of Section 16-128; and

(8) That the applicant will comply with all other applicable laws and regulations.

(e) A retail customer that owns a cogeneration or self-generation facility and that seeks certification only to provide electric power and energy from such facility to retail customers at separate locations which customers are both (i) owned by, or a subsidiary or other corporate affiliate of, such applicant and (ii)

eligible for delivery services, shall be granted a certificate of service authority upon filing an application and notifying the Commission that it has entered into an agreement with the relevant electric utilities pursuant to Section 16-118. Provided, however, that if the retail customer owning such cogeneration or self-generation facility would not be charged a transition charge due to the exemption provided under subsection (f) of Section 16-108 prior to the certification, and the retail customers at separate locations are taking delivery services in conjunction with purchasing power and energy from the facility, the retail customer on whose premises the facility is located shall not thereafter be required to pay transition charges on the power and energy that such retail customer takes from the facility.

(f) The Commission shall have the authority to promulgate rules and regulations to carry out the provisions of this Section. On or before May 1, 1999, the Commission shall adopt a rule or rules applicable to the certification of those alternative retail electric suppliers that seek to serve only nonresidential retail customers with maximum electrical demands of one megawatt or more which shall provide for (i) expedited and streamlined procedures for certification of such alternative retail electric suppliers and (ii) specific criteria which, if met by any such alternative retail electric supplier, shall constitute the demonstration of technical, financial and managerial resources and abilities to provide service required by subsection (d) (1) of this Section, such as a requirement to post a bond or letter of credit, from a responsible surety or financial institution, of sufficient size for the nature and scope of the services to be provided; demonstration of adequate insurance for the scope and nature of the services to be provided; and experience in providing similar services in other jurisdictions.

Sec. 16-130. Annual Reports. The General Assembly finds that it is necessary to have reliable and accurate information regarding the transition to a competitive electric industry. In addition to the annual report requirements pursuant to Section 5-109 of this Act, each electric utility shall file with the Commission a report on the following topics in accordance with the schedule set forth in subsection (b) of this Section:

(1) Data on each customer class of the electric utility in which delivery services have been elected including:

(A) number of retail customers in each class that have elected delivery service;

(B) kilowatt hours consumed by the customers described in subparagraph (A);

(5) Kilowatt-hours consumed in the twelve months ending December 31, 1996 (which kilowatt-hours are hereby referred to as "base year sales") by customer class multiplied by the revenue per kilowatt hour, adjusted to remove charges added to customers' bills pursuant to Sections 9-221 and 9-222 of this Act, during the twelve months ending December 31, 1996, adjusted for the reductions required by subsection (b) of Section 16-111 and the mitigation factors contained in Section 16-102. This amount shall be stated for: (i) each calendar year preceding the year in which a report is required to be submitted pursuant to subsection (b); and (ii) as a cumulative total of all calendar years beginning with 1998 and ending with the calendar year preceding the year in which a report is required to be submitted pursuant to subsection (b).

(6) Calculations identical to those required by subparagraph (5) except that base year sales shall be adjusted for growth in the electric utility's service territory, in addition to the other adjustments specified by the first sentence of subparagraph (5).

(7) The electric utility's total revenue and net income for each calendar year beginning with 1997 through the calendar year preceding the year in which a report is required to be submitted pursuant to subsection (b) as reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission.

(8) Any consideration in excess of the net book cost as of the effective date of this amendatory Act of 1997 received by the

electric utility during the year from a sale made subsequent to the effective date of this amendatory Act of 1997 to a non-affiliated third party of any generating plant that was owned by the electric utility on the effective date of this amendatory Act of 1997.

(9) Any consideration received by the electric utility from sales or transfers during the year to an affiliated interest of generating plant, or other plant that represents an investment of \$25,000,000 or more in terms of total depreciated original cost, which generating or other plant were owned by the electric utility prior to the effective date of this amendatory Act of 1997.

(10) Any consideration received by an affiliated interest of an electric utility from sales or transfers during the year to a non-affiliated third party of generating plant, but only if: (i) the electric utility had previously sold or transferred such plant to the affiliated interest subsequent to the effective date of this amendatory Act of 1997; (ii) the affiliated interest sells or transfers such plant to a non-affiliated third party prior to December 31, 2006; and (iii) the affiliated interest receives consideration for the sale or transfer of such plant to the non-affiliated third party in an amount greater than the cost or price at which such plant was sold or transferred to the affiliated interest by the electric utility.

(11) A summary account of those expenditures made for projects, programs, and improvements relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management, pursuant to a written commitment made under subsection (k) of Section 16-111.

(b) The information required by subsection (a) shall be filed by each electric utility on or before March 1 of each year 1999 through 2007 or through such additional years as the electric utility is collecting transition charges pursuant to subsection (f) of Section 16-108, for the previous calendar year. The information required by subparagraph (6) of subsection (a) for calendar year 1997 shall be submitted by the electric utility on or before March 1, 1999.

(c) On or before May 15 of each year 1999 through 2006 or through such additional years as the electric utility is collecting transition charges pursuant to subsection (f) of Section 16-108, the Commission shall submit a report to the General Assembly which summarizes the information provided by each electric utility under this Section; provided, however, that proprietary or confidential information shall not be publicly disclosed.

"Section 10. The Economic Development Project Area Tax Increment Allocation Act of 1995 is amended by changing Sections 5 and 10 as follows:

(65 ILCS 110/5)

Sec. 5. Legislative Declaration.

(a) The General Assembly finds, determines, and declares the

following:

(1) Actions taken by the Secretary of Defense to close military installations under Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526; 10 U.S.C. 2687 note), the Defense Base

Closure and Realignment Act of 1990 (part A of Title XXIX of Public Law 101-510; 10 U.S.C. 2687 note), ~~or~~ Section 2687 of Title 10 of the United States Code (10 U.S.C. 2687), and actions taken by the Secretary of the Army to transfer the military installation, described in subsection (b) of Section 15 of the Joliet Arsenal Development Authority Act, pursuant to the Illinois Land Conservation Act (Title XXIX of Public Law 104-106; 16 U.S.C. 1609), as supplemented and amended, have an adverse socioeconomic impact upon the State residents due to the loss of civilian job opportunities, the transfer of permanently stationed military personnel, the decline in population, the vacancy of existing buildings, structures, residential housing units and other facilities, the burden of assuming and maintaining existing utility systems, and the erosion of the State's economic base.

(2) The redevelopment and reuse by the public and private sectors of any military installation closed by the Secretary of Defense and converted to civilian use is impaired due to little or no platting of any of the land, deleterious land use and layout, lack of community planning, depreciation of physical maintenance, presence of structures below minimum code standards, excessive vacancies, lack of adequate utility services and need to improve transportation facilities.

(3) The closing of military installations within the State is a serious menace to the health, safety, morals, and general welfare of the people of the entire State.

(4) Protection against the economic burdens associated with the closing of military installations, the consequent spread of economic stagnation, the impairments to redevelopment and reuse, and the resulting harm to the tax base of the State can best be provided by promoting, attracting and stimulating commerce, industry, manufacturing and other public and private sector investment within the State.

(5) The continual encouragement, redevelopment, reuse, growth, and expansion of commercial businesses, industrial and manufacturing facilities and other public and private investment on closed military installations within the State requires a cooperative and continuous partnership between government and the private sector.

(6) The State has a responsibility to create a favorable climate for new and improved job opportunities for its citizens and to increase the tax base of the State and its political subdivisions by encouraging the redevelopment and reuse by the public and private sectors of new commercial businesses, industrial and manufacturing facilities, and other civilian uses with respect to the vacant buildings, structures, residential housing units, and other facilities on closed military installations within the State.

(7) The lack of redevelopment and reuse of closed military installations within the State has persisted, despite efforts of State and local authorities and private organizations to attract new commercial businesses, industrial and manufacturing facilities and other public and private sector investment for civilian use to closed military installations within the State.

(8) The economic burdens associated with the closing of military installations within the State may continue and worsen if the State and its political subdivisions are not able to

provide additional incentives to commercial businesses, industrial and manufacturing facilities, and other public and private investment for civilian use to locate on closed military installations within the State.

(9) The provision of additional incentives by the State and its political subdivisions is intended to relieve conditions of unemployment, create new job opportunities, increase industry and commerce, increase the tax base of the State and its political subdivisions, and alleviate vacancies and conditions leading to deterioration and blight on closed military installations within the State, thereby creating job opportunities and eradicating deteriorating and blighting conditions for the residents of the State and reducing the evils attendant upon unemployment and blight.

(b) It is hereby declared to be the policy of the State, in the interest of promoting the health, safety, morals, and general welfare of all the people of the State, to provide incentives that will create new job opportunities and eradicate potentially blighted conditions on closed military installations within the State, and it is further declared that the relief of conditions of unemployment, the creation of new job opportunities, the increase of industry and commerce within the State, the alleviation of vacancies and conditions leading to deterioration and blight, the reduction of the evils of unemployment, and the increase of the tax base of the State and its political subdivisions are public purposes and for the public safety, benefit, and welfare of the residents of this State.

The tax imposed by a municipality pursuant to this Section and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the State Department of Revenue. The certificate of registration which is issued by the Department to a retailer under the Retailers' Occupation Tax Act shall permit such retailer to engage in a business which is taxable under any ordinance or resolution enacted pursuant to this Section without registering separately with the Department under such ordinance or resolution or under this Section. The Department shall have full power to administer and enforce this Section; to collect all taxes and penalties due hereunder; to dispose of taxes and penalties so collected in the manner hereinafter provided, and to determine all rights to credit memoranda, arising on account of the erroneous payment of tax or penalty hereunder. In the administration of, and compliance with, this Section, the Department and persons who are subject to this Section shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties and definitions of terms, and employ the same modes of procedure, as are prescribed in Sections 1, 1a, 1a-1, 1d, 1e, 1f, 1i, 1j, 2 through 2-65 (in respect to all provisions therein other than the State rate of tax), 2c, 3 (except as to the disposition of taxes and penalties collected), 4, 5, 5a, 5b, 5c, 5d, 5e, 5f, 5g, 5h, 5i, 5j, 5k, 5l, 6, 6a, 6b, 6c, 7, 8, 9, 10, 11, 12 and 13 of the Retailers' Occupation Tax Act and Section 3-7 of the Uniform Penalty and Interest Act as fully as if those provisions were set forth herein.

No municipality may impose a tax under this Section unless the municipality also imposes a tax at the same rate under Section 8-11-1.4 of this Code.

Persons subject to any tax imposed pursuant to the authority granted in this Section may reimburse themselves for their seller's tax liability hereunder by separately stating such tax as an additional charge, which charge may be stated in combination, in a single amount, with State tax which sellers are required to collect under the Use Tax Act, pursuant to such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this Section to a claimant instead of issuing a credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the non-home rule municipal retailers' occupation tax fund.

The Department shall forthwith pay over to the State Treasurer, ex officio, as trustee, all taxes and penalties collected hereunder.

On or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities, the municipalities to be those from which retailers have paid taxes or penalties hereunder to the Department during the second preceding calendar month. The

amount to be paid to each municipality shall be the amount (not including credit memoranda) collected hereunder during the second preceding calendar month by the Department plus an amount the Department determines is necessary to offset any amounts which were erroneously paid to a different taxing body, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department on behalf of such municipality, and not including any amount which the Department determines is necessary to offset any amounts which were payable to a different taxing body but were erroneously paid to the municipality. Within 10 days after receipt, by the Comptroller, of the disbursement certification to the municipalities, provided for in this Section to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification.

For the purpose of determining the local governmental unit whose tax is applicable, a retail sale, by a producer of coal or other mineral mined in Illinois, is a sale at retail at the place where the coal or other mineral mined in Illinois is extracted from the earth. This paragraph does not apply to coal or other mineral when it is delivered or shipped by the seller to the purchaser at a point outside Illinois so that the sale is exempt under the Federal Constitution as a sale in interstate or foreign commerce.

Nothing in this Section shall be construed to authorize a municipality to impose a tax upon the privilege of engaging in any business which under the constitution of the United States may not be made the subject of taxation by this State.

When certifying the amount of a monthly disbursement to a municipality under this Section, the Department shall increase or decrease such amount by an amount necessary to offset any misallocation of previous disbursements. The offset amount shall be the amount erroneously disbursed within the previous 6 months from the time a misallocation is discovered.

The Department of Revenue shall implement this amendatory Act of the 91st General Assembly so as to collect the tax on and after January 1, 2002.

As used in this Section, "municipal" and "municipality" means a city, village or incorporated town, including an incorporated town which has superseded a civil township.

The Department shall have full power to administer and enforce this Section; to collect all taxes and penalties due hereunder; to dispose of taxes and penalties so collected in the manner hereinafter provided, and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty hereunder. In the administration of, and compliance with, this Section the Department and persons who are subject to this Section shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties and definitions of terms, and employ the same modes of procedure, as are prescribed in Sections 1a-1, 2, 2a, 3 through 3-50 (in respect to all provisions therein other than the State rate of tax), 4 (except that the reference to the State shall be to the taxing municipality), 5, 7, 8 (except that the jurisdiction to which the tax shall be a debt to the extent indicated in that Section 8 shall be the taxing municipality), 9 (except as to the disposition of taxes and penalties collected, and except that the returned merchandise credit for this municipal tax may not be taken against any State tax), 10, 11, 12 (except the reference therein to Section 2b of the Retailers' Occupation Tax Act), 13 (except that any reference to the State shall mean the taxing municipality), the first paragraph of Section 15, 16, 17, 18, 19 and 20 of the Service Occupation Tax Act and Section 3-7 of the Uniform Penalty and Interest Act, as fully as if those provisions were set forth herein.

No municipality may impose a tax under this Section unless the municipality also imposes a tax at the same rate under Section 8-11-1.3 of this Code.

Persons subject to any tax imposed pursuant to the authority granted in this Section may reimburse themselves for their serviceman's tax liability hereunder by separately stating such tax as an additional charge, which charge may be stated in combination,

in a single amount, with State tax which servicemen are authorized to collect under the Service Use Tax Act, pursuant to such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this Section to a claimant instead of issuing credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the municipal retailers' occupation tax fund.

The Department shall forthwith pay over to the State Treasurer, ex officio, as trustee, all taxes and penalties collected hereunder. On or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities, the municipalities to be those from which suppliers and servicemen have paid taxes or penalties hereunder to the Department during the second preceding calendar month. The amount to be paid to each municipality shall be the amount (not including credit memoranda) collected hereunder during the second preceding calendar month by the Department, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department on behalf of such municipality. Within 10 days after receipt, by the Comptroller, of

the disbursement certification to the municipalities and the General Revenue Fund, provided for in this Section to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification.

A message from the House by

Mr. Rossi, Clerk:

Mr. President -- I am directed to inform the Senate that the House of Representatives has concurred with the Senate in the passage of a bill of the following title, to-wit:

SENATE BILL NO. 1103

A bill for AN ACT to amend the Illinois Pension Code by changing Section 1-113.5.

Together with the following amendment which is attached, in the adoption of which I am instructed to ask the concurrence of the Senate, to-wit:

House Amendment No. 3 to SENATE BILL NO. 1103

SENATE

4565

Passed the House, as amended, May 27, 1999.

ANTHONY D. ROSSI, Clerk of the House

AMENDMENT NO. 3 TO SENATE BILL 1103

AMENDMENT NO. 3. Amend Senate Bill 1103, AS AMENDED, by replacing the title with the following:

"AN ACT to amend the Illinois Pension Code."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Illinois Pension Code is amended by changing Section 7-145.1 as follows:

(40 ILCS 5/7-145.1)

Sec. 7-145.1. Alternative annuity for county officers.

(a) The benefits provided in this Section and Section 7-145.2 are available only if the county board has filed with the Board of the Fund a resolution or ordinance expressly consenting to the availability of these benefits for its elected county officers. The county board's consent is irrevocable with respect to persons participating in the program, but may be revoked at any time with respect to persons who have not paid an additional optional contribution under this Section before the date of revocation.

An elected county officer may elect to establish alternative credits for an alternative annuity by electing in writing to make additional optional contributions in accordance with this Section and procedures established by the board. These alternative credits are available only for periods of service as an elected county officer. The elected county officer may discontinue making the additional optional contributions by notifying the Fund in writing in accordance with this Section and procedures established by the board.

Additional optional contributions for the alternative annuity shall be as follows:

(1) For service as an elected county officer after the option is elected, an additional contribution of 3% of salary shall be contributed to the Fund on the same basis and under the same conditions as contributions required under Section 7-173.

(2) For service as an elected county officer before the option is elected, an additional contribution of 3% of the salary

for the applicable period of service, plus interest at the effective rate from the date of service to the date of payment. All payments for past service must be paid in full before credit is given. No additional optional contributions may be made for any period of service for which credit has been previously forfeited by acceptance of a refund, unless the refund is repaid in full with interest at the effective rate from the date of refund to the date of repayment.

(b) In lieu of the retirement annuity otherwise payable under this Article, an elected county officer who (1) has elected to participate in the Fund and make additional optional contributions in accordance with this Section, (2) has held and made additional optional contributions with respect to the same elected county office for at least 8 years, and (3) ~~(2)~~ has attained age 55 with at least 8 years of service credit (or has attained age 50 with at least 20 years of service as a sheriff's law enforcement employee) may elect to have his retirement annuity computed as follows: 3% of the participant's salary ~~at the time of termination of service~~ for each of the first 8 years of service credit, plus 4% of that salary for each of the next 4 years of service credit, plus 5% of that salary for each year of service credit in excess of 12 years, subject to a maximum of 80% of that salary.

This formula applies only to service in an elected county office that the officer held for at least 8 years, and only to service for which additional optional contributions have been paid under this

Section. If an elected county officer qualifies to have this formula applied to service in more than one elected county office, the qualifying service shall be accumulated for purposes of determining the applicable accrual percentages, but the salary used for each office shall be the separate salary calculated for that office, as defined in subsection (g).

To the extent that the elected county officer has service credit that does not qualify for this formula, ~~made additional optional contributions with respect to only a portion of his years of service credit,~~ his retirement annuity will first be determined in accordance with this formula with respect to the service to which this formula applies ~~Section to the extent that additional optional contributions were made,~~ and then in accordance with the remaining Sections of this Article ~~to the extent of years of service credit with respect to the service to which this formula does not apply~~ ~~additional optional contributions were not made.~~

(c) In lieu of the disability benefits otherwise payable under this Article, an elected county officer who (1) has elected to participate in the Fund, and (2) has become permanently disabled and as a consequence is unable to perform the duties of his office, and (3) was making optional contributions in accordance with this Section at the time the disability was incurred, may elect to receive a disability annuity calculated in accordance with the formula in subsection (b). For the purposes of this subsection, an elected county officer shall be considered permanently disabled only if: (i) disability occurs while in service as an elected county officer and is of such a nature as to prevent him from reasonably performing the

duties of his office at the time; and (ii) the board has received a written certification by at least 2 licensed physicians appointed by it stating that the officer is disabled and that the disability is likely to be permanent.

(d) Refunds of additional optional contributions shall be made on the same basis and under the same conditions as provided under Section 7-166, 7-167 and 7-168. Interest shall be credited at the effective rate on the same basis and under the same conditions as for other contributions.

If an elected county officer fails to hold that same elected county office for at least 8 years, he or she shall be entitled after leaving office to receive a refund of the additional optional contributions made with respect to that office, plus interest at the effective rate.

(e) The plan of optional alternative benefits and contributions shall be available to persons who are elected county officers and active contributors to the Fund on or after November 15, 1994. A person who was an elected county officer and an active contributor to the Fund on November 15, 1994 but is no longer an active contributor may apply to make additional optional contributions under this Section at any time within 90 days after the effective date of this amendatory Act of 1997; if the person is an annuitant, the resulting increase in annuity shall begin to accrue on the first day of the month following the month in which the required payment is received by the Fund.

(f) For the purposes of this Section and Section 7-145.2, the terms "elected county officer" and "elected county office" include, but are not limited to: (1) the county clerk, recorder, treasurer, coroner, assessor (if elected), auditor, sheriff, and State's Attorney; members of the county board; and the clerk of the circuit court; and (2) a person who has been appointed to fill a vacancy in an office that is normally filled by election on a countywide basis, for the duration of his or her service in that office. The terms "elected county officer" and "elected county office" do not include

any officer or office of a county that has not consented to the availability of benefits under this Section and Section 7-145.2.

91ST GENERAL ASSEMBLY
FIRST CONFERENCE COMMITTEE REPORT
ON SENATE BILL 878

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 878, recommend the following:

(1) that the Senate concur in House Amendment No. 1; and

(2) that Senate Bill 878 be further amended, AS AMENDED, by

replacing everything after the enacting clause with the following:

"Section 3. The Illinois Income Tax Act is amended by changing Section 201 as follows:

(35 ILCS 5/201) (from Ch. 120, par. 2-201)

Sec. 201. Tax Imposed.

(a) In general. A tax measured by net income is hereby imposed on every individual, corporation, trust and estate for each taxable year ending after July 31, 1969 on the privilege of earning or receiving income in or as a resident of this State. Such tax shall be in addition to all other occupation or privilege taxes imposed by this State or by any municipal corporation or political subdivision thereof.

(b) Rates. The tax imposed by subsection (a) of this Section shall be determined as follows:

(1) In the case of an individual, trust or estate, for taxable years ending prior to July 1, 1989, an amount equal to 2 1/2% of the taxpayer's net income for the taxable year.

(2) In the case of an individual, trust or estate, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989, an amount equal to the sum of (i) 2 1/2% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 3% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(3) In the case of an individual, trust or estate, for taxable years beginning after June 30, 1989, an amount equal to 3% of the taxpayer's net income for the taxable year.

(4) (Blank).

(5) (Blank).

(6) In the case of a corporation, for taxable years ending prior to July 1, 1989, an amount equal to 4% of the taxpayer's net income for the taxable year.

(7) In the case of a corporation, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989, an amount equal to the sum of (i) 4% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 4.8% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(8) In the case of a corporation, for taxable years beginning after June 30, 1989, an amount equal to 4.8% of the taxpayer's net income for the taxable year.

(c) Beginning on July 1, 1979 and thereafter, in addition to such income tax, there is also hereby imposed the Personal Property Tax Replacement Income Tax measured by net income on every corporation (including Subchapter S corporations), partnership and trust, for each taxable year ending after June 30, 1979. Such taxes are imposed on the privilege of earning or receiving income in or as a resident of this State. The Personal Property Tax Replacement Income Tax shall be in addition to the income tax imposed by subsections (a) and (b) of this Section and in addition to all other occupation or privilege taxes imposed by this State or by any

municipal corporation or political subdivision thereof.

(d) Additional Personal Property Tax Replacement Income Tax Rates. The personal property tax replacement income tax imposed by this subsection and subsection (c) of this Section in the case of a corporation, other than a Subchapter S corporation, shall be an additional amount equal to 2.85% of such taxpayer's net income for the taxable year, except that beginning on January 1, 1981, and thereafter, the rate of 2.85% specified in this subsection shall be reduced to 2.5%, and in the case of a partnership, trust or a Subchapter S corporation shall be an additional amount equal to 1.5% of such taxpayer's net income for the taxable year.

(e) Investment credit. A taxpayer shall be allowed a credit against the Personal Property Tax Replacement Income Tax for investment in qualified property.

(1) A taxpayer shall be allowed a credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1984. There shall be allowed an additional credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1986, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. The provisions added to this Section by Public Act 85-1200 (and restored by Public Act 87-895) shall be construed as declaratory of existing law and not as a new enactment. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is .5% and the denominator of which is 1%, but shall not exceed .5%. The investment credit shall not be allowed to the extent that it would reduce a taxpayer's liability in any tax year below zero, nor may any credit for qualified property be allowed for any year other than the year in which the property was placed in service in Illinois. For tax years ending on or after December 31, 1987, and on or before December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act and (iii) is certified by the Department of Commerce and Community Affairs as complying with the requirements specified in clause (i) and (ii) by July 1, 1986. The Department of Commerce and Community Affairs shall notify the Department of Revenue of all such certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it

exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit

years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term "mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being

placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(8) Unless the investment credit is extended by law, the

SENATE

4571

basis of qualified property shall not include costs incurred after December 31, 2003, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2003.

(9) Each taxable year, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

(f) Investment credit; Enterprise Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act. For partners, ~~and for~~ shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be .5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to

the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in the Enterprise Zone by the taxpayer; and

(E) has not been previously used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (f) or subsection (e).

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax

purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(g) Jobs Tax Credit; Enterprise Zone and Foreign Trade Zone or Sub-Zone.

(1) A taxpayer conducting a trade or business in an enterprise zone or a High Impact Business designated by the Department of Commerce and Community Affairs conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by

subsections (a) and (b) of this Section in the amount of \$500 per eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(A) the taxpayer must hire 5 or more eligible employees to work in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone during the taxable year;

(B) the taxpayer's total employment within the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit under this Section was taken, or beyond the total employed by the taxpayer as of December 31, 1985, whichever is later; and

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

(A) Certified by the Department of Commerce and Community Affairs as "eligible for services" pursuant to regulations promulgated in accordance with Title II of the Job Training Partnership Act, Training Services for the Disadvantaged or Title III of the Job Training Partnership Act, Employment and Training Assistance for Dislocated Workers Program.

(B) Hired after the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone was designated or the trade or business was located in that zone, whichever is later.

SENATE

4573

(C) Employed in the enterprise zone or Foreign Trade Zone or Sub-Zone. An employee is employed in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone if his services are rendered there or it is the base of operations for the services performed.

(D) A full-time employee working 30 or more hours per week.

(4) For tax years ending on or after December 31, 1985 and prior to December 31, 1988, the credit shall be allowed for the tax year in which the eligible employees are hired. For tax years ending on or after December 31, 1988, the credit shall be allowed for the tax year immediately following the tax year in which the eligible employees are hired. If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(5) The Department of Revenue shall promulgate such rules

and regulations as may be deemed necessary to carry out the purposes of this subsection (g).

(6) The credit shall be available for eligible employees hired on or after January 1, 1986.

(h) Investment credit; High Impact Business.

(1) Subject to subsection (b) of Section 5.5 of the Illinois Enterprise Zone Act, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service by a Department of Commerce and Community Affairs designated High Impact Business. The credit shall be .5% of the basis for such property. The credit shall not be available until the minimum investments in qualified property set forth in Section 5.5 of the Illinois Enterprise Zone Act have been satisfied and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. The credit applicable to such minimum investments shall be taken in the taxable year in which such minimum investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

Changes made in this subdivision (h)(1) by Public Act 88-670 restore changes made by Public Act 85-1182 and reflect existing law.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (h);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and

(D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) A credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income allocable to Illinois and the denominator of which is Illinois base income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years

following the excess credit year. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under

this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced tax imposed by subsection (c) and (d). If any portion of the reduced amount of credit has been carried to a different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986, a taxpayer shall be allowed a credit against the tax imposed by subsection (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners, ~~and for~~ shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

(k) Research and development credit.

Beginning with tax years ending after July 1, 1990, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the

average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

Unless extended by law, the credit shall not include costs incurred after December 31, 2004, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2004.

No inference shall be drawn from this amendatory Act of the 91st General Assembly in construing this Section for taxable years beginning before January 1, 1999.

(1) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code

and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of \$100,000 per site, except that the \$100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs. The total credit

SENATE

4577

allowed shall not exceed \$40,000 per year with a maximum total of \$150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 of subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. First Conference Committee Report to HOUSE BILL NO. 733

Adopted by the House, May 27, 1999.

ANTHONY D. ROSSI, Clerk of the House

91ST GENERAL ASSEMBLY
FIRST CONFERENCE COMMITTEE REPORT
ON HOUSE BILL 733

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendment No. 1 to House Bill 733, recommend the following:

(1) that the Senate recede from Senate Amendment No. 1; and

(2) that House Bill 733 be amended by replacing the title with the following:

"AN ACT in relation to health care."; and

by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Hospital Cooperation Act.

Section 5. Legislative findings. The General Assembly finds that the goals of controlling health care costs and improving the quality of and access to open-heart surgery in Health Service Area V may be significantly enhanced by a cooperative agreement that would be prohibited by State and federal antitrust laws if undertaken without governmental involvement. The purpose of this Act is to substitute regulation for competition by creating an opportunity for the State to review proposed agreements and to approve an agreement under certain prescribed conditions and circumstances under which an agreement is highly likely to result in lower costs, greater access, and improved quality for open-heart surgery in Health Service Area V, and would not otherwise occur in the competitive health care marketplace. The General Assembly intends that approval of an agreement be accompanied by appropriate conditions, supervision, and regulation to protect against private abuses of economic power, and that an agreement approved by the State Board and accompanied by appropriate conditions, supervision, and regulation shall not be subject to State or federal antitrust liability. The General Assembly finds that the market for open-heart surgery is extremely diverse in Illinois. Health Service Area V is believed to have extraordinary rates of outmigration for open-heart surgery, with residents traveling hundreds of miles, often out-of-state, for care. Providing open-heart surgery close to home is medically useful to a patient's recovery, because visits of families and friends can improve a patient's psycho-social capacity to cope with disease. Providing incentives to increase quality care for open-heart surgery in areas without it is desirable.

Section 10. Definitions. In this Act:

"Access" means the financial, temporal, and geographic availability of open-heart surgery to individuals who need it.

"Applicants" means the parties to a cooperative agreement for which a permit from the State Board is sought under this Act.

"Cooperative agreement" means an agreement among 2 or more health care providers for the sharing or allocation of medical, diagnostic, or laboratory facilities or services customarily offered by health

care providers providing open-heart surgery, including mergers, consolidations, or other acquisitions.

"Cost" or "cost of health care" means the amount paid by consumers or third-party payers for open-heart surgery.

"Criteria" means the cost, access, and quality of open-heart

surgery.

"Health care provider" or "provider" means any person licensed by the State under the Hospital Licensing Act.

"Person" means an individual, legal entity, or affiliate.

"State Board" means the Cooperative Hospital Agreement Board.

"Permitholder" means the party or parties to a cooperative agreement for which a permit from the State Board has been approved under this Act.

"Health Service Area V" means "HSA V" as defined by rule of Illinois Health Facilities Planning Board in effect on the effective date of this Act and consists of the following Illinois counties: Alexander, Bond, Clay, Crawford, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Marion, Massac, Perry, Pope, Pulaski, Randolph, Richland, Saline, Union, Wabash, Washington, Wayne, White, and Williamson.

"Open-heart surgery" means a category of service which utilizes any form of cardiac surgery which requires the circulation of blood outside the body, as through a heart-lung apparatus for carbon dioxide-oxygen exchange.

Section 15. Cooperative Hospital Agreement Board; creation; members.

(a) The Cooperative Hospital Agreement Board is created in the Office of the Director of Public Health. The State Board shall consist of 11 members appointed by the Governor, with the advice and consent of the Senate, from the following groups and industries:

- (1) Two practicing hospital administrators, one from a hospital with fewer than 50 beds;
- (2) One currently serving hospital board member;
- (3) One practicing licensed physician;
- (4) Two consumers;
- (5) One health care payer;
- (6) Two representatives from business and industry, one of whom shall be an independent small business owner;
- (7) One practicing attorney who has particular knowledge or expertise in antitrust law; and
- (8) One health care economist.

No more than 6 members of the State Board may be affiliated with the same political party.

(b) The initial board shall be divided into one group of 4 members, one group of 3 members, and 2 groups of 2 members, all as designated by the Governor. The term of the first group shall expire on June 30, 2000, the term of the second group shall expire on June 30, 2001, the term of the third group shall expire on June 30, 2002, and the term of the fourth group shall expire on June 30, 2003. Thereafter, when the term of any member expires, the successor shall be appointed for a term of 4 years. Each member shall serve until the member's resignation, death, or removal during that member's term or, in the case of a member whose term has expired, until a successor has been appointed and qualified. The Governor shall fill any vacancy for the remainder of the term. All members are eligible for reappointment but may serve no more than 2 4-year terms, except that initial appointees may serve 2 4-year terms in addition to their initial term. No person may serve as a member of the State Board or on the staff of the State Board while a member or on the staff of the Illinois Health Facilities Planning Board.

(c) The nominees to membership on the State Board shall disclose any potential conflicts of interest to the Governor before accepting appointment. The State Board shall, as one of its first actions, adopt rules to govern contacts and communications between its members and applicants and shall establish policies to require any member who has a conflict of interest to immediately disclose that conflict and disqualify himself or herself from voting in any proceeding associated with the conflict of interest.

(d) One State Board member, designated by the Governor, shall call and convene the initial organizational meeting of the State Board and shall serve as its temporary chair. At the initial meeting the State Board shall elect from its membership a chair, vice-chair, and secretary. All State Board officers shall hold office at the pleasure of the State Board. The secretary, with whatever assistance the State Board may prescribe, shall keep a record of the proceedings of the State Board and shall be custodian of the minute books, the State Board's official seal, and all books, documents, and papers filed with the State Board. Regular meetings shall be held at least once every 3 months, at times fixed by resolution of the State Board. Special meetings may be held in accordance with the bylaws. All meetings of the State Board shall be open to the public. A majority of the State Board shall constitute a quorum for the transaction of its business. Members shall receive reimbursement of their expenses. All State Board meetings shall be deemed to have been duly called and regularly held, and all orders and proceedings of the State Board shall be deemed to have been duly authorized, unless proved to the contrary.

(e) All State Board members shall serve at the pleasure of the Governor, except that any member shall be removed by the Governor if that member fails for any reason to attend 3 regular meetings during any 12-month period and the State Board has not entered its approval of any absence in its minutes. During their terms of office, all State Board members are prohibited from being a party to a contract for profit with the State Board.

(f) The Director of Public Health shall provide clerical and professional staff and meeting facilities necessary for the State Board to carry out its functions.

Section 20. Approval of cooperative agreements; powers of the State Board. Approval of a cooperative agreement requires a three-fourths vote of the State Board. On and after March 1, 2000, the State Board shall not approve any cooperative agreement. The State Board shall continue to exercise all of its powers with respect to a cooperative agreement approved before March 1, 2000, including without limitation its power to terminate or modify its approval, require the submission of reports and other information, conduct audits, and subpoena witnesses and the production of books, records, and documents.

Section 25. Needs study. The State Board, in consultation with the Attorney General, shall commission a needs study to determine whether the goals of controlling health care costs and improving the quality of and access to open-heart surgery in Health Service Area V will be significantly enhanced by a cooperative agreement that would be prohibited by State or federal antitrust laws if undertaken

without governmental involvement. The study shall be designed to determine whether hospital-based open-heart surgery requires a cooperative agreement exempt from State and federal antitrust laws and the feasibility of providing open-heart surgery at a reasonable rate of return without engaging in predatory pricing activities or any other abuse of power, based upon reasonable assumptions of market conditions in Health Service Area V. The study shall consider all options for providing open-heart surgery for Health Service Area V.

Section 30. Health care cooperative agreement; goals. Acting by their boards of directors or boards of trustees or as individuals, 2 or more health care providers may enter into a cooperative agreement concerning sharing or allocation of open-heart surgery facilities and services that shall be designed to achieve the following goals in Health Service Area V:

- (1) reducing open-heart surgery costs for consumers;
- (2) improving access to open-heart surgery services; and
- (3) improving the quality of open-heart surgery patient care.

Section 35. Approval of a health care cooperative agreement.

(a) Health care providers seeking to implement a cooperative agreement that might be construed to be a violation of State or federal antitrust laws but that is in the best interest of the State and furthers the policies and goals of this Act may apply for a permit from the State Board as provided in this Section. This permit shall be in addition to any permit or exemption required under any provisions of the Illinois Health Facilities Planning Act. Nothing in this Act shall be construed as requiring a health care provider to obtain approval from the State Board of any cooperative agreement. The decision to seek State Board approval of a cooperative agreement shall be in the sole discretion of the parties to the cooperative agreement. No cooperative agreement implemented without first obtaining approval from the State Board as provided in this Section shall be eligible for any protection or immunity created by Section 85.

(b) Applications for a permit shall be in a form prescribed by the State Board but shall contain at least the following:

- (1) a descriptive title;
- (2) a table of contents;
- (3) names of each party to the application and the address of the principal business office of each party;

Area V involved in the proposed agreement;

(D) if the portion of Health Service Area V described in item (C) is different from the portion in which the applicants have engaged in the type of business at issue over the last 5 years, a description of how and why the portion differs;

(E) identification of all services that a substantial share of consumers would consider substitutes for open-heart surgery;

(F) identification of whether open-heart surgery is currently being offered or is capable of being offered by other providers in the portion of Health Service Area V described in item (C);

(G) identification of the steps necessary, under current market and regulatory conditions, for other parties to enter the territory described in item (C) and compete with the applicants;

SENATE

4597

(H) a description of the previous history of dealings between the parties to the application;

(I) a detailed explanation of the projected effects, including expected volume, change in price, and increased revenue, of the agreement on each party's current businesses, both generally and the aspects of the business directly involved in the proposed agreement;

(J) the present market share of the parties to the application and of others affected by the proposed agreement and projected market shares after implementation of the proposed agreement;

(K) a statement of why the projected levels of cost, access, and quality could not be achieved in the existing market without the proposed agreement;

(L) an explanation of how the agreement relates to any Illinois health care plans for delivery of health care; and

(M) a statement of any consideration received or to be received by any party under the proposed agreement;

(7) a detailed explanation or implementation plan that states how and when the cooperative action identified in the agreement will meet the goals specified in Section 30;

(c) In addition to the information required in subsection (b), the application must contain a written description of the proposed agreement for purposes of publication in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement. The notice must include sufficient information

to advise the public of the nature of the proposed agreement and to enable the public to provide meaningful comments concerning the expected results of the agreement. The notice must also state that any person may provide written comments to the State Board, with copies to the applicants and to the Attorney General, within 60 days after the notice's publication. The State Board shall approve the notice before publication. If the State Board determines that the submitted notice does not provide sufficient information, the State Board may amend the notice before publication and may consult with the applicants in preparing the amended notice. The State Board shall not publish an amended notice without the applicants' approval.

(d) For a proposed agreement involving multiple parties, one joint application must be submitted on behalf of all parties to the agreement.

(e) Trade secret information, as defined in the Freedom of Information Act, shall be protected to the extent required under that Act.

(f) If the Attorney General or the State Board determines that an application is unclear, incomplete, or provides an insufficient basis on which to base a decision, the State Board shall return the application. The applicants may complete or revise the application and resubmit it.

(g) The Attorney General or the State Board may decline to review any application relating to agreements already in effect before the submission of the application. However, the State Board shall review any application if the review is expressly provided for

in a settlement agreement entered into before the enactment of this Section by the applicants and the Attorney General.

(h) Upon the showing of good cause, the State Board may extend any of the time limits stated in this Act at the request of the applicants or the Attorney General, except that no application for permit to implement a cooperative agreement shall be accepted by the State Board after October 31, 1999 or approved by the State Board after March 1, 2000.

Section 40. Notice and comment.

(a) The State Board shall cause the notice described in subsection (c) of Section 35 to be published in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement. The State Board shall also cause the notice to be delivered, by certified mail, to persons affected by the proposed agreement and identified in subparagraph (J) of paragraph (6) of subsection (b) of Section 35. The State Board may send a copy of the notice to any person together with a request that the person comment as provided under subsection (b). Copies of the request must be provided to the applicants.

(b) Within 30 days after the notice is published, any person may mail to the State Board written comments with respect to the application. Persons submitting comments shall provide a copy of the comments to the applicants. The applicants may mail to the State Board written responses to any comments within 10 days after the deadline for mailing comments. The applicants shall send a copy of the response to the person submitting the comment.

(c) When an application for permit to implement a cooperative agreement is made to the State Board, the State Board shall commence a public hearing within a reasonable period after receipt of the application, not to exceed 90 days. Notice of the hearing shall be made promptly to the applicants, to the Attorney General, to any persons affected by the proposed agreement and identified in subparagraph (J) of paragraph (6) of subsection (b) of Section 35, and by publication in a newspaper of general circulation in the area affected by the cooperative agreement.

Section 45. Attorney General; review; recommendation.

(a) Upon receipt of an application for permit to implement a cooperative agreement, the State Board shall submit the application to the Attorney General for review. The Attorney General shall review the application and shall recommend to the State Board, in writing, the approval or denial of the application, provided the Attorney General's review shall not include determinations under subsection (d) or (e) of Section 50. If the Attorney General recommends to the State Board the denial of an application, the Attorney General shall state the reasons for that recommendation. The State Board shall not approve any application if the Attorney General recommends denial of the application, unless the State Board determines there is a compelling State interest in approving the application and there is a unanimous vote of its members.

Section 50. Criteria for issuance of permit.

(a) The State Board may issue a permit to implement a cooperative agreement if the Attorney General and the State Board determine that the applicants have demonstrated by clear and convincing evidence that:

(1) the goals specified in Section 30 are highly likely to be met by implementing the proposed cooperative agreement and would not otherwise occur under existing market conditions or conditions likely to develop without an exemption or immunity from State and federal antitrust law; and

(2) the benefits resulting from the agreement are highly likely to outweigh the disadvantages that may result from the

agreement, and that predatory pricing or any other abuse of power will not occur. In making that determination, the Attorney General and the State Board shall employ a cost-benefit analysis and the needs study.

(b) In making a determination about cost, access, and quality, the Attorney General and the State Board shall consider the following factors, among others:

(1) whether the proposal is compatible with cost containment or plans of the Illinois Health Facilities Planning Board.

(2) market structure:

(A) actual and potential sellers and buyers or providers and purchasers;

(B) actual and potential consumers;

(C) geographic market area;

(D) new delivery mechanisms; and

(E) entry conditions;

- (3) current market conditions;
- (4) the historical behavior of the market;
- (5) performance of other similar agreements;
- (6) whether the proposal unnecessarily restrains competition or restrains competition in ways not reasonably related to the purposes of this Act;
- (7) whether competition as it currently exists in the market is likely to produce better results in terms of cost, access and quality; and
- (8) the financial condition of the applicants.

(c) The analysis of cost must focus on the individual consumer of health care. Cost savings to be realized by providers, health carriers, group purchasers, or other participants in the health care system, are relevant only to the extent that the savings are highly likely to be passed on to the consumer. Where an application is submitted by providers who are paid primarily by third party payers unaffiliated with the providers, however, it is sufficient for the providers to show that cost savings are highly likely to be passed on to the unaffiliated third party payers and the providers do not have the burden of proving that third party payers with whom the providers are not affiliated will pass on cost savings to individuals receiving coverage through the third party payers. In making determinations as to costs, the Attorney General and the State Board shall consider, among other matters:

- (1) the cost savings likely to result to the applicants;
- (2) the extent to which the cost savings are likely to be passed on to the consumer and in what form;
- (3) the extent to which the proposed agreement is likely to result in cost shifting by the applicants onto other payers or purchasers of other products or services;
- (4) the extent to which the cost shifting by the applicants is likely to be followed by other persons in the market;
- (5) the current and anticipated supply and demand for any products or services at issue;
- (6) the representations and guarantees of the applicants and their enforceability;
- (7) likely effectiveness of regulation by the State Board;
- (8) inferences to be drawn from market structure;
- (9) the cost of regulation, both for the State and for the applicants; and
- (10) any other factors tending to show that the proposed agreement is or is not highly likely to reduce cost.

(d) In making determinations as to access, the State Board shall consider, among other matters:

(1) the extent to which the use of open-heart surgery by the intended targeted population is highly likely to increase or decrease; when a proposed agreement is highly likely to increase access in one geographic area, by lowering prices or otherwise expanding supply, but limits access in another geographic area by removing service capabilities from that second area, the State Board shall articulate the criteria employed to balance these effects;

(2) the extent to which the proposed agreement is highly likely to make available a new and needed service or product to a certain geographic area; and

(3) the extent to which the proposed agreement is highly likely to otherwise make open-heart surgery more financially or geographically available to persons who need them. If the State Board determines that the proposed agreement is highly likely to increase access and bases that determination on a projected increase in utilization, the State Board shall also determine and make a specific finding that the increase in utilization does not reflect overutilization.

(e) In making determinations as to quality, the State Board shall consider, among others, the extent to which the proposed agreement is highly likely to:

- (1) decrease morbidity and mortality;
- (2) result in faster convalescence;
- (3) result in fewer hospital days;
- (4) permit providers to attain needed experience or frequency of treatment, highly likely to lead to better outcomes;
- (5) increase patient satisfaction;
- (6) results in modern health care facilities; and
- (7) have any other features likely to improve or reduce the quality of health care.

Section 55. Decision.

(a) The State Board shall issue a written decision approving or denying the application for permit. The State Board may condition approval on a modification of all or part of the proposed agreement to eliminate any restriction on competition that is not reasonably related to the goals of reducing cost or improving access or quality. The State Board shall, independently or upon recommendation of the Attorney General, also establish conditions for approval that are reasonably necessary to protect consumers against predatory pricing, insufficient competition, or other abuses of private economic power and to ensure that the agreement is appropriately supervised and regulated by the State.

(b) The State Board's decision shall make specific findings of fact concerning the cost, access, and quality criteria.

(c) A decision approving an application for permit shall require the submission of specific data and reports concerning the implementation of the agreement, including how the agreement is accomplishing its goals, data relating to cost, access, and quality, and to the extent feasible, identify objective standards of cost, access, and quality by which the success of the agreement will be measured. The submission of the data and reports shall be required at least annually. The Attorney General shall receive copies of any reports received by the State Board.

Section 60. Appeal. The decision of the State Board to approve or deny a permit to implement a cooperative agreement is subject to the provisions of the Administrative Review Law. Any person who is adversely affected by a decision of the State Board to approve or deny a permit to implement a cooperative agreement may have that decision judicially reviewed.

Section 65. Supervision after approval.

(a) The State Board, in consultation with the Attorney General, shall supervise, monitor, and regulate approved agreements.

(b) The Attorney General and the State Board shall review data submitted periodically by the permit holder. The permit issued by the State Board shall set forth the time schedule for the submission of data to the State Board and to the Attorney General, which shall be at least once a year. The permit shall identify the data that must be submitted, including all data relevant to the pricing and costs of health care services, and the Attorney General and the State Board may subsequently require the submission of additional data or alter the time schedule. Upon review of the data submitted, the State Board shall notify the permit holder of whether the agreement or its implementation is in compliance with the permit. Implementation of the agreement shall not be in compliance if, at any time, the permit holder has either (i) raised any prices in excess of the consumer price index or (ii) lowered any prices in an amount greater than any reduction in costs for the relevant services. If the agreement or its implementation is not in compliance with the permit, the Attorney General or the State Board shall identify those respects in which the agreement or its implementation does not conform to the permit. The Attorney General or the State Board may require the submission of information from any other market participant. A permit holder receiving notification that an agreement or its implementation is not in compliance has 30 days in which to respond with additional data. The response may include a proposal and a time schedule by which the permit holder will bring the agreement or its implementation into compliance with the permit. If the agreement or its implementation is not in compliance and the State Board and the permit holder cannot agree to the terms for bringing the agreement or its implementation into compliance, the matter shall be set for a hearing before a hearing officer appointed by the State Board. The State Board shall publish notice in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement one year after the date of issuance of a permit approving an application, and at 2 year intervals thereafter, soliciting comments from the public concerning the impact that the agreement or its implementation has had on cost, access, and quality. The Attorney General and the State Board may request additional oral or written information from the permit holder or from any other source.

Section 70. Administrative fine. In addition to any remedies available under Section 75, if the State Board determines that a party to a cooperative agreement is not in compliance with the terms of the agreement or its implementation, the State Board may impose an administrative fine of up to \$10,000 for each day the party is not in compliance.

Section 75. Revocation.

(a) The State Board may revoke a permit to implement a cooperative agreement if it finds by clear and convincing evidence that:

(1) Any of the following circumstances exist:

(A) the agreement or its implementation is not in substantial compliance with the terms of the application;

(B) the agreement or its implementation is not in substantial compliance with the conditions of approval;

(C) the agreement has not and is not likely to

substantially achieve the improvements in cost, access, or quality identified in the permit as the basis for the State Board's approval of the agreement;

(D) the benefits resulting from the agreement do not outweigh the disadvantages attributable to any reduction in

competition;

(E) the conditions in the market place have changed to such an extent that competition would promote reductions in cost and improvements in access and quality better than does the agreement at issue; in order to revoke on the basis that conditions in the marketplace have changed, the State Board shall identify specific changes in the marketplace and articulate why those changes warrant revocation;

(F) the parties to the agreement fail to submit periodic progress reports requested by the State Board;

(G) materially misleading information was submitted in the application; or

(H) the parties have failed to implement the agreement with due diligence; and

(2) The parties to the agreement have failed to provide reasonable proposals for alternatives to revocation and have rejected modifications to or restructuring of the agreement identified by the State Board pursuant to subsection (d) of this Section.

(b) If a party to an agreement that is the subject of a permit seeks to terminate its participation in the agreement, the party shall file a notice of termination with the State Board at least 30 days prior to the proposed effective date of the termination. Upon receipt of a notice of termination, the State Board may institute revocation proceedings. If any parties seek to terminate the agreement, the parties shall file a notice of termination at least 30 days prior to the proposed effective date of the termination.

(c) The State Board shall begin a proceeding to revoke a permit to implement a cooperative agreement by providing written notice to the permitholder describing in detail the basis for the proposed revocation. Notice of the proceeding must be published in the Illinois Register. The notice must invite the submission of comments to the State Board.

(d) In deciding whether to revoke a permit to implement a cooperative agreement, the State Board shall take into account the hardship that the revocation may impose on the applicants and any potential disruption of the market as a whole. The State Board shall not revoke an approval if the agreement can be modified, restructured, or regulated so as to remedy the problem upon which the revocation proceeding is based. The permitholder may submit proposals for alternatives to revocation. Before approving an alternative to revocation that involves modifying or restructuring an agreement, the State Board shall publish notice in the Illinois Register that any person may comment on the proposed modification or restructuring within 20 days after publication of the notice. The State Board shall not approve the modification or restructuring until the comment period has concluded. An approved modified or restructured agreement

is subject to supervision under Section 65.

(e) The permitholder cannot be held liable under State or federal antitrust law for unintentional acts that occurred while the permit was in effect, except to the extent that the permitholder failed to comply with the terms of the permit. The permitholder is fully subject to State and federal antitrust law after the revocation becomes effective and may be held liable for acts that occur after the revocation.

Section 80. Recordkeeping. The State Board shall maintain a file of all agreements for which approval orders are issued and that remain in effect.

Section 85. Health care provider cooperative agreements; antitrust exemption.

(a) This Act does not confer authority to engage in agreements,

SENATE

tacit, implied, or express, which are not submitted to the State Board for approval if those agreements are in violation of State or federal antitrust laws. Conduct seemingly pursuant to provisions of this law done without the good faith intention to accomplish an agreement approved by the State Board is not entitled to the protections and immunities of this Section.

(b) It is the intent of this Act to require the State, through the State Board, to provide direction, supervision, and control over a cooperative agreement. To achieve the goals specified in Section 30, this State direction, supervision, and control will provide immunity from any civil or criminal liability under the Illinois Antitrust Act and State-action immunity under federal antitrust laws to (i) health care providers, their governing board members, and their officers, agents, and employees who take authorized actions to implement a cooperative agreement approved under this Act and (ii) persons representing health care providers who participate in discussions or negotiations concerning the allocation of open-heart surgery as authorized under this Act.

Section 90. Health care cooperative agreement; Attorney General action. The Attorney General shall have all the powers necessary or convenient for the representation and protection of the public interest in all proceedings under this Act, including, without limitation, the right to intervene as a party or otherwise participate in any proceeding under this Act. Nothing in this Act shall limit the authority of the Attorney General to initiate an action to enforce the civil or criminal liability provisions of the Illinois Antitrust Act if the Attorney General determines that a health care provider, the members of its governing board, or its officers, agents, or employees have exceeded the scope of the actions authorized under this Act.

Section 95. Rulemaking. If necessary to meet the March 1, 2000 approval deadline, the State Board shall adopt rules for the operation of this Act under the emergency rulemaking provisions of Section 5-45 of the Illinois Administrative Procedure Act. Within 150 days of the adoption of rules under Section 5-45, the State Board shall adopt identical or different rules under the general rulemaking provisions of Section 5-40 of that Act.

Section 100. Investigations. The Attorney General or the State

Board, at any time after an application is filed or approved under this Act, may require by subpoena the attendance and testimony of witnesses and the production of documents for the purpose of investigating whether the cooperative agreement satisfies the standards set forth in this Act. The Attorney General or the State Board may seek a court order compelling compliance with a subpoena issued under this Section.

Section 200. The Illinois Antitrust Act is amended by changing Section 5 as follows:

(740 ILCS 10/5) (from Ch. 38, par. 60-5)

Sec. 5. Exceptions. No provisions of this Act shall be construed to make illegal:

SENATE BILL RECALLED

On motion of Senator R. Madigan, **Senate Bill No. 854** was recalled from the order of third reading to the order of second reading.

Senator R. Madigan offered the following amendment and moved its adoption:

AMENDMENT NO. 1

AMENDMENT NO. 1. Amend Senate Bill 854 by replacing the title with the following:

"AN ACT concerning retired teachers."; and

by replacing everything after the enacting clause with the following:

"Section 5. The State Employees Group Insurance Act of 1971 is amended by changing Sections 6.5 and 10 as follows:

(5 ILCS 375/6.5)

Sec. 6.5. Health benefits for TRS benefit recipients and TRS dependent beneficiaries.

(a) Purpose. It is the purpose of this amendatory Act of 1995 to transfer the administration of the program of health benefits established for benefit recipients and their dependent beneficiaries under Article 16 of the Illinois Pension Code to the Department of Central Management Services.

(b) Transition provisions. The Board of Trustees of the Teachers' Retirement System shall continue to administer the health benefit program established under Article 16 of the Illinois Pension Code through December 31, 1995. Beginning January 1, 1996, the Department of Central Management Services shall be responsible for administering a program of health benefits for TRS benefit recipients and TRS dependent beneficiaries under this Section. The Department of Central Management Services and the Teachers' Retirement System shall cooperate in this endeavor and shall coordinate their activities so as to ensure a smooth transition and uninterrupted health benefit coverage.

(c) Eligibility. All persons who were enrolled in the Article 16 program at the time of the transfer shall be eligible to participate in the program established under this Section without any interruption or delay in coverage or limitation as to pre-existing medical conditions. Eligibility to participate shall be determined by the Teachers' Retirement System. Eligibility information shall be communicated to the Department of Central Management Services in a format acceptable to the Department.

(d) Coverage. The level of health benefits provided under this Section shall be similar to the level of benefits provided by the program previously established under Article 16 of the Illinois Pension Code; except that beginning in State fiscal year 2001, the benefits and participant costs for the following listed benefit areas shall be substantially the same as for the program of basic health benefits provided under this Act for retired State employees:

For Managed Health Care Plans:

(i) inpatient admission copayment.

For the Major Medical Plan:

(1) annual deductible;

(2) general out-of-pocket maximum;

(3) Medicare coordination of benefit.

Group life insurance benefits are not included in the benefits to be provided to TRS benefit recipients and TRS dependent beneficiaries under this Act.

The program of health benefits under this Section may include any or all of the benefit limitations, including but not limited to a reduction in benefits based on eligibility for federal medicare benefits, that are provided under subsection (a) of Section 6 of this

Act for other health benefit programs under this Act.

(e) Insurance rates and premiums. The Director shall determine

the insurance rates and premiums for TRS benefit recipients and TRS dependent beneficiaries. For Fiscal Year 1996, the premium shall be equal to the premium actually charged in Fiscal Year 1995. In subsequent years, the premium shall never be lower than the premium charged in Fiscal Year 1995. Rates and premiums may be based in part on age and eligibility for federal medicare coverage.

The cost of health benefits under the program shall be paid as follows:

(1) For a TRS benefit recipient selecting a managed care program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund.

(2) For a TRS benefit recipient selecting the major medical coverage program, up to 50% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is accessible, as determined by the Teachers' Retirement System.

(3) For a TRS benefit recipient selecting the major medical coverage program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is not accessible, as determined by the Teachers' Retirement System.

(4) The balance of the rate of insurance, including the entire premium of any coverage for TRS dependent beneficiaries that has been elected, shall be paid by deductions authorized by the TRS benefit recipient to be withheld from his or her monthly annuity or benefit payment from the Teachers' Retirement System; except that (i) if the balance of the cost of coverage exceeds the amount of the monthly annuity or benefit payment, the difference shall be paid directly to the Teachers' Retirement System by the TRS benefit recipient, and (ii) all or part of the balance of the cost of coverage may, at the school board's option, be paid to the Teachers' Retirement System by the school board of the school district from which the TRS benefit recipient retired, in accordance with Section 10-22.3b of the School Code. The Teachers' Retirement System shall promptly deposit all moneys withheld by or paid to it under this subdivision (e)(4) into the Teacher Health Insurance Security Fund. These moneys shall not be considered assets of the Retirement System.

(f) Financing. Beginning July 1, 1995, all revenues arising from the administration of the health benefit programs established under Article 16 of the Illinois Pension Code or this Section shall be deposited into the Teacher Health Insurance Security Fund, which is hereby created as a nonappropriated trust fund to be held outside the State Treasury, with the State Treasurer as custodian. Any interest earned on moneys in the Teacher Health Insurance Security Fund shall be deposited into the Fund.

Moneys in the Teacher Health Insurance Security Fund shall be used only to pay the costs of the health benefit program established under this Section, including associated administrative costs, and the costs associated with the health benefit program established under Article 16 of the Illinois Pension Code, as authorized in this Section. Beginning July 1, 1995, the Department of Central Management Services may make expenditures from the Teacher Health Insurance Security Fund for those costs.

After other funds authorized for the payment of the costs of the health benefit program established under Article 16 of the Illinois Pension Code are exhausted and until January 1, 1996 (or such later

date as may be agreed upon by the Director of Central Management Services and the Secretary of the Teachers' Retirement System), the

Secretary of the Teachers' Retirement System may make expenditures from the Teacher Health Insurance Security Fund as necessary to pay up to 75% of the cost of providing health coverage to eligible benefit recipients (as defined in Sections 16-153.1 and 16-153.3 of the Illinois Pension Code) who are enrolled in the Article 16 health benefit program and to facilitate the transfer of administration of the health benefit program to the Department of Central Management Services.

(g) Contract for benefits. The Director shall by contract, self-insurance, or otherwise make available the program of health benefits for TRS benefit recipients and their TRS dependent beneficiaries that is provided for in this Section. The contract or other arrangement for the provision of these health benefits shall be on terms deemed by the Director to be in the best interest of the State of Illinois and the TRS benefit recipients based on, but not limited to, such criteria as administrative cost, service capabilities of the carrier or other contractor, and the costs of the benefits.

(h) Continuation of program. It is the intention of the General Assembly that the program of health benefits provided under this Section be maintained on an ongoing, affordable basis. The program of health benefits provided under this Section may be amended by the State and is not intended to be a pension or retirement benefit subject to protection under Article XIII, Section 5 of the Illinois Constitution.

(5 ILCS 375/10) (from Ch. 127, par. 530)

Sec. 10. Payments by State; premiums.

(a) The State shall pay the cost of basic non-contributory group life insurance and, subject to member paid contributions set by the Department or required by this Section, the basic program of group health benefits on each eligible member, except a member, not otherwise covered by this Act, who has retired as a participating member under Article 2 of the Illinois Pension Code but is ineligible for the retirement annuity under Section 2-119 of the Illinois Pension Code, and part of each eligible member's and retired member's premiums for health insurance coverage for enrolled dependents as provided by Section 9. The State shall pay the cost of the basic program of group health benefits only after benefits are reduced by the amount of benefits covered by Medicare for all retired members and retired dependents aged 65 years or older who are entitled to benefits under Social Security or the Railroad Retirement system or who had sufficient Medicare-covered government employment except that such reduction in benefits shall apply only to those retired members or retired dependents who (1) first become eligible for such Medicare coverage on or after July 1, 1992; or (2) remain eligible for, but no longer receive Medicare coverage which they had been receiving on or after July 1, 1992. The Department may determine the aggregate level of the State's contribution on the basis of actual cost of medical services adjusted for age, sex or geographic or other demographic

characteristics which affect the costs of such programs.

(a-1) Beginning January 1, 1998, for each person who becomes a new SERS annuitant and participates in the basic program of group health benefits, the State shall contribute toward the cost of the annuitant's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of creditable service upon which the annuitant's retirement annuity is based, up to a maximum of 100% for an annuitant with 20 or more years of creditable service. The remainder of the cost of a new SERS annuitant's coverage under the basic program of group health benefits shall be the responsibility of the annuitant.

(a-2) Beginning January 1, 1998, for each person who becomes a new SERS survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service in the State Employees' Retirement System of Illinois on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of creditable service. The remainder of the cost of the new SERS survivor's coverage under the basic program of group health benefits shall be the responsibility of the survivor.

(a-3) Beginning January 1, 1998, for each person who becomes a new SERS annuitant and participates in the basic program of group health benefits, the State shall contribute toward the cost of the annuitant's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of creditable service upon which the annuitant's retirement annuity is based, up to a maximum of 100% for an annuitant with 20 or more years of creditable service. The remainder of the cost of a new SERS annuitant's coverage under the basic program of group health benefits shall be the responsibility of the annuitant.

(a-4) Beginning January 1, 1998, for each person who becomes a new SERS retired employee and participates in the basic program of group health benefits, the State shall contribute toward the cost of the retired employee's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year that the retired employee was an employee as defined in Section 3, up to a maximum of 100% for a retired employee who was an employee for 20 or more years. The remainder of the cost of a new SERS retired employee's coverage under the basic program of group health benefits shall be the responsibility of the retired employee.

(a-5) Beginning January 1, 1998, for each person who becomes a new SERS survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service in the State Universities Retirement System on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of creditable service. The remainder of the cost of the new SERS survivor's coverage under the basic program of group health

benefits shall be the responsibility of the survivor.

(a-6) Beginning July 1, 1998, for each person who becomes a new TRS State annuitant and participates in the basic program of group health benefits, the State shall contribute toward the cost of the annuitant's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of creditable service as a teacher as defined in paragraph (2), (3), or (5) of Section 16-106 of the Illinois Pension Code upon which the annuitant's retirement annuity is based, up to a maximum of 100% for an annuitant with 20 or more years of such creditable service. The remainder of the cost of a new TRS State annuitant's coverage under the basic program of group health benefits shall be the responsibility of the annuitant.

(a-7) Beginning July 1, 1998, for each person who becomes a new TRS State survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service as a teacher as defined in paragraph (2), (3), or (5) of Section 16-106 of the

Illinois Pension Code on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of such creditable service. The remainder of the cost of the new TRS State survivor's coverage under the basic program of group health benefits shall be the responsibility of the survivor.

(a-8) A new SERS annuitant, new SERS survivor, new SURS annuitant, new SURS retired employee, new SURS survivor, new TRS State annuitant, or new TRS State survivor may waive or terminate coverage in the program of group health benefits. Any such annuitant, survivor, or retired employee who has waived or terminated coverage may enroll or re-enroll in the program of group health benefits only during the annual benefit choice period, as determined by the Director; except that in the event of termination of coverage due to nonpayment of premiums, the annuitant, survivor, or retired employee may not re-enroll in the program.

(a-9) No later than May 1 of each calendar year, the Director of Central Management Services shall certify in writing to the Executive Secretary of the State Employees' Retirement System of Illinois and the Executive Director of the Teachers' Retirement System of the State of Illinois the amounts of the Medicare supplement health care premiums and the amounts of the health care premiums for all other retirees who are not Medicare eligible.

A separate calculation of the premiums based upon the actual cost of each health care plan shall be so certified.

The Director of Central Management Services shall provide to the Executive Secretary of the State Employees' Retirement System of Illinois and the Executive Director of the Teachers' Retirement System of the State of Illinois such information, statistics, and other data as they ~~he or she~~ may require to review the premium amounts certified by the Director of Central Management Services.

(b) State employees who become eligible for this program on or after January 1, 1980 in positions normally requiring actual

performance of duty not less than 1/2 of a normal work period but not equal to that of a normal work period, shall be given the option of participating in the available program. If the employee elects coverage, the State shall contribute on behalf of such employee to the cost of the employee's benefit and any applicable dependent supplement, that sum which bears the same percentage as that percentage of time the employee regularly works when compared to normal work period.

(c) The basic non-contributory coverage from the basic program of group health benefits shall be continued for each employee not in pay status or on active service by reason of (1) leave of absence due to illness or injury, (2) authorized educational leave of absence or sabbatical leave, or (3) military leave with pay and benefits. This coverage shall continue until expiration of authorized leave and return to active service, but not to exceed 24 months for leaves under item (1) or (2). This 24-month limitation and the requirement of returning to active service shall not apply to persons receiving ordinary or accidental disability benefits or retirement benefits through the appropriate State retirement system or benefits under the Workers' Compensation or Occupational Disease Act.

(d) The basic group life insurance coverage shall continue, with full State contribution, where such person is (1) absent from active service by reason of disability arising from any cause other than self-inflicted, (2) on authorized educational leave of absence or sabbatical leave, or (3) on military leave with pay and benefits.

(e) Where the person is in non-pay status for a period in excess of 30 days or on leave of absence, other than by reason of disability, educational or sabbatical leave, or military leave with pay and benefits, such person may continue coverage only by making

personal payment equal to the amount normally contributed by the State on such person's behalf. Such payments and coverage may be continued: (1) until such time as the person returns to a status eligible for coverage at State expense, but not to exceed 24 months, (2) until such person's employment or annuitant status with the State is terminated, or (3) for a maximum period of 4 years for members on military leave with pay and benefits and military leave without pay and benefits (exclusive of any additional service imposed pursuant to law).

(f) The Department shall establish by rule the extent to which other employee benefits will continue for persons in non-pay status or who are not in active service.

(g) The State shall not pay the cost of the basic non-contributory group life insurance, program of health benefits and other employee benefits for members who are survivors as defined by paragraphs (1) and (2) of subsection (q) of Section 3 of this Act. The costs of benefits for these survivors shall be paid by the survivors or by the University of Illinois Cooperative Extension Service, or any combination thereof.

(h) Those persons occupying positions with any department as a result of emergency appointments pursuant to Section 8b.8 of the Personnel Code who are not considered employees under this Act shall be given the option of participating in the programs of group life

insurance, health benefits and other employee benefits. Such persons electing coverage may participate only by making payment equal to the amount normally contributed by the State for similarly situated employees. Such amounts shall be determined by the Director. Such payments and coverage may be continued until such time as the person becomes an employee pursuant to this Act or such person's appointment is terminated.

(i) Any unit of local government within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a unit of local government must agree to enroll all of its employees, who may select coverage under either the State group health insurance plan or a health maintenance organization that has contracted with the State to be available as a health care provider for employees as defined in this Act. A unit of local government must remit the entire cost of providing coverage under the State group health insurance plan or, for coverage under a health maintenance organization, an amount determined by the Director based on an analysis of the sex, age, geographic location, or other relevant demographic variables for its employees, except that the unit of local government shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the unit of local government attests that each employee not enrolled is a covered spouse or dependent under this plan or another group policy or plan, and (2) at least 85% of the employees are enrolled and the unit of local government remits the entire cost of providing coverage to those employees. Employees of a participating unit of local government who are not enrolled due to coverage under another group health policy or plan may enroll at a later date subject to submission of satisfactory evidence of insurability and provided that no benefits shall be payable for services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. A participating unit of local government may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with the costs paid by the unit of local government, its employees, or some combination of the two as determined by the unit

of local government. The unit of local government shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine monthly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages, or contributed by the State for basic insurance coverages on behalf of its employees, adjusted for differences between State employees and employees of the local government in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to

employees of the unit of local government and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the unit of local government.

In the case of coverage of local government employees under a health maintenance organization, the Director shall annually determine for each participating unit of local government the maximum monthly amount the unit may contribute toward that coverage, based on an analysis of (i) the age, sex, geographic location, and other relevant demographic variables of the unit's employees and (ii) the cost to cover those employees under the State group health insurance plan. The Director may similarly determine the maximum monthly amount each unit of local government may contribute toward coverage of its employees' dependents under a health maintenance organization.

Monthly payments by the unit of local government or its employees for group health insurance or health maintenance organization coverage shall be deposited in the Local Government Health Insurance Reserve Fund. The Local Government Health Insurance Reserve Fund shall be a continuing fund not subject to fiscal year limitations. All expenditures from this fund shall be used for payments for health care benefits for local government and rehabilitation facility employees, annuitants, and dependents, and to reimburse the Department or its administrative service organization for all expenses incurred in the administration of benefits. No other State funds may be used for these purposes.

A local government employer's participation or desire to participate in a program created under this subsection shall not limit that employer's duty to bargain with the representative of any collective bargaining unit of its employees.

(j) Any rehabilitation facility within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a rehabilitation facility must agree to enroll all of its employees and remit the entire cost of providing such coverage for its employees, except that the rehabilitation facility shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the rehabilitation facility attests that each employee not enrolled is a covered spouse or dependent under this plan or another group policy or plan, and (2) at least 85% of the employees are enrolled and the rehabilitation facility remits the entire cost of providing coverage to those employees. Employees of a participating rehabilitation facility who are not enrolled due to coverage under another group health policy or plan may enroll at a later date subject to submission of satisfactory evidence of insurability and provided that no benefits shall be payable for

services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. A participating rehabilitation facility may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with the costs paid by the rehabilitation facility, its employees, or

some combination of the 2 as determined by the rehabilitation facility. The rehabilitation facility shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine quarterly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the rehabilitation facility in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the rehabilitation facility and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the rehabilitation facility.

Monthly payments by the rehabilitation facility or its employees for group health insurance shall be deposited in the Local Government Health Insurance Reserve Fund.

(k) Any domestic violence shelter or service within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a domestic violence shelter or service must agree to enroll all of its employees and pay the entire cost of providing such coverage for its employees. A participating domestic violence shelter may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with employees, or some combination of the 2 as determined by the domestic violence shelter or service. The domestic violence shelter or service shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine quarterly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the domestic violence shelter or service in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the domestic violence shelter or service and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the domestic violence shelter or service.

(3) In no case shall the rate be less than the amount normally charged to State employees or contributed by the State on behalf of its employees.

Monthly payments by the domestic violence shelter or service or its employees for group health insurance shall be deposited in the Local Government Health Insurance Reserve Fund.

(1) A public community college or entity organized pursuant to the Public Community College Act may apply to the Director initially to have only annuitants not covered prior to July 1, 1992 by the

district's health plan provided health coverage under this Act on a non-insured basis. The community college must execute a 2-year contract to participate in the Local Government Health Plan. Those annuitants enrolled initially under this contract shall have no benefits payable for services incurred during the first 6 months of coverage to the extent the services are in connection with any pre-existing condition. Any annuitant who may enroll after this initial enrollment period shall be subject to submission of satisfactory evidence of insurability and to the pre-existing conditions limitation.

The Director shall annually determine monthly rates of payment subject to the following constraints: for those community colleges with annuitants only enrolled, first year rates shall be equal to the average cost to cover claims for a State member adjusted for demographics, Medicare participation, and other factors; and in the second year, a further adjustment of rates shall be made to reflect the actual first year's claims experience of the covered annuitants.

(m) The Director shall adopt any rules deemed necessary for implementation of this amendatory Act of 1989 (Public Act 86-978). CONSIDERATION OF CONFERENCE COMMITTEE REPORTS

Senator Donahue, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on Senate Amendment No. 1 to **House Bill No. 287**, submitted the following Report of the First Conference Committee and moved its adoption:

91ST GENERAL ASSEMBLY CONFERENCE COMMITTEE REPORT ON HOUSE BILL 287

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendment No. 1 to House Bill 287, recommend the following:

(1) that the Senate recede from Senate Amendment 1; and
(2) that House Bill 287 be amended by replacing the title with the following:

"AN ACT to amend the Public Utilities Act by changing Section 13-301."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Public Utilities Act is amended by change section 13-301 as follows:

(220 ILCS 5/13-301) (from Ch. 111 2/3, par. 13-301)

(Section scheduled to be repealed on July 1, 2001)

Sec. 13-301. Consistent with the findings and policy established in paragraph (a) of Section 13-102 and paragraph (a) of Section 13-103, and in order to ensure the attainment of such policies, the Commission shall:

(a) participate in all federal programs intended to preserve or

extend universal telecommunications service, unless such programs would place cost burdens on Illinois customers of telecommunications services in excess of the benefits they would receive through participation, provided, however, the Commission shall not approve or permit the imposition of any surcharge or other fee designed to subsidize or provide a waiver for subscriber line charges; and shall report on such programs together with an assessment of their adequacy and the advisability of participating therein in its annual report to the General Assembly, or more often as necessary;

(b) establish a program to monitor the level of telecommunications subscriber connection within each exchange in Illinois, and shall report the results of such monitoring and any actions it has taken or recommends be taken to maintain and increase such levels in its annual report to the General Assembly, or more often if necessary;

(c) order all telecommunications carriers offering or providing local exchange telecommunications service to propose low-cost or

budget service tariffs and any other rate design or pricing mechanisms designed to facilitate customer access to such telecommunications service, and shall after notice and hearing, implement any such proposals which it finds likely to achieve such purpose;

(d) investigate the necessity of and, if appropriate, establish feasibility of establishing a universal service support fund from which local exchange telecommunications carriers who pursuant to the Twenty-Seventh Interim Order of the Commission in Docket No. 83-0142 or the orders of the Commission in Docket No. 97-0621 and Docket No. 98-0679 received funding and offering or providing local exchange telecommunications service, whose economic costs of providing services for which universal service support may be made available such service exceed the affordable rate established by the Commission for such services may be eligible to average cost of providing such service in Illinois, could receive support, less any federal universal service support received for the same or similar costs of providing the supported services; provided, however, that if a universal service support fund is established, the Commission shall require that all costs of the fund be recovered from all local exchange and interexchange telecommunications carriers certificated in Illinois on a competitively neutral and nondiscriminatory basis. In establishing any such universal service support fund, the Commission shall, in addition to the determination of costs for supported services, consider and make findings pursuant to paragraphs (1), (2), and (4) of item (e) of this Section. Proxy cost, as determined by the Commission, may be used for this purpose. In determining cost recovery for any universal service support fund, the Commission shall not permit recovery of such costs from another certificated carrier for any service purchased and used solely as an input to a service provided to such certificated carrier's retail customers revenues intended to mitigate the price impact on customers resulting from the high or rising cost of such service; and shall include the results and findings of such investigation together with any recommendations for legislative action in its first annual report

~~to the General Assembly in 1986; and~~

~~(e) investigate the necessity of and, if appropriate, establish a universal service support fund in addition to any fund that may be established pursuant to item (d) of this Section; provided, however, that if a telecommunications carrier receives universal service support pursuant to item (d) of this Section, that telecommunications carrier shall not receive universal service support pursuant to this item. Recipients of any universal service support funding created by this item shall be "eligible" telecommunications carriers, as designated by the Commission in accordance with 47 U.S.C. 214(e)(2). Eligible telecommunications carriers providing local exchange telecommunications service may be eligible to receive support for such services, less any federal universal service support received for the same or similar costs of providing the supported services. If a fund is established, the Commission shall require that the costs of such fund be recovered from all telecommunications carriers, with the exception of wireless carriers who are providers of two-way cellular telecommunications service and who have not been designated as eligible telecommunications carriers, on a competitively neutral and non-discriminatory basis. In any order creating a fund pursuant to this item, the Commission, after notice and hearing, shall:~~

~~(1) Define the group of services to be declared "supported telecommunications services" that constitute "universal service". This group of services shall, at a minimum, include those services as defined by the Federal Communications Commission and as from time to time amended. In addition, the Commission shall~~

SENATE

4617

~~consider the range of services currently offered by telecommunications carriers offering local exchange telecommunications service, the existing rate structures for the supported telecommunications services, and the telecommunications needs of Illinois consumers in determining the supported telecommunications services. The Commission shall, from time to time or upon request, review and, if appropriate, revise the group of Illinois supported telecommunications services and the terms of the fund to reflect changes or enhancements in telecommunications needs, technologies, and available services.~~

~~(2) Identify all implicit subsidies contained in rates or charges of incumbent local exchange carriers, including all subsidies in interexchange access charges, and determine how such subsidies can be made explicit by the creation of the fund.~~

~~(3) Identify the incumbent local exchange carriers' economic costs of providing the supported telecommunications services.~~

~~(4) Establish an affordable price for the supported telecommunications services for the respective incumbent local exchange carrier. The affordable price shall be no less than the rates in effect at the time the Commission creates a fund pursuant to this item. The Commission may establish and utilize indices or models for updating the affordable price for supported telecommunications services.~~

~~(5) Identify the telecommunications carriers from whom the costs of the fund shall be recovered and the mechanism to be used~~

to determine and establish a competitively neutral and non-discriminatory funding basis. From time to time, or upon request, the Commission shall consider whether, based upon changes in technology or other factors, additional telecommunications providers should contribute to the fund. The Commission shall establish the basis upon which telecommunications carriers contributing to the fund shall recover contributions on a competitively neutral and non-discriminatory basis. In determining cost recovery for any universal support fund, the Commission shall not permit recovery of such costs from another certificated carrier for any service purchased and used solely as an input to a service provided to such certificated carriers' retail customers.

(6) Approve a plan for the administration and operation of the fund by a neutral third party consistent with the requirements of this item.

No fund shall be created pursuant to this item until existing implicit subsidies, including, but not limited to, those subsidies contained in interexchange access charges, have been identified and eliminated through revisions to rates or charges. Prior to May 1, 2000, such revisions to rates or charges to eliminate implicit subsidies shall occur contemporaneously with any funding established pursuant to this item. However, if the Commission does not establish a universal service support fund by May 1, 2000, the Commission shall not be prevented from entering an order or taking other actions to reduce or eliminate existing subsidies as well as considering the effect of such reduction or elimination on local exchange carriers.

(e) Any telecommunications carrier providing local exchange telecommunications service which offers to its local exchange customers a choice of two or more local exchange telecommunications service offerings shall provide, to any such customer requesting it, once a year without charge, a report describing which local exchange telecommunications service offering would result in the lowest bill for such customer's local exchange service, based on such customer's calling pattern and usage for the previous 6 months. At least once a

year, each such carrier shall provide a notice to each of its local exchange telecommunications service customers describing the availability of this report and the specific procedures by which customers may receive it. Such report shall only be available to current and future customers who have received at least 6 months of continuous local exchange service from such carrier.

To the President of the Senate and the Speaker of the House of

Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendment No. 1 to House Bill 427, recommend the following:

- (1) that the Senate recede from Senate Amendment No. 1; and
- (2) that House Bill 427 be amended as follows:

by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Assisted

Living and Shared Housing Act.

Section 5. Legislative purpose. The purpose of this Act is to permit the development and availability of assisted living establishments and shared housing establishments based on a social model that promotes the dignity, individuality, privacy, independence, autonomy, and decision-making ability and the right to negotiated risk of those persons; to provide for the health, safety, and welfare of those residents residing in assisted living and shared housing establishments in this State; to promote continuous quality improvement in assisted living; and to encourage the development of innovative and affordable assisted living establishments and shared housing with service establishments for elderly persons of all income levels. It is the public policy of this State that assisted living is an important part of the continuum of long term care. In support of the goal of aging in place within the parameters established by this Act, assisted living and shared housing establishments shall be operated as residential environments with supportive services designed to meet the individual resident's changing needs and preferences. The residential environment shall be designed to encourage family and community involvement. The services available to residents, either directly or through contracts or agreements, are intended to help residents remain as independent as possible. Assisted living, which promotes resident choice, autonomy, and decision making, should be based on a contract model designed to result in a negotiated agreement between the resident or the resident's representative and the provider, clearly identifying the services to be provided. This model assumes that residents are able to direct services provided for them and will designate a representative to direct these services if they themselves are unable to do so. This model supports the principle that there is an acceptable balance between consumer protection and resident willingness to accept risk and that most consumers are competent to make their own judgments about the services they are obtaining. Regulation of assisted living establishments and shared housing establishments must be sufficiently flexible to allow residents to age in place within the parameters of this Act. The administration of this Act and services provided must therefore ensure that the residents have the rights and responsibilities to direct the scope of services they receive and to make individual choices based on their needs and preferences. These establishments shall be operated in a manner that provides the least restrictive and most homelike environment and that promotes independence, autonomy, individuality, privacy, dignity, and the right to negotiated risk in residential surroundings. It is not the intent of the State that establishments licensed under this Act be used as halfway houses for alcohol and substance abusers.

Within 30 days prior to the termination of a probationary license, the Department shall fully and completely review the establishment and, if the establishment meets the applicable requirements for licensure, shall issue a license. If the Department finds that the establishment does not meet the requirements for licensure, but has made substantial progress toward meeting those requirements, the

license may be renewed once for a period not to exceed 120 days from the expiration date of the initial probationary license.

Section 45. Renewal of licenses. At least 120 days, but not more than 150 days prior to license expiration, the licensee shall submit an application for renewal of the license in such form and containing such information as the Department requires. If the application is approved, the license shall be renewed for an additional one-year period. If appropriate, the renewal application shall not be approved unless the applicant has provided to the Department an accurate disclosure document in accordance with the Alzheimer's Special Care Disclosure Act. If the application for renewal is not timely filed, the Department shall so inform the licensee.

Section 50. Transfer of ownership.

(a) Whenever ownership of an establishment is transferred from the person named in the license to any other person, the transferee must obtain a new probationary license. The transferee shall notify the Department of the transfer and apply for a new license at least 30 days prior to final transfer.

(b) The transferor shall notify the Department at least 30 days prior to final transfer. The transferor shall remain responsible for the operation of the establishment until such time as a license is issued to the transferee.

(6) the establishment is not under the direct supervision of a full-time director, as defined by rule.

Section 60. Notice of denial; request for hearing; hearing.

(a) Immediately upon the denial of any application or reapplication for a license under this Act, the Department shall notify the applicant in writing. Notice of denial shall include a clear and concise statement of the violations of this Act on which

(d) The Director or hearing officer shall make findings of fact in the hearing, and the Director shall render his or her decision within 30 days after the termination of the hearing, unless additional time not to exceed 90 days is required by him or her for a proper disposition of the matter. All decisions rendered by the Director shall be binding upon and complied with by the Department, the establishment, or the persons involved in the hearing, as appropriate to each case.

Section 65. Revocation, suspension, or refusal to renew license.

(a) The Department, after notice to the applicant or licensee, may suspend, revoke, or refuse to renew a license in any case in which the Department finds any of the following:

(3) the Department may extend the effective date of license revocation or expiration in any case in order to permit orderly removal and relocation of residents.

(e) The Department may refuse to issue or may suspend the license of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of tax, penalty or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

Section 70. Service requirements. An establishment must provide all mandatory services and may provide optional services, including medication reminders, supervision of self-administered medication and medication administration as defined by this Section and nonmedical services defined by rule, whether provided directly by the

establishment or by another entity arranged for by the establishment with the consent of the resident or the resident's representative.

For the purposes of this Section, "supervision of self-administered medication" means assisting the resident with self-administered medication using any combination of the following: reminding residents to take medication, reading the medication label to residents, checking the self-administered medication dosage against the label of the medication, confirming that residents have obtained and are taking the dosage as prescribed, and documenting in writing that the resident has taken (or refused to take) the medication. If residents are physically unable to open the container, the container may be opened for them. Supervision of self-administered medication shall be under the direction of a licensed health care professional.

For the purposes of this Section, "medication administration" refers to a licensed health care professional employed by an

Nothing in this Act shall preclude a physician licensed to practice medicine in all its branches from providing services to any resident.

Section 75. Residency Requirements.

(a) No individual shall be accepted for residency or remain in residence if the establishment cannot provide or secure appropriate services, if the individual requires a level of service or type of service for which the establishment is not licensed or which the establishment does not provide, or if the establishment does not have the staff appropriate in numbers and with appropriate skill to provide such services.

(b) Only adults may be accepted for residency.

(c) A person shall not be accepted for residency if:

(1) the person poses a serious threat to himself or herself or to others;

(8) the person requires gastrostomy feedings unless self-administered or administered by a licensed health care professional;

(15) other reasons prescribed by the Department by rule.

(d) A resident with a condition listed in items (1) through (15) of subsection (c) shall have his or her residency terminated.

(e) Residency shall be terminated when services available to the resident in the establishment are no longer adequate to meet the needs of the resident. This provision shall not be interpreted as limiting the authority of the Department to require the residency termination of individuals.

(f) Subsection (d) of this Section shall not apply to terminally ill residents who receive or would qualify for hospice care coordinated by a hospice licensed under the Hospice Program Licensing Act or other licensed health care professional employed by a licensed home health agency and the establishment and all parties

agree to the continued residency.

(g) Items (3), (4), (5), and (9) of subsection (c) shall not apply to a quadriplegic, paraplegic, or individual with neuro-muscular diseases, such as muscular dystrophy and multiple sclerosis, or other chronic diseases and conditions as defined by rule if the individual is able to communicate his or her needs and does not require assistance with complex medical problems, and the establishment is able to accommodate the individual's needs. The Department shall prescribe rules pursuant to this Section that address special safety and service needs of these individuals.

(3) failure to execute a service delivery contract or to substantially comply with its terms and conditions, failure to comply with the assessment requirements contained in Section 15, or failure to substantially comply with the terms and conditions of the lease agreement.

(b) A 30 day written notice of residency termination shall be provided to the resident, the resident's representative, or both, and the long term care ombudsman, which shall include the reason for the pending action, the date of the proposed move, and a notice, the content and form to be set forth by rule, of the resident's right to appeal, the steps that the resident or the resident's representative must take to initiate an appeal, and a statement of the resident's

In emergency situations as defined in Section 10 of this Act, the requirements of this subsection may be waived.

(f) The Department may offer assistance to the establishment and the resident in the preparation of residency termination and relocation plans to assure safe and orderly transition and to protect the resident's health, safety, welfare, and rights. In nonemergencies, and where possible in emergencies, the transition plan shall be designed and implemented in advance of transfer or residency termination.

Section 85. Contract requirements. No entity may establish, operate, conduct, or maintain an establishment in this State unless a written service delivery contract is executed between the establishment and each resident or resident's representative in accordance with Section 90 and unless the establishment operates in accordance with the terms of the contract. 91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON HOUSE BILL 2166

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendments No. 1 and No. 2 to House Bill 2166, recommend the following:

(1) that the Senate recede from Senate Amendments No. 1 and No. 2; and

(2) that House Bill 2166 be amended by replacing the title with the following:

"AN ACT to amend the Comprehensive Health Insurance Plan Act by changing Sections 7 and 8 and repealing Section 8.5."; and by replacing everything after the enacting clause with the following:

"Section 5. The Comprehensive Health Insurance Plan Act is amended by changing Sections 7 and 8 as follows:

(215 ILCS 105/7) (from Ch. 73, par. 1307)

Sec. 7. Eligibility.

a. Except as provided in subsection (e) of this Section or in Section 15 of this Act, any individual person who is either a citizen of the United States or an alien lawfully admitted for permanent residence and continues to be a resident of this State shall be eligible for Plan coverage if evidence is provided of:

(1) A notice of rejection or refusal to issue substantially similar individual health insurance coverage for health reasons by a health insurance issuer; or

(2) A refusal by a health insurance issuer to issue individual health insurance coverage except at a rate exceeding the applicable Plan rate for which the person is responsible.

A rejection or refusal by a group health plan or health insurance issuer offering only stop-loss or excess of loss insurance or contracts, agreements, or other arrangements for reinsurance coverage

with respect to the applicant shall not be sufficient evidence under this subsection.

b. The board shall promulgate a list of medical or health conditions for which a person who is either a citizen of the United States or an alien lawfully admitted for permanent residence and a resident of this State would be eligible for Plan coverage without

applying for health insurance coverage pursuant to subsection a. of this Section. Persons who can demonstrate the existence or history of any medical or health conditions on the list promulgated by the board shall not be required to provide the evidence specified in subsection a. of this Section. The list shall be effective on the first day of the operation of the Plan and may be amended from time to time as appropriate.

c. Family members of the same household who each are covered persons are eligible for optional family coverage under the Plan.

d. For persons qualifying for coverage in accordance with Section 7 of this Act, the board shall, if it determines that such appropriations as are made pursuant to Section 12 of this Act are insufficient to allow the board to accept all of the eligible persons which it projects will apply for enrollment under the Plan, limit or close enrollment to ensure that the Plan is not over-subscribed and that it has sufficient resources to meet its obligations to existing enrollees. The board shall not limit or close enrollment for federally eligible individuals.

e. A person shall not be eligible for coverage under the Plan if:

(1) He or she has or obtains other coverage under a group health plan or health insurance coverage substantially similar to or better than a Plan policy as an insured or covered dependent or would be eligible to have that coverage if he or she elected to obtain it. Persons otherwise eligible for Plan coverage may, however, solely for the purpose of having coverage for a pre-existing condition, maintain other coverage only while satisfying any pre-existing condition waiting period under a Plan policy or a subsequent replacement policy of a Plan policy.

(1.1) His or her prior coverage under a group health plan or health insurance coverage, provided or arranged by an employer of more than 10 employees was discontinued for any reason without the entire group or plan being discontinued and not replaced, provided he or she remains an employee, or dependent thereof, of the same employer.

(2) He or she is a recipient of or is approved to receive medical assistance, except that a person may continue to receive medical assistance through the medical assistance no grant program, but only while satisfying the requirements for a preexisting condition under Section 8, subsection f. of this Act. Payment of premiums pursuant to this Act shall be allocable to the person's spenddown for purposes of the medical assistance no grant program, but that person shall not be eligible for any Plan benefits while that person remains eligible for medical assistance. If the person continues to receive or be approved to receive medical assistance through the medical assistance no grant program at or after the time that requirements for a preexisting condition are satisfied, the person shall not be eligible for coverage under the Plan. In that circumstance, coverage under the plan shall terminate as of the expiration of the preexisting condition limitation period. Under all other circumstances, coverage under the Plan shall automatically terminate as of the effective date of any medical assistance.

(3) Except as provided in Section 15, the person has previously participated in the Plan and voluntarily terminated

Plan coverage, unless 12 months have elapsed since the person's latest voluntary termination of coverage.

(4) The person fails to pay the required premium under the covered person's terms of enrollment and participation, in which event the liability of the Plan shall be limited to benefits incurred under the Plan for the time period for which premiums had been paid and the covered person remained eligible for Plan coverage.

(5) The Plan has paid a total of \$1,000,000 in benefits on behalf of the covered person.

(6) The person is a resident of a public institution.

(7) The person's premium is paid for or reimbursed under any government sponsored program or by any government agency or health care provider, except as an otherwise qualifying full-time employee, or dependent of such employee, of a government agency or health care provider.

(8) The person has or later receives other benefits or funds from any settlement, judgement, or award resulting from any accident or injury, regardless of the date of the accident or injury, or any other circumstances creating a legal liability for damages due that person by a third party, whether the settlement, judgment, or award is in the form of a contract, agreement, or trust on behalf of a minor or otherwise and whether the settlement, judgment, or award is payable to the person, his or her dependent, estate, personal representative, or guardian in a lump sum or over time, so long as there continues to be benefits or assets remaining from those sources in an amount in excess of \$100,000.

(9) Within the 5 years prior to the date a person's Plan application is received by the Board, the person's coverage under any health care benefit program as defined in 18 U.S.C. 24, including any public or private plan or contract under which any medical benefit, item, or service is provided, was terminated as a result of any act or practice that constitutes fraud under State or federal law or as a result of an intentional misrepresentation of material fact; or if that person knowingly and willfully obtained or attempted to obtain, or fraudulently aided or attempted to aid any other person in obtaining, any coverage or benefits under the Plan to which that person was not entitled.

f. The board or the administrator shall require verification of residency and may require any additional information or documentation, or statements under oath, when necessary to determine residency upon initial application and for the entire term of the policy.

g. Coverage shall cease (i) on the date a person is no longer a resident of Illinois, (ii) on the date a person requests coverage to end, (iii) upon the death of the covered person, (iv) on the date State law requires cancellation of the policy, or (v) at the Plan's option, 30 days after the Plan makes any inquiry concerning a person's eligibility or place of residence to which the person does not reply.

h. Except under the conditions set forth in subsection g of this Section, the coverage of any person who ceases to meet the

eligibility requirements of this Section shall be terminated at the end of the current policy period for which the necessary premiums have been paid.

d. Deductibles and coinsurance.

The Plan coverage defined in Section 6 shall provide for a choice of deductibles per individual as authorized by the Board. If 2 individual members of the same family household, who are both covered persons under the Plan, satisfy the same applicable deductibles, no other member of that family who is also a covered person under the Plan shall be required to meet any deductibles for the balance of

that calendar year. The deductibles must be applied first to the authorized amount of covered expenses incurred by the covered person. A mandatory coinsurance requirement shall be imposed at the rate authorized by the Board in excess of the mandatory deductible, the coinsurance in the aggregate not to exceed such amounts as are authorized by the Board per annum. At its discretion the Board may, however, offer catastrophic coverages or other policies that provide for larger deductibles with or without coinsurance requirements. The deductibles and coinsurance factors may be adjusted annually according to the Medical Component of the Consumer Price Index.

e. Scope of coverage.

(1) In approving any of the benefit plans to be offered by the Plan, the Board shall establish such benefit levels, deductibles, coinsurance factors, exclusions, and limitations as it may deem appropriate and that it believes to be generally reflective of and commensurate with health insurance coverage that is provided in the individual market in this State.

(2) The benefit plans approved by the Board may also provide for

and employ various cost containment measures and other requirements including, but not limited to, preadmission certification, prior approval, second surgical opinions, concurrent utilization review programs, individual case management, preferred provider organizations, health maintenance organizations, and other cost effective arrangements for paying for covered expenses.

f. Preexisting conditions.

(1) Except for federally eligible individuals qualifying for Plan coverage under Section 15 of this Act ~~or eligible persons who qualify for and elect to purchase the waiver authorized in paragraph (3) of this subsection~~, plan coverage shall exclude charges or expenses incurred during the first 6 months following the effective date of coverage as to any condition if: (a) the condition had manifested itself within the 6 month period immediately preceding the effective date of coverage in such a manner as would cause an ordinarily prudent person to seek diagnosis, care or treatment; or (b) medical advice, care or treatment was recommended or received within the 6 month period immediately preceding the effective date of coverage.

(2) (Blank).

(3) ~~(Blank) Waiver: The preexisting condition exclusions as set forth in paragraph (1) of this subsection shall be waived to the extent to which the eligible person: (a) has satisfied similar exclusions under any prior health insurance coverage or group health plan that was involuntarily terminated; (b) is ineligible for any continuation coverage that would continue or provide substantially similar coverage following that termination; and (c) has applied for Plan coverage not later than 30 days following the involuntary termination. No policy or plan shall be deemed to have been involuntarily terminated if the master policyholder or other controlling party elected to change insurance coverage from one health insurance issuer or group health plan to another even if that decision resulted in a discontinuation of coverage for any individual under the plan, either totally or for any medical condition. For each eligible person who qualifies for and elects this waiver, there shall be added to each payment of premium, on a prorated basis, a surcharge of up to 10% of the otherwise applicable annual premium for as long as that individual's coverage under the Plan remains in effect or 60 months, whichever is less.~~

g. Other sources primary; nonduplication of benefits.

(1) The Plan shall be the last payor of benefits whenever

any other benefit or source of third party payment is available. Subject to the provisions of subsection e of Section 7, benefits otherwise payable under Plan coverage shall be reduced by all amounts paid or payable by Medicare or any other government program or through any health insurance or group health plan, whether by insurance, reimbursement, or otherwise, or through any third party liability, settlement, judgment, or award, regardless of the date of the settlement, judgment, or award, whether the settlement, judgment, or award is in the form of a contract,

agreement, or trust on behalf of a minor or otherwise and whether the settlement, judgment, or award is payable to the covered person, his or her dependent, estate, personal representative, or guardian in a lump sum or over time, and by all hospital or medical expense benefits paid or payable under any worker's compensation coverage, automobile medical payment, or liability insurance, whether provided on the basis of fault or nonfault, and by any hospital or medical benefits paid or payable under or provided pursuant to any State or federal law or program.

(2) The Plan shall have a cause of action against any covered person or any other person or entity for the recovery of any amount paid to the extent the amount was for treatment, services, or supplies not covered in this Section or in excess of benefits as set forth in this Section.

(3) Whenever benefits are due from the Plan because of sickness or an injury to a covered person resulting from a third party's wrongful act or negligence and the covered person has recovered or may recover damages from a third party or its insurer, the Plan shall have the right to reduce benefits or to refuse to pay benefits that otherwise may be payable by the amount of damages that the covered person has recovered or may recover regardless of the date of the sickness or injury or the date of any settlement, judgment, or award resulting from that sickness or injury.

During the pendency of any action or claim that is brought by or on behalf of a covered person against a third party or its insurer, any benefits that would otherwise be payable except for the provisions of this paragraph (3) shall be paid if payment by or for the third party has not yet been made and the covered person or, if incapable, that person's legal representative agrees in writing to pay back promptly the benefits paid as a result of the sickness or injury to the extent of any future payments made by or for the third party for the sickness or injury. This agreement is to apply whether or not liability for the payments is established or admitted by the third party or whether those payments are itemized.

Any amounts due the plan to repay benefits may be deducted from other benefits payable by the Plan after payments by or for the third party are made.

(4) Benefits due from the Plan may be reduced or refused as an offset against any amount otherwise recoverable under this Section.

h. Right of subrogation; recoveries.

(1) Whenever the Plan has paid benefits because of sickness or an injury to any covered person resulting from a third party's wrongful act or negligence, or for which an insurer is liable in accordance with the provisions of any policy of insurance, and the covered person has recovered or may recover damages from a third party that is liable for the damages, the Plan shall have the right to recover the benefits it paid from any amounts that the covered person has received or may receive regardless of the date of the sickness or injury or the date of any settlement,

judgment, or award resulting from that sickness or injury. The Plan shall be subrogated to any right of recovery the covered person may have under the terms of any private or public health care coverage or liability coverage, including coverage under the Workers' Compensation Act or the Workers' Occupational Diseases Act, without the necessity of assignment of claim or other authorization to secure the right of recovery. To enforce its subrogation right, the Plan may (i) intervene or join in an action or proceeding brought by the covered person or his personal representative, including his guardian, conservator, estate, dependents, or survivors, against any third party or the third party's insurer that may be liable or (ii) institute and prosecute legal proceedings against any third party or the third party's insurer that may be liable for the sickness or injury in an appropriate court either in the name of the Plan or in the name of the covered person or his personal representative, including his guardian, conservator, estate, dependents, or survivors.

(2) If any action or claim is brought by or on behalf of a covered person against a third party or the third party's insurer, the covered person or his personal representative, including his guardian, conservator, estate, dependents, or survivors, shall notify the Plan by personal service or registered mail of the action or claim and of the name of the court in which the action or claim is brought, filing proof thereof in the action or claim. The Plan may, at any time thereafter, join in the action or claim upon its motion so that all orders of court after hearing and judgment shall be made for its protection. No release or settlement of a claim for damages and no satisfaction of judgment in the action shall be valid without the written consent of the Plan to the extent of its interest in the settlement or judgment and of the covered person or his personal representative.

(3) In the event that the covered person or his personal representative fails to institute a proceeding against any appropriate third party before the fifth month before the action would be barred, the Plan may, in its own name or in the name of the covered person or personal representative, commence a proceeding against any appropriate third party for the recovery of damages on account of any sickness, injury, or death to the covered person. The covered person shall cooperate in doing what is reasonably necessary to assist the Plan in any recovery and shall not take any action that would prejudice the Plan's right to recovery. The Plan shall pay to the covered person or his personal representative all sums collected from any third party by judgment or otherwise in excess of amounts paid in benefits under the Plan and amounts paid or to be paid as costs, attorneys fees, and reasonable expenses incurred by the Plan in making the collection or enforcing the judgment.

(4) In the event that a covered person or his personal representative, including his guardian, conservator, estate, dependents, or survivors, recovers damages from a third party for sickness or injury caused to the covered person, the covered person or the personal representative shall pay to the Plan from the damages recovered the amount of benefits paid or to be paid on behalf of the covered person.

(5) When the action or claim is brought by the covered

person alone and the covered person incurs a personal liability to pay attorney's fees and costs of litigation, the Plan's claim for reimbursement of the benefits provided to the covered person shall be the full amount of benefits paid to or on behalf of the

SENATE

4659

covered person under this Act less a pro rata share that represents the Plan's reasonable share of attorney's fees paid by the covered person and that portion of the cost of litigation expenses determined by multiplying by the ratio of the full amount of the expenditures to the full amount of the judgement, award, or settlement.

(6) In the event of judgment or award in a suit or claim against a third party or insurer, the court shall first order paid from any judgement or award the reasonable litigation expenses incurred in preparation and prosecution of the action or claim, together with reasonable attorney's fees. After payment of those expenses and attorney's fees, the court shall apply out of the balance of the judgment or award an amount sufficient to reimburse the Plan the full amount of benefits paid on behalf of the covered person under this Act, provided the court may reduce and apportion the Plan's portion of the judgement proportionate to the recovery of the covered person. The burden of producing evidence sufficient to support the exercise by the court of its discretion to reduce the amount of a proven charge sought to be enforced against the recovery shall rest with the party seeking the reduction. The court may consider the nature and extent of the injury, economic and non-economic loss, settlement offers, comparative negligence as it applies to the case at hand, hospital costs, physician costs, and all other appropriate costs. The Plan shall pay its pro rata share of the attorney fees based on the Plan's recovery as it compares to the total judgment. Any reimbursement rights of the Plan shall take priority over all other liens and charges existing under the laws of this State with the exception of any attorney liens filed under the Attorneys Lien Act.

(7) The Plan may compromise or settle and release any claim for benefits provided under this Act or waive any claims for benefits, in whole or in part, for the convenience of the Plan or if the Plan determines that collection would result in undue hardship upon the covered person.

Senator Mahar, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on House Amendment No. 1 to **Senate Bill No. 24**, submitted the following Report of the First Conference Committee and moved its adoption:

ON SENATE BILL 24

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 24, recommend the following:

(1) that the House recede from House Amendment No. 1; and

(2) that Senate Bill 24 be amended by replacing everything after the enacting clause with the following:

"Section 5. The Public Utilities Act is amended by changing Sections 16-102, 16-104, 16-108, 16-110, 16-111, 16-115, and 16-130 and adding Sections 16-111.1, 16-111.2, and 16-114.1 as follows:

(220 ILCS 5/16-102)

Sec. 16-102. Definitions. For the purposes of this Article the following terms shall be defined as set forth in this Section.

"Alternative retail electric supplier" means every person, cooperative, corporation, municipal corporation, company, association, joint stock company or association, firm, partnership, individual, or other entity, their lessees, trustees, or receivers appointed by any court whatsoever, that offers electric power or energy for sale, lease or in exchange for other value received to one or more retail customers, or that engages in the delivery or furnishing of electric power or energy to such retail customers, and shall include, without limitation, resellers, aggregators and power marketers, but shall not include (i) electric utilities (or any agent of the electric utility to the extent the electric utility provides tariffed services to retail customers through that agent), (ii) any electric cooperative or municipal system as defined in Section 17-100 to the extent that the electric cooperative or municipal system is serving retail customers within any area in which it is or would be

entitled to provide service under the law in effect immediately prior to the effective date of this amendatory Act of 1997, (iii) a public utility that is owned and operated by any public institution of higher education of this State, or a public utility that is owned by such public institution of higher education and operated by any of its lessees or operating agents, within any area in which it is or would be entitled to provide service under the law in effect immediately prior to the effective date of this amendatory Act of 1997, (iv) a ~~any~~ retail customer to the extent that customer obtains its electric power and energy from that customer's its own cogeneration or self-generation facilities, (v) an any entity that owns, operates, sells, or arranges for the installation of a customer's own cogeneration or self-generation facilities to be owned by a retail customer described in subparagraph (iv), but only to the extent the entity is engaged in owning, selling or arranging for the such installation of such facility, or operating the facility on behalf of such customer, provided however that any such third party owner or operator of a facility built after January 1, 1999, complies with the labor provisions of Section 16-128(a) as though such third party were an alternative retail electric supplier, or (vi) an industrial or manufacturing customer that owns its own distribution facilities, to the extent that the customer provides service from

that distribution system to a third-party contractor located on the customer's premises that is integrally and predominantly engaged in the customer's industrial or manufacturing process; provided, that if the industrial or manufacturing customer has elected delivery services, the customer shall pay transition charges applicable to the electric power and energy consumed by the third-party contractor unless such charges are otherwise paid by the third party contractor, which shall be calculated based on the usage of, and the base rates or the contract rates applicable to, the third-party contractor in accordance with Section 16-102.

"Base rates" means the rates for those tariffed services that the electric utility is required to offer pursuant to subsection (a) of Section 16-103 and that were identified in a rate order for collection of the electric utility's base rate revenue requirement, excluding (i) separate automatic rate adjustment riders then in effect, (ii) special or negotiated contract rates, (iii) delivery services tariffs filed pursuant to Section 16-108, (iv) real-time pricing, or (v) tariffs that were in effect prior to October 1, 1996 and that based charges for services on an index or average of other utilities' charges, but including (vi) any subsequent redesign of such rates for tariffed services that is authorized by the Commission after notice and hearing.

"Competitive service" includes (i) any service that has been declared to be competitive pursuant to Section 16-113 of this Act, (ii) contract service, and (iii) services, other than tariffed services, that are related to, but not necessary for, the provision of electric power and energy or delivery services.

"Contract service" means (1) services, including the provision of electric power and energy or other services, that are provided by mutual agreement between an electric utility and a retail customer that is located in the electric utility's service area, provided that, delivery services shall not be a contract service until such services are declared competitive pursuant to Section 16-113; and also means (2) the provision of electric power and energy by an electric utility to retail customers outside the electric utility's service area pursuant to Section 16-116. Provided, however, contract service does not include electric utility services provided pursuant to (i) contracts that retail customers are required to execute as a condition of receiving tariffed services, or (ii) special or

negotiated rate contracts for electric utility services that were entered into between an electric utility and a retail customer prior to the effective date of this amendatory Act of 1997 and filed with the Commission.

"Delivery services" means those services provided by the electric utility that are necessary in order for the transmission and distribution systems to function so that retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility, and shall include, without limitation, standard metering and billing services.

"Electric utility" means a public utility, as defined in Section 3-105 of this Act, that has a franchise, license, permit or right to furnish or sell electricity to retail customers within a service

area.

"Mandatory transition period" means the period from the effective date of this amendatory Act of 1997 through January 1, 2005.

"Municipal system" shall have the meaning set forth in Section 17-100.

"Real-time pricing" means charges for delivered electric power and energy that vary on an hour-to-hour basis for nonresidential retail customers and that vary on a periodic basis during the day for residential retail customers.

"Retail customer" means a single entity using electric power or energy at a single premises and that (A) either (i) is receiving or is eligible to receive tariffed services from an electric utility, or (ii) that is served by a municipal system or electric cooperative within any area in which the municipal system or electric cooperative is or would be entitled to provide service under the law in effect immediately prior to the effective date of this amendatory Act of 1997, or (B) an entity which on the effective date of this Act was receiving electric service from a public utility and (i) was engaged in the practice of resale and redistribution of such electricity within a building prior to January 2, 1957, or (ii) was providing lighting services to tenants in a multi-occupancy building, but only to the extent such resale, redistribution or lighting service is authorized by the electric utility's tariffs that were on file with the Commission on the effective date of this Act.

"Service area" means (i) the geographic area within which an electric utility was lawfully entitled to provide electric power and energy to retail customers as of the effective date of this amendatory Act of 1997, and includes (ii) the location of any retail customer to which the electric utility was lawfully providing electric utility services on such effective date.

"Small commercial retail customer" means those nonresidential retail customers of an electric utility consuming 15,000 kilowatt-hours or less of electricity annually in its service area.

"Tariffed service" means services provided to retail customers by an electric utility as defined by its rates on file with the Commission pursuant to the provisions of Article IX of this Act, but shall not include competitive services.

"Transition charge" means a charge expressed in cents per kilowatt-hour that is calculated for a customer or class of customers as follows for each year in which an electric utility is entitled to recover transition charges as provided in Section 16-108:

- (1) the amount of revenue that an electric utility would receive from the retail customer or customers if it were serving such customers' electric power and energy requirements as a tariffed service based on (A) all of the customers' actual usage during the 3 years ending 90 days prior to the date on which such customers were first eligible for delivery services pursuant to Section 16-104, and (B) on (i) the base rates in effect on

October 1, 1996 (adjusted for the reductions required by subsection (b) of Section 16-111, for any reduction resulting from a rate decrease under Section 16-101(b), for any restatement of base rates made in conjunction with an elimination of the fuel

adjustment clause pursuant to subsection (b), (d), or (f) of Section 9-220 and for any removal of decommissioning costs from base rates pursuant to Section 16-114) and any separate automatic rate adjustment riders (other than a decommissioning rate as defined in Section 16-114) under which the customers were receiving or, had they been customers, would have received electric power and energy from the electric utility during the year immediately preceding the date on which such customers were first eligible for delivery service pursuant to Section 16-104, or (ii) to the extent applicable, any contract rates, including contracts or rates for consolidated or aggregated billing, under which such customers were receiving electric power and energy from the electric utility during such year;

(2) less the amount of revenue, other than revenue from transition charges and decommissioning rates, that the electric utility would receive from such retail customers for delivery services provided by the electric utility, assuming such customers were taking delivery services for all of their usage, based on the delivery services tariffs in effect during the year for which the transition charge is being calculated and on the usage identified in paragraph (1);

(3) less the market value for the electric power and energy that the electric utility would have used to supply all of such customers' electric power and energy requirements, as a tariffed service, based on the usage identified in paragraph (1), with such market value determined in accordance with Section 16-112 of this Act;

(4) less the following amount which represents the amount to be attributed to new revenue sources and cost reductions by the electric utility through the end of the period for which transition costs are recovered pursuant to Section 16-108, referred to in this Article XVI as a "mitigation factor":

(A) for nonresidential retail customers, an amount equal to the greater of (i) 0.5 cents per kilowatt-hour during the period October 1, 1999 through December 31, 2004, 0.6 cents per kilowatt-hour in calendar year 2005, and 0.9 cents per kilowatt-hour in calendar year 2006, multiplied in each year by the usage identified in paragraph (1), or (ii) an amount equal to the following percentages of the amount produced by applying the applicable base rates (adjusted as described in subparagraph (1)(B)) or contract rate to the usage identified in paragraph (1): 8% for the period October 1, 1999 through December 31, 2002, 10% in calendar years 2003 and 2004, 11% in calendar year 2005 and 12% in calendar year 2006; and

(B) for residential retail customers, an amount equal to the following percentages of the amount produced by applying the base rates in effect on October 1, 1996 (adjusted as described in subparagraph (1)(B)) to the usage identified in paragraph (1): (i) 6% from May 1, 2002 through December 31, 2002, (ii) 7% in calendar years 2003 and 2004, (iii) 8% in calendar year 2005, and (iv) 10% in calendar year 2006;

(5) divided by the usage of such customers identified in paragraph (1),
provided that the transition charge shall never be less than zero.

"Unbundled service" means a component or constituent part of a

tariffed service which the electric utility subsequently offers separately to its customers.

Sec. 16-104. Delivery services transition plan. An electric utility shall provide delivery services to retail customers in accordance with the provisions of this Section.

(a) Each electric utility shall offer delivery services to retail customers located in its service area in accordance with the following provisions:

(1) On or before October 1, 1999, the electric utility shall offer delivery services (i) to any non-residential retail customer whose average monthly maximum electrical demand on the electric utility's system during the 6 months with the customer's highest monthly maximum demands in the 12 months ending June 30, 1999 equals or exceeds 4 megawatts; (ii) to any non-governmental, non-residential, commercial retail customers under common ownership doing business at 10 or more separate locations within the electric utility's service area, if the aggregate coincident average monthly maximum electrical demand of all such locations during the 6 months with the customer's highest monthly maximum electrical demands during the 12 months ending June 30, 1999 equals or exceeds 9.5 megawatts, provided, however, that an electric utility's obligation to offer delivery services under this clause (ii) shall not exceed 3.5% of the maximum electric demand on the electric utility's system in the 12 months ending June 30, 1999; and (iii) to non-residential retail customers whose annual electric energy use comprises 33% of the kilowatt-hour sales, excluding the kilowatt-hour sales to customers described in clauses (i) and (ii), to each non-residential retail customer class of the electric utility.

(2) On or before October 1, 2000, the electric utility shall offer delivery services to the eligible governmental customers described in subsections (a) and (b) of Section 16-125A if the aggregate coincident average monthly maximum electrical demand of such customers during the 6 months with the customers' highest monthly maximum electrical demands during the 12 months ending June 30, 2000 equals or exceeds 9.5 megawatts.

(2.5) On or before June 1, 2000, an electric utility serving more than 1,000,000 customers in this State shall offer delivery services to retail customers whose annual electric energy use comprises 33% of the kilowatt hour sales to that group of retail customers that are classified under Division D, Groups 20 through 39 of the Standard Industrial Classifications set forth in the Standard Industrial Classification Manual published by the United States Office of Management and Budget, excluding the kilowatt-hour sales to those customers that are eligible for delivery services pursuant to clause (1)(i), and shall offer delivery services to its remaining retail customers classified under Division D, Groups 20 through 39 on or before October 1, 2000.

(3) On or before December 31, 2000, the electric utility

shall offer delivery services to all remaining nonresidential retail customers in its service area.

(4) On or before May 1, 2002, the electric utility shall offer delivery services to all residential retail customers in its service area.

The loads and kilowatt-hour sales used for purposes of this subsection shall be those for the 12 months ending June 30, 1999 for nonresidential retail customers. The electric utility shall identify those customers to be offered delivery service pursuant to clause

(1)(iii) and paragraph (2.5) of subsection (a) of this Section and Section 16-111(e)(B)(iii) pursuant to a lottery or other random nondiscriminatory selection process set forth in the electric utility's delivery services implementation plan pursuant to Section 16-105, which process may include a registration process giving each nonresidential customer the opportunity to register for eligibility for delivery services under this Section, with a lottery of registered customers to be conducted if the annual electric energy use of all registered customers exceeds the limit set forth in clause (1)(iii) or clause (2.5) or Section 16-111(e)(B)(iii), as applicable; provided that the provision of this amendatory Act of 1999 as it relates to the registration and lottery process under clause (1)(iii) is not intended to nor does it make any change in the meaning of this Section, but is intended to remove possible ambiguities, thereby confirming the existing meaning of this Section prior to the effective date of this amendatory Act of 1999. Provided, that non-residential retail customers under common ownership at separate locations within the electric utility's service area may elect, prior to the date the electric utility conducts the lottery or other random selection process for purposes of clause (1)(iii), to designate themselves as a common ownership group, to be excluded from such lottery and to instead participate in a separate lottery for such common ownership group pursuant to which delivery services will be offered to non-residential retail customers comprising 33% of the total kilowatt-hour sales to the common ownership group on or before October 1, 1999. For purposes of this subsection (a), an electric utility may define "common ownership" to exclude sites which are not part of the same business, provided, that auxiliary establishments as defined in the Standard Industrial Classification Manual published by the United States Office of Management and Budget shall not be excluded.

(b) The electric utility shall allow the aggregation of loads that are eligible for delivery services so long as such aggregation meets the criteria for delivery of electric power and energy applicable to the electric utility established by the regional reliability council to which the electric utility belongs, by an independent system operating organization to which the electric utility belongs, or by another organization responsible for overseeing the integrity and reliability of the transmission system, as such criteria are in effect from time to time. The Commission may adopt rules and regulations governing the criteria for aggregation of the loads utilizing delivery services, but its failure to do so shall not preclude any eligible customer from electing delivery services.

The electric utility shall allow such aggregation for any voluntary grouping of customers, including without limitation those having a common agent with contractual authority to purchase electric power and energy and delivery services on behalf of all customers in the grouping.

(c) An electric utility shall allow a retail customer that generates power for its own use to include the electrical demand obtained from the customer's cogeneration or self-generation facilities that is coincident with the retail customer's maximum monthly electrical demand on the electric utility's system in any determination of the customer's maximum monthly electrical demand for purposes of determining when such retail customer shall be offered delivery services pursuant to clause (i) of subparagraph (1) of subsection (a) of this Section.

(d) The Commission shall establish charges, terms and conditions for delivery services in accordance with Section 16-108.

(e) Subject to the terms and conditions which the electric utility is entitled to impose in accordance with Section 16-108, a

SENATE

retail customer that is eligible to elect delivery services pursuant to subsection (a) may place all or a portion of its electric power and energy requirements on delivery services.

(f) An electric utility may require a retail customer who elects to (i) use an alternative retail electric supplier or another electric utility for some but not all of its electric power or energy requirements, and (ii) use the electric utility for any portion of its remaining electric power and energy requirements, to place the portion of the customer's electric power or energy requirement that is to be served by the electric utility on a tariff containing charges that are set to recover the lowest reasonably available cost to the electric utility of acquiring electric power and energy on the wholesale electric market to serve such remaining portion of the customer's electric power and energy requirement, reasonable compensation for arranging for and providing such electric power or energy, and the electric utility's other costs of providing service to such remaining electric power and energy requirement.

Sec. 16-108. Recovery of costs associated with the provision of delivery services.

(a) An electric utility shall file a delivery services tariff with the Commission at least 210 days prior to the date that it is required to begin offering such services pursuant to this Act. An electric utility shall provide the components of delivery services that are subject to the jurisdiction of the Federal Energy Regulatory Commission at the same prices, terms and conditions set forth in its applicable tariff as approved or allowed into effect by that Commission. The Commission shall otherwise have the authority pursuant to Article IX to review, approve, and modify the prices, terms and conditions of those components of delivery services not subject to the jurisdiction of the Federal Energy Regulatory Commission, including the authority to determine the extent to which such delivery services should be offered on an unbundled basis. In

making any such determination the Commission shall consider, at a minimum, the effect of additional unbundling on (i) the objective of just and reasonable rates, (ii) electric utility employees, and (iii) the development of competitive markets for electric energy services in Illinois.

(b) The Commission shall enter an order approving, or approving as modified, the delivery services tariff no later than 30 days prior to the date on which the electric utility must commence offering such services. The Commission may subsequently modify such tariff pursuant to this Act.

(c) The electric utility's tariffs shall define the classes of its customers for purposes of delivery services charges. Delivery services shall be priced and made available to all retail customers electing delivery services in each such class on a nondiscriminatory basis regardless of whether the retail customer chooses the electric utility, an affiliate of the electric utility, or another entity as its supplier of electric power and energy. Charges for delivery services shall be cost based, and shall allow the electric utility to recover the costs of providing delivery services through its charges to its delivery service customers that use the facilities and services associated with such costs. Such costs shall include the costs of owning, operating and maintaining transmission and distribution facilities. The Commission shall also be authorized to consider whether, and if so to what extent, the following costs are appropriately included in the electric utility's delivery services rates: (i) the costs of that portion of generation facilities used for the production and absorption of reactive power in order that

retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility, and (ii) the costs associated with the use and redispach of generation facilities to mitigate constraints on the transmission or distribution system in order that retail customers located in the electric utility's service area can receive electric power and energy from suppliers other than the electric utility. Nothing in this subsection shall be construed as directing the Commission to allocate any of the costs described in (i) or (ii) that are found to be appropriately included in the electric utility's delivery services rates to any particular customer group or geographic area in setting delivery services rates.

(d) The Commission shall establish charges, terms and conditions for delivery services that are just and reasonable and shall take into account customer impacts when establishing such charges. In establishing charges, terms and conditions for delivery services, the Commission shall take into account voltage level differences. A retail customer shall have the option to request to purchase electric service at any delivery service voltage reasonably and technically feasible from the electric facilities serving that customer's premises provided that there are no significant adverse impacts upon system reliability or system efficiency. A retail customer shall also have the option to request to purchase electric service at any point of delivery that is reasonably and technically feasible provided that there are no significant adverse impacts on system

reliability or efficiency. Such requests shall not be unreasonably denied.

(e) Electric utilities shall recover the costs of installing, operating or maintaining facilities for the particular benefit of one or more delivery services customers, including without limitation any costs incurred in complying with a customer's request to be served at a different voltage level, directly from the retail customer or customers for whose benefit the costs were incurred, to the extent such costs are not recovered through the charges referred to in subsections (c) and (d) of this Section.

(f) An electric utility shall be entitled but not required to implement transition charges in conjunction with the offering of delivery services pursuant to Section 16-104. If an electric utility implements transition charges, it shall implement such charges for all delivery services customers and for all customers described in subsection (h), but shall not implement transition charges for power and energy that a retail customer takes from cogeneration or self-generation facilities located on that retail customer's premises, if such facilities meet the following criteria:

(i) the cogeneration or self-generation facilities serve a single retail customer and are located on that retail customer's premises (for purposes of this subparagraph and subparagraph (ii), an industrial or manufacturing retail customer and a third party contractor that is served by such industrial or manufacturing customer through such retail customer's own electrical distribution facilities under the circumstances described in subsection (vi) of the definition of "alternative retail electric supplier" set forth in Section 16-102, shall be considered a single retail customer);

(ii) the cogeneration or self-generation facilities either (A) are sized pursuant to generally accepted engineering standards for the retail customer's electrical load at that premises (taking into account standby or other reliability considerations related to that retail customer's operations at that site) or (B) if the facility is a cogeneration facility located on the retail customer's premises, the retail customer is

the thermal host for that facility and the facility has been designed to meet that retail customer's thermal energy requirements resulting in electrical output beyond that retail customer's electrical demand at that premises, comply with the operating and efficiency standards applicable to "qualifying facilities" specified in title 18 Code of Federal Regulations Section 292.205 as in effect on the effective date of this amendatory Act of 1999;

(iii) the retail customer on whose premises the facilities are located either has an exclusive right to receive, and corresponding obligation to pay for, all of the electrical capacity of the facility, or in the case of a cogeneration facility that has been designed to meet the retail customer's thermal energy requirements at that premises, an identified amount of the electrical capacity of the facility, over a minimum 5-year period; and

(iv) if the cogeneration facility is sized for the retail customer's thermal load at that premises but exceeds the electrical load, any sales of excess power or energy are made only at wholesale, are subject to the jurisdiction of the Federal Energy Regulatory Commission, and are not for the purpose of circumventing the provisions of this subsection (f).

If a generation facility located at a retail customer's premises does not meet the above criteria, an electric utility implementing transition charges shall implement a transition charge until December 31, 2006 for any power and energy taken by such retail customer from such facility as if such power and energy had been delivered by the electric utility. Provided, however, that an industrial retail customer that is taking power from a generation facility that does not meet the above criteria but that is located on such customer's premises will not be subject to a transition charge for the power and energy taken by such retail customer from such generation facility if the facility does not serve any other retail customer and either was installed on behalf of the customer and for its own use prior to January 1, 1997, or is both predominantly fueled by byproducts of such customer's manufacturing process at such premises and sells or offers an average of 300 megawatts or more of electricity produced from such generation facility into the wholesale market. Such charges shall be calculated as provided in Section 16-102, and shall be collected on each kilowatt-hour delivered under a delivery services tariff to a retail customer from the date the customer first takes delivery services until December 31, 2006 except as provided in subsection (h) of this Section. Provided, however, that an electric utility, other than an electric utility providing service to at least 1,000,000 customers in this State on January 1, 1999, shall be entitled to petition for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period ending no later than December 31, 2008. The electric utility shall file its petition with supporting evidence no earlier than 16 months, and no later than 12 months, prior to December 31, 2006. The Commission shall hold a hearing on the electric utility's petition and shall enter its order no later than 8 months after the petition is filed. The Commission shall determine whether and to what extent the electric utility shall be authorized to implement transition charges for an additional period. The Commission may authorize the electric utility to implement transition charges for some or all of the additional period, and shall determine the mitigation factors to be used in implementing such transition charges; provided, that the Commission shall not authorize mitigation factors less than 110% of those in effect during the 12 months ended December 31, 2006. In making its determination, the Commission shall

consider the following factors: the necessity to implement transition charges for an additional period in order to maintain the financial integrity of the electric utility; the prudence of the electric utility's actions in reducing its costs since the effective date of this amendatory Act of 1997; the ability of the electric utility to provide safe, adequate and reliable service to retail customers in its service area; and the impact on competition of

allowing the electric utility to implement transition charges for the additional period.

(g) The electric utility shall file tariffs that establish the transition charges to be paid by each class of customers to the electric utility in conjunction with the provision of delivery services. The electric utility's tariffs shall define the classes of its customers for purposes of calculating transition charges. The electric utility's tariffs shall provide for the calculation of transition charges on a customer-specific basis for any retail customer whose average monthly maximum electrical demand on the electric utility's system during the 6 months with the customer's highest monthly maximum electrical demands equals or exceeds 3.0 megawatts for electric utilities having more than 1,000,000 customers, and for other electric utilities for any customer that has an average monthly maximum electrical demand on the electric utility's system of one megawatt or more, and (A) for which there exists data on the customer's usage during the 3 years preceding the date that the customer became eligible to take delivery services, or (B) for which there does not exist data on the customer's usage during the 3 years preceding the date that the customer became eligible to take delivery services, if in the electric utility's reasonable judgment there exists comparable usage information or a sufficient basis to develop such information, and further provided that the electric utility can require customers for which an individual calculation is made to sign contracts that set forth the transition charges to be paid by the customer to the electric utility pursuant to the tariff.

(h) An electric utility shall also be entitled to file tariffs that allow it to collect transition charges from retail customers in the electric utility's service area that do not take delivery services but that take electric power or energy from an alternative retail electric supplier or from an electric utility other than the electric utility in whose service area the customer is located. Such charges shall be calculated, in accordance with the definition of transition charges in Section 16-102, for the period of time that the customer would be obligated to pay transition charges if it were taking delivery services, except that no deduction for delivery services revenues shall be made in such calculation, and usage data from the customer's class shall be used where historical usage data is not available for the individual customer. The customer shall be obligated to pay such charges on a lump sum basis on or before the date on which the customer commences to take service from the alternative retail electric supplier or other electric utility, provided, that the electric utility in whose service area the customer is located shall offer the customer the option of signing a contract pursuant to which the customer pays such charges ratably over the period in which the charges would otherwise have applied.

(i) An electric utility shall be entitled to add to the bills of delivery services customers charges pursuant to Sections 9-221, 9-222 (except as provided in Section 9-222.1), and Section 16-114 of this Act, Section 5-5 of the Electricity Infrastructure Maintenance Fee Law, Section 6-5 of the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997, and Section 13 of the Energy Assistance Act of 1989.

(j) If a retail customer that obtains electric power and energy from cogeneration or self-generation facilities installed for its own use on or before January 1, 1997, subsequently takes service from an alternative retail electric supplier or an electric utility other than the electric utility in whose service area the customer is located for any portion of the customer's electric power and energy requirements formerly obtained from those facilities (including that amount purchased from the utility in lieu of such generation and not as standby power purchases, under a cogeneration displacement tariff in effect as of the effective date of this amendatory Act of 1997), the transition charges otherwise applicable pursuant to subsections (f), (g), or (h) of this Section shall not be applicable in any year to that portion of the customer's electric power and energy requirements formerly obtained from those facilities, provided, that for purposes of this subsection (j), such portion shall not exceed the average number of kilowatt-hours per year obtained from the cogeneration or self-generation facilities during the 3 years prior to the date on which the customer became eligible for delivery services, except as provided in subsection (f) of Section 16-110.

Sec. 16-110. Delivery services customer power purchase options.

(a) Each electric utility shall offer a tariffed service or services in accordance with the terms and conditions set forth in this Section pursuant to which its non-residential delivery services customers may purchase from the electric utility an amount of electric power and energy that is equal to or less than the amounts that are delivered by such electric utility.

(b) Except as provided in subsection (o) of Section 16-112, a non-residential delivery services customer that is paying transition charges to the electric utility shall be permitted to purchase electric power and energy from the electric utility at a price or prices equal to the sum of (i) the market values that are determined for the electric utility in accordance with Section 16-112 and used by the electric utility to calculate the customer's transition charges and (ii) a fee that compensates the electric utility for any administrative costs it incurs in arranging to supply such electric power and energy. The electric utility may require that the customer purchase such electric power and energy for periods of not less than one year and may also require that the customer give up to 30 days notice for a purchase of one year's duration, and 90 days notice for a purchase of more than one year's duration. A non-residential delivery service customer exercising the option described in this subsection may sell or assign its interests in the electric power or energy that the customer has purchased. In the case of any such assignment or sale by any non-residential delivery service customer to an alternative retail electric supplier that is serving such customer and has been certified pursuant to Section 16-115, an electric utility serving more than 500,000 customers shall provide such power and energy at the same market value as set forth in clause (i) of this subsection, together with the fee charged under clause (ii) of this subsection, less any costs included in such market value or fee with respect to retail marketing activities, provided, however, that in no event shall an electric utility be required after June 1, 2002 to provide power and energy at this market value plus

fee that excludes marketing costs for any such assignment or sale by a non-residential customer to an alternative retail electric supplier. At least twice per year, each electric utility shall notify its small commercial retail customers, through bill inserts and other similar means, of their option to obtain electric power and energy through purchases at market value pursuant to this subsection.

(c) After the transition charge period applicable to a non-residential delivery services customer, and until the provision of electric power and energy is declared competitive for the customer group to which the customer belongs, a non-residential delivery services customer that paid any transition charges it was legally obligated to pay to an electric utility shall be permitted to purchase electric power and energy from the electric utility for contract periods of one year at a price or prices equal to the sum of (i) the market value determined for that customer's class pursuant to Section 16-112 and (ii) to the extent it is not included in such market value, a fee to compensate the electric utility for the service of arranging the supply or purchase of such electric power and energy. The electric utility may require that a delivery services customer give the following notice for such a purchase: (i) for a small commercial retail customer, not more than 30 days; (ii) for a nonresidential customer which is not a small commercial retail customer but which has maximum electrical demand of less than 500 kilowatts, not more than 6 months; (iii) for a nonresidential customer with maximum electrical demand of 500 kilowatts or more but less than one megawatt, not more than 9 months; and (iv) for a nonresidential customer with maximum electrical demand of one megawatt or more, not more than one year. At least twice per year, each electric utility shall notify its small commercial retail customers, through bill inserts or other similar means, of their option to obtain electric power and energy through purchases at market value pursuant to this subsection.

(d) After the transition charge period applicable to a non-residential delivery services customer, and until the provision of electric power and energy is declared competitive for the customer group to which the customer belongs, a non-residential delivery services customer, other than a small commercial retail customer, that paid any transition charges it was legally obligated to pay to an electric utility shall be permitted to purchase electric power and energy from the electric utility for contract periods of one year at a price or prices equal to (A) the sum of (i) the electric utility's actual cost of procuring such electric power and energy and (ii) a broker's fee to compensate the electric utility for arranging the supply, or, if the utility so elects, (B) the market value of electric power or energy provided by the electric utility determined as set forth in the electric utility's tariff for that customer's class. The electric utility may require that the delivery services customer give up to 30 days notice for such a purchase.

(e) Each delivery services customer purchasing electric power and energy from the electric utility pursuant to a tariff filed in accordance with this Section shall also pay all of the applicable charges set forth in the electric utility's delivery services tariffs

and any other tariffs applicable to the services provided to that customer by the electric utility.

(f) An electric utility can require a retail customer taking delivery services that formerly generated electric power and energy for its own use and that would not otherwise pay transition charges on a portion of its electric power and energy requirements served on delivery services to pay transition charges on that portion of the customer's electric power and energy requirements as a condition of exercising the delivery services customer power purchase options set forth in this Section.

Sec. 16-111. Rates and restructuring transactions during mandatory transition period.

(a) During the mandatory transition period, notwithstanding any

SENATE

provision of Article IX of this Act, and except as provided in subsections (b), (d), (e), and (f) of this Section, the Commission shall not (i) initiate, authorize or order any change by way of increase (other than in connection with a request for rate increase which was filed after September 1, 1997 but prior to October 15, 1997, by an electric utility serving less than 12,500 customers in this state), (ii) initiate or, unless requested by the electric utility, authorize or order any change by way of decrease, restructuring or unbundling (except as provided in Section 16-109A), in the rates of any electric utility that were in effect on October 1, 1996, or (iii) in any order approving any application for a merger pursuant to Section 7-204 that was pending as of May 16, 1997, impose any condition requiring any filing for an increase, decrease, or change in, or other review of, an electric utility's rates or enforce any such condition of any such order; provided, however, that this subsection shall not prohibit the Commission from:

(1) approving the application of an electric utility to implement an alternative to rate of return regulation or a regulatory mechanism that rewards or penalizes the electric utility through adjustment of rates based on utility performance, pursuant to Section 9-244;

(2) authorizing an electric utility to eliminate its fuel adjustment clause and adjust its base rate tariffs in accordance with subsection (b), (d), or (f) of Section 9-220 of this Act, to fix its fuel adjustment factor in accordance with subsection (c) of Section 9-220 of this Act, or to eliminate its fuel adjustment clause in accordance with subsection (e) of Section 9-220 of this Act;

(3) ordering into effect tariffs for delivery services and transition charges in accordance with Sections 16-104 and 16-108, for real-time pricing in accordance with Section 16-107, or the options required by Section 16-110 and subsection (n) of 16-112, allowing a billing experiment in accordance with Section 16-106, or modifying delivery services tariffs in accordance with Section 16-109; or

(4) ordering or allowing into effect any tariff to recover charges pursuant to Sections 9-201.5, 9-220.1, 9-221, 9-222

(except as provided in Section 9-222.1), 16-108, and 16-114 of this Act, Section 5-5 of the Electricity Infrastructure Maintenance Fee Law, Section 6-5 of the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997, and Section 13 of the Energy Assistance Act of 1989.

(b) Notwithstanding the provisions of subsection (a), each Illinois electric utility serving more than 12,500 customers in Illinois shall file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 15% from the base rates in effect immediately prior to January 1, 1998 and (ii) if the public utility provides electric service to (A) more than 500,000 customers but less than 1,000,000 customers in this State on January 1, 1999 ~~the effective date of this amendatory Act of 1997,~~ reducing, effective May 1, 2002, each component of its base rates to residential retail customers by an additional 5% from the base rates in effect immediately prior to January 1, 1998, or (B) at least 1,000,000 customers in this State on January 1, 1999, reducing, effective October 1, 2001, each component of its base rates to residential retail customers by an additional 5% from the base rates in effect immediately prior to January 1, 1998. Provided, however, that (A) if an electric utility's average residential retail rate is less than or equal to the average residential retail rate for a group of Midwest Utilities (consisting of all investor-owned electric utilities with annual system peaks in excess of 1000 megawatts in the

States of Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin), based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, then it shall only be required to file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 5% from the base rates in effect immediately prior to January 1, 1998, (ii) reducing, effective October 1, 2000, each component of its base rates to residential retail customers by the lesser of 5% of the base rates in effect immediately prior to January 1, 1998 or the percentage by which the electric utility's average residential retail rate exceeds the average residential retail rate of the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1999, and (iii) reducing, effective October 1, 2002, each component of its base rates to residential retail customers by an additional amount equal to the lesser of 5% of the base rates in effect immediately prior to January 1, 1998 or the percentage by which the electric utility's average residential retail rate exceeds the average residential retail rate of the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 2001; and (B) if the average residential retail rate of an electric utility serving between 150,000 and 250,000 retail customers in this State on January 1, 1995 is less than or equal to 90% of the average residential retail rate for the Midwest Utilities, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, then it shall only be required to file tariffs (i) reducing, effective August 1, 1998, each component of its base rates to residential retail customers by 2% from the base rates in

effect immediately prior to January 1, 1998; (ii) reducing, effective October 1, 2000, each component of its base rates to residential retail customers by 2% from the base rate in effect immediately prior to January 1, 1998; and (iii) reducing, effective October 1, 2002, each component of its base rates to residential retail customers by 1% from the base rates in effect immediately prior to January 1, 1998. Provided, further, that any electric utility for which a decrease in base rates has been or is placed into effect between October 1, 1996 and the dates specified in the preceding sentences of this subsection, other than pursuant to the requirements of this subsection, shall be entitled to reduce the amount of any reduction or reductions in its base rates required by this subsection by the amount of such other decrease. The tariffs required under this subsection shall be filed 45 days in advance of the effective date. Notwithstanding anything to the contrary in Section 9-220 of this Act, no restatement of base rates in conjunction with the elimination of a fuel adjustment clause under that Section shall result in a lesser decrease in base rates than customers would otherwise receive under this subsection had the electric utility's fuel adjustment clause not been eliminated.

(c) Any utility reducing its base rates by 15% on August 1, 1998 pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 15% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.". Any utility reducing its base rates by 5% on August 1, 1998, pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 5% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.".

Any utility reducing its base rates by 2% on August 1, 1998

pursuant to subsection (b) shall include the following statement on its bills for residential customers from August 1 through December 31, 1998: "Effective August 1, 1998, your rates have been reduced by 2% by the Electric Service Customer Choice and Rate Relief Law of 1997 passed by the Illinois General Assembly.".

(d) During the mandatory transition period, but not before January 1, 2000, and notwithstanding the provisions of subsection (a), an electric utility may request an increase in its base rates if the electric utility demonstrates that the 2-year average of its earned rate of return on common equity, calculated as its net income applicable to common stock divided by the average of its beginning and ending balances of common equity using data reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission but adjusted to remove the effects of accelerated depreciation or amortization or other transition or mitigation measures implemented by the electric utility pursuant to subsection (g) of this Section and the effect of any refund paid pursuant to subsection (e) of this Section, is below the 2-year average for the same 2 years of the monthly average yields of 30-year U.S. Treasury

bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication. The Commission shall review the electric utility's request, and may review the justness and reasonableness of all rates for tariffed services, in accordance with the provisions of Article IX of this Act, provided that the Commission shall consider any special or negotiated adjustments to the revenue requirement agreed to between the electric utility and the other parties to the proceeding. In setting rates under this Section, the Commission shall exclude the costs and revenues that are associated with competitive services and any billing or pricing experiments conducted under Section 16-106.

(e) For the purposes of this subsection (e) all calculations and comparisons shall be performed for the Illinois operations of multijurisdictional utilities. During the mandatory transition period, notwithstanding the provisions of subsection (a), if the 2-year average of an electric utility's earned rate of return on common equity, calculated as its net income applicable to common stock divided by the average of its beginning and ending balances of common equity using data reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission but adjusted to remove the effect of any refund paid under this subsection (e), and further adjusted to include the annual amortization of any difference between the consideration received by an affiliated interest of the electric utility in the sale of an asset which had been sold or transferred by the electric utility to the affiliated interest subsequent to the effective date of this amendatory Act of 1997 and the consideration for which such asset had been sold or transferred to the affiliated interest, with such difference to be amortized ratably from the date of the sale by the affiliated interest to December 31, 2006, exceeds the 2-year average of the Index for the same 2 years by 1.5 or more percentage points, the electric utility shall make refunds to customers beginning the first billing day of April in the following year in the manner described in paragraph (3) of this subsection. For purposes of this subsection (e), the "Index" shall be the sum of (A) the average for the 12 months ended September 30 of the monthly average yields of 30-year U.S. Treasury bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication for each year 1998 through 2004, and (B) (i) 4.00 percentage points for each of the 12-month periods ending September 30, 1998 through September 30, 1999 or 8.00 percentage points if the electric utility's average

residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, and the electric utility served between 150,000 and 250,000 retail customers on January 1, 1995, ~~or~~ (ii) 7.00 ~~5.00~~ percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004 if the electric utility was providing service to at least 1,000,000 customers in this State on January 1, 1999, or 9.00 percentage points if the electric utility's average

residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995 and the electric utility served between 150,000 and 250,000 retail customers in this State on January 1, 1995, (iii) 11.00 percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004, but only if the electric utility's average residential retail rate is less than or equal to 90% of the average residential retail rate for the "Midwest Utilities", as that term is defined in subsection (b) of this Section, based on data reported on Form 1 to the Federal Energy Regulatory Commission for calendar year 1995, the electric utility served between 150,000 and 250,000 retail customers in this State on January 1, 1995, and the electric utility offers delivery services on or before June 1, 2000 to retail customers whose annual electric energy use comprises 33% of the kilowatt hour sales to that group of retail customers that are classified under Division D, Groups 20 through 39 of the Standard Industrial Classifications set forth in the Standard Industrial Classification Manual published by the United States Office of Management and Budget, excluding the kilowatt hour sales to those customers that are eligible for delivery services pursuant to Section 16-104(a)(1)(i), and offers delivery services to its remaining retail customers classified under Division D, Groups 20 through 39 on or before October 1, 2000, and, provided further, that the electric utility commits not to petition pursuant to Section 16-108(f) for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period after December 31, 2006, or (iv) 5.00 percentage points for each of the 12-month periods ending September 30, 2000 through September 30, 2004 for all other electric utilities or 7.00 percentage points for such utilities for each of the 12-month periods ending September 30, 2000 through September 30, 2004 for any such utility that commits not to petition pursuant to Section 16-108(f) for entry of an order by the Commission authorizing the electric utility to implement transition charges for an additional period after December 31, 2006.

(1) For purposes of this subsection (e), "excess earnings" means the difference between (A) the 2-year average of the electric utility's earned rate of return on common equity, less (B) the 2-year average of the sum of (i) the Index applicable to each of the 2 years and (ii) 1.5 percentage points; provided, that "excess earnings" shall never be less than zero.

(2) On or before March 31 of each year 2000 through 2005 each electric utility shall file a report with the Commission showing its earned rate of return on common equity, calculated in accordance with this subsection, for the preceding calendar year and the average for the preceding 2 calendar years.

(3) If an electric utility has excess earnings, determined in accordance with paragraphs (1) and (2) of this subsection, the refunds which the electric utility shall pay to its customers

beginning the first billing day of April in the following year

shall be calculated and applied as follows:

(i) The electric utility's excess earnings shall be multiplied by the average of the beginning and ending balances of the electric utility's common equity for the 2-year period in which excess earnings occurred.

(ii) The result of the calculation in (i) shall be multiplied by 0.50 and then divided by a number equal to 1 minus the electric utility's composite federal and State income tax rate.

(iii) The result of the calculation in (ii) shall be divided by the sum of the electric utility's projected total kilowatt-hour sales to retail customers plus projected kilowatt-hours to be delivered to delivery services customers over a one year period beginning with the first billing date in April in the succeeding year to determine a cents per kilowatt-hour refund factor.

(iv) The cents per kilowatt-hour refund factor calculated in (iii) shall be credited to the electric utility's customers by applying the factor on the customer's monthly bills to each kilowatt-hour sold or delivered until the total amount calculated in (ii) has been paid to customers.

(f) During the mandatory transition period, an electric utility may file revised tariffs reducing the price of any tariffed service offered by the electric utility for all customers taking that tariffed service, which shall be effective 7 days after filing.

(g) During the mandatory transition period, an electric utility may, without obtaining any approval of the Commission other than that provided for in this subsection and notwithstanding any other provision of this Act or any rule or regulation of the Commission that would require such approval:

(1) implement a reorganization, other than a merger of 2 or more public utilities as defined in Section 3-105 or their holding companies;

(2) retire generating plants from service;

(3) sell, assign, lease or otherwise transfer assets to an affiliated or unaffiliated entity and as part of such transaction enter into service agreements, power purchase agreements, or other agreements with the transferee; provided, however, that the prices, terms and conditions of any power purchase agreement must be approved or allowed into effect by the Federal Energy Regulatory Commission; or

(4) use any accelerated cost recovery method including accelerated depreciation, accelerated amortization or other capital recovery methods, or record reductions to the original cost of its assets.

In order to implement a reorganization, retire generating plants from service, or sell, assign, lease or otherwise transfer assets pursuant to this Section, the electric utility shall comply with subsections (c) and (d) of Section 16-128, if applicable, and subsection (k) of this Section, if applicable, and provide the Commission with at least 30 days notice of the proposed reorganization or transaction, which notice shall include the following information:

(i) a complete statement of the entries that the electric utility will make on its books and records of account to implement the proposed reorganization or

transaction together with a certification from an independent certified public accountant that such entries are in accord with generally accepted accounting principles

and, if the Commission has previously approved guidelines for cost allocations between the utility and its affiliates, a certification from the chief accounting officer of the utility that such entries are in accord with those cost allocation guidelines;

(ii) a description of how the electric utility will use proceeds of any sale, assignment, lease or transfer to retire debt or otherwise reduce or recover the costs of services provided by such electric utility;

(iii) a list of all federal approvals or approvals required from departments and agencies of this State, other than the Commission, that the electric utility has or will obtain before implementing the reorganization or transaction;

(iv) an irrevocable commitment by the electric utility that it will not, as a result of the transaction, impose any stranded cost charges that it might otherwise be allowed to charge retail customers under federal law or increase the transition charges that it is otherwise entitled to collect under this Article XVI; and

(v) if the electric utility proposes to sell, assign, lease or otherwise transfer a generating plant that brings the amount of net dependable generating capacity transferred pursuant to this subsection to an amount equal to or greater than 15% of the electric utility's net dependable capacity as of the effective date of this amendatory Act of 1997, and enters into a power purchase agreement with the entity to which such generating plant is sold, assigned, leased, or otherwise transferred, the electric utility also agrees, if its fuel adjustment clause has not already been eliminated, to eliminate its fuel adjustment clause in accordance with subsection (b) of Section 9-220 for a period of time equal to the length of any such power purchase agreement or successor agreement, or until January 1, 2005, whichever is longer; if the capacity of the generating plant so transferred and related power purchase agreement does not result in the elimination of the fuel adjustment clause under this subsection, and the fuel adjustment clause has not already been eliminated, the electric utility shall agree that the costs associated with the transferred plant that are included in the calculation of the rate per kilowatt-hour to be applied pursuant to the electric utility's fuel adjustment clause during such period shall not exceed the per kilowatt-hour cost associated with such generating plant included in the electric utility's fuel adjustment clause during the full calendar year preceding the transfer, with such limit to be adjusted each year thereafter by the Gross Domestic Product Implicit Price Deflator.

(vi) In addition, if the electric utility proposes to sell, assign, or lease, (A) either (1) an amount of generating plant that brings the amount of net dependable generating capacity transferred pursuant to this subsection to an amount equal to or greater than 15% of its net dependable capacity on the effective date of this amendatory Act of 1997, or (2) one or more generating plants with a total net dependable capacity of 1100 megawatts, or (B) transmission and distribution facilities that either (1) bring the amount of transmission and distribution facilities transferred pursuant to this subsection to an amount equal to or greater than 15% of the electric utility's total

depreciated original cost investment in such facilities, or (2) represent an investment of \$25,000,000 in terms of total depreciated original cost, the electric utility shall provide, in addition to the information listed in subparagraphs (i) through (v), the following information: (A) a description of how the electric utility will meet its service obligations under this Act in a safe and reliable manner and (B) the electric utility's projected earned rate of return on common equity, calculated in accordance with subsection (d) of this Section, for each year from the date of the notice through December 31, 2004 both with and without the proposed transaction. If the Commission has not issued an order initiating a hearing on the proposed transaction within 30 days after the date the electric utility's notice is filed, the transaction shall be deemed approved. The Commission may, after notice and hearing, prohibit the proposed transaction if it makes either or both of the following findings: (1) that the proposed transaction will render the electric utility unable to provide its tariffed services in a safe and reliable manner, or (2) that there is a strong likelihood that consummation of the proposed transaction will result in the electric utility being entitled to request an increase in its base rates during the mandatory transition period pursuant to subsection (d) of this Section. Any hearing initiated by the Commission into the proposed transaction shall be completed, and the Commission's final order approving or prohibiting the proposed transaction shall be entered, within 90 days after the date the electric utility's notice was filed. Provided, however, that a sale, assignment, or lease of transmission facilities to an independent system operator that meets the requirements of Section 16-126 shall not be subject to Commission approval under this Section.

In any proceeding conducted by the Commission pursuant to this subparagraph (vi), intervention shall be limited to parties with a direct interest in the transaction which is the subject of the hearing and any statutory consumer protection agency as defined in subsection (d) of Section 9-102.1. Notwithstanding the provisions of Section 10-113 of this Act, any application seeking rehearing of an order

issued under this subparagraph (vi), whether filed by the electric utility or by an intervening party, shall be filed within 10 days after service of the order.

The Commission shall not in any subsequent proceeding or otherwise, review such a reorganization or other transaction authorized by this Section, but shall retain the authority to allocate costs as stated in Section 16-111(i). An entity to which an electric utility sells, assigns, leases or transfers assets pursuant to this subsection (g) shall not, as a result of the transactions specified in this subsection (g), be deemed a public utility as defined in Section 3-105. Nothing in this subsection (g) shall change any requirement under the jurisdiction of the Illinois Department of Nuclear Safety including, but not limited to, the payment of fees. Nothing in this subsection (g) shall exempt a utility from obtaining a certificate pursuant to Section 8-406 of this Act for the construction of a new electric generating facility. Nothing in this subsection (g) is intended to exempt the transactions hereunder from the operation of the federal or State antitrust laws. Nothing in this subsection (g) shall require an electric utility to use the procedures specified in this subsection for any of the transactions specified herein. Any other procedure available under

this Act may, at the electric utility's election, be used for any such transaction.

(h) During the mandatory transition period, the Commission shall not establish or use any rates of depreciation, which for purposes of this subsection shall include amortization, for any electric utility other than those established pursuant to subsection (c) of Section 5-104 of this Act or utilized pursuant to subsection (g) of this Section. Provided, however, that in any proceeding to review an electric utility's rates for tariffed services pursuant to Section 9-201, 9-202, 9-250 or 16-111(d) of this Act, the Commission may establish new rates of depreciation for the electric utility in the same manner provided in subsection (d) of Section 5-104 of this Act. An electric utility implementing an accelerated cost recovery method including accelerated depreciation, accelerated amortization or other capital recovery methods, or recording reductions to the original cost of its assets, pursuant to subsection (g) of this Section, shall file a statement with the Commission describing the accelerated cost recovery method to be implemented or the reduction in the original cost of its assets to be recorded. Upon the filing of such statement, the accelerated cost recovery method or the reduction in the original cost of assets shall be deemed to be approved by the Commission as though an order had been entered by the Commission.

(i) Subsequent to the mandatory transition period, the Commission, in any proceeding to establish rates and charges for tariffed services offered by an electric utility, shall consider only (1) the then current or projected revenues, costs, investments and cost of capital directly or indirectly associated with the provision of such tariffed services; (2) collection of transition charges in accordance with Sections 16-102 and 16-108 of this Act; (3) recovery of any employee transition costs as described in Section 16-128 which the electric utility is continuing to incur, including recovery of

any unamortized portion of such costs previously incurred or committed, with such costs to be equitably allocated among bundled services, delivery services, and contracts with alternative retail electric suppliers; and (4) recovery of the costs associated with the electric utility's compliance with decommissioning funding requirements; and shall not consider any other revenues, costs, investments or cost of capital of either the electric utility or of any affiliate of the electric utility that are not associated with the provision of tariffed services. In setting rates for tariffed services, the Commission shall equitably allocate joint and common costs and investments between the electric utility's competitive and tariffed services. In determining the justness and reasonableness of the electric power and energy component of an electric utility's rates for tariffed services subsequent to the mandatory transition period and prior to the time that the provision of such electric power and energy is declared competitive, the Commission shall consider the extent to which the electric utility's tariffed rates for such component for each customer class exceed the market value determined pursuant to Section 16-112, and, if the electric power and energy component of such tariffed rate exceeds the market value by more than 10% for any customer class, may establish such electric power and energy component at a rate equal to the market value plus 10%. In any such case, the Commission may also elect to extend the provisions of Section 16-111(e) for any period in which the electric utility is collecting transition charges, using information applicable to such period.

(j) During the mandatory transition period, an electric utility may elect to transfer to a non-operating income account under the Commission's Uniform System of Accounts either or both of (i) an amount of unamortized investment tax credit that is in addition to

the ratable amount which is credited to the electric utility's operating income account for the year in accordance with Section 46(f)(2) of the federal Internal Revenue Code of 1986, as in effect prior to P.L. 101-508, or (ii) "excess tax reserves", as that term is defined in Section 203(e)(2)(A) of the federal Tax Reform Act of 1986, provided that (A) the amount transferred may not exceed the amount of the electric utility's assets that were created pursuant to Statement of Financial Accounting Standards No. 71 which the electric utility has written off during the mandatory transition period, and (B) the transfer shall not be effective until approved by the Internal Revenue Service. An electric utility electing to make such a transfer shall file a statement with the Commission stating the amount and timing of the transfer for which it intends to request approval of the Internal Revenue Service, along with a copy of its proposed request to the Internal Revenue Service for a ruling. The Commission shall issue an order within 14 days after the electric utility's filing approving, subject to receipt of approval from the Internal Revenue Service, the proposed transfer.

(k) If an electric utility is selling or transferring to a single buyer 5 or more generating plants located in this State with a total net dependable capacity of 5000 megawatts or more pursuant to subsection (g) of this Section and has obtained a sale price or

consideration that exceeds 200% of the book value of such plants, the electric utility must provide to the Governor, the President of the Illinois Senate, the Minority Leader of the Illinois Senate, the Speaker of the Illinois House of Representatives, and the Minority Leader of the Illinois House of Representatives no later than 15 days after filing its notice under subsection (g) of this Section or 5 days after the date on which this subsection (k) becomes law, whichever is later, a written commitment in which such electric utility agrees to expend \$2 billion outside the corporate limits of any municipality with 1,000,000 or more inhabitants within such electric utility's service area, over a 6-year period beginning with the calendar year in which the notice is filed, on projects, programs, and improvements within its service area relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management.

(220 ILCS 5/16-111.1 new)

Sec. 16-111.1. Illinois Clean Energy Community Trust.

(a) An electric utility which has sold or transferred generating facilities in a transaction to which subsection (k) of Section 16-111 applies is authorized to establish an Illinois clean energy community trust or foundation for the purposes of providing financial support and assistance to entities, public or private, within the State of Illinois including, but not limited to, units of State and local government, educational institutions, corporations, and charitable, educational, environmental and community organizations, for programs and projects that benefit the public by improving energy efficiency, developing renewable energy resources, supporting other energy related projects that improve the State's environmental quality, and supporting projects and programs intended to preserve or enhance the natural habitats and wildlife areas of the State. Provided, however, that the trust or foundation funds shall not be used for the remediation of environmentally impaired property. The trust or foundation may also assist in identifying other energy and environmental grant opportunities.

(b) Such trust or foundation shall be governed by a declaration of trust or articles of incorporation and by-laws which shall, at a minimum, provide that:

(1) There shall be 6 voting trustees of the trust or foundation, one of whom shall be appointed by the Governor, one of whom shall be appointed by the President of the Illinois Senate, one of whom shall be appointed by the Minority Leader of the Illinois Senate, one of whom shall be appointed by the Speaker of the Illinois House of Representatives, one of whom shall be appointed by the Minority Leader of the Illinois House of Representatives, and one of whom shall be appointed by the electric utility establishing the trust or foundation, provided that the voting trustee appointed by the utility shall be a representative of a recognized environmental action group selected by the utility. The Governor shall select one of the 6 voting trustees, once appointed, to be the first chairman of the

trust or foundation pending the first election of officers. In addition, there shall be 4 non-voting trustees, one of whom shall be appointed by the Director of the Department of Commerce and Community Affairs, one of whom shall be appointed by the Director of the Illinois Environmental Protection Agency, one of whom shall be appointed by the Director of the Department of Natural Resources, and one of whom shall be appointed by the electric utility establishing the trust or foundation, provided that the non-voting trustee appointed by the utility shall bring financial expertise to the trust or foundation and shall have appropriate credentials therefor.

(2) All voting trustees and the non-voting trustee with financial expertise shall be entitled to compensation for their services as trustees, provided, however, that no member of the General Assembly and no employee of the electric utility establishing the trust or foundation serving as a voting trustee shall receive any compensation for his or her services as a trustee, and provided further that the compensation to the chairman of the trust shall not exceed \$25,000 annually and the compensation to any other trustee shall not exceed \$20,000 annually. All trustees shall be entitled to reimbursement for reasonable expenses incurred on behalf of the trust in the performance of their duties as trustees. All such compensation and reimbursements shall be paid out of the trust.

(3) Trustees shall be appointed within 30 days after the creation of the trust or foundation and shall serve for a term of 5 years commencing upon the date of their respective appointments, until their respective successors are appointed and qualified.

(4) A vacancy in the office of trustee shall be filled by the person holding the office responsible for appointing the trustee whose death or resignation creates the vacancy, and a trustee appointed to fill a vacancy shall serve the remainder of the term of the trustee whose resignation or death created the vacancy.

(5) The trust or foundation shall have an indefinite term, and shall terminate at such time as no trust assets remain.

(6) The trust or foundation shall be funded in the minimum amount of \$250,000,000, with the allocation and disbursement of funds for the various purposes for which the trust or foundation is established to be determined by the trustees in accordance with the declaration of trust or the articles of incorporation and by-laws; provided, however, that this amount may be reduced by up to \$25,000,000 if, at the time the trust or foundation is funded, a corresponding amount is contributed by the electric utility establishing the trust or foundation to the Board of Trustees of Southern Illinois University for the purpose of funding programs or projects related to clean coal and provided

further that \$25,000,000 of the amount contributed to the trust or foundation shall be available to fund programs or projects related to clean coal.

(7) The trust or foundation shall be authorized to employ

an executive director and other employees, to enter into leases, contracts and other obligations on behalf of the trust or foundation, and to incur expenses that the trustees deem necessary or appropriate for the fulfillment of the purposes for which the trust or foundation is established, provided, however, that salaries and administrative expenses incurred on behalf of the trust or foundation shall not exceed \$500,000 in the first fiscal year after the trust or foundation is established and shall not exceed \$1,000,000 in each subsequent fiscal year.

(8) The trustees may create and appoint advisory boards or committees to assist them with the administration of the trust or foundation, and to advise and make recommendations to them regarding the contribution and disbursement of the trust or foundation funds.

(c)(1) In addition to the allocation and disbursement of funds for the purposes set forth in subsection (a) of this Section, the trustees of the trust or foundation shall annually contribute funds in amounts set forth in subparagraph (2) of this subsection to the Citizens Utility Board created by the Citizens Utility Board Act; provided, however, that any such funds shall be used solely for the representation of the interests of utility consumers before the Illinois Commerce Commission, the Federal Energy Regulatory Commission, and the Federal Communications Commission and for the provision of consumer education on utility service and prices and on benefits and methods of energy conservation. Provided, however, that no part of such funds shall be used to support (i) any lobbying activity, (ii) activities related to fundraising, (iii) advertising or other marketing efforts regarding a particular utility, or (iv) solicitation of support for, or advocacy of, a particular position regarding any specific utility or a utility's docketed proceeding.

(2) In the calendar year in which the trust or foundation is first funded, the trustees shall contribute \$1,000,000 to the Citizens Utility Board within 60 days after such trust or foundation is established; provided, however, that such contribution shall be made after December 31, 1999. In each of the 6 calendar years subsequent to the first contribution, if the trust or foundation is in existence, the trustees shall contribute to the Citizens Utility Board an amount equal to the total expenditures by such organization in the prior calendar year, as set forth in the report filed by the Citizens Utility Board with the chairman of such trust or foundation as required by subparagraph (3) of this subsection. Such subsequent contributions shall be made within 30 days of submission by the Citizens Utility Board of such report to the Chairman of the trust or foundation, but in no event shall any annual contribution by the trustees to the Citizens Utility Board exceed \$1,000,000. Following such 7-year period, an Illinois statutory consumer protection agency may petition the trust or foundation for contributions to fund expenditures of the type identified in paragraph (1), but in no event shall annual contributions by the trust or foundation for such expenditures exceed \$1,000,000.

(3) The Citizens Utility Board shall file a report with the chairman of such trust or foundation for each year in which it expends any funds received from the trust or foundation setting forth the amount of any expenditures (regardless of the source of funds for such expenditures) for: (i) the representation of the

interests of utility consumers before the Illinois Commerce Commission, the Federal Energy Regulatory Commission, and the Federal Communications Commission, and (ii) the provision of consumer education on utility service and prices and on benefits and methods of energy conservation. Such report shall separately state the total amount of expenditures for the purposes or activities identified by items (i) and (ii) of this paragraph, the name and address of the external recipient of any such expenditure, if applicable, and the specific purposes or activities (including internal purposes or activities) for which each expenditure was made. Any report required by this subsection shall be filed with the chairman of such trust or foundation no later than March 31 of the year immediately following the year for which the report is required.

Sec. 16-111.2. Provisions related to proposed utility transactions.

(a) The General Assembly finds:

(1) A transaction as described in paragraph (3) of this subsection (a) will contribute to improved reliability of the electric supply system in Illinois which is one of the key purposes of the Illinois Electric Service Customer Choice and Rate Relief Law of 1997.

(2) A transaction as described in paragraph (3) of this subsection (a) is likely to promote additional investment in the existing generating assets and in the development of additional generation capacity in Illinois, and such change in ownership is in the public interest, consistent with the intent of the Illinois Electric Service Customer Choice and Rate Relief Law of 1997 and beneficial for the citizens of this State.

(3) As of the date on which this amendatory Act of 1999 becomes law, an electric utility providing service to more than 1,000,000 customers in this State has proposed to sell or transfer to a single buyer 5 or more generating plants with a total net dependable capacity of 5000 megawatts or more pursuant to subsection (g) of Section 16-111.

(4) Such electric utility anticipates receiving a sale price or consideration as a result of such transaction exceeding 200% of the book value of these plants.

(5) Such electric utility has presented to the Governor and the leaders of the General Assembly a written commitment in which such electric utility agrees to expend \$2,000,000,000 outside the corporate limits of any municipality with 1,000,000 or more inhabitants within such electric utility's service area, over a 6-year period beginning with this calendar year on projects, programs and improvements within its service area relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management.

(6) Such electric utility has committed that, if the sale or transfer contemplated by paragraph (3) of this subsection is

consummated on or before December 31, 1999, the electric utility shall make contributions totaling \$250,000,000 to entities within this State for, among other purposes, environmental and clean coal initiatives pursuant to Section 16-111.1, which commitment includes a contribution of \$25,000,000 to the Board of Trustees of Southern Illinois University for the purpose of funding programs or projects related to clean coal.

(b) That, in light of the findings in paragraphs (1) and (2) of subsection (a) and, in this instance, the circumstances described in

SENATE

4685

paragraphs (3) through (6) of subsection (a) and otherwise, the General Assembly hereby finds that allowing the generating facilities being acquired to be eligible facilities under the provisions of the National Energy Policy Act of 1992 that apply to exempt wholesale generators (A) will benefit consumers; (B) is in the public interest; and (C) does not violate the law of this State.

(c) Nothing in this Section shall have any effect on the authority of the Commission under subsection (g) of Section 16-111 this Act.

(220 ILCS 5/16-114.1 new)

Sec. 16-114.1. Recovery of decommissioning costs in connection with nuclear power plant sale agreement.

(a) An electric utility owning a single-unit nuclear power plant located in this State which enters into an agreement to sell the nuclear power plant and as part of such agreement agrees: (i) to make contributions to a tax-qualified decommissioning trust or non-tax qualified decommissioning trust, or both, as defined in Section 8-508.1 for the nuclear power plant, in specified amounts or for a specified period of time, after the sale is consummated, or (ii) to purchase an insurance instrument which provides for the payment of all or a specified amount of the decommissioning costs of the nuclear power plant, shall be entitled, in the case of item (i), to maintain such decommissioning trusts for the purpose of receiving such contributions after the consummation of the sale, to implement revisions to its decommissioning rate in accordance with subsection (b) of this Section, and to transfer such decommissioning trusts, or the balance in the trusts, to the buyer of the nuclear power plant in accordance with the agreement of sale, and in the case of item (ii), to implement revisions to its decommissioning rate in accordance with subsection (c) of this Section.

(b) An electric utility entering into an agreement of sale described in subsection (a)(i) of this Section shall be entitled to file a petition with the Commission for entry of an order authorizing the electric utility (i) to amortize its liability for decommissioning costs pursuant to the agreement of sale over the period of time in which the electric utility is required by such agreement to make additional contributions to the tax-qualified decommissioning trust, the non-tax qualified decommissioning trust, or both, and (ii) to revise its decommissioning rate to a level that will recover, over the time period specified in the agreement of sale, an annual amount equal to the electric utility's annual contributions to the decommissioning trusts which are required by the agreement of sale multiplied by the percentage of the output of the

nuclear power plant which the agreement of sale obligates the electric utility to purchase in each such year.

(c) An electric utility entering into an agreement of sale described in subsection (a)(ii) shall be entitled to file a petition with the Commission for entry of an order authorizing the electric utility to revise its decommissioning rate to a level that will recover, over 5 years, the electric utility's cost of purchasing the insurance instrument multiplied by the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase in each such year.

(d) An electric utility's petition pursuant to subsection (b) or subsection (c) shall state the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase from the new owner of the nuclear power plant in each of the years for which the electric utility is seeking to implement a revised decommissioning rate. The electric utility's petition shall also state that the electric utility agrees, as conditions of the Commission's order and the implementation of the

revised decommissioning rate, (i) to file revisions, pursuant to Section 16-111(f), to its base rate tariffs applicable to retail customers subject to the electric utility's decommissioning rate reducing such tariffs, and (ii) to file revisions to its transition charge tariffs applicable to retail customers subject to the electric utility's decommissioning rate incorporating a credit into the calculation of the electric utility's transition charges in accordance with this subsection. The reduction and the credit shall be in an amount per kilowatt-hour of electricity sold or delivered to retail customers equal to (i) the electric utility's decommissioning rate authorized by the Commission's order in accordance with subsection (b)(ii) or (c), as applicable, less (ii) the product of the electric utility's decommissioning rate in effect immediately prior to the agreement of sale multiplied by the percentage of the output of the nuclear power plant which the agreement of sale obligates the electric utility to purchase from the new owner of the nuclear power plant. The Commission shall issue an order granting the petition within 30 days after the petition is filed. The Commission's order shall state the aggregate total amount which the order is authorizing the electric utility to collect through its decommissioning rate. The Commission's order shall state that the effectiveness of the revisions to the electric utility's decommissioning rate shall be conditioned on the filing by the electric utility of the revisions reducing its base rate tariffs and providing for credits to its transition charge tariffs as specified in this subsection. Upon completion of the collection of the total amount which the Commission's order authorizes the electric utility to collect through its decommissioning rate, the electric utility shall not be entitled to collect any further amounts of decommissioning costs for its nuclear power plant through a decommissioning rate. Nothing in this Section shall be construed to permit an increase in the overall tariffed rates and charges paid by the electric utility's customers.

(e) In addition to the uses of the proceeds of the sale and

issuance of transitional funding instruments authorized by Section 18-103(d)(1), an electric utility which has entered into an agreement to sell a nuclear power plant may use the proceeds from the sale and issuance of transitional funding instruments to make contributions, or to reimburse itself for contributions which the electric utility has made, to decommissioning trusts in accordance with the agreement of sale, in an amount not to exceed 20% of the aggregate principal amount of transitional funding instruments which the electric utility was authorized to cause to have issued pursuant to Section 18-103(d)(6), including for purposes of this calculation the amount of any transitional funding instruments which the electric utility caused to be issued prior to the date of this amendatory Act of 1999. The use of proceeds authorized by this subsection shall not be subject to Section 18-103(d)(1)(B) and shall not be considered in determining if the percentage limitations on the use of proceeds set forth in the proviso following Section 18-103(d)(1)(E) have been complied with.

(f) None of the authorizations permitted by this Section may be exercised if the sale of the nuclear power plant is disapproved by the Commission.

(220 ILCS 5/16-115)

Sec. 16-115. Certification of alternative retail electric suppliers.

(a) Any alternative retail electric supplier must obtain a certificate of service authority from the Commission in accordance with this Section before serving any retail customer or other user located in this State. An alternative retail electric supplier may

SENATE

4687

request, and the Commission may grant, a certificate of service authority for the entire State or for a specified geographic area of the State.

(b) An alternative retail electric supplier seeking a certificate of service authority shall file with the Commission a verified application containing information showing that the applicant meets the requirements of this Section. The alternative retail electric supplier shall publish notice of its application in the official State newspaper within 10 days following the date of its filing. No later than 45 days after the application is properly filed with the Commission, and such notice is published, the Commission shall issue its order granting or denying the application.

(c) An application for a certificate of service authority shall identify the area or areas in which the applicant intends to offer service and the types of services it intends to offer. Applicants that seek to serve residential or small commercial retail customers within a geographic area that is smaller than an electric utility's service area shall submit evidence demonstrating that the designation of this smaller area does not violate Section 16-115A. An applicant that seeks to serve residential or small commercial retail customers may state in its application for certification any limitations that will be imposed on the number of customers or maximum load to be served.

(d) The Commission shall grant the application for a certificate of service authority if it makes the findings set forth in this

subsection based on the verified application and such other information as the applicant may submit:

(1) That the applicant possesses sufficient technical, financial and managerial resources and abilities to provide the service for which it seeks a certificate of service authority. In determining the level of technical, financial and managerial resources and abilities which the applicant must demonstrate, the Commission shall consider (i) the characteristics, including the size and financial sophistication, of the customers that the applicant seeks to serve, and (ii) whether the applicant seeks to provide electric power and energy using property, plant and equipment which it owns, controls or operates;

(2) That the applicant will comply with all applicable federal, State, regional and industry rules, policies, practices and procedures for the use, operation, and maintenance of the safety, integrity and reliability, of the interconnected electric transmission system;

(3) That the applicant will only provide service to retail customers in an electric utility's service area that are eligible to take delivery services under this Act;

(4) That the applicant will comply with such informational or reporting requirements as the Commission may by rule establish and provide the information required by Section 16-112. Any data related to contracts for the purchase and sale of electric power and energy shall be made available for review by the Staff of the Commission on a confidential and proprietary basis and only to the extent and for the purposes which the Commission determines are reasonably necessary in order to carry out the purposes of this Act;

(5) That if the applicant, its corporate affiliates or the applicant's principal source of electricity (to the extent such source is known at the time of the application) owns or controls facilities, for public use, for the transmission or distribution of electricity to end-users within a defined geographic area to which electric power and energy can be physically and economically delivered by the electric utility or utilities in

whose service area or areas the proposed service will be offered, the applicant, its corporate affiliates or principal source of electricity, as the case may be, provides delivery services to the electric utility or utilities in whose service area or areas the proposed service will be offered that are reasonably comparable to those offered by the electric utility, and provided further, that the applicant agrees to certify annually to the Commission that it is continuing to provide such delivery services and that it has not knowingly assisted any person or entity to avoid the requirements of this Section. For purposes of this subparagraph, "principal source of electricity" shall mean a single source that supplies at least 65% of the applicant's electric power and energy, and the purchase of transmission and distribution services pursuant to a filed tariff under the jurisdiction of the Federal Energy Regulatory Commission or a state public utility commission shall not

constitute control of access to the provider's transmission and distribution facilities;

(6) With respect to an applicant that seeks to serve residential or small commercial retail customers, that the area to be served by the applicant and any limitations it proposes on the number of customers or maximum amount of load to be served meet the provisions of Section 16-115A, provided, that the Commission can extend the time for considering such a certificate request by up to 90 days, and can schedule hearings on such a request;

(7) That the applicant meets the requirements of subsection (a) of Section 16-128; and

(8) That the applicant will comply with all other applicable laws and regulations.

(e) A retail customer that owns a cogeneration or self-generation facility and that seeks certification only to provide electric power and energy from such facility to retail customers at separate locations which customers are both (i) owned by, or a subsidiary or other corporate affiliate of, such applicant and (ii) eligible for delivery services, shall be granted a certificate of service authority upon filing an application and notifying the Commission that it has entered into an agreement with the relevant electric utilities pursuant to Section 16-118. Provided, however, that if the retail customer owning such cogeneration or self-generation facility would not be charged a transition charge due to the exemption provided under subsection (f) of Section 16-108 prior to the certification, and the retail customers at separate locations are taking delivery services in conjunction with purchasing power and energy from the facility, the retail customer on whose premises the facility is located shall not thereafter be required to pay transition charges on the power and energy that such retail customer takes from the facility.

(f) The Commission shall have the authority to promulgate rules and regulations to carry out the provisions of this Section. On or before May 1, 1999, the Commission shall adopt a rule or rules applicable to the certification of those alternative retail electric suppliers that seek to serve only nonresidential retail customers with maximum electrical demands of one megawatt or more which shall provide for (i) expedited and streamlined procedures for certification of such alternative retail electric suppliers and (ii) specific criteria which, if met by any such alternative retail electric supplier, shall constitute the demonstration of technical, financial and managerial resources and abilities to provide service required by subsection (d) (1) of this Section, such as a requirement to post a bond or letter of credit, from a responsible surety or

financial institution, of sufficient size for the nature and scope of the services to be provided; demonstration of adequate insurance for the scope and nature of the services to be provided; and experience in providing similar services in other jurisdictions.

Sec. 16-130. Annual Reports. The General Assembly finds that it

is necessary to have reliable and accurate information regarding the transition to a competitive electric industry. In addition to the annual report requirements pursuant to Section 5-109 of this Act, each electric utility shall file with the Commission a report on the following topics in accordance with the schedule set forth in subsection (b) of this Section:

(1) Data on each customer class of the electric utility in which delivery services have been elected including:

(A) number of retail customers in each class that have elected delivery service;

(B) kilowatt hours consumed by the customers described in subparagraph (A);

(C) revenue loss experienced by the utility as a result of customers electing delivery services or market-based prices as compared to continued service under otherwise applicable tariffed rates;

(D) total amount of funds collected from each customer class pursuant to the transition charges authorized in Section 16-108;

(E) Such other information as the Commission may by rule require.

(2) A description of any steps taken by the electric utility to mitigate and reduce its costs, including both a detailed description of steps taken during the preceding calendar year and a summary of steps taken since the effective date of this amendatory Act of 1997, and including, to the extent practicable, quantification of the costs mitigated or reduced by specific actions taken by the electric utility.

(3) A description of actions taken under Sections 5-104, 7-204, 9-220, and 16-111 of this Act. This information shall include but not be limited to:

(A) a description of the actions taken;

(B) the effective date of the action;

(C) the annual savings or additional charges realized by customers from actions taken, by customer class and total for each year;

(D) the accumulated impact on customers by customer class and total; and

(E) a summary of the method used to quantify the impact on customers.

(4) A summary of the electric utility's use of transitional funding instruments, including a description of the electric utility's use of the proceeds of any transitional funding instruments it has issued in accordance with Article XVIII of this Act.

(5) Kilowatt-hours consumed in the twelve months ending December 31, 1996 (which kilowatt-hours are hereby referred to as "base year sales") by customer class multiplied by the revenue per kilowatt hour, adjusted to remove charges added to customers' bills pursuant to Sections 9-221 and 9-222 of this Act, during the twelve months ending December 31, 1996, adjusted for the reductions required by subsection (b) of Section 16-111 and the mitigation factors contained in Section 16-102. This amount shall be stated for: (i) each calendar year preceding the year in

which a report is required to be submitted pursuant to subsection (b); and (ii) as a cumulative total of all calendar years beginning with 1998 and ending with the calendar year preceding the year in which a report is required to be submitted pursuant to subsection (b).

(6) Calculations identical to those required by subparagraph (5) except that base year sales shall be adjusted for growth in the electric utility's service territory, in addition to the other adjustments specified by the first sentence of subparagraph (5).

(7) The electric utility's total revenue and net income for each calendar year beginning with 1997 through the calendar year preceding the year in which a report is required to be submitted pursuant to subsection (b) as reported in the electric utility's Form 1 report to the Federal Energy Regulatory Commission.

(8) Any consideration in excess of the net book cost as of the effective date of this amendatory Act of 1997 received by the electric utility during the year from a sale made subsequent to the effective date of this amendatory Act of 1997 to a non-affiliated third party of any generating plant that was owned by the electric utility on the effective date of this amendatory Act of 1997.

(9) Any consideration received by the electric utility from sales or transfers during the year to an affiliated interest of generating plant, or other plant that represents an investment of \$25,000,000 or more in terms of total depreciated original cost, which generating or other plant were owned by the electric utility prior to the effective date of this amendatory Act of 1997.

(10) Any consideration received by an affiliated interest of an electric utility from sales or transfers during the year to a non-affiliated third party of generating plant, but only if: (i) the electric utility had previously sold or transferred such plant to the affiliated interest subsequent to the effective date of this amendatory Act of 1997; (ii) the affiliated interest sells or transfers such plant to a non-affiliated third party prior to December 31, 2006; and (iii) the affiliated interest receives consideration for the sale or transfer of such plant to the non-affiliated third party in an amount greater than the cost or price at which such plant was sold or transferred to the affiliated interest by the electric utility.

(11) A summary account of those expenditures made for projects, programs, and improvements relating to transmission and distribution including, without limitation, infrastructure expansion, repair and replacement, capital investments, operations and maintenance, and vegetation management, pursuant to a written commitment made under subsection (k) of Section 16-111.

(b) The information required by subsection (a) shall be filed by each electric utility on or before March 1 of each year 1999 through 2007 or through such additional years as the electric utility is collecting transition charges pursuant to subsection (f) of Section 16-108, for the previous calendar year. The information required by subparagraph (6) of subsection (a) for calendar year 1997 shall be submitted by the electric utility on or before March 1, 1999.

(c) On or before May 15 of each year 1999 through 2006 or through such additional years as the electric utility is collecting transition charges pursuant to subsection (f) of Section 16-108, the Commission shall submit a report to the General Assembly which summarizes the information provided by each electric utility under this Section; provided, however, that proprietary or confidential

information shall not be publicly disclosed.

91ST GENERAL ASSEMBLY CONFERENCE COMMITTEE REPORT ON SENATE BILL 965

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 965, recommend the following:

(1) that the House recede from House Amendment No. 1; and

(2) that Senate Bill 965 be amended by replacing the title with the following:

"AN ACT concerning nursing."; and

SENATE

4697

by replacing everything after the enacting clause with the following:

"Section 5. The Mental Health and Developmental Disabilities Administrative Act is amended by adding Section 15.4 as follows:

(20 ILCS 1705/15.4 new)

Sec. 15.4. Authorization for nursing delegation to permit direct care staff to administer medications.

(a) This Section applies to (i) all programs for persons with a developmental disability in settings of 16 persons or fewer that are funded or licensed by the Department of Human Services and that distribute or administer medications and (ii) all intermediate care facilities for the developmentally disabled with 16 beds or fewer that are licensed by the Department of Public Health. The Department of Human Services shall develop a training program for authorized direct care staff to administer oral and topical medications under the supervision and monitoring of a registered professional nurse. This training program shall be developed in consultation with professional associations representing (i) physicians licensed to practice medicine in all its branches, (ii) registered professional nurses, and (iii) pharmacists.

(b) For the purposes of this Section:

"Authorized direct care staff" means non-licensed persons who have successfully completed a medication administration training program approved by the Department of Human Services and conducted by a nurse-trainer. This authorization is specific to an individual receiving service in a specific agency and does not transfer to another agency.

"Nurse-trainer training program" means a standardized, competency based medication administration train-the-trainer program provided by the Department of Human Services and conducted by a Department of Human Services master nurse-trainer for the purpose of training nurse-trainers to train persons employed or under contract to provide direct care or treatment to individuals receiving services to administer medications and provide self-administration of medication training to individuals under the supervision and monitoring of the nurse-trainer. The program incorporates adult learning styles, teaching strategies, classroom management, and a curriculum overview, including the ethical and legal aspects of supervising those administering medications.

"Self-administration of medications" means an individual administers his or her own medications. To be considered capable to self-administer their own medication, individuals must, at a minimum, be able to identify their medication by size, shape, or color, know when they should take the medication, and know the amount of medication to be taken each time.

"Training program" means a standardized medication administration training program approved by the Department of Human Services and conducted by a registered professional nurse for the purpose of training persons employed or under contract to provide direct care or treatment to individuals receiving services to

administer medications and provide self-administration of medication training to individuals under the delegation and supervision of a nurse-trainer. The program incorporates adult learning styles, teaching strategies, classroom management, curriculum overview, including ethical-legal aspects, and standardized competency-based evaluations on administration of medications and self-administration of medication training programs.

(c) Training and authorization of non-licensed direct care staff by nurse-trainers must meet the requirements of this subsection.

(1) Prior to training non-licensed direct care staff to administer medication, the nurse-trainer shall perform the following for each individual to whom medication will be

JOURNAL OF THE

[May 27, 1999]

administered by non-licensed direct care staff:

(A) An assessment of the individual's health history and physical and mental status.

(B) An evaluation of the medications prescribed.

(2) Non-licensed authorized direct care staff shall meet the following criteria:

(A) Be 18 years of age or older.

(B) Have completed high school or its equivalent (GED).

(C) Have demonstrated functional literacy.

(D) Have satisfactorily completed the Health and Safety component of a Department of Human Services authorized direct care staff training program.

(E) Have successfully completed the training program, pass the written portion of the comprehensive exam, and score 100% on the competency-based assessment specific to the individual and his or her medications.

(F) Have received additional competency-based assessment by the nurse-trainer as deemed necessary by the nurse-trainer whenever a change of medication occurs or a new individual that requires medication administration enters the program.

(3) Authorized direct care staff shall be re-evaluated by a nurse-trainer at least annually or more frequently at the discretion of the registered professional nurse. Any necessary retraining shall be to the extent that is necessary to ensure competency of the authorized direct care staff to administer medication.

(4) Authorization of direct care staff to administer medication shall be revoked if, in the opinion of the registered professional nurse, the authorized direct care staff is no longer competent to administer medication.

(5) The registered professional nurse shall assess an individual's health status at least annually or more frequently at the discretion of the registered professional nurse.

(d) Medication self-administration shall meet the following requirements:

(1) As part of the normalization process, in order for each individual to attain the highest possible level of independent functioning, all individuals shall be permitted to participate in

their total health care program. This program shall include, but not be limited to, individual training in preventive health and self-medication procedures.

(A) Every program shall adopt written policies and procedures for assisting individuals in obtaining preventative health and self-medication skills in consultation with a registered professional nurse, advanced practice nurse, physician assistant, or physician licensed to practice medicine in all its branches.

(B) Individuals shall be evaluated to determine their ability to self-medicate by the nurse-trainer through the use of the Department's required, standardized screening and assessment instruments.

(C) When the results of the screening and assessment indicate an individual not to be capable to self-administer his or her own medications, programs shall be developed in consultation with the Community Support Team or Interdisciplinary Team to provide individuals with self-medication administration.

(2) Each individual shall be presumed to be competent to self-administer medications if:

SENATE

4699

(A) authorized by an order of a physician licensed to practice medicine in all its branches; and

(B) approved to self-administer medication by the individual's Community Support Team or Interdisciplinary Team, which includes a registered professional nurse or an advanced practice nurse.

(e) Quality Assurance.

(1) A registered professional nurse, advanced practice nurse, licensed practical nurse, physician licensed to practice medicine in all its branches, physician assistant, or pharmacist shall review the following for all individuals:

(A) Medication orders.

(B) Medication labels, including medications listed on the medication administration record for persons who are not self-medicating to ensure the labels match the orders issued by the physician licensed to practice medicine in all its branches, advanced practice nurse, or physician assistant.

(C) Medication administration records for persons who are not self-medicating to ensure that the records are completed appropriately for:

(i) medication administered as prescribed;

(ii) refusal by the individual; and

(iii) full signatures provided for all initials used.

(2) Reviews shall occur at least quarterly, but may be done more frequently at the discretion of the registered professional nurse or advanced practice nurse.

(3) A quality assurance review of medication errors and data collection for the purpose of monitoring and recommending corrective action shall be conducted within 7 days and included in the required annual review.

(f) Programs using authorized direct care staff to administer medications are responsible for documenting and maintaining records on the training that is completed.

(g) The absence of this training program constitutes a threat to the public interest, safety, and welfare and necessitates emergency rulemaking by the Departments of Human Services and Public Health under Section 5-45 of the Illinois Administrative Procedure Act.

(h) Direct care staff who fail to qualify for delegated authority to administer medications pursuant to the provisions of this Section shall be given additional education and testing to meet criteria for delegation authority to administer medications. Any direct care staff person who fails to qualify as an authorized direct care staff after initial training and testing must within 3 months be given another opportunity for retraining and retesting. A direct care staff person who fails to meet criteria for delegated authority to administer medication, including, but not limited to, failure of the written test on 2 occasions shall be given consideration for shift transfer or reassignment, if possible. No employee shall be terminated for failure to qualify during the 3-month time period following initial testing. Refusal to complete training and testing required by this Section may be grounds for immediate dismissal.

(i) No authorized direct care staff person delegated to administer medication shall be subject to suspension or discharge for errors resulting from the staff person's acts or omissions when performing the functions unless the staff person's actions or omissions constitute willful and wanton conduct. Nothing in this subsection is intended to supersede paragraph (4) of subsection (c).

(j) A registered professional nurse, advanced practice nurse, physician licensed to practice medicine in all its branches, or physician assistant shall be on duty or on call at all times in any

program covered by this Section.

(k) The employer shall be responsible for maintaining liability insurance for any program covered by this Section.

(l) Any direct care staff person who qualifies as authorized direct care staff pursuant to this Section shall be granted consideration for a one-time additional salary differential. The Department shall determine and provide the necessary funding for the differential in the base. This subsection (l) is inoperative on and after June 30, 2000.

91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON SENATE BILL 1088

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 1088, recommend the following:

(1) that the House recede from House Amendment No. 1; and

(2) that Senate Bill 1088 be amended by replacing the title with the following:

"AN ACT to amend the Environmental Protection Act by adding Section 9.9."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Environmental Protection Act is amended by adding Section 9.9 as follows:

(415 ILCS 5/9.9 new)

Sec. 9.9. Nitrogen oxides trading system.

(a) The General Assembly finds:

(1) That USEPA has issued a Final Rule published in the Federal Register on October 27, 1998, entitled "Finding of Significant Contribution and Rulemaking for Certain States in the Ozone Transport Assessment Group Region for Purposes of Reducing Regional Transport of Ozone", hereinafter referred to as the "NOx SIP Call", compliance with which will require reducing emissions of nitrogen oxides ("NOx");

(2) That reducing emissions of NOx in the State helps the State to meet the national ambient air quality standard for ozone;

(3) That emissions trading is a cost-effective means of obtaining reductions of NOx emissions.

(b) The Agency shall propose and the Board shall adopt regulations to implement an interstate NOx trading program (hereinafter referred to as the "NOx Trading Program") as provided for in 40 CFR Part 96, including incorporation by reference of appropriate provisions of 40 CFR Part 96 and regulations to address 40 CFR Section 96.4(b), Section 96.55(c), Subpart E, and Subpart I. In addition, the Agency shall propose and the Board shall adopt regulations to implement NOx emission reduction programs for cement kilns and stationary internal combustion engines.

(c) Allocations of NOx allowances to large electric generating units ("EGUs") and large non-electric generating units ("non-EGUs"), as defined by 40 CFR Part 96.4(a), shall not exceed the State's trading budget for those source categories to be included in the State Implementation Plan for NOx.

(d) In adopting regulations to implement the NOx Trading Program, the Board shall:

(1) assure that the economic impact and technical feasibility of NOx emissions reductions under the NOx Trading Program are considered relative to the traditional regulatory control requirements in the State for EGUs and non-EGUs;

(2) provide that emission units, as defined in Section 39.5(1) of this Act, may opt into the NOx Trading Program;

(3) provide for voluntary reductions of NOx emissions from emission units, as defined in Section 39.5(1) of this Act, not otherwise included under paragraph (c) or (d)(2) of this Section to provide additional allowances to EGUs and non-EGUs to be allocated by the Agency. The regulations shall further provide that such voluntary reductions are verifiable, quantifiable, permanent, and federally enforceable;

(4) provide that the Agency allocate to non-EGUs allowances that are designated in the rule, unless the Agency has been directed to transfer the allocations to another unit subject to the requirements of the NOx Trading Program, and that upon shutdown of a non-EGU, the unit may transfer or sell the NOx allowances that are allocated to such unit; and

(5) provide that the Agency shall set aside annually a number of allowances, not to exceed 5% of the total EGU trading budget, to be made available to new EGUs.

(A) Those EGUs that commence commercial operation, as defined in 40 CFR Section 96.2, at a time that is more than half way through the control period in 2002 shall return to the Agency any allowances that were issued to it by the Agency and were not used for compliance in 2003.

(B) The Agency may charge EGUs that commence commercial operation, as defined in 40 CFR Section 96.2, on or after January 1, 2003, for the allowances it issues to them.

(e) The Agency may adopt procedural rules, as necessary, to implement the regulations promulgated by the Board pursuant to subsections (b) and (d) and to implement subsection (i) of this Section.

(f) The regulations promulgated by the Board pursuant to subsections (b) and (d) of this Section shall not be enforced until the later of May 1, 2003, or the first day of the control season subsequent to the calendar year in which all of the other states subject to the provisions of the NOx SIP Call that are located in

(g) To the extent that a court of competent jurisdiction finds a provision of 40 CFR Part 96 invalid, the corresponding Illinois provision shall be stayed until such provision of 40 CFR Part 96 is found to be valid or is re-promulgated. To the extent that USEPA or any court of competent jurisdiction stays the applicability of any provision of the NOx SIP Call to any person or circumstance relating to Illinois, during the period of that stay, the effectiveness of the corresponding Illinois provision shall be stayed. To the extent that the invalidity of the particular requirement or application does not affect other provisions or applications of the NOx SIP Call pursuant to 40 CFR 51.121 or the NOx trading program pursuant to 40 CFR Part 96 or 40 CFR Part 97, this Section, and rules or regulations promulgated hereunder, will be given effect without the invalid provisions or applications.

(i) There is hereby created within the State Treasury an interest-bearing special fund to be known as the NOx Trading System Fund, which shall be used and administered by the Agency for the purposes stated below:

(1) To accept funds from persons who purchase NOx allowances from the Agency;

And the Senate adopted the Report of the First Conference Committee on Senate Bill No. 1202.

Ordered that the Secretary inform the House of Representatives thereof.

Senator Watson, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on Senate

Amendment No. 1 to **House Bill No. 733**, submitted the following Report of the First Conference Committee and moved its adoption:

91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON HOUSE BILL 733

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendment No. 1 to House Bill 733, recommend the following:

(1) that the Senate recede from Senate Amendment No. 1; and

(2) that House Bill 733 be amended by replacing the title with the following:

"AN ACT in relation to health care."; and to

by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Hospital Cooperation Act.

Section 5. Legislative findings. The General Assembly finds that the goals of controlling health care costs and improving the quality of and access to open-heart surgery in Health Service Area V may be significantly enhanced by a cooperative agreement that would be prohibited by State and federal antitrust laws if undertaken without governmental involvement. The purpose of this Act is to substitute regulation for competition by creating an opportunity for the State to review proposed agreements and to approve an agreement under certain prescribed conditions and circumstances under which an agreement is highly likely to result in lower costs, greater access, and improved quality for open-heart surgery in Health Service Area V, and would not otherwise occur in the competitive health care marketplace. The General Assembly intends that approval of an agreement be accompanied by appropriate conditions, supervision, and regulation to protect against private abuses of economic power, and that an agreement approved by the State Board and accompanied by appropriate conditions, supervision, and regulation shall not be subject to State or federal antitrust liability. The General Assembly finds that the market for open-heart surgery is extremely diverse in Illinois. Health Service Area V is believed to have extraordinary rates of outmigration for open-heart surgery, with residents traveling hundreds of miles, often out-of-state, for care. Providing open-heart surgery close to home is medically useful to a patient's recovery, because visits of families and friends can improve a patient's psycho-social capacity to cope with disease. Providing

incentives to increase quality care for open-heart surgery in areas without it is desirable.

Section 10. Definitions. In this Act:

"Access" means the financial, temporal, and geographic availability of open-heart surgery to individuals who need it.

"Applicants" means the parties to a cooperative agreement for which a permit from the State Board is sought under this Act.

"Cooperative agreement" means an agreement among 2 or more health care providers for the sharing or allocation of medical, diagnostic,

or laboratory facilities or services customarily offered by health care providers providing open-heart surgery, including mergers, consolidations, or other acquisitions.

"Cost" or "cost of health care" means the amount paid by consumers or third-party payers for open-heart surgery.

"Criteria" means the cost, access, and quality of open-heart surgery.

"Health care provider" or "provider" means any person licensed by the State under the Hospital Licensing Act.

"Person" means an individual, legal entity, or affiliate.

"State Board" means the Cooperative Hospital Agreement Board.

"Permitholder" means the party or parties to a cooperative agreement for which a permit from the State Board has been approved under this Act.

"Health Service Area V" means "HSA V" as defined by rule of Illinois Health Facilities Planning Board in effect on the effective date of this Act and consists of the following Illinois counties: Alexander, Bond, Clay, Crawford, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Marion, Massac, Perry, Pope, Pulaski, Randolph, Richland, Saline, Union, Wabash, Washington, Wayne, White, and Williamson.

"Open-heart surgery" means a category of service which utilizes any form of cardiac surgery which requires the circulation of blood outside the body, as through a heart-lung apparatus for carbon dioxide-oxygen exchange.

Section 15. Cooperative Hospital Agreement Board; creation; members.

(a) The Cooperative Hospital Agreement Board is created in the Office of the Director of Public Health. The State Board shall consist of 11 members appointed by the Governor, with the advice and consent of the Senate, from the following groups and industries:

- (1) Two practicing hospital administrators, one from a hospital with fewer than 50 beds;
- (2) One currently serving hospital board member;
- (3) One practicing licensed physician;
- (4) Two consumers;
- (5) One health care payer;
- (6) Two representatives from business and industry, one of whom shall be an independent small business owner;
- (7) One practicing attorney who has particular knowledge or expertise in antitrust law; and
- (8) One health care economist.

No more than 6 members of the State Board may be affiliated with the same political party.

(b) The initial board shall be divided into one group of 4 members, one group of 3 members, and 2 groups of 2 members, all as designated by the Governor. The term of the first group shall expire on June 30, 2000, the term of the second group shall expire on June 30, 2001, the term of the third group shall expire on June 30, 2002, and the term of the fourth group shall expire on June 30, 2003. Thereafter, when the term of any member expires, the successor shall

be appointed for a term of 4 years. Each member shall serve until the member's resignation, death, or removal during that member's term or, in the case of a member whose term has expired, until a successor has been appointed and qualified. The Governor shall fill any vacancy for the remainder of the term. All members are eligible for reappointment but may serve no more than 2 4-year terms, except that initial appointees may serve 2 4-year terms in addition to their initial term. No person may serve as a member of the State Board or on the staff of the State Board while a member or on the staff of the Illinois Health Facilities Planning Board.

(c) The nominees to membership on the State Board shall disclose any potential conflicts of interest to the Governor before accepting appointment. The State Board shall, as one of its first actions, adopt rules to govern contacts and communications between its members and applicants and shall establish policies to require any member who has a conflict of interest to immediately disclose that conflict and disqualify himself or herself from voting in any proceeding associated with the conflict of interest.

(d) One State Board member, designated by the Governor, shall call and convene the initial organizational meeting of the State Board and shall serve as its temporary chair. At the initial meeting the State Board shall elect from its membership a chair, vice-chair, and secretary. All State Board officers shall hold office at the pleasure of the State Board. The secretary, with whatever assistance the State Board may prescribe, shall keep a record of the proceedings of the State Board and shall be custodian of the minute books, the State Board's official seal, and all books, documents, and papers filed with the State Board. Regular meetings shall be held at least once every 3 months, at times fixed by resolution of the State Board. Special meetings may be held in accordance with the bylaws. All meetings of the State Board shall be open to the public. A majority of the State Board shall constitute a quorum for the transaction of its business. Members shall receive reimbursement of their expenses. All State Board meetings shall be deemed to have been duly called and regularly held, and all orders and proceedings of the State Board shall be deemed to have been duly authorized, unless proved to the contrary.

(e) All State Board members shall serve at the pleasure of the Governor, except that any member shall be removed by the Governor if that member fails for any reason to attend 3 regular meetings during any 12-month period and the State Board has not entered its approval of any absence in its minutes. During their terms of office, all State Board members are prohibited from being a party to a contract for profit with the State Board.

(f) The Director of Public Health shall provide clerical and professional staff and meeting facilities necessary for the State Board to carry out its functions.

Section 20. Approval of cooperative agreements; powers of the State Board. Approval of a cooperative agreement requires a three-fourths vote of the State Board. On and after March 1, 2000, the State Board shall not approve any cooperative agreement. The State Board shall continue to exercise all of its powers with respect to a cooperative agreement approved before March 1, 2000, including without limitation its power to terminate or modify its approval, require the submission of reports and other information, conduct audits, and subpoena witnesses and the production of books, records, and documents.

Section 25. Needs study. The State Board, in consultation with the Attorney General, shall commission a needs study to determine whether the goals of controlling health care costs and improving the quality of and access to open-heart surgery in Health Service Area V

will be significantly enhanced by a cooperative agreement that would be prohibited by State or federal antitrust laws if undertaken without governmental involvement. The study shall be designed to determine whether hospital-based open-heart surgery requires a cooperative agreement exempt from State and federal antitrust laws and the feasibility of providing open-heart surgery at a reasonable rate of return without engaging in predatory pricing activities or any other abuse of power, based upon reasonable assumptions of market conditions in Health Service Area V. The study shall consider all options for providing open-heart surgery for Health Service Area V.

Section 30. Health care cooperative agreement; goals. Acting by their boards of directors or boards of trustees or as individuals, 2 or more health care providers may enter into a cooperative agreement concerning sharing or allocation of open-heart surgery facilities and services that shall be designed to achieve the following goals in Health Service Area V:

- (1) reducing open-heart surgery costs for consumers;
- (2) improving access to open-heart surgery services; and
- (3) improving the quality of open-heart surgery patient care.

Section 35. Approval of a health care cooperative agreement.

(a) Health care providers seeking to implement a cooperative agreement that might be construed to be a violation of State or federal antitrust laws but that is in the best interest of the State and furthers the policies and goals of this Act may apply for a permit from the State Board as provided in this Section. This permit shall be in addition to any permit or exemption required under any provisions of the Illinois Health Facilities Planning Act. Nothing in this Act shall be construed as requiring a health care provider to obtain approval from the State Board of any cooperative agreement. The decision to seek State Board approval of a cooperative agreement shall be in the sole discretion of the parties to the cooperative agreement. No cooperative agreement implemented without first obtaining approval from the State Board as provided in this Section shall be eligible for any protection or immunity created by Section 85.

(b) Applications for a permit shall be in a form prescribed by the State Board but shall contain at least the following:

- (1) a descriptive title;
- (2) a table of contents;
- (3) names of each party to the application and the address of the principal business office of each party;
- (4) the names, addresses, and telephone numbers of the persons authorized to receive notices and communications with respect to the application;
- (5) a verified statement by a responsible officer of each party to the application attesting to the accuracy and completeness of the enclosed information;

(6) background information relating to the proposed agreement, including:

(A) a description of the proposed agreement;

(B) an identification of any tangential equipment associated with the proposed agreement;

(C) a description of that portion of Health Service Area V involved in the proposed agreement;

(D) if the portion of Health Service Area V described in item (C) is different from the portion in which the applicants have engaged in the type of business at issue over the last 5 years, a description of how and why the portion differs;

(E) identification of all services that a substantial

SENATE

4711

share of consumers would consider substitutes for open-heart surgery;

(F) identification of whether open-heart surgery is currently being offered or is capable of being offered by other providers in the portion of Health Service Area V described in item (C);

(G) identification of the steps necessary, under current market and regulatory conditions, for other parties to enter the territory described in item (C) and compete with the applicants;

(H) a description of the previous history of dealings between the parties to the application;

(I) a detailed explanation of the projected effects, including expected volume, change in price, and increased revenue, of the agreement on each party's current businesses, both generally and the aspects of the business directly involved in the proposed agreement;

(J) the present market share of the parties to the application and of others affected by the proposed agreement and projected market shares after implementation of the proposed agreement;

(K) a statement of why the projected levels of cost, access, and quality could not be achieved in the existing market without the proposed agreement;

(L) an explanation of how the agreement relates to any Illinois health care plans for delivery of health care; and

(M) a statement of any consideration received or to be received by any party under the proposed agreement;

(7) a detailed explanation or implementation plan that states how and when the cooperative action identified in the agreement will meet the goals specified in Section 30;

(8) an explanation of the impact the agreement is likely to have directly on the State, including the cost of State employee health care, Medicaid costs, and workers compensation costs;

(9) a copy of the proposed agreement; and

(10) a fee determined by the State Board, but in an amount sufficient to cover the cost of processing applications, including costs of the Attorney General and the State Board, and the cost of periodic reviews and supervision of the

implementation of a cooperative agreement under this Act.

(c) In addition to the information required in subsection (b), the application must contain a written description of the proposed agreement for purposes of publication in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement. The notice must include sufficient information to advise the public of the nature of the proposed agreement and to enable the public to provide meaningful comments concerning the expected results of the agreement. The notice must also state that any person may provide written comments to the State Board, with copies to the applicants and to the Attorney General, within 60 days after the notice's publication. The State Board shall approve the notice before publication. If the State Board determines that the submitted notice does not provide sufficient information, the State Board may amend the notice before publication and may consult with the applicants in preparing the amended notice. The State Board shall not publish an amended notice without the applicants' approval.

(d) For a proposed agreement involving multiple parties, one joint application must be submitted on behalf of all parties to the agreement.

(e) Trade secret information, as defined in the Freedom of Information Act, shall be protected to the extent required under that

Act.

(f) If the Attorney General or the State Board determines that an application is unclear, incomplete, or provides an insufficient basis on which to base a decision, the State Board shall return the application. The applicants may complete or revise the application and resubmit it.

(g) The Attorney General or the State Board may decline to review any application relating to agreements already in effect before the submission of the application. However, the State Board shall review any application if the review is expressly provided for in a settlement agreement entered into before the enactment of this Section by the applicants and the Attorney General.

(h) Upon the showing of good cause, the State Board may extend any of the time limits stated in this Act at the request of the applicants or the Attorney General, except that no application for permit to implement a cooperative agreement shall be accepted by the State Board after October 31, 1999 or approved by the State Board after March 1, 2000.

Section 40. Notice and comment.

(a) The State Board shall cause the notice described in subsection (c) of Section 35 to be published in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement. The State Board shall also cause the notice to be delivered, by certified mail, to persons affected by the proposed agreement and identified in subparagraph (J) of paragraph (6) of subsection (b) of Section 35. The State Board may send a copy of the notice to any person together with a request that the person comment as provided under subsection (b). Copies of the request must be provided to the applicants.

(b) Within 30 days after the notice is published, any person may

mail to the State Board written comments with respect to the application. Persons submitting comments shall provide a copy of the comments to the applicants. The applicants may mail to the State Board written responses to any comments within 10 days after the deadline for mailing comments. The applicants shall send a copy of the response to the person submitting the comment.

(c) When an application for permit to implement a cooperative agreement is made to the State Board, the State Board shall commence a public hearing within a reasonable period after receipt of the application, not to exceed 90 days. Notice of the hearing shall be made promptly to the applicants, to the Attorney General, to any persons affected by the proposed agreement and identified in subparagraph (J) of paragraph (6) of subsection (b) of Section 35, and by publication in a newspaper of general circulation in the area affected by the cooperative agreement.

Section 45. Attorney General; review; recommendation.

(a) Upon receipt of an application for permit to implement a cooperative agreement, the State Board shall submit the application to the Attorney General for review. The Attorney General shall review the application and shall recommend to the State Board, in writing, the approval or denial of the application, provided the Attorney General's review shall not include determinations under subsection (d) or (e) of Section 50. If the Attorney General recommends to the State Board the denial of an application, the Attorney General shall state the reasons for that recommendation. The State Board shall not approve any application if the Attorney General recommends denial of the application, unless the State Board determines there is a compelling State interest in approving the application and there is a unanimous vote of its members.

Section 50. Criteria for issuance of permit.

(a) The State Board may issue a permit to implement a

SENATE

4713

cooperative agreement if the Attorney General and the State Board determine that the applicants have demonstrated by clear and convincing evidence that:

(1) the goals specified in Section 30 are highly likely to be met by implementing the proposed cooperative agreement and would not otherwise occur under existing market conditions or conditions likely to develop without an exemption or immunity from State and federal antitrust law; and

(2) the benefits resulting from the agreement are highly likely to outweigh the disadvantages that may result from the agreement, and that predatory pricing or any other abuse of power will not occur. In making that determination, the Attorney General and the State Board shall employ a cost-benefit analysis and the needs study.

(b) In making a determination about cost, access, and quality, the Attorney General and the State Board shall consider the following factors, among others:

(1) whether the proposal is compatible with cost containment or plans of the Illinois Health Facilities Planning Board.

(2) market structure:

- (A) actual and potential sellers and buyers or providers and purchasers;
 - (B) actual and potential consumers;
 - (C) geographic market area;
 - (D) new delivery mechanisms; and
 - (E) entry conditions;
- (3) current market conditions;
 - (4) the historical behavior of the market;
 - (5) performance of other similar agreements;
 - (6) whether the proposal unnecessarily restrains competition or restrains competition in ways not reasonably related to the purposes of this Act;
 - (7) whether competition as it currently exists in the market is likely to produce better results in terms of cost, access and quality; and
 - (8) the financial condition of the applicants.

(c) The analysis of cost must focus on the individual consumer of health care. Cost savings to be realized by providers, health carriers, group purchasers, or other participants in the health care system, are relevant only to the extent that the savings are highly likely to be passed on to the consumer. Where an application is submitted by providers who are paid primarily by third party payers unaffiliated with the providers, however, it is sufficient for the providers to show that cost savings are highly likely to be passed on to the unaffiliated third party payers and the providers do not have the burden of proving that third party payers with whom the providers are not affiliated will pass on cost savings to individuals receiving coverage through the third party payers. In making determinations as to costs, the Attorney General and the State Board shall consider, among other matters:

- (1) the cost savings likely to result to the applicants;
- (2) the extent to which the cost savings are likely to be passed on to the consumer and in what form;
- (3) the extent to which the proposed agreement is likely to result in cost shifting by the applicants onto other payers or purchasers of other products or services;
- (4) the extent to which the cost shifting by the applicants is likely to be followed by other persons in the market;
- (5) the current and anticipated supply and demand for any products or services at issue;

- (6) the representations and guarantees of the applicants and their enforceability;
- (7) likely effectiveness of regulation by the State Board;
- (8) inferences to be drawn from market structure;
- (9) the cost of regulation, both for the State and for the applicants; and
- (10) any other factors tending to show that the proposed agreement is or is not highly likely to reduce cost.

(d) In making determinations as to access, the State Board shall consider, among other matters:

- (1) the extent to which the use of open-heart surgery by the intended targeted population is highly likely to increase or

decrease; when a proposed agreement is highly likely to increase access in one geographic area, by lowering prices or otherwise expanding supply, but limits access in another geographic area by removing service capabilities from that second area, the State Board shall articulate the criteria employed to balance these effects;

(2) the extent to which the proposed agreement is highly likely to make available a new and needed service or product to a certain geographic area; and

(3) the extent to which the proposed agreement is highly likely to otherwise make open-heart surgery more financially or geographically available to persons who need them. If the State Board determines that the proposed agreement is highly likely to increase access and bases that determination on a projected increase in utilization, the State Board shall also determine and make a specific finding that the increase in utilization does not reflect overutilization.

(e) In making determinations as to quality, the State Board shall consider, among others, the extent to which the proposed agreement is highly likely to:

- (1) decrease morbidity and mortality;
- (2) result in faster convalescence;
- (3) result in fewer hospital days;
- (4) permit providers to attain needed experience or frequency of treatment, highly likely to lead to better outcomes;
- (5) increase patient satisfaction;
- (6) results in modern health care facilities; and
- (7) have any other features likely to improve or reduce the quality of health care.

Section 55. Decision.

(a) The State Board shall issue a written decision approving or denying the application for permit. The State Board may condition approval on a modification of all or part of the proposed agreement to eliminate any restriction on competition that is not reasonably related to the goals of reducing cost or improving access or quality. The State Board shall, independently or upon recommendation of the Attorney General, also establish conditions for approval that are reasonably necessary to protect consumers against predatory pricing, insufficient competition, or other abuses of private economic power and to ensure that the agreement is appropriately supervised and regulated by the State.

(b) The State Board's decision shall make specific findings of fact concerning the cost, access, and quality criteria.

(c) A decision approving an application for permit shall require the submission of specific data and reports concerning the implementation of the agreement, including how the agreement is accomplishing its goals, data relating to cost, access, and quality, and to the extent feasible, identify objective standards of cost, access, and quality by which the success of the agreement will be

measured. The submission of the data and reports shall be required at least annually. The Attorney General shall receive copies of any reports received by the State Board.

Section 60. Appeal. The decision of the State Board to approve or deny a permit to implement a cooperative agreement is subject to the provisions of the Administrative Review Law. Any person who is adversely affected by a decision of the State Board to approve or deny a permit to implement a cooperative agreement may have that decision judicially reviewed.

Section 65. Supervision after approval.

(a) The State Board, in consultation with the Attorney General, shall supervise, monitor, and regulate approved agreements.

(b) The Attorney General and the State Board shall review data submitted periodically by the permit holder. The permit issued by the State Board shall set forth the time schedule for the submission of data to the State Board and to the Attorney General, which shall be at least once a year. The permit shall identify the data that must be submitted, including all data relevant to the pricing and costs of health care services, and the Attorney General and the State Board may subsequently require the submission of additional data or alter the time schedule. Upon review of the data submitted, the State Board shall notify the permit holder of whether the agreement or its implementation is in compliance with the permit. Implementation of the agreement shall not be in compliance if, at any time, the permit holder has either (i) raised any prices in excess of the consumer price index or (ii) lowered any prices in an amount greater than any reduction in costs for the relevant services. If the agreement or its implementation is not in compliance with the permit, the Attorney General or the State Board shall identify those respects in which the agreement or its implementation does not conform to the permit. The Attorney General or the State Board may require the submission of information from any other market participant. A permit holder receiving notification that an agreement or its implementation is not in compliance has 30 days in which to respond with additional data. The response may include a proposal and a time schedule by which the permit holder will bring the agreement or its implementation into compliance with the permit. If the agreement or its implementation is not in compliance and the State Board and the permit holder cannot agree to the terms for bringing the agreement or its implementation into compliance, the matter shall be set for a hearing before a hearing officer appointed by the State Board. The State Board shall publish notice in the Illinois Register and in a newspaper of general circulation in the area affected by the cooperative agreement one year after the date of issuance of a permit approving an application, and at 2 year intervals thereafter, soliciting comments from the public concerning the impact that the agreement or its implementation has had on cost, access, and quality. The Attorney General and the State Board may request additional oral or written information from the permit holder or from any other source.

Section 70. Administrative fine. In addition to any remedies available under Section 75, if the State Board determines that a party to a cooperative agreement is not in compliance with the terms of the agreement or its implementation, the State Board may impose an administrative fine of up to \$10,000 for each day the party is not in compliance.

Section 75. Revocation.

(a) The State Board may revoke a permit to implement a cooperative agreement if it finds by clear and convincing evidence that:

(1) Any of the following circumstances exist:

4716

JOURNAL OF THE

[May 27, 1999]

(A) the agreement or its implementation is not in substantial compliance with the terms of the application;

(B) the agreement or its implementation is not in substantial compliance with the conditions of approval;

(C) the agreement has not and is not likely to substantially achieve the improvements in cost, access, or quality identified in the permit as the basis for the State Board's approval of the agreement;

(D) the benefits resulting from the agreement do not outweigh the disadvantages attributable to any reduction in competition;

(E) the conditions in the market place have changed to such an extent that competition would promote reductions in cost and improvements in access and quality better than does the agreement at issue; in order to revoke on the basis that conditions in the marketplace have changed, the State Board shall identify specific changes in the marketplace and articulate why those changes warrant revocation;

(F) the parties to the agreement fail to submit periodic progress reports requested by the State Board;

(G) materially misleading information was submitted in the application; or

(H) the parties have failed to implement the agreement with due diligence; and

(2) The parties to the agreement have failed to provide reasonable proposals for alternatives to revocation and have rejected modifications to or restructuring of the agreement identified by the State Board pursuant to subsection (d) of this Section.

(b) If a party to an agreement that is the subject of a permit seeks to terminate its participation in the agreement, the party shall file a notice of termination with the State Board at least 30 days prior to the proposed effective date of the termination. Upon receipt of a notice of termination, the State Board may institute revocation proceedings. If any parties seek to terminate the agreement, the parties shall file a notice of termination at least 30 days prior to the proposed effective date of the termination.

(c) The State Board shall begin a proceeding to revoke a permit to implement a cooperative agreement by providing written notice to the permitholder describing in detail the basis for the proposed revocation. Notice of the proceeding must be published in the Illinois Register. The notice must invite the submission of comments to the State Board.

(d) In deciding whether to revoke a permit to implement a cooperative agreement, the State Board shall take into account the hardship that the revocation may impose on the applicants and any potential disruption of the market as a whole. The State Board shall not revoke an approval if the agreement can be modified, restructured, or regulated so as to remedy the problem upon which the revocation proceeding is based. The permitholder may submit proposals for alternatives to revocation. Before approving an alternative to

revocation that involves modifying or restructuring an agreement, the State Board shall publish notice in the Illinois Register that any person may comment on the proposed modification or restructuring within 20 days after publication of the notice. The State Board shall not approve the modification or restructuring until the comment period has concluded. An approved modified or restructured agreement is subject to supervision under Section 65.

(e) The permitholder cannot be held liable under State or federal antitrust law for unintentional acts that occurred while the permit was in effect, except to the extent that the permitholder failed to

comply with the terms of the permit. The permitholder is fully subject to State and federal antitrust law after the revocation becomes effective and may be held liable for acts that occur after the revocation.

Section 80. Recordkeeping. The State Board shall maintain a file of all agreements for which approval orders are issued and that remain in effect.

Section 85. Health care provider cooperative agreements; antitrust exemption.

(a) This Act does not confer authority to engage in agreements, tacit, implied, or express, which are not submitted to the State Board for approval if those agreements are in violation of State or federal antitrust laws. Conduct seemingly pursuant to provisions of this law done without the good faith intention to accomplish an agreement approved by the State Board is not entitled to the protections and immunities of this Section.

(b) It is the intent of this Act to require the State, through the State Board, to provide direction, supervision, and control over a cooperative agreement. To achieve the goals specified in Section 30, this State direction, supervision, and control will provide immunity from any civil or criminal liability under the Illinois Antitrust Act and State-action immunity under federal antitrust laws to (i) health care providers, their governing board members, and their officers, agents, and employees who take authorized actions to implement a cooperative agreement approved under this Act and (ii) persons representing health care providers who participate in discussions or negotiations concerning the allocation of open-heart surgery as authorized under this Act.

Section 90. Health care cooperative agreement; Attorney General action. The Attorney General shall have all the powers necessary or convenient for the representation and protection of the public interest in all proceedings under this Act, including, without limitation, the right to intervene as a party or otherwise participate in any proceeding under this Act. Nothing in this Act shall limit the authority of the Attorney General to initiate an action to enforce the civil or criminal liability provisions of the Illinois Antitrust Act if the Attorney General determines that a health care provider, the members of its governing board, or its officers, agents, or employees have exceeded the scope of the actions authorized under this Act.

Section 95. Rulemaking. If necessary to meet the March 1, 2000 approval deadline, the State Board shall adopt rules for the

operation of this Act under the emergency rulemaking provisions of Section 5-45 of the Illinois Administrative Procedure Act. Within 150 days of the adoption of rules under Section 5-45, the State Board shall adopt identical or different rules under the general rulemaking provisions of Section 5-40 of that Act.

Section 100. Investigations. The Attorney General or the State Board, at any time after an application is filed or approved under this Act, may require by subpoena the attendance and testimony of witnesses and the production of documents for the purpose of investigating whether the cooperative agreement satisfies the standards set forth in this Act. The Attorney General or the State Board may seek a court order compelling compliance with a subpoena issued under this Section.

Section 200. The Illinois Antitrust Act is amended by changing Section 5 as follows:

A message from the House by

Mr. Rossi, Clerk:

Mr. President -- I am directed to inform the Senate that the House of Representatives has adopted the following conference committee report:

First Conference Committee Report to HOUSE BILL NO. 287

Adopted by the House, May 27, 1999.

ANTHONY D. ROSSI, Clerk of the House

91ST GENERAL ASSEMBLY
FIRST CONFERENCE COMMITTEE REPORT
ON HOUSE BILL 287

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendment No. 1 to House Bill 287, recommend the following:

(1) that the Senate recede from Senate Amendment 1; and

(2) that House Bill 287 be amended by replacing the title with the following:

"AN ACT to amend the Public Utilities Act by changing Section 13-301."; and

by replacing everything after the enacting clause with the following:

"Section 5. The Public Utilities Act is amended by change section 13-301 as follows:

(220 ILCS 5/13-301) (from Ch. 111 2/3, par. 13-301)

(Section scheduled to be repealed on July 1, 2001)

Sec. 13-301. Consistent with the findings and policy established in paragraph (a) of Section 13-102 and paragraph (a) of Section 13-103, and in order to ensure the attainment of such policies, the Commission shall:

(a) participate in all federal programs intended to preserve or extend universal telecommunications service, unless such programs would place cost burdens on Illinois customers of telecommunications services in excess of the benefits they would receive through participation, provided, however, the Commission shall not approve or permit the imposition of any surcharge or other fee designed to subsidize or provide a waiver for subscriber line charges; and shall report on such programs together with an assessment of their adequacy and the advisability of participating therein in its annual report to the General Assembly, or more often as necessary;

(b) establish a program to monitor the level of telecommunications subscriber connection within each exchange in Illinois, and shall report the results of such monitoring and any actions it has taken or recommends be taken to maintain and increase such levels in its annual report to the General Assembly, or more often if necessary;

(c) order all telecommunications carriers offering or providing local exchange telecommunications service to propose low-cost or budget service tariffs and any other rate design or pricing mechanisms designed to facilitate customer access to such telecommunications service, and shall after notice and hearing, implement any such proposals which it finds likely to achieve such purpose;

(d) investigate the necessity of and, if appropriate, establish feasibility of establishing a universal service support fund from which local exchange telecommunications carriers who pursuant to the

Twenty-Seventh Interim Order of the Commission in Docket No. 83-0142 or the orders of the Commission in Docket No. 97-0621 and Docket No. 98-0679 received funding and offering or providing local exchange telecommunications service, whose economic costs of providing services for which universal service support may be made available such service exceed the affordable rate established by the Commission for such services may be eligible to average cost of providing such service in Illinois, could receive support, less any federal universal service support received for the same or similar costs of providing the supported services; provided, however, that if a universal service support fund is established, the Commission shall require that all costs of the fund be recovered from all local exchange and interexchange telecommunications carriers certificated in Illinois on a competitively neutral and nondiscriminatory basis. In establishing any such universal service support fund, the Commission shall, in addition to the determination of costs for supported services, consider and make findings pursuant to paragraphs (1), (2), and (4) of item (e) of this Section. Proxy cost, as determined by the Commission, may be used for this purpose. In determining cost recovery for any universal service support fund, the Commission shall not permit recovery of such costs from another certificated carrier for any service purchased and used solely as an input to a service provided to such certificated carrier's retail customers revenues intended to mitigate the price impact on customers resulting from the high or rising cost of such service; and shall include the results and findings of such investigation together with any recommendations for legislative action in its first annual report to the General Assembly in 1986; and

(e) investigate the necessity of and, if appropriate, establish a universal service support fund in addition to any fund that may be established pursuant to item (d) of this Section; provided, however, that if a telecommunications carrier receives universal service support pursuant to item (d) of this Section, that telecommunications carrier shall not receive universal service support pursuant to this item. Recipients of any universal service support funding created by this item shall be "eligible" telecommunications carriers, as designated by the Commission in accordance with 47 U.S.C. 214(e)(2). Eligible telecommunications carriers providing local exchange telecommunications service may be eligible to receive support for such services, less any federal universal service support received for the same or similar costs of providing the supported services. If a fund is established, the Commission shall require that the costs of such fund be recovered from all telecommunications carriers, with the exception of wireless carriers who are providers of two-way cellular telecommunications service and who have not been designated as eligible telecommunications carriers, on a competitively neutral and non-discriminatory basis. In any order creating a fund pursuant to this item, the Commission, after notice and hearing, shall:

(1) Define the group of services to be declared "supported telecommunications services" that constitute "universal service". This group of services shall, at a minimum, include those services as defined by the Federal Communications Commission and as from time to time amended. In addition, the Commission shall consider the range of services currently offered by telecommunications carriers offering local exchange telecommunications service, the existing rate structures for the supported telecommunications services, and the telecommunications

telecommunications services. The Commission shall, from time to time or upon request, review and, if appropriate, revise the group of Illinois supported telecommunications services and the terms of the fund to reflect changes or enhancements in telecommunications needs, technologies, and available services.

(2) Identify all implicit subsidies contained in rates or charges of incumbent local exchange carriers, including all subsidies in interexchange access charges, and determine how such subsidies can be made explicit by the creation of the fund.

(3) Identify the incumbent local exchange carriers' economic costs of providing the supported telecommunications services.

(4) Establish an affordable price for the supported telecommunications services for the respective incumbent local exchange carrier. The affordable price shall be no less than the rates in effect at the time the Commission creates a fund pursuant to this item. The Commission may establish and utilize indices or models for updating the affordable price for supported telecommunications services.

(5) Identify the telecommunications carriers from whom the costs of the fund shall be recovered and the mechanism to be used to determine and establish a competitively neutral and non-discriminatory funding basis. From time to time, or upon request, the Commission shall consider whether, based upon changes in technology or other factors, additional telecommunications providers should contribute to the fund. The Commission shall establish the basis upon which telecommunications carriers contributing to the fund shall recover contributions on a competitively neutral and non-discriminatory basis. In determining cost recovery for any universal support fund, the Commission shall not permit recovery of such costs from another certificated carrier for any service purchased and used solely as an input to a service provided to such certificated carriers' retail customers.

(6) Approve a plan for the administration and operation of the fund by a neutral third party consistent with the requirements of this item.

No fund shall be created pursuant to this item until existing implicit subsidies, including, but not limited to, those subsidies contained in interexchange access charges, have been identified and eliminated through revisions to rates or charges. Prior to May 1, 2000, such revisions to rates or charges to eliminate implicit subsidies shall occur contemporaneously with any funding established pursuant to this item. However, if the Commission does not establish a universal service support fund by May 1, 2000, the Commission shall not be prevented from entering an order or taking other actions to reduce or eliminate existing subsidies as well as considering the effect of such reduction or elimination on local exchange carriers.

(e) Any telecommunications carrier providing local exchange telecommunications service which offers to its local exchange customers a choice of two or more local exchange telecommunications

service offerings shall provide, to any such customer requesting it, once a year without charge, a report describing which local exchange telecommunications service offering would result in the lowest bill for such customer's local exchange service, based on such customer's calling pattern and usage for the previous 6 months. At least once a year, each such carrier shall provide a notice to each of its local exchange telecommunications service customers describing the availability of this report and the specific procedures by which customers may receive it. Such report shall only be available to current and future customers who have received at least 6 months of

And the Senate adopted the Report of the First Conference Committee on House Bill No. 452.

Ordered that the Secretary inform the House of Representatives thereof.

Senator Bowles, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on Senate Amendments numbered 1 and 2 to **House Bill No. 523**, submitted the following Report of the First Conference Committee and moved its adoption:

91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON HOUSE BILL 523

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to Senate Amendments Nos. 1 and 2 to House Bill 523, recommend the following:

(1) that the Senate recede from Senate Amendments Nos. 1 and 2; and

(2) that House Bill 523 be amended as follows:
by replacing everything after the enacting clause with the following:

"Section 1. Legislative intent. State and federal governments and organizations have studied the changing habits of consumer purchasing and are discussing a movement from retailers' occupation taxes to taxes which are more efficiently collected from catalog and electronic commerce vendors of tangible personal property. It is the intent of the General Assembly that this amendatory Act of the 91st

2002 to allow additional time for the study of the effects of a shift in the methods of imposing and collecting taxes on consumption.

Section 5. The Illinois Municipal Code is amended by changing Sections 8-11-1.1, 8-11-1.3, 8-11-1.4, and 8-11-1.5 as follows:

(65 ILCS 5/8-11-1.1) (from Ch. 24, par. 8-11-1.1)

Sec. 8-11-1.1. Non-home rule municipalities; imposition of taxes.

(a) The corporate authorities of a non-home rule municipality ~~with a population greater than 130,000 but less than 2,000,000~~ may, upon approval of the electors of the municipality pursuant to subsection (b) of this Section, impose by ordinance or resolution the 1/2 of 1% tax authorized in Sections 8-11-1.3, 8-11-1.4 and 8-11-1.5 of this Act.

(b) The corporate authorities of the municipality may by ordinance or resolution call for the submission to the electors of the municipality the question of whether the municipality shall impose such tax. Such question shall be certified by the municipal clerk to the election authority in accordance with Section 28-5 of the Election Code and shall be in a form in accordance with Section 16-7 of the Election Code.

If a majority of the electors in the municipality voting upon the question vote in the affirmative, such tax shall be imposed.

An ordinance or resolution imposing the 1/2 of 1% tax hereunder or discontinuing the same shall be adopted and a certified copy thereof, together with a certification that the ordinance or resolution received referendum approval in the case of the imposition of such tax, filed with the Department of Revenue, on or before the first day of June, whereupon the Department shall proceed to administer and enforce the additional tax or to discontinue the tax, as the case may be, as of the first day of September next following such adoption and filing. Beginning January 1, 1992, an ordinance or resolution imposing or discontinuing the tax hereunder shall be adopted and a certified copy thereof filed with the Department on or before the first day of July, whereupon the Department shall proceed to administer and enforce this Section as of the first day of October next following such adoption and filing. Beginning January 1, 1993, an ordinance or resolution imposing or discontinuing the tax hereunder shall be adopted and a certified copy thereof filed with the Department on or before the first day of October, whereupon the Department shall proceed to administer and enforce this Section as of the first day of January next following such adoption and filing. A non-home rule municipality may file a certified copy of an ordinance or resolution, with a certification that the ordinance or resolution received referendum approval in the case of the imposition of the tax, with the Department of Revenue, as required under this Section, only after October 2, 2000.

(65 ILCS 5/8-11-1.3) (from Ch. 24, par. 8-11-1.3)

Sec. 8-11-1.3. Non-Home Rule Municipal Retailers' Occupation Tax Act. The corporate authorities of a non-home rule municipality ~~with more than 130,000 but less than 2,000,000 inhabitants~~ may impose a tax upon all persons engaged in the business of selling tangible personal property, other than on an item of tangible personal property which is titled and registered by an agency of this State's Government, at retail in the municipality at the rate of 1/2 of 1% for expenditure on public infrastructure as defined in Section 8-11-1.2 if approved by referendum as provided in Section 8-11-1.1,

of the gross receipts from such sales made in the course of such business. The tax may not be imposed on the sale of food for human consumption that is to be consumed off the premises where it is sold

(other than alcoholic beverages, soft drinks, and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances, and insulin, urine testing materials, syringes, and needles used by diabetics. The tax imposed by a municipality pursuant to this Section and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the State Department of Revenue. The certificate of registration which is issued by the Department to a retailer under the Retailers' Occupation Tax Act shall permit such retailer to engage in a business which is taxable under any ordinance or resolution enacted pursuant to this Section without registering separately with the Department under such ordinance or resolution or under this Section. The Department shall have full power to administer and enforce this Section; to collect all taxes and penalties due hereunder; to dispose of taxes and penalties so collected in the manner hereinafter provided, and to determine all rights to credit memoranda, arising on account of the erroneous payment of tax or penalty hereunder. In the administration of, and compliance with, this Section, the Department and persons who are subject to this Section shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties and definitions of terms, and employ the same modes of procedure, as are prescribed in Sections 1, 1a, 1a-1, 1d, 1e, 1f, 1i, 1j, 2 through 2-65 (in respect to all provisions therein other than the State rate of tax), 2c, 3 (except as to the disposition of taxes and penalties collected), 4, 5, 5a, 5b, 5c, 5d, 5e, 5f, 5g, 5h, 5i, 5j, 5k, 5l, 6, 6a, 6b, 6c, 7, 8, 9, 10, 11, 12 and 13 of the Retailers' Occupation Tax Act and Section 3-7 of the Uniform Penalty and Interest Act as fully as if those provisions were set forth herein.

No municipality may impose a tax under this Section unless the municipality also imposes a tax at the same rate under Section 8-11-1.4 of this Code.

Persons subject to any tax imposed pursuant to the authority granted in this Section may reimburse themselves for their seller's tax liability hereunder by separately stating such tax as an additional charge, which charge may be stated in combination, in a single amount, with State tax which sellers are required to collect under the Use Tax Act, pursuant to such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this Section to a claimant instead of issuing a credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the non-home rule municipal retailers' occupation tax fund.

The Department shall forthwith pay over to the State Treasurer, ex officio, as trustee, all taxes and penalties collected hereunder.

On or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities, the municipalities to be those from which retailers have paid taxes or penalties hereunder to the Department during the second preceding calendar month. The amount to be paid to each municipality shall be the amount (not including credit memoranda) collected hereunder during the second preceding calendar month by the Department plus an amount the Department determines is necessary to offset any amounts which were erroneously paid to a different taxing body, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department on behalf of such

municipality, and not including any amount which the Department determines is necessary to offset any amounts which were payable to a different taxing body but were erroneously paid to the municipality. Within 10 days after receipt, by the Comptroller, of the disbursement certification to the municipalities, provided for in this Section to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification.

For the purpose of determining the local governmental unit whose tax is applicable, a retail sale, by a producer of coal or other mineral mined in Illinois, is a sale at retail at the place where the coal or other mineral mined in Illinois is extracted from the earth. This paragraph does not apply to coal or other mineral when it is delivered or shipped by the seller to the purchaser at a point outside Illinois so that the sale is exempt under the Federal Constitution as a sale in interstate or foreign commerce.

Nothing in this Section shall be construed to authorize a municipality to impose a tax upon the privilege of engaging in any business which under the constitution of the United States may not be made the subject of taxation by this State.

When certifying the amount of a monthly disbursement to a municipality under this Section, the Department shall increase or decrease such amount by an amount necessary to offset any misallocation of previous disbursements. The offset amount shall be the amount erroneously disbursed within the previous 6 months from the time a misallocation is discovered.

The Department of Revenue shall implement this amendatory Act of the 91st General Assembly so as to collect the tax on and after January 1, 2002.

As used in this Section, "municipal" and "municipality" means a city, village or incorporated town, including an incorporated town which has superseded a civil township.

This Section shall be known and may be cited as the "Non-Home Rule Municipal Retailers' Occupation Tax Act".

Sec. 8-11-1.4. Non-Home Rule Municipal Service Occupation Tax Act. The corporate authorities of a non-home rule municipality ~~with a population of more than 130,000 but less than 2,000,000~~ may impose a tax upon all persons engaged, in such municipality, in the business

of making sales of service at the rate of 1/2 of 1% for expenditure on public infrastructure as defined in Section 8-11-1.2 if approved by referendum as provided in Section 8-11-1.1, of the selling price of all tangible personal property transferred by such servicemen either in the form of tangible personal property or in the form of real estate as an incident to a sale of service. The tax may not be imposed on the sale of food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances, and insulin, urine testing materials, syringes, and needles used by diabetics. The tax imposed by a municipality pursuant to this Section and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the State Department of Revenue. The certificate of registration which is issued by the Department to a retailer under the Retailers' Occupation Tax Act or under the Service Occupation Tax Act shall permit such registrant to engage in a business which is taxable under any ordinance or resolution enacted pursuant to this Section without registering separately with the Department under such ordinance or resolution or under this Section. In the administration of, and compliance with, this Section the Department and persons who are subject to this Section shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties and definitions of terms, and employ the same modes of procedure, as are prescribed in Sections 1a-1, 2, 2a, 3 through 3-50 (in respect to all provisions therein other than the State rate of tax), 4 (except that the reference to the State shall be to the taxing municipality), 5, 7, 8 (except that the jurisdiction to which the tax shall be a debt to the extent indicated in that Section 8 shall be the taxing municipality), 9 (except as to the disposition of taxes and penalties collected, and except that the returned merchandise credit for this municipal tax may not be taken against any State tax), 10, 11, 12 (except the reference therein to Section 2b of the Retailers' Occupation Tax Act), 13 (except that any reference to the State shall mean the taxing municipality), the first paragraph of Section 15, 16, 17, 18, 19 and 20 of the Service Occupation Tax Act and Section 3-7 of the Uniform Penalty and Interest Act, as fully as if those provisions were set forth herein.

No municipality may impose a tax under this Section unless the municipality also imposes a tax at the same rate under Section 8-11-1.3 of this Code.

Persons subject to any tax imposed pursuant to the authority granted in this Section may reimburse themselves for their serviceman's tax liability hereunder by separately stating such tax as an additional charge, which charge may be stated in combination,

in a single amount, with State tax which servicemen are authorized to collect under the Service Use Tax Act, pursuant to such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this Section to a claimant instead of issuing credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the municipal retailers' occupation tax fund.

The Department shall forthwith pay over to the State Treasurer, ex officio, as trustee, all taxes and penalties collected hereunder. On or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities, the municipalities to be those from which suppliers and servicemen have paid taxes or penalties hereunder to the Department during the second preceding calendar month. The amount to be paid to each municipality shall be the amount (not including credit memoranda) collected hereunder during the second preceding calendar month by the Department, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department on behalf of such municipality. Within 10 days after receipt, by the Comptroller, of the disbursement certification to the municipalities and the General Revenue Fund, provided for in this Section to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification.

The Department of Revenue shall implement this amendatory Act of the 91st General Assembly so as to collect the tax on and after

Amendments numbered 1, 2 and 3 to **Senate Bill No. 19**, submitted the following Report of the First Conference Committee and moved its adoption:

91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON SENATE BILL 19

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendments Nos. 1, 2, and 3 to Senate Bill 19, recommend the following:

(1) that the House recede from House Amendments Nos. 1, 2, and 3; and

(2) that Senate Bill 19 be amended by replacing the title with the following:

"AN ACT regarding child support enforcement."; and
by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Non-Support Punishment Act.

Section 5. Prosecutions by State's Attorneys. A proceeding for enforcement of this Act may be instituted and prosecuted by the several State's Attorneys only upon the filing of a verified complaint by the person or persons receiving child or spousal support.

Section 7. Prosecutions by Attorney General. In addition to enforcement proceedings by the several State's Attorneys, a proceeding for the enforcement of this Act may be instituted and prosecuted by the Attorney General in cases referred by the Illinois Department of Public Aid involving persons receiving child and spouse support services under Article X of the Illinois Public Aid Code. Before referring a case to the Attorney General for enforcement under this Act, the Department of Public Aid shall notify the person receiving child and spouse support services under Article X of the Illinois Public Aid Code of the Department's intent to refer the case to the Attorney General under this Section for prosecution.

Section 10. Proceedings. Proceedings under this Act may be by indictment or information. No proceeding may be brought under Section 15 against a person whose court or administrative order for support was entered by default, unless the indictment or information specifically alleges that the person has knowledge of the existence of the order for support and that the person has the ability to pay the support.

Section 15. Failure to support.

(a) A person commits the offense of failure to support when he or she:

(1) willfully, without any lawful excuse, refuses to provide for the support or maintenance of his or her spouse, with the knowledge that the spouse is in need of such support or maintenance, or, without lawful excuse, deserts or willfully refuses to provide for the support or maintenance of his or her child or children under the age of 18 years, in need of support

or maintenance and the person has the ability to provide the support; or

(2) willfully fails to pay a support obligation required under a court or administrative order for support, if the obligation has remained unpaid for a period longer than 6 months, or is in arrears in an amount greater than \$5,000, and the person has the ability to provide the support; or

(3) leaves the State with the intent to evade a support obligation required under a court or administrative order for

support, if the obligation, regardless of when it accrued, has remained unpaid for a period longer than 6 months, or is in arrears in an amount greater than \$10,000; or

(4) willfully fails to pay a support obligation required under a court or administrative order for support, if the obligation has remained unpaid for a period longer than one year, or is in arrears in an amount greater than \$20,000, and the person has the ability to provide the support.

(a-5) Presumption of ability to pay support. The existence of a court or administrative order of support that was not based on a default judgment and was in effect for the time period charged in the indictment or information creates a rebuttable presumption that the obligor has the ability to pay the support obligation for that time period.

(b) Sentence. A person convicted of a first offense under subdivision (a)(1) or (a)(2) is guilty of a Class A misdemeanor. A person convicted of an offense under subdivision (a)(3) or (a)(4) or a second or subsequent offense under subdivision (a)(1) or (a)(2) is guilty of a Class 4 felony.

(c) Expungement. A person convicted of a first offense under subdivision (a)(1) or (a)(2) who is eligible for the Earnfare program, shall, in lieu of the sentence prescribed in subsection (b), be referred to the Earnfare program. Upon certification of completion of the Earnfare program, the conviction shall be expunged. If the person fails to successfully complete the Earnfare program, he or she shall be sentenced in accordance with subsection (b).

(d) Fine. Sentences of imprisonment and fines for offenses committed under this Act shall be as provided under Articles 8 and 9 of Chapter V of the Unified Code of Corrections, except that the court shall order restitution of all unpaid support payments and may impose the following fines, alone, or in addition to a sentence of imprisonment under the following circumstances:

(1) from \$1,000 to \$5,000 if the support obligation has remained unpaid for a period longer than 2 years, or is in arrears in an amount greater than \$1,000 and not exceeding \$10,000;

(2) from \$5,000 to \$10,000 if the support obligation has remained unpaid for a period longer than 5 years, or is in arrears in an amount greater than \$10,000 and not exceeding \$20,000; or

(3) from \$10,000 to \$25,000 if the support obligation has remained unpaid for a period longer than 8 years, or is in arrears in an amount greater than \$20,000.

Restitution shall be ordered in an amount equal to the total unpaid support obligation as it existed at the time of sentencing. Any amounts paid by the obligor shall be allocated first to current support and then to restitution ordered and then to fines imposed under this Section.

Section 20. Entry of order for support; income withholding.

(a) In a case in which no court or administrative order for support is in effect against the defendant:

(1) at any time before the trial, upon motion of the State's Attorney, or of the Attorney General if the action has been instituted by his office, and upon notice to the defendant, or at the time of arraignment or as a condition of postponement of arraignment, the court may enter such temporary order for support as may seem just, providing for the support or maintenance of the spouse or child or children of the defendant, or both, pendente lite; or

(2) before trial with the consent of the defendant, or at the trial on entry of a plea of guilty, or after conviction,

[May 27, 1999]

instead of imposing the penalty provided in this Act, or in addition thereto, the court may enter an order for support, subject to modification by the court from time to time as circumstances may require, directing the defendant to pay a certain sum for maintenance of the spouse, or for support of the child or children, or both.

(b) The court shall determine the amount of child support by using the guidelines and standards set forth in subsection (a) of Section 505 and in Section 505.2 of the Illinois Marriage and Dissolution of Marriage Act.

(c) The court shall determine the amount of maintenance using the standards set forth in Section 504 of the Illinois Marriage and Dissolution of Marriage Act.

(d) The court may, for violation of any order under this Section, punish the offender as for a contempt of court, but no pendente lite order shall remain in effect longer than 4 months, or after the discharge of any panel of jurors summoned for service thereafter in such court, whichever is sooner.

(e) Any order for support entered by the court under this Section shall be deemed to be a series of judgments against the person obligated to pay support under the judgments, each such judgment to be in the amount of each payment or installment of support and each judgment to be deemed entered as of the date the corresponding payment or installment becomes due under the terms of the support order. Each judgment shall have the full force, effect, and attributes of any other judgment of this State, including the ability to be enforced. Each judgment is subject to modification or termination only in accordance with Section 510 of the Illinois Marriage and Dissolution of Marriage Act. A lien arises by operation of law against the real and personal property of the noncustodial parent for each installment of overdue support owed by the noncustodial parent.

(f) An order for support entered under this Section shall include a provision requiring the obligor to report to the obligee and to the

clerk of the court within 10 days each time the obligor obtains new employment, and each time the obligor's employment is terminated for any reason. The report shall be in writing and shall, in the case of new employment, include the name and address of the new employer.

Failure to report new employment or the termination of current employment, if coupled with nonpayment of support for a period in excess of 60 days, is indirect criminal contempt. For any obligor arrested for failure to report new employment, bond shall be set in the amount of the child support that should have been paid during the period of unreported employment.

An order for support entered under this Section shall also include a provision requiring the obligor and obligee parents to advise each other of a change in residence within 5 days of the change except when the court finds that the physical, mental, or emotional health of a party or of a minor child, or both, would be seriously endangered by disclosure of the party's address.

(g) An order for support entered or modified in a case in which a party is receiving child and spouse support services under Article X of the Illinois Public Aid Code shall include a provision requiring the noncustodial parent to notify the Illinois Department of Public Aid, within 7 days, of the name and address of any new employer of the noncustodial parent, whether the noncustodial parent has access to health insurance coverage through the employer or other group coverage and, if so, the policy name and number and the names of persons covered under the policy.

(h) In any subsequent action to enforce an order for support entered under this Act, upon sufficient showing that diligent effort

has been made to ascertain the location of the noncustodial parent, service of process or provision of notice necessary in that action may be made at the last known address of the noncustodial parent, in any manner expressly provided by the Code of Civil Procedure or in this Act, which service shall be sufficient for purposes of due process.

(i) An order for support shall include a date on which the current support obligation terminates. The termination date shall be no earlier than the date on which the child covered by the order will attain the age of majority or is otherwise emancipated. The order for support shall state that the termination date does not apply to any arrearage that may remain unpaid on that date. Nothing in this subsection shall be construed to prevent the court from modifying the order.

Section 22. Withholding of income to secure payment of support. An order for support entered or modified under this Act is subject to the Income Withholding for Support Act.

Section 25. Payment of support to State Disbursement Unit; clerk of the court.

(a) As used in this Section, "order for support", "obligor", "obligee", and "payor" mean those terms as defined in the Income Withholding for Support Act.

(b) Each order for support entered or modified under Section 20 of this Act shall require that support payments be made to the State Disbursement Unit established under the Illinois Public Aid Code,

under the following circumstances:

(1) when a party to the order is receiving child and spouse support services under Article X of the Illinois Public Aid Code; or

(2) when no party to the order is receiving child and spouse support services, but the support payments are made through income withholding.

(c) When no party to the order is receiving child and spouse support services, and payments are not being made through income withholding, the court shall order the obligor to make support payments to the clerk of the court.

(d) In the case of an order for support entered by the court under this Act before a party commenced receipt of child and spouse support services, upon receipt of these services by a party the Illinois Department of Public Aid shall provide notice to the obligor to send any support payments he or she makes personally to the State Disbursement Unit until further direction of the Department. The Department shall provide a copy of the notice to the obligee and to the clerk of the court.

(e) If a State Disbursement Unit as specified by federal law has not been created in Illinois upon the effective date of this Act, then, until the creation of a State Disbursement Unit as specified by federal law, the following provisions regarding payment and disbursement of support payments shall control and the provisions in subsections (a), (b), (c), and (d) shall be inoperative. Upon the creation of a State Disbursement Unit as specified by federal law, this subsection (e) shall be inoperative and the payment and disbursement provisions of subsections (a), (b), (c), and (d) shall control.

(1) In cases in which an order for support is entered under Section 20 of this Act, the court shall order that maintenance and support payments be made to the clerk of the court for remittance to the person or agency entitled to receive the payments. However, the court in its discretion may direct otherwise where exceptional circumstances so warrant.

(2) The court shall direct that support payments be sent by

the clerk to (i) the Illinois Department of Public Aid if the person in whose behalf payments are made is receiving aid under Articles III, IV, or V of the Illinois Public Aid Code, or child and spouse support services under Article X of the Code, or (ii) to the local governmental unit responsible for the support of the person if he or she is a recipient under Article VI of the Code. In accordance with federal law and regulations, the Illinois Department of Public Aid may continue to collect current maintenance payments or child support payments, or both, after those persons cease to receive public assistance and until termination of services under Article X of the Illinois Public Aid Code. The Illinois Department shall pay the net amount collected to those persons after deducting any costs incurred in making the collection or any collection fee from the amount of any recovery made. The order shall permit the Illinois Department of Public Aid or the local governmental unit, as the

case may be, to direct that support payments be made directly to the spouse, children, or both, or to some person or agency in their behalf, upon removal of the spouse or children from the public aid rolls or upon termination of services under Article X of the Illinois Public Aid Code; and upon such direction, the Illinois Department or the local governmental unit, as the case requires, shall give notice of such action to the court in writing or by electronic transmission.

(3) The clerk of the court shall establish and maintain current records of all moneys received and disbursed and of delinquencies and defaults in required payments. The court, by order or rule, shall make provision for the carrying out of these duties.

(4) Upon notification in writing or by electronic transmission from the Illinois Department of Public Aid to the clerk of the court that a person who is receiving support payments under this Section is receiving services under the Child Support Enforcement Program established by Title IV-D of the Social Security Act, any support payments subsequently received by the clerk of the court shall be transmitted in accordance with the instructions of the Illinois Department of Public Aid until the Department gives notice to cease the transmittal. After providing the notification authorized under this paragraph, the Illinois Department of Public Aid shall be a party and entitled to notice of any further proceedings in the case. The clerk of the court shall file a copy of the Illinois Department of Public Aid's notification in the court file. The failure of the clerk to file a copy of the notification in the court file shall not, however, affect the Illinois Department of Public Aid's rights as a party or its right to receive notice of further proceedings.

(5) Payments under this Section to the Illinois Department of Public Aid pursuant to the Child Support Enforcement Program established by Title IV-D of the Social Security Act shall be paid into the Child Support Enforcement Trust Fund. All other payments under this Section to the Illinois Department of Public Aid shall be deposited in the Public Assistance Recoveries Trust Fund. Disbursements from these funds shall be as provided in the Illinois Public Aid Code. Payments received by a local governmental unit shall be deposited in that unit's General Assistance Fund.

(6) For those cases in which child support is payable to the clerk of the circuit court for transmittal to the Illinois Department of Public Aid by order of court or upon notification by the Illinois Department of Public Aid, the clerk shall transmit all such payments, within 4 working days of receipt, to

insure that funds are available for immediate distribution by the Department to the person or entity entitled thereto in accordance with standards of the Child Support Enforcement Program established under Title IV-D of the Social Security Act. The clerk shall notify the Department of the date of receipt and amount thereof at the time of transmittal. Where the clerk has entered into an agreement of cooperation with the Department to

record the terms of child support orders and payments made thereunder directly into the Department's automated data processing system, the clerk shall account for, transmit and otherwise distribute child support payments in accordance with such agreement in lieu of the requirements contained herein.

Section 30. Information to State Case Registry.

(a) When an order for support is entered or modified under Section 20 of this Act, the clerk of the court shall, within 5 business days, provide to the State Case Registry established under Section 10-27 of the Illinois Public Aid Code the court docket number and county in which the order is entered or modified and the following information, which the parents involved in the case shall disclose to the court:

(1) the names of the custodial and noncustodial parents and of the child or children covered by the order;

(2) the dates of birth of the custodial and noncustodial parents and of the child or children covered by the order;

(3) the social security numbers of the custodial and noncustodial parents and, if available, of the child or children covered by the order;

(4) the residential and mailing address for the custodial and noncustodial parents;

(5) the telephone numbers for the custodial and noncustodial parents;

(6) the driver's license numbers for the custodial and noncustodial parents; and

(7) the name, address, and telephone number of each parent's employer or employers.

(b) When an order for support is entered or modified under Section 20 in a case in which a party is receiving child and spouse support services under Article X of the Illinois Public Aid Code, the clerk shall provide the State Case Registry with the following information within 5 business days:

(1) the information specified in subsection (a);

(2) the amount of monthly or other periodic support owed under the order and other amounts, including arrearages, interest, or late payment penalties and fees, due or overdue under the order;

(3) any amounts described in subdivision (2) of this subsection (b) that have been received by the clerk; and

(4) the distribution of the amounts received by the clerk.

(c) A party shall report to the clerk of the circuit court changes in information required to be disclosed under this Section within 5 business days of the change.

(d) To the extent that updated information is in the clerk's possession, the clerk shall provide updates of the information specified in subsection (b) within 5 business days after the Illinois Department of Public Aid's request for that updated information.

Section 35. Fine; release of defendant on probation; violation of order for support; forfeiture of recognizance.

(a) Whenever a fine is imposed it may be directed by the court to be paid, in whole or in part, to the spouse, ex-spouse, or if the support of a child or children is involved, to the custodial parent, to the clerk, probation officer, or to the Illinois Department of

Public Aid if a recipient of child and spouse support services under Article X of the Illinois Public Aid Code is involved as the case requires, to be disbursed by such officers or agency under the terms of the order.

(b) The court may also relieve the defendant from custody on probation for the period fixed in the order or judgment upon his or her entering into a recognizance, with or without surety, in the sum as the court orders and approves. The condition of the recognizance shall be such that if the defendant makes his or her personal appearance in court whenever ordered to do so by the court, during such period as may be so fixed, and further complies with the terms of the order for support, or any subsequent modification of the order, then the recognizance shall be void; otherwise it will remain in full force and effect.

(c) If the court is satisfied by testimony in open court, that at any time during the period of one year the defendant has violated the terms of the order for support, it may proceed with the trial of the defendant under the original charge, or sentence him or her under the original conviction, or enforce the suspended sentence, as the case may be. In case of forfeiture of recognizance, and enforcement of recognizance by execution, the sum so recovered may, in the discretion of the court, be paid, in whole or in part, to the spouse, ex-spouse, or if the support of a child or children is involved, to the custodial parent, to the clerk, or to the Illinois Department of Public Aid if a recipient of child and spouse support services under Article X of the Illinois Public Aid Code is involved as the case requires, to be disbursed by the clerk or the Department under the terms of the order.

Section 40. Evidence. No other or greater evidence shall be required to prove the marriage of a husband and wife, or that the defendant is the father or mother of the child or children than is or shall be required to prove that fact in a civil action.

Section 45. Husband or wife as competent witness. In no prosecution under this Act shall any existing statute or rule of law prohibiting the disclosure of confidential communications between husband and wife apply. And both husband and wife shall be competent witnesses to testify to any and all relevant matters, including the fact of such marriage and of the parentage of such child or children, provided that neither shall be compelled to give evidence incriminating himself or herself.

Section 50. Community service; work alternative program.

(a) In addition to any other penalties imposed against an offender under this Act, the court may order the offender to perform community service for not less than 30 and not more than 120 hours per month, if community service is available in the jurisdiction and is funded and approved by the county board of the county where the offense was committed. In addition, whenever any person is placed on supervision for committing an offense under this Act, the supervision shall be conditioned on the performance of the community service.

(b) In addition to any other penalties imposed against an offender under this Act, the court may sentence the offender to service in a work alternative program administered by the sheriff. The conditions of the program are that the offender obtain or retain employment and participate in a work alternative program administered by the sheriff during non-working hours. A person may not be

required to participate in a work alternative program under this subsection if the person is currently participating in a work program pursuant to another provision of this Act, Section 10-11.1 of the Illinois Public Aid Code, Section 505.1 of the Illinois Marriage and Dissolution of Marriage Act, or Section 15.1 of the Illinois Parentage Act of 1984.

(c) In addition to any other penalties imposed against an offender under this Act, the court may order, in cases where the offender has been in violation of this Act for 90 days or more, that the offender's Illinois driving privileges be suspended until the court determines that the offender is in compliance with this Act.

The court may determine that the offender is in compliance with this Act if the offender has agreed (i) to pay all required amounts of support and maintenance as determined by the court or (ii) to the garnishment of his or her income for the purpose of paying those amounts.

The court may also order that the offender be issued a family financial responsibility driving permit that would allow limited driving privileges for employment and medical purposes in accordance with Section 7-702.1 of the Illinois Vehicle Code. The clerk of the circuit court shall certify the order suspending the driving privileges of the offender or granting the issuance of a family financial responsibility driving permit to the Secretary of State on forms prescribed by the Secretary. Upon receipt of the authenticated documents, the Secretary of State shall suspend the offender's driving privileges until further order of the court and shall, if ordered by the court, subject to the provisions of Section 7-702.1 of the Illinois Vehicle Code, issue a family financial responsibility driving permit to the offender.

(d) If the court determines that the offender has been in violation of this Act for more than 60 days, the court may determine whether the offender has applied for or been issued a professional license by the Department of Professional Regulation or another licensing agency. If the court determines that the offender has applied for or been issued such a license, the court may certify to the Department of Professional Regulation or other licensing agency that the offender has been in violation of this Act for more than 60 days so that the Department or other agency may take appropriate steps with respect to the license or application as provided in Section 10-65 of the Illinois Administrative Procedure Act and Section 60 of the Civil Administrative Code of Illinois. The court may take the actions required under this subsection in addition to imposing any other penalty authorized under this Act.

Section 55. Offenses; how construed. It is hereby expressly declared that the offenses set forth in this Act shall be construed to be continuing offenses.

Section 60. Unemployed persons owing duty of support.

(a) Whenever it is determined in a proceeding to establish or enforce a child support or maintenance obligation that the person owing a duty of support is unemployed, the court may order the person to seek employment and report periodically to the court with a diary, listing or other memorandum of his or her efforts in accordance with

such order. Additionally, the court may order the unemployed person to report to the Department of Employment Security for job search services or to make application with the local Jobs Training Partnership Act provider for participation in job search, training, or work programs and where the duty of support is owed to a child receiving support services under Article X of the Illinois Public Aid Code the court may order the unemployed person to report to the Illinois Department of Public Aid for participation in job search, training, or work programs established under Section 9-6 and Article IXA of that Code.

(b) Whenever it is determined that a person owes past due support for a child or for a child and the parent with whom the child is living, and the child is receiving assistance under the Illinois Public Aid Code, the court shall order at the request of the Illinois Department of Public Aid:

4756

JOURNAL OF THE

[May 27, 1999]

(1) that the person pay the past-due support in accordance with a plan approved by the court; or

(2) if the person owing past-due support is unemployed, is subject to such a plan, and is not incapacitated, that the person participate in such job search, training, or work programs established under Section 9-6 and Article IXA of the Illinois Public Aid Code as the court deems appropriate.

Section 65. Order of protection; status. Whenever relief sought under this Act is based on allegations of domestic violence, as defined in the Illinois Domestic Violence Act of 1986, the court, before granting relief, shall determine whether any order of protection has previously been entered in the instant proceeding or any other proceeding in which any party, or a child of any party, or both, if relevant, has been designated as either a respondent or a protected person.

Section 70. Severability. If any provision of this Act or its application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of this Act that can be given effect without the invalid provision or application.

Section 905. The Illinois Administrative Procedure Act is amended by changing Section 10-65 as follows:

(5 ILCS 100/10-65) (from Ch. 127, par. 1010-65)

Sec. 10-65. Licenses.

(a) When any licensing is required by law to be preceded by notice and an opportunity for a hearing, the provisions of this Act concerning contested cases shall apply.

(b) When a licensee has made timely and sufficient application for the renewal of a license or a new license with reference to any activity of a continuing nature, the existing license shall continue in full force and effect until the final agency decision on the application has been made unless a later date is fixed by order of a reviewing court.

(c) An application for the renewal of a license or a new license shall include the applicant's social security number. Each agency shall require the licensee to certify on the application form, under penalty of perjury, that he or she is not more than 30 days

delinquent in complying with a child support order. Every application shall state that failure to so certify shall result in disciplinary action, and that making a false statement may subject the licensee to contempt of court. The agency shall notify each applicant or licensee who acknowledges a delinquency or who, contrary to his or her certification, is found to be delinquent or who after receiving notice, fails to comply with a subpoena or warrant relating to a paternity or a child support proceeding, that the agency intends to take disciplinary action. Accordingly, the agency shall provide written notice of the facts or conduct upon which the agency will rely to support its proposed action and the applicant or licensee shall be given an opportunity for a hearing in accordance with the provisions of the Act concerning contested cases. Any delinquency in complying with a child support order can be remedied by arranging for payment of past due and current support. Any failure to comply with a subpoena or warrant relating to a paternity or child support proceeding can be remedied by complying with the subpoena or warrant. Upon a final finding of delinquency or failure to comply with a subpoena or warrant, the agency shall suspend, revoke, or refuse to issue or renew the license. In cases in which the Department of Public Aid has previously determined that an applicant or a licensee is more than 30 days delinquent in the payment of child support and has subsequently certified the delinquency to the licensing agency, and in cases in which a court has previously determined that an

applicant or licensee has been in violation of the Non-Support Punishment Act for more than 60 days, the licensing agency shall refuse to issue or renew or shall revoke or suspend that person's license based solely upon the certification of delinquency made by the Department of Public Aid or the certification of violation made by the court. Further process, hearings, or redetermination of the delinquency or violation by the licensing agency shall not be required. The licensing agency may issue or renew a license if the licensee has arranged for payment of past and current child support obligations in a manner satisfactory to the Department of Public Aid or the court. The licensing agency may impose conditions, restrictions, or disciplinary action upon that license.

(d) Except as provided in subsection (c), no agency shall revoke, suspend, annul, withdraw, amend materially, or refuse to renew any valid license without first giving written notice to the licensee of the facts or conduct upon which the agency will rely to support its proposed action and an opportunity for a hearing in accordance with the provisions of this Act concerning contested cases. At the hearing, the licensee shall have the right to show compliance with all lawful requirements for the retention, continuation, or renewal of the license. If, however, the agency finds that the public interest, safety, or welfare imperatively requires emergency action, and if the agency incorporates a finding to that effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action. Those proceedings shall be promptly instituted and determined.

(e) Any application for renewal of a license that contains required and relevant information, data, material, or circumstances

that were not contained in an application for the existing license shall be subject to the provisions of subsection (a).

Section 910. The Civil Administrative Code of Illinois is amended by changing Section 43a.14 as follows:

(20 ILCS 1005/43a.14)

Sec. 43a.14. Exchange of information for child support enforcement.

(a) To exchange with the Illinois Department of Public Aid information that may be necessary for the enforcement of child support orders entered pursuant to the Illinois Public Aid Code, the Illinois Marriage and Dissolution of Marriage Act, the Non-Support of Spouse and Children Act, the Non-Support Punishment Act, the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstate Family Support Act, or the Illinois Parentage Act of 1984.

(b) Notwithstanding any provisions in this Code to the contrary, the Department of Employment Security shall not be liable to any person for any disclosure of information to the Illinois Department of Public Aid under subsection (a) or for any other action taken in good faith to comply with the requirements of subsection (a).

(Source: P.A. 90-18, eff. 7-1-97.)

Section 915. The Civil Administrative Code of Illinois is amended by changing Section 60 as follows:

(20 ILCS 2105/60) (from Ch. 127, par. 60)

Sec. 60. Powers and duties. The Department of Professional Regulation shall have, subject to the provisions of this Act, the following powers and duties:

1. To authorize examinations in English to ascertain the qualifications and fitness of applicants to exercise the profession, trade, or occupation for which the examination is held.

2. To prescribe rules and regulations for a fair and wholly impartial method of examination of candidates to exercise the respective professions, trades, or occupations.

3. To pass upon the qualifications of applicants for licenses,

certificates, and authorities, whether by examination, by reciprocity, or by endorsement.

4. To prescribe rules and regulations defining, for the respective professions, trades, and occupations, what shall constitute a school, college, or university, or department of a university, or other institutions, reputable and in good standing and to determine the reputability and good standing of a school, college, or university, or department of a university, or other institution, reputable and in good standing by reference to a compliance with such rules and regulations: provided, that no school, college, or university, or department of a university or other institution that refuses admittance to applicants solely on account of race, color, creed, sex, or national origin shall be considered reputable and in good standing.

5. To conduct hearings on proceedings to revoke, suspend, refuse to renew, place on probationary status, or take other disciplinary action as may be authorized in any licensing Act administered by the Department with regard to licenses, certificates, or authorities of persons exercising the respective professions, trades, or

occupations, and to revoke, suspend, refuse to renew, place on probationary status, or take other disciplinary action as may be authorized in any licensing Act administered by the Department with regard to such licenses, certificates, or authorities. The Department shall issue a monthly disciplinary report. The Department shall deny any license or renewal authorized by this Act to any person who has defaulted on an educational loan or scholarship provided by or guaranteed by the Illinois Student Assistance Commission or any governmental agency of this State; however, the Department may issue a license or renewal if the aforementioned persons have established a satisfactory repayment record as determined by the Illinois Student Assistance Commission or other appropriate governmental agency of this State. Additionally, beginning June 1, 1996, any license issued by the Department may be suspended or revoked if the Department, after the opportunity for a hearing under the appropriate licensing Act, finds that the licensee has failed to make satisfactory repayment to the Illinois Student Assistance Commission for a delinquent or defaulted loan. For the purposes of this Section, "satisfactory repayment record" shall be defined by rule. The Department shall refuse to issue or renew a license to, or shall suspend or revoke a license of, any person who, after receiving notice, fails to comply with a subpoena or warrant relating to a paternity or child support proceeding. However, the Department may issue a license or renewal upon compliance with the subpoena or warrant.

The Department, without further process or hearings, shall revoke, suspend, or deny any license or renewal authorized by this Act to a person who is certified by the Illinois Department of Public Aid as being more than 30 days delinquent in complying with a child support order or who is certified by a court as being in violation of the Non-Support of Punishment Act for more than 60 days; the Department may, however, issue a license or renewal if the person has established a satisfactory repayment record as determined by the Illinois Department of Public Aid or if the person is determined by the court to be in compliance with the Non-Support Punishment Act. The Department may implement this paragraph as added by Public Act 89-6 through the use of emergency rules in accordance with Section 5-45 of the Illinois Administrative Procedure Act. For purposes of the Illinois Administrative Procedure Act, the adoption of rules to implement this paragraph shall be considered an emergency and necessary for the public interest, safety, and welfare.

6. To transfer jurisdiction of any realty under the control of

the Department to any other Department of the State Government, or to acquire or accept Federal lands, when such transfer, acquisition or acceptance is advantageous to the State and is approved in writing by the Governor.

7. To formulate rules and regulations as may be necessary for the enforcement of any act administered by the Department.

8. To exchange with the Illinois Department of Public Aid information that may be necessary for the enforcement of child support orders entered pursuant to the Illinois Public Aid Code, the Illinois Marriage and Dissolution of Marriage Act, the Non-Support of

Spouse and Children Act, the Non-Support Punishment Act, the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstate Family Support Act, or the Illinois Parentage Act of 1984. Notwithstanding any provisions in this Code to the contrary, the Department of Professional Regulation shall not be liable under any federal or State law to any person for any disclosure of information to the Illinois Department of Public Aid under this paragraph 8 or for any other action taken in good faith to comply with the requirements of this paragraph 8.

9. To perform such other duties as may be prescribed by law.

The Department may, when a fee is payable to the Department for a wall certificate of registration provided by the Department of Central Management Services, require that portion of the payment for printing and distribution costs be made directly or through the Department, to the Department of Central Management Services for deposit in the Paper and Printing Revolving Fund, the remainder shall be deposited in the General Revenue Fund.

For the purpose of securing and preparing evidence, and for the purchase of controlled substances, professional services, and equipment necessary for enforcement activities, recoupment of investigative costs and other activities directed at suppressing the misuse and abuse of controlled substances, including those activities set forth in Sections 504 and 508 of the Illinois Controlled Substances Act, the Director and agents appointed and authorized by the Director may expend such sums from the Professional Regulation Evidence Fund as the Director deems necessary from the amounts appropriated for that purpose and such sums may be advanced to the agent when the Director deems such procedure to be in the public interest. Sums for the purchase of controlled substances, professional services, and equipment necessary for enforcement activities and other activities as set forth in this Section shall be advanced to the agent who is to make such purchase from the Professional Regulation Evidence Fund on vouchers signed by the Director. The Director and such agents are authorized to maintain one or more commercial checking accounts with any State banking corporation or corporations organized under or subject to the Illinois Banking Act for the deposit and withdrawal of moneys to be used for the purposes set forth in this Section; provided, that no check may be written nor any withdrawal made from any such account except upon the written signatures of 2 persons designated by the Director to write such checks and make such withdrawals. Vouchers for such expenditures must be signed by the Director and all such expenditures shall be audited by the Director and the audit shall be submitted to the Department of Central Management Services for approval.

Whenever the Department is authorized or required by law to consider some aspect of criminal history record information for the purpose of carrying out its statutory powers and responsibilities, then, upon request and payment of fees in conformance with the requirements of subsection 22 of Section 55a of the Civil Administrative Code of Illinois, the Department of State Police is

authorized to furnish, pursuant to positive identification, such

information contained in State files as is necessary to fulfill the request.

The provisions of this Section do not apply to private business and vocational schools as defined by Section 1 of the Private Business and Vocational Schools Act.

(305 ILCS 5/10-3.1) (from Ch. 23, par. 10-3.1)

Sec. 10-3.1. Child and Spouse Support Unit. The Illinois Department shall establish within its administrative staff a Child and Spouse Support Unit to search for and locate absent parents and spouses liable for the support of persons resident in this State and to exercise the support enforcement powers and responsibilities assigned the Department by this Article. The unit shall cooperate with all law enforcement officials in this State and with the authorities of other States in locating persons responsible for the support of persons resident in other States and shall invite the cooperation of these authorities in the performance of its duties.

In addition to other duties assigned the Child and Spouse Support Unit by this Article, the Unit may refer to the Attorney General or units of local government with the approval of the Attorney General, any actions under Sections 10-10 and 10-15 for judicial enforcement of the support liability. The Child and Spouse Support Unit shall act for the Department in referring to the Attorney General support matters requiring judicial enforcement under other laws. JOURNAL OF THE

[May 27, 1999]

An attorney who provides representation pursuant to this Section shall represent the Illinois Department exclusively. Regardless of the designation of the plaintiff in an action brought pursuant to this Section, an attorney-client relationship does not exist for purposes of that action between that attorney and (i) an applicant for or recipient of child and spouse support services or (ii) any other party to the action other than the Illinois Department. Nothing in this Section shall be construed to modify any power or duty (including a duty to maintain confidentiality) of the Child and Spouse Support Unit or the Illinois Department otherwise provided by law.

The Illinois Department may also enter into agreements with local governmental units for the Child and Spouse Support Unit to exercise the investigative and enforcement powers designated in this Article, including the issuance of administrative orders under Section 10-11, in locating responsible relatives and obtaining support for persons applying for or receiving aid under Article VI. Payments for defrayment of administrative costs and support payments obtained shall be deposited into the Public Assistance Recoveries Trust Fund. Support payments shall be paid over to the General Assistance Fund of the local governmental unit at such time or times as the agreement may specify.

With respect to those cases in which it has support enforcement powers and responsibilities under this Article, the Illinois Department may provide by rule for periodic or other review of each administrative and court order for support to determine whether a modification of the order should be sought. The Illinois Department shall provide for and conduct such review in accordance with any applicable federal law and regulation.

As part of its process for review of orders for support, the Illinois Department, through written notice, may require the responsible relative to disclose his or her Social Security Number and past and present information concerning the relative's address, employment, gross wages, deductions from gross wages, net wages, bonuses, commissions, number of dependent exemptions claimed, individual and dependent health insurance coverage, and any other information necessary to determine the relative's ability to provide support in a case receiving child and spouse support services under this Article X.

The Illinois Department may send a written request for the same

information to the relative's employer. The employer shall respond to the request for information within 15 days after the date the employer receives the request. If the employer willfully fails to fully respond within the 15-day period, the employer shall pay a penalty of \$100 for each day that the response is not provided to the Illinois Department after the 15-day period has expired. The penalty may be collected in a civil action which may be brought against the employer in favor of the Illinois Department.

A written request for information sent to an employer pursuant to this Section shall consist of (i) a citation of this Section as the statutory authority for the request and for the employer's obligation to provide the requested information, (ii) a returnable form setting forth the employer's name and address and listing the name of the employee with respect to whom information is requested, and (iii) a citation of this Section as the statutory authority authorizing the employer to withhold a fee of up to \$20 from the wages or income to be paid to each responsible relative for providing the information to the Illinois Department within the 15-day period. If the employer is withholding support payments from the responsible relative's income pursuant to an order for withholding, the employer may withhold the fee provided for in this Section only after withholding support as

SENATE

required under the order. Any amounts withheld from the responsible relative's income for payment of support and the fee provided for in this Section shall not be in excess of the amounts permitted under the federal Consumer Credit Protection Act.

In a case receiving child and spouse support services, the Illinois Department may request and obtain information from a particular employer under this Section no more than once in any 12-month period, unless the information is necessary to conduct a review of a court or administrative order for support at the request of the person receiving child and spouse support services.

The Illinois Department shall establish and maintain an administrative unit to receive and transmit to the Child and Spouse Support Unit information supplied by persons applying for or receiving child and spouse support services under Section 10-1. In addition, the Illinois Department shall address and respond to any alleged deficiencies that persons receiving or applying for services from the Child and Spouse Support Unit may identify concerning the Child and Spouse Support Unit's provision of child and spouse support services. Within 60 days after an action or failure to act by the Child and Spouse Support Unit that affects his or her case, a recipient of or applicant for child and spouse support services under Article X of this Code may request an explanation of the Unit's handling of the case. At the requestor's option, the explanation may be provided either orally in an interview, in writing, or both. If the Illinois Department fails to respond to the request for an explanation or fails to respond in a manner satisfactory to the applicant or recipient within 30 days from the date of the request for an explanation, the applicant or recipient may request a conference for further review of the matter by the Office of the Administrator of the Child and Spouse Support Unit. A request for a conference may be submitted at any time within 60 days after the

explanation has been provided by the Child and Spouse Support Unit or within 60 days after the time for providing the explanation has expired.

The applicant or recipient may request a conference concerning any decision denying or terminating child or spouse support services under Article X of this Code, and the applicant or recipient may also request a conference concerning the Unit's failure to provide services or the provision of services in an amount or manner that is considered inadequate. For purposes of this Section, the Child and Spouse Support Unit includes all local governmental units or individuals with whom the Illinois Department has contracted under Section 10-3.1.

Upon receipt of a timely request for a conference, the Office of the Administrator shall review the case. The applicant or recipient requesting the conference shall be entitled, at his or her option, to appear in person or to participate in the conference by telephone. The applicant or recipient requesting the conference shall be entitled to be represented and to be afforded a reasonable opportunity to review the Illinois Department's file before or at the conference. At the conference, the applicant or recipient requesting the conference shall be afforded an opportunity to present all relevant matters in support of his or her claim. Conferences shall be without cost to the applicant or recipient requesting the conference and shall be conducted by a representative of the Child or Spouse Support Unit who did not participate in the action or inaction being reviewed.

The Office of the Administrator shall conduct a conference and inform all interested parties, in writing, of the results of the conference within 60 days from the date of filing of the request for a conference.

In addition to its other powers and responsibilities established by this Article, the Child and Spouse Support Unit shall conduct an annual assessment of each institution's program for institution based paternity establishment under Section 12 of the Vital Records Act.

(b) The Illinois Department shall provide by rule for notice to

and an opportunity to be heard by each responsible relative affected, and any final administrative decision rendered by the Illinois Department shall be reviewed only under and in accordance with the Administrative Review Law.

(c) When enforcing a lien under subsection (a) of this Section, the Illinois Department shall have the authority to execute notices of administrative liens and levies, which shall contain the name and address of the responsible relative, a legal description of the real property to be levied, the fact that a lien is being claimed for past-due child support, and such other information as the Illinois Department may by rule prescribe. The Illinois Department shall record the notice of lien with the recorder or registrar of titles of the county or counties in which the real estate is located.

(d) The State's lien under subsection (a) shall be enforceable upon the recording or filing of a notice of lien with the recorder or registrar of titles of the county or counties in which the real estate is located. The lien shall be prior to any lien thereafter recorded or filed and shall be notice to a subsequent purchaser, assignor, or encumbrancer of the existence and nature of the lien. The lien shall be inferior to the lien of general taxes, special assessment, and special taxes heretofore or hereafter levied by any political subdivision or municipal corporation of the State.

In the event that title to the land to be affected by the notice of lien is registered under the Registered Titles (Torrens) Act, the notice shall be filed in the office of the registrar of titles as a memorial or charge upon each folium of the register of titles affected by the notice; but the State shall not have a preference over the rights of any bona fide purchaser, mortgagee, judgment creditor, or other lien holders registered prior to the registration of the notice.

(e) The recorder or registrar of titles of each county shall procure a file labeled "Child Support Lien Notices" and an index book labeled "Child Support Lien Notices". When notice of any lien is presented to the recorder or registrar of titles for filing, the recorder or registrar of titles shall file it in numerical order in the file and shall enter it alphabetically in the index. The entry shall show the name and last known address of the person named in the notice, the serial number of the notice, the date and hour of filing, and the amount of child support due at the time when the lien is filed.

(f) The Illinois Department shall not be required to furnish bond or make a deposit for or pay any costs or fees of any court or officer thereof in any legal proceeding involving the lien.

(g) To protect the lien of the State for past-due child support, the Illinois Department may, from funds that are available for that purpose, pay or provide for the payment of necessary or essential repairs, purchase tax certificates, pay balances due on land contracts, or pay or cause to be satisfied any prior liens on the property to which the lien hereunder applies.

(h) A lien on real property under this Section shall be released pursuant to Section 12-101 of the Code of Civil Procedure.

(i) The Illinois Department, acting in behalf of the State, may foreclose the lien in a judicial proceeding to the same extent and in the same manner as in the enforcement of other liens. The Illinois Department may serve the notice of lien or levy upon any financial institution where the accounts as defined in Section 10-24 of the responsible relative may be held, for encumbrance or surrender of the accounts as defined in Section 10-24 by the financial institution.

(d) The Illinois Department shall enforce its lien against the responsible relative's personal property, other than accounts as defined in Section 10-24 in financial institutions, and levy upon such personal property in the manner provided for enforcement of judgments contained in Article XII of the Code of Civil Procedure.

(e) The Illinois Department shall not be required to furnish bond or make a deposit for or pay any costs or fees of any court or officer thereof in any legal proceeding involving the lien.

(f) To protect the lien of the State for past-due child support, the Illinois Department may, from funds that are available for that purpose, pay or provide for the payment of necessary or essential repairs, purchase tax certificates, or pay or cause to be satisfied any prior liens on the property to which the lien hereunder applies.

(g) A lien on personal property under this Section shall be released in the manner provided under Article XII of the Code of Civil Procedure. Notwithstanding the foregoing, a lien under this Section on accounts as defined in Section 10-24 shall expire upon the passage of 120 days from the date of issuance of the Notice of Lien or Levy by the Illinois Department. Sec. 7-702.1. Family financial responsibility driving permits. Following the entry of an order that an obligor has been found in contempt by the court for failure to pay court ordered child support payments or upon a motion by the obligor who is subject to having his or her driver's license suspended pursuant to subsection (b) of Section 7-703, the court may enter an order directing the Secretary of State to issue a family financial responsibility driving permit for the purpose of providing the obligor the privilege of operating a motor vehicle between the obligor's residence and place of employment, or within the scope of employment related duties; or for the purpose of providing transportation for the obligor or a household member to receive alcohol treatment, other drug treatment, or medical care. The court may enter an order directing the issuance of a permit only if the obligor has proven to the satisfaction of the court that no alternative means of transportation are reasonably available for the above stated purposes. No permit shall be issued to a person under the age of 16 years who possesses an instruction permit.

Upon entry of an order granting the issuance of a permit to an obligor, the court shall report this finding to the Secretary of State on a form prescribed by the Secretary. This form shall state whether the permit has been granted for employment or medical purposes and the specific days and hours for which limited driving privileges have been granted.

The family financial responsibility driving permit shall be subject to cancellation, invalidation, suspension, and revocation by the Secretary of State in the same manner and for the same reasons as a driver's license may be cancelled, invalidated, suspended, or revoked.

The Secretary of State shall, upon receipt of a certified court order from the court of jurisdiction, issue a family financial responsibility driving permit. In order for this permit to be issued, an individual's driving privileges must be valid except for the

family financial responsibility suspension. This permit shall be valid only for employment and medical purposes as set forth above. The permit shall state the days and hours for which limited driving privileges have been granted.

Any submitted court order that contains insufficient data or fails to comply with any provision of this Code shall not be used for issuance of the permit or entered to the individual's driving record but shall be returned to the court of jurisdiction indicating why the permit cannot be issued at that time. The Secretary of State shall also send notice of the return of the court order to the individual requesting the permit.

For any such certification, the clerk of the court shall charge the obligor a fee of \$5 as provided in the Clerks of Courts Act.

(b) If an obligor has been adjudicated in arrears in court ordered child support payments in an amount equal to 90 days obligation or more but has not been held in contempt of court, the circuit court may order that the obligor's driving privileges be suspended. If the circuit court orders that the obligor's driving

privileges be suspended, it shall forward to the Secretary of State, on a form prescribed by the Secretary, an authenticated document certifying the court's order suspending the driving privileges of the obligor. The authenticated document shall be forwarded to the Secretary of State by the court no later than 45 days after entry of the order suspending the obligor's driving privileges.

(b) The obligor may contest the issue of compliance at a hearing;

(c) A request for a hearing must be made in writing and must be received by the clerk of the circuit court;

(e) If the circuit court certifies the obligor to the Secretary of State for noncompliance with an order of support, the Secretary of State must suspend any driver's license or instruction permit the obligor holds and the obligor's right to apply for or obtain a driver's license or instruction permit until the obligor comes into compliance with the order of support;

(f) If the obligor files a motion to modify support with the court or requests the court to modify a support obligation, the circuit court shall stay action to certify the obligor to the

(b) If a written request for a hearing is received by the clerk of the circuit court, the clerk of the circuit court shall set the hearing before the circuit court.

(c) Upon the obligor's written request, the court must set a date for a hearing and afford the obligor an opportunity for a hearing as early as practical.

(d) The scope of this hearing is limited to the following issues:

(1) Whether the obligor is required to pay child support under an order of support.

(2) Whether the obligor has been adjudicated in arrears in court ordered child support payments in an amount equal to 90 days obligation or more.

(3) Any additional issues raised by the obligor, including the reasonableness of a payment agreement in light of the obligor's current financial circumstances, to be preserved for appeal.

(e) All hearings and hearing procedures shall comply with requirements of the Illinois Constitution and the United States Constitution, so that no person is deprived of due process of law nor denied equal protection of the laws. All hearings shall be held before a judge of the circuit court in the county in which the support order has been entered. Appropriate records of the hearings shall be kept. Where a transcript of the hearing is taken, the person requesting the hearing shall have the opportunity to order a copy of the transcript at his or her own expense.

Section 970. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Section 713 as follows:

(750 ILCS 5/713) (from Ch. 40, par. 713)

Sec. 713. Attachment of the Body. As used in this Section, "obligor" has the same meaning ascribed to such term in the Income Withholding for Support Act.

(a) In any proceeding to enforce an order for support, where the obligor has failed to appear in court pursuant to order of court and after due notice thereof, the court may enter an order for the

attachment of the body of the obligor. Notices under this Section shall be served upon the obligor either (1) by prepaid certified mail with delivery restricted to the obligor, or (2) by personal service on the obligor. The attachment order shall fix an amount of escrow which is equal to a minimum of 20% of the total child support arrearage alleged by the obligee in sworn testimony to be due and owing. The attachment order shall direct the Sheriff of any county in Illinois to take the obligor into custody and shall set the number of days following release from custody for a hearing to be held at which the obligor must appear, if he is released under subsection (c) of this Section.

(b) If the obligor is taken into custody, the Sheriff shall take the obligor before the court which entered the attachment order. However, the Sheriff may release the person after he or she has deposited the amount of escrow ordered by the court pursuant to local procedures for the posting of bond. The Sheriff shall advise the obligor of the hearing date at which the obligor is required to appear.

(c) Any escrow deposited pursuant to this Section shall be transmitted to the Clerk of the Circuit Court for the county in which the order for attachment of the body of the obligor was entered. Any Clerk who receives money deposited into escrow pursuant to this Section shall notify the obligee, public office or legal counsel whose name appears on the attachment order of the court date at which the obligor is required to appear and the amount deposited into escrow. The Clerk shall disburse such money to the obligee only under an order from the court that entered the attachment order pursuant to this Section.

(d) Whenever an obligor is taken before the court by the Sheriff, or appears in court after the court has ordered the attachment of his body, the court shall:

(1) hold a hearing on the complaint or petition that gave rise to the attachment order. For purposes of determining arrearages that are due and owing by the obligor, the court shall accept the previous sworn testimony of the obligee as true and the appearance of the obligee shall not be required. The court shall require sworn testimony of the obligor as to his or her Social Security number, income, employment, bank accounts, property and any other assets. If there is a dispute as to the total amount of arrearages, the court shall proceed as in any other case as to the undisputed amounts; and

(2) order the Clerk of the Circuit Court to disburse to the obligee or public office money held in escrow pursuant to this Section if the court finds that the amount of arrearages exceeds the amount of the escrow. Amounts received by the obligee or public office shall be deducted from the amount of the arrearages.

(e) If the obligor fails to appear in court after being notified of the court date by the Sheriff upon release from custody, the court shall order any monies deposited into escrow to be immediately released to the obligee or public office and shall proceed under subsection (a) of this Section by entering another order for the attachment of the body of the obligor.

(f) This Section shall apply to any order for support issued under the "Illinois Marriage and Dissolution of Marriage Act",

approved September 22, 1977, as amended; the "Illinois Parentage Act of 1984", effective July 1, 1985, as amended; the "Revised Uniform Reciprocal Enforcement of Support Act", approved August 28, 1969, as amended; "The Illinois Public Aid Code", approved April 11, 1967, as amended; the Non-Support Punishment Act; and the "Non-support of Spouse and Children Act", approved June 8, 1953, as amended.

"Section 10. The Economic Development Project Area Tax Increment Allocation Act of 1995 is amended by changing Sections 5 and 10 as follows:

(65 ILCS 110/5)

Sec. 5. Legislative Declaration.

(a) The General Assembly finds, determines, and declares the following:

(1) Actions taken by the Secretary of Defense to close military installations under Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526; 10 U.S.C. 2687 note), the Defense Base Closure and Realignment Act of 1990 (part A of Title XXIX of

Public Law 101-510; 10 U.S.C. 2687 note), ~~or~~ Section 2687 of Title 10 of the United States Code (10 U.S.C. 2687), and actions taken by the Secretary of the Army to transfer the military installation, described in subsection (b) of Section 15 of the Joliet Arsenal Development Authority Act, pursuant to the Illinois Land Conservation Act (Title XXIX of Public Law 104-106; 16 U.S.C. 1609), as supplemented and amended, have an adverse socioeconomic impact upon the State residents due to the loss of civilian job opportunities, the transfer of permanently stationed military personnel, the decline in population, the vacancy of existing buildings, structures, residential housing units and other facilities, the burden of assuming and maintaining existing utility systems, and the erosion of the State's economic base.

(2) The redevelopment and reuse by the public and private sectors of any military installation closed by the Secretary of Defense and converted to civilian use is impaired due to little or no platting of any of the land, deleterious land use and layout, lack of community planning, depreciation of physical maintenance, presence of structures below minimum code standards, excessive vacancies, lack of adequate utility services and need to improve transportation facilities.

(3) The closing of military installations within the State is a serious menace to the health, safety, morals, and general welfare of the people of the entire State.

(4) Protection against the economic burdens associated with the closing of military installations, the consequent spread of economic stagnation, the impairments to redevelopment and reuse, and the resulting harm to the tax base of the State can best be provided by promoting, attracting and stimulating commerce, industry, manufacturing and other public and private sector investment within the State.

(5) The continual encouragement, redevelopment, reuse, growth, and expansion of commercial businesses, industrial and manufacturing facilities and other public and private investment on closed military installations within the State requires a cooperative and continuous partnership between government and the private sector.

(6) The State has a responsibility to create a favorable climate for new and improved job opportunities for its citizens and to increase the tax base of the State and its political subdivisions by encouraging the redevelopment and reuse by the public and private sectors of new commercial businesses, industrial and manufacturing facilities, and other civilian uses with respect to the vacant buildings, structures, residential housing units, and other facilities on closed military installations within the State.

(7) The lack of redevelopment and reuse of closed military installations within the State has persisted, despite efforts of State and local authorities and private organizations to attract new commercial businesses, industrial and manufacturing facilities and other public and private sector investment for civilian use to closed military installations within the State.

(8) The economic burdens associated with the closing of military installations within the State may continue and worsen if the State and its political subdivisions are not able to provide additional incentives to commercial businesses, industrial and manufacturing facilities, and other public and private investment for civilian use to locate on closed military installations within the State.

(9) The provision of additional incentives by the State and its political subdivisions is intended to relieve conditions of

unemployment, create new job opportunities, increase industry and commerce, increase the tax base of the State and its political subdivisions, and alleviate vacancies and conditions leading to deterioration and blight on closed military installations within the State, thereby creating job opportunities and eradicating deteriorating and blighting conditions for the residents of the State and reducing the evils attendant upon unemployment and blight.

(b) It is hereby declared to be the policy of the State, in the interest of promoting the health, safety, morals, and general welfare of all the people of the State, to provide incentives that will create new job opportunities and eradicate potentially blighted conditions on closed military installations within the State, and it is further declared that the relief of conditions of unemployment, the creation of new job opportunities, the increase of industry and commerce within the State, the alleviation of vacancies and conditions leading to deterioration and blight, the reduction of the evils of unemployment, and the increase of the tax base of the State and its political subdivisions are public purposes and for the public safety, benefit, and welfare of the residents of this State.

(b) Rates. The tax imposed by subsection (a) of this Section shall be determined as follows, except as adjusted by subsection (d-1):

(1) In the case of an individual, trust or estate, for taxable years ending prior to July 1, 1989, an amount equal to 2 1/2% of the taxpayer's net income for the taxable year.

(2) In the case of an individual, trust or estate, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989, an amount equal to the sum of (i) 2 1/2% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 3% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(3) In the case of an individual, trust or estate, for taxable years beginning after June 30, 1989, an amount equal to 3% of the taxpayer's net income for the taxable year.

(4) (Blank).

(5) (Blank).

(6) In the case of a corporation, for taxable years ending prior to July 1, 1989, an amount equal to 4% of the taxpayer's net income for the taxable year.

(7) In the case of a corporation, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989,

an amount equal to the sum of (i) 4% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 4.8% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(8) In the case of a corporation, for taxable years beginning after June 30, 1989, an amount equal to 4.8% of the taxpayer's net income for the taxable year.

(c) Beginning on July 1, 1979 and thereafter, in addition to such income tax, there is also hereby imposed the Personal Property Tax Replacement Income Tax measured by net income on every corporation (including Subchapter S corporations), partnership and trust, for each taxable year ending after June 30, 1979. Such taxes are imposed on the privilege of earning or receiving income in or as a resident of this State. The Personal Property Tax Replacement Income Tax shall be in addition to the income tax imposed by subsections (a) and (b) of this Section and in addition to all other occupation or privilege taxes imposed by this State or by any municipal corporation or political subdivision thereof.

(d) Additional Personal Property Tax Replacement Income Tax Rates. The personal property tax replacement income tax imposed by this subsection and subsection (c) of this Section in the case of a corporation, other than a Subchapter S corporation and except as adjusted by subsection (d-1), shall be an additional amount equal to 2.85% of such taxpayer's net income for the taxable year, except that beginning on January 1, 1981, and thereafter, the rate of 2.85% specified in this subsection shall be reduced to 2.5%, and in the case of a partnership, trust or a Subchapter S corporation shall be an additional amount equal to 1.5% of such taxpayer's net income for the taxable year.

(d-1) Rate reduction for certain foreign insurers. In the case of a foreign insurer, as defined by Section 35A-5 of the Illinois Insurance Code, whose state or country of domicile imposes on insurers domiciled in Illinois a retaliatory tax (excluding any insurer whose reinsurance premiums assumed are 50% or more of its total insurance premiums as determined under paragraph (2) of

subsection (b) of Section 304, except that for purposes of this determination reinsurance premiums do not include assumed premiums from inter-affiliate pooling arrangements), beginning with taxable years ending on or after December 31, 1999 and ending with taxable years ending on or before December 31, 2000, the sum of the rates of tax imposed by subsections (b) and (d) shall be reduced (but not increased) to the rate at which the total amount of tax imposed under this Act, net of all credits allowed under this Act, shall equal (i) the total amount of tax that would be imposed on the foreign insurer's net income allocable to Illinois for the taxable year by such foreign insurer's state or country of domicile if that net income were subject to all income taxes and taxes measured by net income imposed by such foreign insurer's state or country of domicile, net of all credits allowed or (ii) a rate of zero if no such tax is imposed on such income by the foreign insurer's state of domicile.

(1) For the purposes of subsection (d-1), in no event shall

the sum of the rates of tax imposed by subsections (b) and (d) be reduced below the rate at which the sum of:

(A) the total amount of tax imposed on such foreign insurer under this Act for a taxable year, net of all credits allowed under this Act, plus

(B) the privilege tax imposed by Section 409 of the Illinois Insurance Code, the fire insurance company tax imposed by Section 12 of the Fire Investigation Act, and the fire department taxes imposed under Section 11-10-1 of the Illinois Municipal Code,

equals 1.25% of the net taxable premiums written for the taxable year, as described by subsection (1) of Section 409 of the Illinois Insurance Code. This paragraph will in no event increase the rates imposed under subsections (b) and (d).

(2) Any reduction in the rates of tax imposed by this subsection shall be applied first against the rates imposed by subsection (b) and only after the tax imposed by subsection (a) net of all credits allowed under this Section other than the credit allowed under subsection (i) has been reduced to zero, against the rates imposed by subsection (d).

(3) The provisions of this subsection (d-1) are effective only through December 31, 2000 and cease to be effective on January 1, 2001; but this does not affect any claim or obligation based upon the use or application of this subsection for tax years ending on December 31, 2000 or earlier.

(e) Investment credit. A taxpayer shall be allowed a credit against the Personal Property Tax Replacement Income Tax for investment in qualified property.

(1) A taxpayer shall be allowed a credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1984. There shall be allowed an additional credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1986, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. The provisions added to this Section by Public Act 85-1200 (and restored by Public Act 87-895) shall be construed as declaratory of existing law and not as a new

enactment. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is .5% and the denominator of which is 1%, but shall not exceed .5%. The investment credit shall not be allowed to the extent that it would reduce a taxpayer's liability in any tax year below zero, nor may any credit for qualified property be allowed for any year other than

the year in which the property was placed in service in Illinois. For tax years ending on or after December 31, 1987, and on or before December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act and (iii) is certified by the Department of Commerce and Community Affairs as complying with the requirements specified in clause (i) and (ii) by July 1, 1986. The Department of Commerce and Community Affairs shall notify the Department of Revenue of all such certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term

"mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(8) Unless the investment credit is extended by law, the basis of qualified property shall not include costs incurred after December 31, 2003, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2003.

(9) Each taxable year, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

(f) Investment credit; Enterprise Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act. For partners and for shareholders of Subchapter S corporations, there shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and

distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be .5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone and shall not be allowed

to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in the Enterprise Zone by the taxpayer; and

(E) has not been previously used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (f) or subsection (e).

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii)

subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(g) Jobs Tax Credit; Enterprise Zone and Foreign Trade Zone or Sub-Zone.

(1) A taxpayer conducting a trade or business in an enterprise zone or a High Impact Business designated by the Department of Commerce and Community Affairs conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section in the amount of \$500 per

eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(A) the taxpayer must hire 5 or more eligible employees to work in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone during the taxable year;

(B) the taxpayer's total employment within the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit under this Section was taken, or beyond the total employed by the taxpayer as of December 31, 1985, whichever is later; and

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

(A) Certified by the Department of Commerce and Community Affairs as "eligible for services" pursuant to regulations promulgated in accordance with Title II of the Job Training Partnership Act, Training Services for the Disadvantaged or Title III of the Job Training Partnership Act, Employment and Training Assistance for Dislocated Workers Program.

(B) Hired after the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone was designated or the trade or business was located in that zone, whichever is later.

(C) Employed in the enterprise zone or Foreign Trade Zone or Sub-Zone. An employee is employed in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone if his services are rendered there or it is the base of operations for the services performed.

(D) A full-time employee working 30 or more hours per week.

(4) For tax years ending on or after December 31, 1985 and prior to December 31, 1988, the credit shall be allowed for the

tax year in which the eligible employees are hired. For tax years ending on or after December 31, 1988, the credit shall be allowed for the tax year immediately following the tax year in which the eligible employees are hired. If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(5) The Department of Revenue shall promulgate such rules and regulations as may be deemed necessary to carry out the purposes of this subsection (g).

(6) The credit shall be available for eligible employees hired on or after January 1, 1986.

(h) Investment credit; High Impact Business.

(1) Subject to subsection (b) of Section 5.5 of the Illinois Enterprise Zone Act, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service by a Department of Commerce and Community Affairs

designated High Impact Business. The credit shall be .5% of the basis for such property. The credit shall not be available until the minimum investments in qualified property set forth in Section 5.5 of the Illinois Enterprise Zone Act have been satisfied and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. The credit applicable to such minimum investments shall be taken in the taxable year in which such minimum investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

Changes made in this subdivision (h)(1) by Public Act 88-670 restore changes made by Public Act 85-1182 and reflect existing law.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (h);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and

(D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the

amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) A credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income

allocable to Illinois and the denominator of which is Illinois base income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years following the excess credit year. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced tax imposed by subsection (c) and (d). If any portion of the reduced amount of credit has been carried to a different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986, a taxpayer shall be allowed a credit against the tax imposed by subsection (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners and for shareholders of subchapter S corporations, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the

earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

(k) Research and development credit.

Beginning with tax years ending after July 1, 1990, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

Unless extended by law, the credit shall not include costs incurred after December 31, 2004, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2004.

(1) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board

rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section

58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of \$100,000 per site, except that the \$100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs. The total credit allowed shall not exceed \$40,000 per year with a maximum total of \$150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 of subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

JOURNAL OF THE

[May 27, 1999]

Ordered that the Secretary inform the House of Representatives thereof.

Senator Lauzen, from the Committee appointed on the part of the Senate to adjust the differences between the two Houses on House Amendment No. 1 to **Senate Bill No. 878**, submitted the following Report of the First Conference Committee and moved its adoption:

91ST GENERAL ASSEMBLY
CONFERENCE COMMITTEE REPORT
ON SENATE BILL 878

To the President of the Senate and the Speaker of the House of Representatives:

We, the conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 878, recommend the following:

(1) that the Senate concur in House Amendment No. 1; and tf

(2) that Senate Bill 878 be further amended, AS AMENDED, by replacing everything after the enacting clause with the following:

"Section 3. The Illinois Income Tax Act is amended by changing Section 201 as follows:

(35 ILCS 5/201) (from Ch. 120, par. 2-201)

Sec. 201. Tax Imposed.

(a) In general. A tax measured by net income is hereby imposed on every individual, corporation, trust and estate for each taxable year ending after July 31, 1969 on the privilege of earning or

receiving income in or as a resident of this State. Such tax shall be in addition to all other occupation or privilege taxes imposed by this State or by any municipal corporation or political subdivision thereof.

(b) Rates. The tax imposed by subsection (a) of this Section shall be determined as follows:

(1) In the case of an individual, trust or estate, for taxable years ending prior to July 1, 1989, an amount equal to 2 1/2% of the taxpayer's net income for the taxable year.

(2) In the case of an individual, trust or estate, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989, an amount equal to the sum of (i) 2 1/2% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 3% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(3) In the case of an individual, trust or estate, for taxable years beginning after June 30, 1989, an amount equal to 3% of the taxpayer's net income for the taxable year.

(4) (Blank).

(5) (Blank).

(6) In the case of a corporation, for taxable years ending prior to July 1, 1989, an amount equal to 4% of the taxpayer's net income for the taxable year.

(7) In the case of a corporation, for taxable years beginning prior to July 1, 1989 and ending after June 30, 1989, an amount equal to the sum of (i) 4% of the taxpayer's net income for the period prior to July 1, 1989, as calculated under Section 202.3, and (ii) 4.8% of the taxpayer's net income for the period after June 30, 1989, as calculated under Section 202.3.

(8) In the case of a corporation, for taxable years beginning after June 30, 1989, an amount equal to 4.8% of the taxpayer's net income for the taxable year.

(c) Beginning on July 1, 1979 and thereafter, in addition to such income tax, there is also hereby imposed the Personal Property

Tax Replacement Income Tax measured by net income on every corporation (including Subchapter S corporations), partnership and trust, for each taxable year ending after June 30, 1979. Such taxes are imposed on the privilege of earning or receiving income in or as a resident of this State. The Personal Property Tax Replacement Income Tax shall be in addition to the income tax imposed by subsections (a) and (b) of this Section and in addition to all other occupation or privilege taxes imposed by this State or by any municipal corporation or political subdivision thereof.

(d) Additional Personal Property Tax Replacement Income Tax Rates. The personal property tax replacement income tax imposed by this subsection and subsection (c) of this Section in the case of a corporation, other than a Subchapter S corporation, shall be an additional amount equal to 2.85% of such taxpayer's net income for the taxable year, except that beginning on January 1, 1981, and thereafter, the rate of 2.85% specified in this subsection shall be reduced to 2.5%, and in the case of a partnership, trust or a

Subchapter S corporation shall be an additional amount equal to 1.5% of such taxpayer's net income for the taxable year.

(e) Investment credit. A taxpayer shall be allowed a credit against the Personal Property Tax Replacement Income Tax for investment in qualified property.

(1) A taxpayer shall be allowed a credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1984. There shall be allowed an additional credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1986, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. The provisions added to this Section by Public Act 85-1200 (and restored by Public Act 87-895) shall be construed as declaratory of existing law and not as a new enactment. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is .5% and the denominator of which is 1%, but shall not exceed .5%. The investment credit shall not be allowed to the extent that it would reduce a taxpayer's liability in any tax year below zero, nor may any credit for qualified property be allowed for any year other than the year in which the property was placed in service in Illinois. For tax years ending on or after December 31, 1987, and on or before December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act and (iii) is certified by the Department of Commerce and Community Affairs as complying with the requirements specified in clause (i) and (ii) by July 1, 1986. The Department of Commerce and Community

Affairs shall notify the Department of Revenue of all such certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit

years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term "mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for

such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(8) Unless the investment credit is extended by law, the basis of qualified property shall not include costs incurred after December 31, 2003, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2003.

(9) Each taxable year, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

(f) Investment credit; Enterprise Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act. For partners, ~~and for~~ shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be .5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);

(C) is acquired by purchase as defined in Section

179(d) of the Internal Revenue Code;

(D) is used in the Enterprise Zone by the taxpayer; and

(E) has not been previously used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (f) or subsection (e).

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(g) Jobs Tax Credit; Enterprise Zone and Foreign Trade Zone or Sub-Zone.

(1) A taxpayer conducting a trade or business in an enterprise zone or a High Impact Business designated by the Department of Commerce and Community Affairs conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section in the amount of \$500 per eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(A) the taxpayer must hire 5 or more eligible employees to work in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone during the taxable year;

(B) the taxpayer's total employment within the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit under this Section was taken, or beyond the total employed by the taxpayer as of December 31, 1985, whichever is later; and

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

(A) Certified by the Department of Commerce and Community Affairs as "eligible for services" pursuant to regulations promulgated in accordance with Title II of the

Job Training Partnership Act, Training Services for the Disadvantaged or Title III of the Job Training Partnership Act, Employment and Training Assistance for Dislocated Workers Program.

(B) Hired after the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone was designated or the trade or business was located in that zone, whichever is later.

(C) Employed in the enterprise zone or Foreign Trade Zone or Sub-Zone. An employee is employed in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone if his services are rendered there or it is the base of operations for the services performed.

(D) A full-time employee working 30 or more hours per week.

(4) For tax years ending on or after December 31, 1985 and prior to December 31, 1988, the credit shall be allowed for the tax year in which the eligible employees are hired. For tax years ending on or after December 31, 1988, the credit shall be allowed for the tax year immediately following the tax year in which the eligible employees are hired. If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(5) The Department of Revenue shall promulgate such rules and regulations as may be deemed necessary to carry out the purposes of this subsection (g).

(6) The credit shall be available for eligible employees hired on or after January 1, 1986.

(h) Investment credit; High Impact Business.

(1) Subject to subsection (b) of Section 5.5 of the Illinois Enterprise Zone Act, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this

Section for investment in qualified property which is placed in service by a Department of Commerce and Community Affairs designated High Impact Business. The credit shall be .5% of the basis for such property. The credit shall not be available until the minimum investments in qualified property set forth in Section 5.5 of the Illinois Enterprise Zone Act have been satisfied and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. The credit applicable to such minimum investments shall be taken in the taxable year in which such minimum investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit

year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

Changes made in this subdivision (h)(1) by Public Act 88-670 restore changes made by Public Act 85-1182 and reflect existing law.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (h);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and

(D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) A credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income allocable to Illinois and the denominator of which is Illinois base

income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years following the excess credit year. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced tax imposed by subsection (c) and (d). If any portion of the reduced amount of credit has been carried to a

different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986, a taxpayer shall be allowed a credit against the tax imposed by subsection (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners, ~~and for~~ shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

(k) Research and development credit.

Beginning with tax years ending after July 1, 1990, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

Unless extended by law, the credit shall not include costs incurred after December 31, 2004, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2004.

No inference shall be drawn from this amendatory Act of the 91st General Assembly in construing this Section for taxable years beginning before January 1, 1999.

(1) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction

for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer,

as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of \$100,000 per site, except that the \$100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs. The total credit allowed shall not exceed \$40,000 per year with a maximum total of \$150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 of subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

ON SENATE BILL 1158

To the President of the Senate and the Speaker of the House of Representatives:

We, the second conference committee appointed to consider the differences between the houses in relation to House Amendment No. 1 to Senate Bill 1158, recommend the following:

- (1) that the House recede from House Amendment No. 1; and
- (2) that Senate Bill 1158 be amended as follows:

by replacing everything after the enacting clause with the following:
"Section 5. The Illinois Administrative Procedure Act is amended by changing Sections 5-40, 5-45, 5-60, and 5-80 and by adding Section 5-153 as follows:

(5 ILCS 100/5-40) (from Ch. 127, par. 1005-40)
Sec. 5-40. General rulemaking.

(a) In all rulemaking to which Sections 5-45 and 5-50 do not apply, each agency shall comply with this Section.

(b) Each agency shall give at least 42 ~~45~~ days' notice of its

intended action to the general public. This first notice period shall commence on the first day the notice appears in the Illinois Register. The first notice shall include all the following:

(1) The text of the proposed rule, the old and new materials of a proposed amendment, or the text of the provision to be repealed.

(2) The specific statutory citation, including the specific Section, subsection, paragraph, and subparagraph, to the statute upon which the proposed rule, the proposed amendment to a rule, or the proposed repeal of a rule is based and by which it is authorized.

(3) A complete description of the subjects and issues involved.

(4) For all proposed rules and proposed amendments to rules, an initial regulatory flexibility analysis containing a description of the types of small businesses subject to the rule; a brief description of the proposed reporting, bookkeeping, and other procedures required for compliance with the rule; and a description of the types of professional skills necessary for compliance.

(5) The time, place, and manner in which interested persons may present their views and comments concerning the proposed rulemaking.

During the first notice period, the agency shall accept from any interested persons data, views, arguments, or comments. These may, in the discretion of the agency, be submitted either orally or in writing or both. The notice published in the Illinois Register shall indicate the manner selected by the agency for the submissions. The agency shall consider all submissions received.

The agency shall hold a public hearing on the proposed rulemaking during the first notice period if (i) during the first notice period, the agency finds that a public hearing would facilitate the submission of views and comments that might not otherwise be submitted or (ii) the agency receives a request for a public hearing, within the first 14 days after publication of the notice of proposed rulemaking in the Illinois Register, from 25 interested persons, an association representing at least 100 interested persons, the Governor, the Joint Committee on Administrative Rules, or a unit of local government that may be affected. At the public hearing, the agency shall allow interested persons to present views and comments on the proposed rulemaking. A public hearing in response to a request for a hearing may not be held less than 20 days after the publication of the notice of proposed rulemaking in the Illinois Register unless notice of the public hearing is included in the notice of proposed rulemaking. A public hearing on proposed rulemaking may not be held less than 5 days before submission of the notice required under subsection (c) of this Section to the Joint Committee on Administrative Rules. Each agency may prescribe reasonable rules for the conduct of public hearings on proposed rulemaking to prevent undue repetition at the hearings. The hearings must be open to the public and recorded by stenographic or mechanical means. At least one agency representative shall be present during the

hearing who is qualified to respond to general questions from the public regarding the agency's proposal and the rulemaking process.

(c) Each agency shall provide additional notice of the proposed rulemaking to the Joint Committee on Administrative Rules. The period commencing on the day written notice is received by the Joint Committee shall be known as the second notice period and shall expire 60 ~~45~~ days thereafter unless before that time the agency and the Joint Committee have agreed to extend the second notice period beyond 60 ~~45~~ days for a period not to exceed an additional 60 ~~45~~ days or unless the agency has received a statement of objection from the Joint Committee or notification from the Joint Committee that no objection will be issued. Before the expiration of the extended notice period, the agency and the Joint Committee may agree to subsequent extensions not to exceed an additional 45 days each. The written notice to the Joint Committee shall include (i) the text and location of any changes made to the proposed rulemaking during the first notice period in a form prescribed by the Joint Committee; (ii) for all proposed rules and proposed amendments to rules, a final regulatory flexibility analysis containing a summary of issues raised by small businesses during the first notice period and a description of actions taken on any alternatives to the proposed rule suggested by small businesses during the first notice period, including reasons for rejecting any alternatives not utilized; and (iii) if a written request has been made by the Joint Committee within 30 days after initial notice appears in the Illinois Register under subsection (b) of this Section, an analysis of the economic and budgetary effects of the proposed rulemaking. After commencement of the second notice period, no substantive change may be made to a proposed rulemaking unless it is made in response to an objection or suggestion of the Joint Committee. The agency shall also send a copy of the final regulatory flexibility analysis to each small business that has presented views or comments on the proposed rulemaking during the

first notice period and to any other interested person who requests a copy. The agency may charge a reasonable fee for providing the copies to cover postage and handling costs.

(d) After the expiration of the second notice period, after notification from the Joint Committee that no objection will be issued, or after a response by the agency to a statement of objections issued by the Joint Committee, whichever is applicable, the agency shall file, under Section 5-65 and Section 5-70, a certified copy of each rule, modification, or repeal of any rule adopted by it. The copy shall be published in the Illinois Register. Each rule hereafter adopted under this Section is effective upon filing unless a later effective date is required by statute or is specified in the rulemaking.

(e) No rule or modification or repeal of any rule may be adopted, or filed with the Secretary of State, more than one year after the date the first notice period for the rulemaking under subsection (b) commenced. Any period during which the rulemaking is prohibited from being filed under Section 5-115 shall not be considered in calculating this one-year time period.

(5 ILCS 100/5-45) (from Ch. 127, par. 1005-45)

Sec. 5-45. Emergency rulemaking.

(a) "Emergency" means the existence of any situation that any agency finds reasonably constitutes a threat to the public interest, safety, or welfare.

(b) If any agency finds that an emergency exists that requires adoption of a rule upon fewer days than is required by Section 5-40 and states in writing its reasons for that finding, the agency may adopt an emergency rule without prior notice or hearing upon filing a notice of emergency rulemaking with the Secretary of State under Section 5-70. The notice shall include the text of the emergency rule and shall be published in the Illinois Register. Consent orders or other court orders adopting settlements negotiated by an agency may be adopted under this Section. Subject to applicable constitutional or statutory provisions, an emergency rule becomes effective immediately upon filing under Section 5-65 or at a stated date less than 10 days thereafter. The agency's finding and a statement of the specific reasons for the finding shall be filed with the rule. The agency shall take reasonable and appropriate measures to make emergency rules known to the persons who may be affected by them.

(c) An emergency rule may be effective for a period of not longer than 180 ~~150~~ days, but the agency's authority to adopt an identical rule under Section 5-40 is not precluded. No emergency rule may be adopted more than once in any 24 month period, except that this limitation on the number of emergency rules that may be adopted in a 24 month period does not apply to (i) emergency rules that make additions to and deletions from the Drug Manual under Section 5-5.16 of the Illinois Public Aid Code or the generic drug formulary under Section 3.14 of the Illinois Food, Drug and Cosmetic Act or (ii) emergency rules adopted by the Pollution Control Board before July 1, 1997 to implement portions of the Livestock Management Facilities Act. Two or more emergency rules having substantially the same purpose and effect shall be deemed to be a single rule for purposes of this Section.

(d) In order to provide for the expeditious and timely implementation of the State's fiscal year 1999 budget, emergency rules to implement any provision of Public Act 90-587 or 90-588 ~~this amendatory Act of 1998~~ or any other budget initiative for fiscal year 1999 may be adopted in accordance with this Section by the agency charged with administering that provision or initiative, except that

the 24-month limitation on the adoption of emergency rules and the provisions of Sections 5-115 and 5-125 do not apply to rules adopted under this subsection (d). The adoption of emergency rules authorized by this subsection (d) shall be deemed to be necessary for the public interest, safety, and welfare.

(5 ILCS 100/5-60) (from Ch. 127, par. 1005-60)

Sec. 5-60. Regulatory agenda. An agency shall submit for publication in the Illinois Register by January 1 and July 1 of each year a regulatory agenda to elicit public comments concerning any

rule that the agency is considering proposing but for which no notice of proposed rulemaking activity has been submitted to the Illinois Register. A regulatory agenda shall consist of summaries of those rules. Each summary shall, ~~in less than 2,000 words,~~ contain the following when practicable:

- (1) A description of the rule.
- (2) The statutory authority, including the Section, subsection, paragraph, and subparagraph, the agency is exercising.
- (3) A schedule of the dates for any hearings, meetings, or other opportunities for public participation in the development of the rule.
- (4) The date the agency anticipates submitting a notice of proposed rulemaking activity, if known.
- (5) The name, address, and telephone number of the agency representative who is knowledgeable about the rule, from whom any information may be obtained, and to whom written comments may be submitted concerning the rule.
- (6) A statement whether the rule will affect small businesses, not for profit corporations, or small municipalities as defined in this Act.
- (7) Any other information that may serve the public interest.

Nothing in this Section shall preclude an agency from adopting a rule that has not been summarized in a regulatory agenda or from adopting a rule different than one summarized in a regulatory agenda if in the agency head's best judgment it is necessary. If an agency finds that a situation exists that requires adoption of a rule that was not summarized on either of the 2 most recent regulatory agendas, it shall state its reasons in writing together with the facts that form their basis upon filing the notice of proposed rulemaking with the Secretary of State under Section 5-40. Nothing in this Section shall require an agency to adopt a rule summarized in a regulatory agenda. The Secretary of State shall adopt rules necessary for the publication of a regulatory agenda, including but not limited to standard submission forms and deadlines.

(5 ILCS 100/5-80) (from Ch. 127, par. 1005-80)

Sec. 5-80. Publication of rules.

(a) The Secretary of State shall, by rule, prescribe a uniform system for the codification of rules. The Secretary of State shall also, by rule, establish a schedule for compliance with the uniform codification system. The Secretary of State shall not adopt any codification system or schedule under this subsection without the approval of the Joint Committee on Administrative Rules. Approval by the Joint Committee shall be conditioned solely upon establishing that the proposed codification system and schedule are compatible with existing electronic data processing equipment and programs maintained by and for the General Assembly. Nothing in this Section shall prohibit an agency from adopting rules in compliance with the

codification system earlier than specified in the schedule.

(b) Each rule proposed in compliance with the codification

system shall be reviewed by the Secretary of State before the expiration of the public notice period under subsection (b) of Section 5-40. The Secretary of State shall cooperate with agencies in the Secretary of State's review to insure that the purposes of the codification system are accomplished. The Secretary of State shall have the authority to make changes in the numbering and location of the rule in the codification scheme if those changes do not affect the meaning of the rules. The Secretary of State may recommend changes in the sectioning and headings proposed by the agency and suggest grammatical and technical changes to correct errors. The Secretary of State may add notes concerning the statutory authority, including the Section, subsection, paragraph, and subparagraph, dates proposed and adopted, and other similar notes to the text of the rules, if the notes are not supplied by the agency. This review by the Secretary of State shall be for the purpose of insuring the uniformity of and compliance with the codification system. The Secretary of State shall prepare indexes by agency, subject matter, and statutory authority and any other necessary indexes, tables, and other aids for locating rules to assist the public in the use of the Code.

(c) The Secretary of State shall make available to the agency and the Joint Committee on Administrative Rules copies of the changes in the numbering and location of the rule in the codification scheme, the recommended changes in the sectioning and headings, and the suggestions made concerning the correction of grammatical and technical errors or other suggested changes. The agency, in the notice required by subsection (c) of Section 5-40, shall provide to the Joint Committee a response to the recommendations of the Secretary of State including any reasons for not adopting the recommendations.

(d) If a reorganization of agencies, transfer of functions between agencies, or abolishment of agencies by executive order or law affects rules on file with the Secretary of State, the Secretary of State shall notify the Governor, the Attorney General, and the agencies involved of the effects upon the rules on file. If the Governor or the agencies involved do not respond to the Secretary of State's notice within 45 days by instructing the Secretary of State to delete or transfer the rules, the Secretary of State may delete or place the rules under the appropriate agency for the purpose of insuring the consistency of the codification scheme and shall notify the Governor, the Attorney General, and the agencies involved.

(e) (Blank).

(f) The Secretary of State shall ensure that the Illinois Administrative Code is published and made available to the public in a form that is updated at least annually. The Code shall contain the complete text of all rules of all State agencies filed with the Secretary's office and effective on October 1, 1984, or later and the indexes, tables, and other aids for locating rules prepared by the Secretary of State. The Secretary of State shall design the Illinois Register to supplement the Code. The Secretary of State shall ensure that copies of the Illinois Register are available to the public and governmental entities and agencies.

If the Secretary of State determines that the Secretary's office will publish and distribute either the Register or the Code, the Secretary shall make copies available to the public at a reasonable fee, established by the Secretary by rule, and shall make copies available to governmental entities and agencies at a price covering

publication and mailing costs only.

The Secretary of State shall make the electronically stored

database of the Illinois Register and the Code available in accordance with this Section and Section 5.08 of the Legislative Information System Act.

(g) The publication of a rule in the Code or in the Illinois Register as an adopted rule shall establish a rebuttable presumption that the rule was duly filed and that the text of the rule as published in the Code is the text of the rule as adopted. Publication of the text of a rule in any other location whether by the agency or some other person shall not be taken as establishing such a presumption. Judicial or official notice shall be taken of the text of each rule published in the Code or Register.

(h) The codification system, the indexes, tables, and other aids for locating rules prepared by the Secretary of State, notes, and other materials developed under this Section in connection with the publication of the Illinois Administrative Code and the Illinois Register shall be the official compilations of the administrative rules of Illinois and shall be entirely in the public domain for purposes of federal copyright law.

(i) The Legislative Information System shall maintain on its electronic data processing equipment the complete text of the Illinois Register and Illinois Administrative Code created in compliance with this Act. This electronic information shall be made available for use in the publication of the Illinois Register and Illinois Administrative Code by the Secretary of State if the Secretary determines that his office will publish these materials as authorized by subsection (f).

(j) The Legislative Information System, upon consultation with the Joint Committee on Administrative Rules and the Secretary of State, shall make the electronically stored database of the Illinois Register and the Illinois Administrative Code available in an electronically stored medium to those who request it. The Legislative Information System shall establish and charge a reasonable fee for providing the electronic information. Amounts received under this Section shall be deposited into the General Assembly Computer Equipment Revolving Fund.

Sec. 5-153. Database of agency rules. The Department of Central Management Services shall develop a plan, including a detailed timetable, for a centralized, integrated electronic database of official State agency rules.
